

# Chinese and Japanese Workers Hail Briggs Exposure of Japan

We wholeheartedly endorse the article by Comrade Cyril Briggs exposing the swindle of Japanese imperialism as the champion of the darker peoples.

In the name of the Japanese working-class engaged in heroic struggle against the brutal suppression of their democratic rights, in the name of tens of thousands of Japanese anti-imperialist fighters rotting in the jails of Japan, in the name of countless murdered Chinese workers and of the Chinese masses heroically resisting the aggressions of Japanese and other imperialist bandits and of their blood-hounds the Kuomintang Party and its nationalist government, and successfully building the Chinese Soviet Power, we appeal to our Negro brothers and sisters not to be misled

by the deceptive Japanese propaganda, not to be trapped by misleaders into support of murderous Japanese imperialism, but to rally to the side of the Chinese and Japanese toilers and the world-wide anti-imperialist struggle.

Those who advocate support of Japanese imperialism must be mercilessly exposed. Japanese imperialism is no champion of the darker peoples. It is brutal, predatory. It has sunk its fiendish claws on the darker peoples of Asia.

Japanese imperialism is an ally of oppression of the darker peoples is convincing evidence that Japanese imperialism is no defender nor champion of the darker peoples.

Japanese imperialism is an ally of the imperialist powers of the

Western World in their suppression of the struggles of the darker peoples for equality and freedom. It was Japanese imperialism which aided the British in drowning in blood the heroic revolts of the East Indian masses at Singapore during and immediately after the World War.

Furthermore, the oppressed and exploited masses of Japan are groaning under the heel of the Japanese ruling class. This ruling class recognizes no difference in the color of its victims. Even its own people are not exempted from brutality and deprivation of the most elementary rights, such as freedom of thought (denied under the "Dangerous Thoughts" law) not to mention denial of the right to organize and strike for betterment of their conditions.

It is clear that Japanese imperialism, like all imperialism, must be overthrown to achieve the liberation of the darker peoples and all the exploited masses, colored and white. It is the duty and task of all fighters for national and social emancipation, especially Korean, Chinese, Japanese and Negro workers, to combat the poisonous propaganda of Japanese imperialism. Only the unity of the toilers of all the world, without regard to color or nationality, can finally gain our emancipation. Onward to greater united struggle against the imperialist bandits of all colors!
