"SEEK TRUTH FROM FACTS" LAY ABSURDITIES AND SLANDERS TO REST BY STRIKING YET MORE BLOWS AT RIGHT OPPORTUNISM THE MAIN DANGER

After months of encouraging polemics from elements purged from the Revolutionary Wing, we are glad to finally see in the pages of the Rag sheet Resistencia further testimony of the utter spinelessness of a handful of cowards who have devoted their lives to deceive the proletariat, the oppressed masses, wreck and split its developing Party. In this particular case it's the band of wreckers and splitters purged from the PRRWO.

As comrades know, we do not bite our tongues it is no secret that we've been engaged in sharp, intense two line struggle that is often bitter struggle, that we have purged our ranks of opportunist elements, and have named those unrepented renegades that this struggle has been going on for years, and will continue to go on, intensify, grow sharper and that we will continue to purge our ranks of opportunist elements this is a principle we will never compromise on, as we build, consolidate and strengthen our developing Party. Moreover we have made public every major two line struggle, so that the advanced workers may know and decide upon the destiny of our Party, so that genuine Marxist-Leninist may unite based on line, and not on rumors and gossip. Yet these purged elements think our memory is bad and that they can get over with slanders, sophistry, vagueness and deffusiveness, wiggling like **snakes** as Lenin taught us a characteristic of all opportunists. "Today", they claim-they are "around the country honest Marxist-Leninists and advanced elements are summing up the historical development of this left line in PRRWO." (Communist Forum - Resistencia Rag Sheet Vol. 7, #10).

Sum-up? Lies and distortions can never lead to a correct sum-up of anything, much less an already incorrect conclusion. But nothing is so dispicable as knowing that these elements were so cowardly in the struggle insisting that they could not defend their lines which they said they knew was bankrupt, to know **now that** they are trying to deceive some comrades with their "historical struggle" against the "left" nonsense. These elements many of whom

were in PRRWO since its inception, were cowardly elements who would sit through heated struggle taking notes as a cop out not to struggle, who were famous with going with the wind rather than against the tide a Marxist-Leninist principle. Who would not practice Criticism and Self Criticism a Marxist-Leninist principle and consistently cover themselves behind the sham criticisms of "Liberalism." All Genuine Bolsheviks know this is the truth and even some of the expelled elements know that they cannot lie about this.

A Renegade In Disguise

The thoroughly bankrupt Richie Perez, a historic ring leader at attempts to reverse correct verdicts, is a thoroughly cowardly, phillistine, who raises the "work" at Brooklyn College as a way to cover himself, give himself and his accomplices credibility and sneak in his consistent attack on the line of the Revolutionary Wing. He and all the sewer Rats that stand with him know damn well that we have never stood for "only" propaganda or work "only" with the advanced. Moreover they know damn well that in fact it was they, it was these cheap band of discredited Pettie-Bourgeois bad intellectuals who would raise the "left" - "no work with the Pettie-bourgeoisie" (Teachers strike leaflet written by these scoundrels) sectarianism towards other organizations

2 "SEEK TRUTH FROM FACTS"

(cont. from pg. 1)

"forgetting" to hand in correspondence or answer correspondence from other organizations, including and most specifically, Resistencia, and ATM who they knew would use it as ammunition to attack the line; Resistencia has always, not just now but historically accused PRRWO of being ultra left, even Vol, 1 #1 of Palante which we will get into further on. We did criticism for sectarianism publically, this is a fact and internally it was these **very elements** that were criticized for their continual-unprincipled attacks on other organizations and towards the masses - and inner Party sectarianism. While they would meet with Resistencia for example, and weld their unities-"Marxist-Leninists Unite as primary", inside they pretended they were "staunch" fighters for the line of the wing-Marxist-Leninist unite and win the advanced to communism as simultaneous tactical principles. Raising up that they believed Resistencia was a sect, which is true, but today they go around pretending it was they who fought for principled unity.

It was Richie Perez who led the liquidation of PRSU, in 1974 when he pushed the Trotskyite theory of cadre pushing that we had to build the Young Communist League and liquidate PRSU - all comrades in PRSU who opposed this line were labeled backward, were isolated, demoralized and turned away from the struggle. Inside PRRWO his line was struggled against as a trotskyite line, he was criticized, he copted to cover himself and proceeded to put the line into practice wrecking and splitting PRSU, and presenting it as the line of PRRWO. There are comrades today that not knowing these facts because the other opportunist purged from leadership and the rank and file never informed them of the two line struggle, and the proponent of this line, are still of the opinion that it was the line of PRRWO and today can fall captive to the very swindler who led the wrecking of an organization built out of the struggle of the masses, who almost succeeded in liquidating it but who failed thanks to the staunchness of the Bolshevik Party cadre and the advanced youth who stood on the line as opposed to wavering on who said what when and where. In fact these swindling snakes told the cadres it was their fault, and, had the "Student cadres" doing criticism for the line that was developed and pursued by the incorrigible bureaucrat Richie Perez. These are the facts, and we seek truth from facts - do Richie Perez and Co. dare deny it? We're sure they will skip around it, but history can not be denied, they are good only at falsifying it, as they have a lot of practice doing that.

As even some of the purged unrepentant renegades and expelled comrades who may still transform, admit, it was Richie Perez and David Perez who led the line for a retreat. They preached that we retreat from the masses, wanted to cancel the Determine to be Free Conference Feb. 1974 so that we could go "into only study" and then after a period of time, David Perez and Richie Perez thought 6 months would be a "good period", since that's how much time Communist League (CL) spent, come out of our shells and interject scientific socialism into the spontaneous mass movement, as all comrades know they were defeated. "Theory of cadres" these, double talking double dealing snakes were the proponents of this bankruptcy: Richie Perez raising up that the U.S. multi-national proletariat was bribed as the theoretical justification to push his reformist line, and as one of the strongest adherents of CL's line inside the PRRWO what a poor excuse of a man who rather than continue doing what he's famous for, crawling into corners, shaking from head to toe at two line struggle, falling asleep because he found the struggle on Party Building "Boring," today he dares accuse us of pushing the lines that he raised to cover his extreme rightist essence, to cover Right Opportunism as the main danger.

We have good memories it's based on class stance, and we don't cultivate it to turn around after struggle and pretend to have had it all together, we stand on the correctness of the line of the Wing. because we have fought for it and

it has proven itself correct in the course of the struggle we are only too happy to sum-up again for all class conscious workers and all Party Cadres how the line has been developing, proving the correctness of the key link the hammering out of the Party's basic line and program in fierce struggle against opportunism and Revisionism. Right opportunism is the main danger we face, our accusers lie and say we believe its the only danger we face, that we have criticized the "left" "superficially" yet when they were propagating their "trot" lines, inside the Wing, of fascism is inevitable or the examples we've given above they called us "ultra left" for struggling too hard, for "probing too deeply", for drawing "lines too sharply" - Today they say Palante our organ is "abstract" with "page after page of phrasemongering" "unexplained shifts in positions" and "unsubstantiated charges against PRRWO's many "enemies"." *ibid*- The fear of polemics is something these punks have always termed "Phrasemongering", why? Because it exposes their line which they think they cleverly covered up with the help of the League for Proletarian Revolution-"Marxist-Leninist".

Two Lines On Practice

Their utter disdain for theory and theoretical training is blatantly and nakedly exposed. When you quote, you sewar Rats, put down your source, but you can't and that's because no where will you be able to document not in word or deed this lie which you have fabricated to push your Menshevik line, "study is primary- we should have very little practice so we don't deviate from Party Building"- "Communist forum", pg. 6. Remember cowards this line went out with David Perez and the rest of you who propagated this thoroughly Anti-Marxist-Leninist thesis, as we have documented historically and through-out this polemic. These very elements who preach the theory of spontaneity and who have consistently raised their "All practice - No theory" Menshevik line to tail behind the most backward of Petti-bourgeois elements. Attempting to change the social-basis of the Party. Building the Party of Lenin and Stalin is something remote to them-something they don't, and can't conceive as Revolutionary Practice; The great Lenin taught us this- "This, shows (something Rabocheye Dyelo cannot grasp) that all worship of the spontaneity of the working class movement, all belittling of the role of "the conscious element" of the role of Social democracy, means quite independently of whether he who belittles that role desires it or not, a strengthening of the influence of bourgeois ideology upon the workers. All those (our emphasis,ed) who talk about "overrating the importance of ideology" about exaggerating the role of the conscious element etc. imagine that the labour movement pure and simple can elaborate, and will elaborate an independent ideology for itself, if only the workers "wrest their fate from the hands of the leaders".-(What is to be Done) What do the purged elements continue to raise up? The same old scratched up record- we quote them- "However opportunist are not exposed through ideological struggle alone." *ibid*-"Talk about exaggerating the role of the conscious element," of "overrating the question of ideology" taught us the great Lenin, leads to "Strengthening of the influence of bourgeois ideology upon the workers."

Here in their own words they prove how in fact they preach the theory of spontaneity-- we quote them - but first, the first three lines have been deleted because they are slander, and as Comrade Stalin taught us slander can not be made the subject of discussion-- "...in a heavy industrial plant on the East Coast. Here, linked to the everyday struggle of the workers, a communist cadre, brought forward and trained advanced workers, formed a functioning factory nuclei

(cont. on pg. 8)

In your ability to distinguish between sham and genuine Marxism, you in fact demonstrate more than a meager understanding of MLMTTT. In fact you stand opposed to lowering the level of propaganda and as all advanced comrades, instead struggle to raise your level of understanding, studying, studying, studying hard to turn yourself into a communist. The sham forces in our movement cannot understand that every working class movement brings forth its working class intelligencia; tampering with Lenin's teachings, it's no wonder these forces are so impotent as they cringe to the narrowest forms of activity, tailing the spontaneity of the masses, doing nothing to raise the political level, the consciousness of the working class and the oppressed masses in fact they divert the proletariat from its historic mission.

On the other side stand the advanced workers building their Party to completion propagating the Party spirit as you do by passing on "everything you learn to as many". Comrade, you indeed have a lot to teach; "From the masses to the masses" is a principle of Bolshevik method of leadership as Chairman Mao taught us.

We have a shade of difference with you comrade, it has to do with what you raised regarding "to fight opportunism in myself and others". In the course of our struggle there are many twists and turns as the great teachers of the proletariat have taught us and the more we apply their teachings the more we learn the authenticity of MLMTTT. In the heat of the class struggle we make mistakes, it is as Lenin taught us we train the Party, the class, and the masses, by learning from our mistakes. We probe deeply into them drawing the valuable lessons, the ideological and social basis of our errors and struggle around the best method of rectification guarding against repeating the same mistakes. This is the correct attitude, the attitude of a serious and honest Party, one which stands by and applies the principle of criticism and self-criticism, again as the great founder of Bolshevism, Comrade Lenin taught us.

We cannot fall prey to the propagation of the marsh forces, that we all have a "little bit of opportunism" in us, which is aimed at covering up their treachery on the one hand, and at spreading

pessimism and demoralization among the masses on the other.

Mistakes and opportunism are not one and the same thing, and to confuse the struggle to correct our mistakes, learn from them and guard against committing the same mistake with the struggle against opportunism, would lead to either right or "left" errors. Treating opportunism as mistakes would be a right error, which will manifest itself i.e. in the theory of overcoming opportunism from within, and treating mistakes as opportunism would manifest itself i.e. in close doorism; in either case it would reflect subjectivism and lead to the incorrect handling of contradictions. We are in fact fighting both tendencies, many times one tendency covering the other, the right tendency however manifests without a doubt the main danger we face.

We must conduct the struggle against opportunism broadly in an all around way, organizing ourselves in the fight, and strengthening our ideological and social base. We must never narrow the struggle to just a question of individuals, but draw the line, the ideological and social basis which gave rise to it, the conditions in the general and the particular, and the method of struggle to rout out an opportunist tendency or deviation. In the struggle and as part of the thorough exposure of opportunism in all its forms, we name the main proponents individuals or organizations to arm the masses with an understanding in an all around way, of who are our enemies and who are our friends - and the why is essential - in the spirit of reaching higher levels of unity, we share with all comrades our understanding on this question documented in history as we have in fact committed these mistakes, we are still fighting them internally we drew it out in this shade of difference minor in relationship to our unities, because it crystalizes even more for us why Lenin taught us to struggle out every shade of difference, we draw strength, we build genuine unity, and lock arms in our determined struggle to lay exploitation and oppression to rest forever.

The future is indeed bright -

Forward to the First Congress of the US Bolshevik Party!

Bolshevism on the Rise!

(COMRADES, SEND LETTERS, ARTICLES, OR OTHER CONTRIBUTIONS TO B.D.&C., P.O. BOX 351, BRONX, N.Y. 10452.)

(cont. from p. 2)

"SEEK TRUTH FROM FACTS"

and was instrumental in the forming of a rank and file caucus." *ibid.*

First of all we can clearly point to, the propagation of anarchy- and local autonomy a characteristic of the Menshevik line against Centralization- go back to One Step Forward Two Steps Back, "Here a communist cadre" - the line the correctness of the line is what indeed brought forward advanced workers, propaganda as chief form of activity, the cadre in question while he fought for the line was one with the masses when he committed errors he was criticized for not adhering to the line by the very advanced workers which united with the line through struggle and proceeded to enrich it, when there was a conciliatory attitude towards opportunists elements in the plant the advanced workers warned the cadre that he must struggle against his conciliatory attitude towards opportunism. The advanced worker went further - he did research into the opportunist element in the plant running for a union position, and showed the cadre how his interest lay with the bourgeoisie, how he owned property, was into realestate and in fact it was proven indeed how the opportunist element wanted to run on the backs of the workers to then serve as a social prop for the bourgeoisie. The cadre that these leaches of the worst type raise up, did fight for the line but not to the end, he in fact conciliated that in the Hispanic social club, for example, there should be no politics raised. Again it was the advanced workers from the plant armed with the line who struggle against this

bankruptcy again struggling with the cadre as part of the overall and all around struggle against the Right deviation and the conciliatory attitude towards it, striking it yet more blows and in the particular yes building the factory nuclei; a factory nuclei is not built by tailing the spontaneous movement of the masses, because as the basic illegal unit of the Party it must be built in this period by grasping the key link to Party building. We are glad these elements of pus raised up this example because in fact Richie Perez approached the cadre in the plant to "put an element from one of their many independent study groups" into the nuclei, the cadre stood on the line that time and refused to allow the nuclei to be infiltrated. Going against the tide is a Marxist-Leninist principle. Yet the cadre slipped into the conciliatory attitude towards opportunism and degenerated, something which we fought to prevent but which depends on the internal the basis for change. We call upon him today to break with these elements come forward and aid in the exposure of these fabrications. Not to do so will be further treachery to the proletariat and its Party. Throughout the building of this nuclei, Richie Perez and his accomplice his wife Diana Perez worked hard to find out what was happening internal to the life of the members of the nuclei, utilizing the Menshevik Lydia Flores to get next to the wives of the comrades and find out about their marital problems. Lydia Flores a petty-bourgeois feminist - tried to isolate the sister comrades from the life of the nuclei with the old dirty trick of inviting them to go "shopping" or to "hang out", raising up that they should struggle a-

(cont. on pg. 9)

against male chauvanism, rather than inbuing them with the Party spirit and move to strengthen the growing unity in fact never struggling to bring the comrades into political life. Conspiring and intriging, wrecking and splitting, labeled one comrade backward, who in fact is advanced, attempting to demoralize the comrades, spreading that it was hard to be a communist and a mother", "a communist and a wife" yet she wanted to be a boss and is a thorough phillistine.

Meanwhile, Diana Perez would pump Lydia Flores for information which she gladly turned over, information which they planned to utilize in their wrecking and splitting activities. But all comrades stood firm in the purger of these elements because it is in fact the advanced workers with the help of those who want to assist in this matter and against all those who are incapable, who are building the party of the proletariat.

Thinking that they can confuse or misguide the unenlightened, or comrades that may not at all be familiar with the polemics, counting on the wavering elements their "supporters" these thoroughly bankrupt elements pursue their fabrications with this utterly spineless lie - "The PRRWO has since repudiated the winning of advanced workers through participation in the struggles of the workers -- as "bowing to spontaneity" - "Through participation in the struggles of the workers" - Notice comrades - these teachers through negative example give us an illustration of sophistry and demagoguery they not once raise up what kind of struggle. It is up to us of course to draw out, how in fact they mean worship - tail - strengthen bourgeois ideology. Richie Perez would always "criticize himself" for "worshipping so much he had bumps on his head" propagating the worship of spontaneity through-pretending he was funny - its no laughing matter however. He propagated "win the advanced through the struggle for reforms". The "work" of Brooklyn College in contrast to where the line has been in deed fought for and applied is the perfect example of the worship of spontaneity.

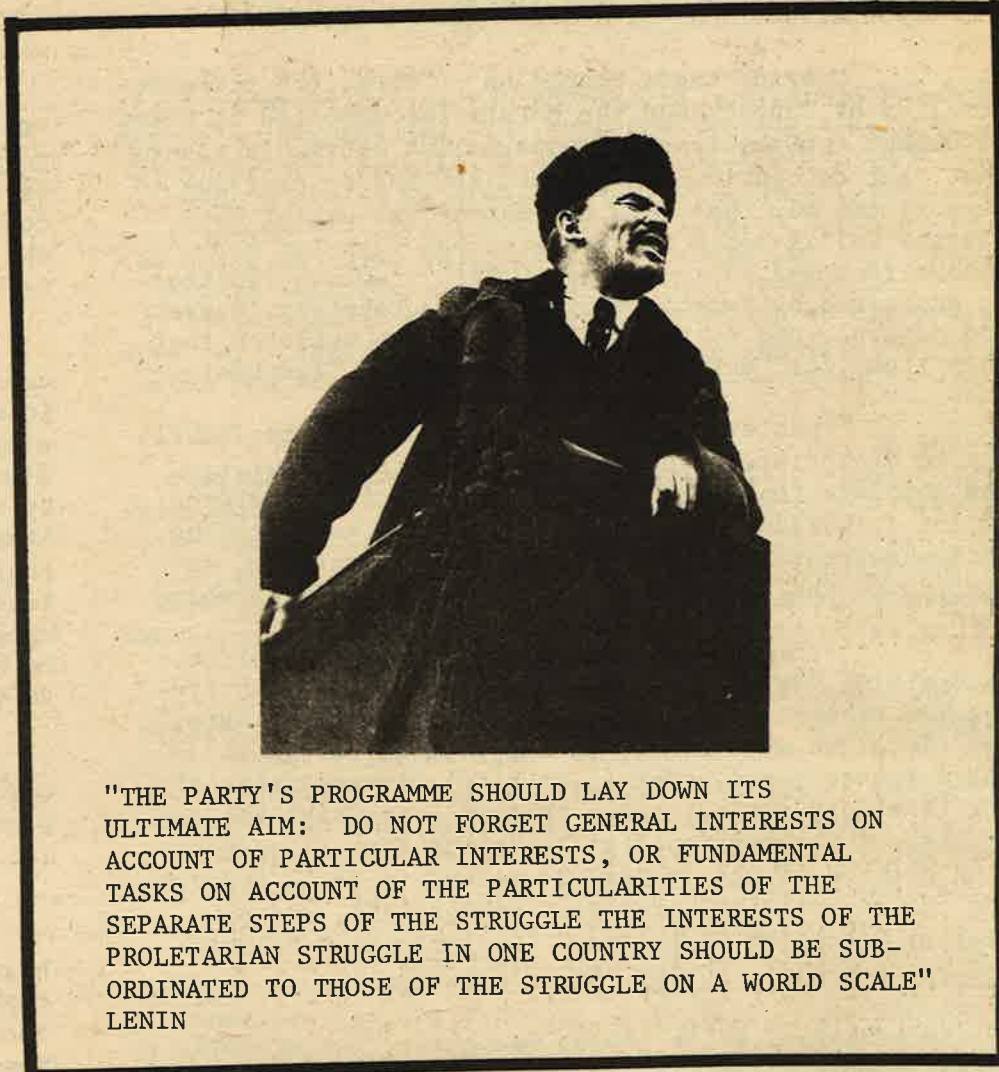

A "Strategy and tactics" for each "struggle", we quote from a document Regarding future direction at B.C. - written by the renegade Richie Perez which he had the audacity to sign the name of PRRWO to, but which he never handed into the CC, as he was developing his own base at B.C.

"Although we have developed a work plan, we seem to be groping in the dark for what to do and how to begin, there is still a lot of unclarity. And meanwhile, the administration is moving, preparing for the next semester. We believe that our weaknesses can be traced to a lack of political analysis and developing a political line to guide us." (our emphasis, ed.)

There we have it "political line for each movement" or as it is otherwise known the "five spear heads of struggle" Ghost and monsters jumping out, not the hammering out of the Party's line and Program - Because at Brooklyn College there was no Party work, communist work being carried out - "groping in the dark for what to do and how to begin". Of course the worship of spontaneity is the ideological root of all opportunism there cannot be any clarity because only revolutionary theory Marxism-Leninism-Mao Tsetung Thought gives us the power of orientation. Stalin taught us this - "theory is the experience of the labour movement taken in its general form. Of course, theory becomes immaterial if it is not connected with Revolutionary Practice, (our emphasis) just as practice gropes in the dark if its path is not illuminated by revolutionary theory." Foundations of Leninism

At B.C. there was no Revolutionary Practice, the Revolutionary Practice of building our Party was totally absent, and on their own admission the groping in the dark, "groping in the dark for what to do and how to begin" is the blatant proof of the slavish worship of spontaneity that was going on, belittling theory - under the guise of

"However, at Bklyn College in N.Y., an area where dogmatism and sectarianism were at their lowest," - (Communist forum", Resistencia, pg. 7 - vol. 7 #10)

"THE PARTY'S PROGRAMME SHOULD LAY DOWN ITS ULTIMATE AIM: DO NOT FORGET GENERAL INTERESTS ON ACCOUNT OF PARTICULAR INTERESTS, OR FUNDAMENTAL TASKS ON ACCOUNT OF THE PARTICULARITIES OF THE SEPARATE STEPS OF THE STRUGGLE THE INTERESTS OF THE PROLETARIAN STRUGGLE IN ONE COUNTRY SHOULD BE SUBORDINATED TO THOSE OF THE STRUGGLE ON A WORLD SCALE" LENIN

What these fools attempt to cover up here is where the fight for the line was at its lowest at proportions of borrowing from it to cover up their incapacities their utterly opportunist maneuvers, trying to drag us back.

The outcries of "dogmatism" is a cover to push forward their right opportunist Menshevik line - their diehard belief that the "economic struggle is the most widely applicable means of drawing the masses into the political movement" - This has been much of the crux of the historic polemic. We stand on the truth and their treachery found in their own writings - "The ruling class tries? (our emphasis, ed.) squeeze more and more profits out of the working class; and a general impoverishment and lowering of the living standard of the working class takes place. In response to this the U.S. working class has sprung into action against exploitation and onslaughts by the monopoly capitalist class" - (taken from - "Regarding Future Direction at B.C.") -

First of all the bourgeoisie does squeeze more and more profits out of the working class. And there is a general impoverishment and lowering of the standard of living of the working class which intensifies, depreivation and humiliation is not something which is beginning to take place, but which in fact is the conditions which the working class lives under in capitalism and it only gets worse.

The author of this bankruptcy propagates that its only when the U.S. imperialists lose their world markets that they try to squeeze more and more profits from the working class. Flowing from the bankrupt anti-Marxist theory that the U.S. working class is bribed, and goes into struggle only when it feels an economic pinch. This treachery reveals the very thing that these elements propagated inside our ranks - The treacherous thesis of the Second International of "save the fatherland".

By propagating that when the imperialist lose their world markets its when the proletariat goes into struggle is the ideological renegacy social chauvanism which propagates support for the imperialist wars of aggression, seeking that the proletariat support the imperialist system - in hopes that more reforms can be granted - Treason! Out-right treason!

(cont. on pg. 10)

Comrade Lenin taught us - "Thus, the internationalism of Kautsky and the Mensheviks amounted to this; to demand reforms from the imperialist bourgeois government, but to continue to support it, and to continue to support the war that this government was waging until all the belligerents had accepted the formula: no annexations and no indemnities. This view was repeatedly expressed by Turati, and by the Kautskyites (Haase and others), and by Longuet and Co., who declared that they stood for "defence of the fatherland." (emphasis ours, ed.)

"Theoretically, this shows a complete inability to dissociate oneself from the social-chauvinists and complete confusion on the question of the defence of the fatherland. Politically, it means substituting petty-bourgeois nationalism for internationalism, deserting to the reformists' camp and renouncing revolution.

From the point of view of the proletariat, recognizing "defence of the fatherland" means justifying the present war, admitting that it is legitimate. And since the war remains an imperialist war (both under a monarchy and under a republic), irrespective of the territory - mine or the enemy's - in which the enemy troops are stationed at the given moment, recognizing defence of the fatherland means, in fact, supporting the imperialist, predatory bourgeoisie, and completely betraying Socialism." (Proletarian Revolution and the Renegade Kautsky, pg. 73)

In addition, Lenin taught us this - "The economic struggle merely "impels" the workers to realize the government's attitude towards the working class. Consequently, however much we may try to "lend the economic struggle itself a political character", we shall never be able to develop the political consciousness of the workers (to the level of social democratic political consciousness) by keeping within the framework of the economic struggle, for that framework is too narrow." (What Is To Be Done, Lenin pg 97)

Ugly Picture Of Innocence - Spells Treason To The Working Class And The Party

To sneak in the propagation of their bankrupt line these purged marsh forces, try to disguise themselves as victims of "the ultra-left PRRWO" they present their "disagreements" to paint a picture of innocence and principled polemics, with the aide of the incorrigibly gossip group Resistencia they pretend to be telling history when in fact they are only good at falsifying it - take for example another lesson in how to discern sophistry from the truth-

"In the community area, cadres were told that if they did not raise the Party and the D.O.P. at all times, they were being "economist". This specifically included meetings of the parents associations." ("Communist Forum" pg. 6 - Resistencia Vol. 7 # 10.)

Lies and slander, the fact was that these "cadres" (Bolshevik Party Cadre is a lofty title that cannot be carried by just anybody) never raised Party building - and the farthest thing from their mind was the D.O.P. these "cadre" had to be consistently reminded as open spokesmen for the Revolutionary Wing to state their organization affiliation and many times would "forget" (See Palante Vol. 6 No. 5) even after repeated criticisms on the spot, to do so. Many feared that their petti-bourgeois friends would cut them loose if they had any suspicion of who they were affiliated with, but more importantly it was their way of not fighting for the line but in fact these very elements went around phrasemongering the thing they knew nothing about, the suffering of the masses, so the need for the Party became something that would be tagged on to the end of a leaflet which was already riddled with recording events and raising the most palpable demands - all geared practically in all its totality to the intriguing and conspiring of the poverty pimps and administrative lackies of the bourgeoisie in District 1.

The fact of the matter is that the elements who are being defended by these lies, knew almost nothing or very little of even the history of struggle and who in fact didn't bother to investigate from the masses the actual conditions, nor did they bring forward advanced workers who would carry on with the work even after they proved themselves the useless dead weight that they are.

Why was this? Because their "unclarity" also came from the slavish worship of spontaneity, because in all that time that these "cadres" were there not one single piece of propaganda was published; because they did not arm the advanced workers through the polemics by starting from the fundamental starting point two lines, two roads, two classes, they were too busy hiding that they were there to interject scientific socialism into the spontaneous mass movement, Propaganda as the chief form of activity, that they were there to do Party building work which we do not hide but in fact are to imbue the masses with the Party spirit;

Instead these elements were running Bilingual education Programs - which they feared losing their jobs and tenure and seniority and raises and days off - etc. etc.

Instead they were running slates for the community boards, as their sole work. "Por los Ninos" became their movement as everything. Then you say "They lacked concrete proposals, goals and methods for achieving them". *ibid.* pg. 6 -

Achieving what? How could they when they were not fighting from the line but rather giving communism a bad name. The treachery is clear in your own Polemic you raise up: "They were unable to tell the parents who were their friends and who were their enemies, how this struggle was part of the overall struggle versus imperialism and social imperialism how the needs of the masses could never be met permanently until imperialism was destroyed why the opportunist had to be defeated, But they were unable to tell the parents how to take this immediate struggle on to victory." *ibid.* pg. 6

"What immediate struggle"? raising up an immediate struggle in a general context is a bourgeois maneuver nickel slick, spineless move.

The fact of the matter is that the Board of Education, Shanker and finally Fuentes became the enemy, not U.S. Imperialism not our own bourgeoisie as a class; as to friends it was these elements who attacked the teachers on the teachers strike and pursued a blatantly sectarian stands towards the struggle causing divisions and not correctly moving to unite the many against the few, knowing nothing of Bolshevik tactics, but coming out of their petti-bourgeois frenzies passing themselves off as "super revolutionaries" isolating the line of the Revolutionary wing, which unlike some of the other of the expelled cadre - who did at times fight for the line although not consistently and adopted a conciliatory attitude towards opportunism, most of these elements in the Community Section never fought for the principles of Marxism-Leninism-Mao Tse Tung Thought, like Lin Piao and Teng Hsiao Ping - these elements were historically bourgeois careerist and petti-bourgeois bad intellectuals, you say

"how the needs of the masses could never be met permanently until imperialism was destroyed..."

Ibid - pg. 6

This is the third ideology treachery of anti-imperialist consciousness, against imperialism - but never raising the fight for the Party, the D.O.P. Socialism, and seeing how they tremble before the Proletarian Revolution, the final aim the abolition of classes is something they work against, not for. When were you going to treat the workers to politics, to communist education after you figured out what to do for the most palpable demand after the immediate results?

(cont. on pg. 11)

Forces Of Corruption-The Struggle Against Them Brings Forth Granite Bolsheviks

But of course, its no surprise that they could not lead the struggle for the "immediate demands" this is because as Marxism-Leninism teaches us we must never lose site of the long range objective. Of course "they did not know how to formulate revolutionary demands". The worship of spontaneity, the tailism and the theoretical justifications for it "unclarity" -? "struggling for direction"? All to cover up that in fact they could not find their bearings independently because you were isolated from the masses, have contempt for them, see the masses as stupid, as unable to understand the need for the Party, for Proletariat revolution, for the D.O.P., for socialism, for communism - See Palante Vol. 6 #5 Expose - Purge our Ranks That's why they never raised it, never educated the masses in this spirit, and could therefore never learn from the masses. And so the work collapsed, not true of where the line has been fought for. Phillistines, you raise up that you were "discouraged from going forward". The Bolshevik Party cadre however continue to demonstrate an ever growing ability to find our bearings independently as you can clearly see indeed, the Party press continuing to grow, gain strength both qualitatively and quantitatively, we have never found any problem that would frighten us away from our duty to our class and our Party, developing strong, we stand on Marxism-Leninism Mao Tsetung Thought and that's why we are not "unprepared" and no one can "discourage us from going forward" we stand on the correctness of the line of the Revolutionary Wing - and the proletariat impels us forward. You phillistines were demoralized and pessimistic because we would not and will not permit you to introduce the spirit of cowardice and decadence that so aptly describes you, into our ranks. You forces are corruptive and the struggle against your type makes us strong and fills us with more determination to go forward. You are so low lifes that in keeping with treason to the working class, you unpaid and paid bourgeois agents raise up a defense of the state that serves as further exposure, of why it is that the Mensheviks are objective bourgeois agents serving as a cover for the secret political police.

In unison with the sham wing a poisonous bite of a snake must be immediately repulsed in defense of our Party's life.

With lies and slander so typical of wreckers and splitters they raise up, not surprising at all since we know that these elements stoop low-way down low,

"The PRRWO leadership told cadres that since the PRRWO were the real Bolsheviks" - Lie! Outright lie! - no waverings fools - The Revolutionary Wing is the Bolshevik Wing - we have never stood for building the PRRWO on the contrary we stood and have fought to subordinate ourselves to what's coming into being - in the interest of the whole, the fight for our Party, and our class which all you hegemonies opposed, you were out to save your little niches, and are out today to perfect your covers, devoting your entire lives to wreck and split the Party;

We never raised that "the PRRWO" was targeted for special attack by operations Chaos - as you claim -

In fact we have consistently raised the polemic against social democracy, social pacifism as manifestations of the main danger - Right Opportunism, which opens the door to the secret political police and opportunists of all hues to enter our movement and like history internationally and in our case reveals, e.g. the Panther Party - The Black Workers Congress and their treachery today in the Revolutionary Wing, where they continue to wreck and split, and raise that the polemics are factional disputes, all in an attempt to keep the U.S. Bolshevik Party from coming into being - This is what the Bourgeoisie fears the most - yet you

elements of treason attempt to lower the vigilance of the masses and cover up the bourgeois state operations in the Anti-Revisionist Communist Movement by raising up about Operation Chaos "a CIA program designed to disrupt the revolutionary movement in the U.S." Then learning well from your partners in the Sham Wing like MLOC you raise "see June 1975 CIA Commission Report" incapable of providing an analysis comrades are referred to the bourgeois analysis which is designed to clean up tracks - cover the bourgeois state and their operations, giving the impression that this operation was something of yesterday. "A program designed to DISRUPT the revolutionary movement in the U.S.A."?

This is exactly how you are covering up the State Operation Chos headed by the CIA which does not stop at disrupting the "Revolutionary Movement" like you claim - In fact Operation Chaos utilizing many tactics, was launched by the Bourgeois State to throw chaos, wreck, split, and not disrupt but destroy the U.S. Bolshevik Party developing in the heat of the class struggle.

The sham wing is not a real threat to the bourgeoisie yet we're clear that does not mean that there is no infiltration by the secret Political Police inside the sham wing where in fact they can operate much more freely, keep their analysis on developments from an internal view - (Like the Congressional Records Report about O.L.'s Congress) in the sham wing they in fact aide the sham wing in its attack on our Party, coming into being. The Revolutionary Wing because of its line, roots among the masses, its social basis and its determination to build the Party in a fierce battle against opportunism and revisionism of course has become and is today a definite threat to the bourgeoisie, and therefore a Target, you have not succeeded in lowering our vigilance we continue to weed out the paid bourgeois agents and continue to expose the secret political police in the eyes of the masses, arming especially advanced workers in the political exposures of the secret Political Police as Lenin taught us. In this way we continue to train ourselves in how to combat the secret Political Police.

It is you in fact who are the social fascist by lulling the masses to sleep, by your maneuvers to cover up the state by your wrecking and splitting and your attacks on the Party, you in fact pave the way for fascism. In your slanders of the Revolutionary Wing - you raise the absurdity that the Revolutionary Wing is social fascist, to distort the real meaning of social fascism and to cover the social fascist the social props of imperialism, the revisionist, old and new, the social democrats, and in the particular yourselves. Then your sham humility comes through - Come out hidden swindlers who are you? You were neither leadership nor cadre - by "x-members" you are just raising up your mask In one place in your slander sheet you raise up the "leadership of PRRWO," where were you - in another part you raise up the cadre in the PRRWO. To cover yourselves more you raise your bankruptcy with the tone of pleading for mercy "they didn't know how..." "they had many questions of unclarity" you sure know how to wreck and split - No mercy - no reversal of correct verdicts - Right Opportunism and Revisionism is the Main Danger! We'll fight to the end to smash the bourgeois state!

The contempt you show for your own forces is dispicable. Anyone who doesn't know about the polemics could think you're describing some lollypop sucking Charlie Brown and Co. You've learned well from your partners in the Sham Wing. But actually the self exposure is a gem, we could not pass up in the polemic - on the one hand we have a "they had a correct (sic!) Marxist-Leninist analysis of certain questions involved in the struggle (i.e. the class nature of education, the role of the state (tell us this analysis of yours on the role of the state ed) the opportunist role) - (does this include El Comite and Resistencia? tell us we're sure this "Marxist-Leninist" analysis of yours finds a way of leaving these thoroughly bankrupt forces out) You go on "the immediate issues" (spell them out by all means) - vagueness and diffusiveness is a characteristic of all opportunists - "the democratic rights of the mostly oppressed-nationality parents" - (ibid pg. 6) And what did they do with their "analysis"

you say "They did not know how to formulate revolutionary demands" you say "They lacked concrete proposals, goals, and methods for achieving them." Why was this? Lenin taught us why this is - we quote Comrade Lenin "That struggle is desirable which is possible, and the struggle which is possible is the one that is going on at the given moment. This is precisely the trend of unbounded opportunism, which passively adapts itself to spontaneity." (What Is To Be Done, Lenin pg. 58) We must apply what the great teachers have taught us, our stands is unshakable, as for these leaches of the worst type we ask you - So then - who was being abstract? Who was phrasemongering? Who had positions on Paper? and not positions applied and tested in practice? Marxist-Leninist theory is a guide to action - and "when theory is grasped by the masses it becomes a material force." How is it that these elements had a "correct Marxist-Leninist analysis of certain questions" yet "lacked concrete proposals" - action - no action - where did the Marxist-Leninist analysis come from - did it fall from the sky? - Maybe it was delivered from B.C. -? You bankrupt elements know nothing about Marxism-Leninism-Mao Tsetung Thought. Stop lying - you may confuse some comrades this is part of your treachery. But you are going to have to do better than this, because this flimsy - Jello with whip cream "polemic" can't fool too many people - it just lends itself to reaction - You didn't think we'd waver on cadre training did you? We make no bones about it the primary focus of the training of Bolshevik Party cadre is to build the U.S. Bolshevik Party - Our Central and Only Task - "Our Line is out in the open, clear and open; schemers can never win" (Chou En Lai)

Cadre Training And The Struggle Between The Two Lines

Now for the sake of clarifying for all comrades who may need further clarity on this question - we quote from our organ - Bolshevik (Palante) as further proof of the concreteness of our line... "Their words cannot be trusted, their declarations speak to hypocrisy, their deeds spell treason ... It is their deeds which they must try to clean up, to cover, to pretend it never happened. But history is objective truth and deeds cannot be covered up." (Palante, Vol 6 #8)

These unrepented renegades who waited all these months as a maneuver to clean up, to try to cover up, their treacherous deeds - that's why they can't quote us they can just tag on to the tail of Resistencia and their sophistry the "onlys" -

In Vol. 6 #7 we said -

"The Bolshevik method is to train cadre in two line struggle - the Menshevik method is to train cadre in spontaneity, in reform, in peaceful debates." Train the cadre to distinguish between Sham and Genuine this is the way to build genuine unity but no these elements aim at disarming the cadre. Check it out in their own words.

"Cadres and advanced elements are therefore not trained to apply what they have studied to the movement within which they are working." Propagating local autonomy, empiricism, the narrowest form of activity - straight up right opportunism. The Menshevik line; "Study inside - Practice outside" propagating circle of theoreticians -

Cadre training is a matter of principle of Bolshevization, and its carried out through our chief form of activity propaganda, study guides our practice inside internal to the life of the Party as well as outside the Party - and you like all the Sham Wing bureaucrats treat the question pragmatically and as an organizational question -

- But of course you must distort the line of the Revolutionary Wing, how else would you then explain

your total incapacibilities to stand on even the most elementary of Marxist-Leninist principle; Every single one of these treacherous rotten elements openly propagated that the Method of Leninism was "Ultra Left". Going from an unwillingness and incapability to an outright attack on Marxism-Leninism-Mao Tsetung Thought; this is why they say

"Now they say the Proletariat and the masses gain confidence in the developing Bolshevik Party not from its deeds but rather only through the ideological struggle it conducts and the summing up of advances and setbacks of the "revolutionary wing" the PRRWO and the Revolutionary Workers League (See Palante Vol. 6 #7)." ibid.

Comrades we quoted the above example of the most blatant proof of how these elements falsify, distort and try to spread confusion, in order to deceive the proletariat and oppressed masses, and bring under their wing of renegacy honest comrades who might believe in any way that this fabrication, is a direct quote from Palante.

What this handful of bandits consciously leave out of the polemic is where they are aiming their attack, remember they all raised up the method of Leninism is "Ultra Left".

Allow us to quote from the passage that they totally distort from Vol. 6 #7. The title of the Polemic is Stand on the Method of Leninism Train the Party Cadres, the Proletariat and the masses by learning through our own mistakes -

"The future is indeed bright, in the Revolutionary Wing the Party spirit reigns, the spirit of revolution, struggling on the basis of principled unity-struggle-unity based on sharp and intense two line struggle, standing on the line of the Revolutionary Wing, we analyze our history of advances and setbacks, disclosing our errors, learning from our own mistakes the Method of Leninism. (emp. ed.) For it is only in this way that we will imbue the Proletariat and the oppressed masses with the Party spirit. (emp. ed.) For only in this way will the Proletariat and the masses gain confidence in its developing U.S. Bolshevik Party. For only in this way will we assure that we stay on our course, with clear orientation, revolutionary zeal and initiative, hammering out through struggle the Party's basic line and program of action." pg. 1

We have underlined the above specific sentences, crucial as comrades will see because the essential point the question of training the Party, the class and the masses by learning from our own mistakes as comrades Lenin and Stalin taught us was totally deleted, by omitting this principle which we have fought for and will continue to fight for in words and deed, as these marsh forces well know, something they dread, something that horrifies them, so they must pretend they never heard it, saw it, attacked it. Which they did and continue to do today, as we said they would. Vol. 6 #5 Palante:

"...disclosing our errors learning from our own mistakes - "the Method of Leninism" this is how the masses gain confidence in its developing U.S. Bolshevik Party - yet to cover up your treachery to the proletariat and its developing Party you lie and distort the line-

"now they say the proletariat and the masses gain confidence in the developing Bolshevik Party not from deeds but rather only through the ideological struggle it conducts and summing up of advances and setbacks of the Revolutionary Wing" - "Communist" Forum -

Comrades this is why there cannot be disdain for the polemics which to suit their interest these elements term "abstract" "phrasemongering" "unsubstantiated charges". They must do this as part of their intriguing conspirings; but in their own words in their deeds they aide by negative example providing us with a good example of why we must never relax our vigilance.

(cont. on pg. 13)

"after intense struggle, we have purged the unrepentent renegades Richie Perez, Diana Perez, Tony Copeland, Carmen Copeland, Lydia Flores and Carlos Rovira." We go on to say what is now further confirmed in deed - "

"...as traitors to the proletariat, who attempted to wreck the Party building motion from within, getting rid of these phillistines was our duty and a good thing. They on the other hand, will continue to slander and attack the proletariat, who they hold in contempt and Bolsheviks, who fight unswervingly, head on, towards our Party. But their threats are as empty and dying out as the bourgeoisie that they serve - conniving cheats, they will remain having to lie more and more. Rip off their treacherous mask, brothers and sisters; don't be fooled by empty phrases - their deeds spell treason!" (Vol. 6 #5 pg. 1 Palante)

Don't be fooled comrades, their "deeds spell treason." Contrary to what these conniving lying cheats try to propagate that they were "purged overnight" the fact of the matter is that the two line struggle has a long and rich history, that in fact these elements were consistently criticized for propagating the worship of spontaneity - not as a figment of our imagination but on their own admission, in their deeds.

"We can't break with the worship of spontaneity" they would openly declare - as to their social base they would say - "we see things from the point of view of the small proprietor, from the view of small plots of land" And they left it at that shamming these criticisms begging for the "right" to subordinate the interest of the Proletariat to that of the petti-bourgeoisie inside the same Party. Openly propagating that they wanted a Party where the individual "The Communist Cadre" (a cover) could do his or her own thing. And going around and factionalizing around these thoroughly bankrupt views, flowing from their Menshevik line. Refusing to do Bolshevik criticism and self criticism they rejected Bolshevism -

Comrade Stalin taught us -

"Only one conclusion is possible, without self criticism there is no correct training of the Party, of the class, of the masses; without a correct training of the Party, of the class, and of the masses there is no Bolshevism.

J. Stalin - The Method of Leninism

This is why they attack Cadre Training - Propaganda as the chief form of activity, the Polemics, the press, - The Revolutionary Wing which stands by and applies these Principles - this is our Practice - and Practice is the criterion of truth.

What all these social props fear the most is Bolshevism they therefore leave out, can't even phrasemonger about - self criticisms- learning through our own mistakes - even Resistencia as bankrupt as they are "criticize" you for not doing criticism.

We quote them -

"The comrades should have begun their sum up by making self criticism, because only acknowledging our errors, getting to the roots of these, repudiating them and putting forward a process of rectification can we move forward and help other Marxist-Leninists avoid these errors". "Communist Forum" pg. 8

Expose LPR "M-L" 's Manuvers And Plots Of Intrigue And Conspiracy

Sham criticism, which reveals - How none of the Sham forces even mouth the Method of Leninism. Your sham criticism is to get to this -

"The comrades also fail to deal with how this "left" line developed within PRRWO, the internal views, which only they can provide."

That's what you want the "Internal View" which you like the vultures that you are, you are dying to get into your nasty little clutches so that you can proceed with your slanderous campaigns. League for Proletarian Revolution "ML" (LPR "ML"), is dead wrong these elements cannot provide them with anything but lies, slander and distortions and LPR "ML" with years of practice are already pretty professional at doing that.

"Schemers can never win!"

The demagoguery and sophistry, lies and distortions of the line run throughout; they raise up that we "belittle the role of the advanced elements by denying them the rightful position as leaders of the masses." "Communist Forum"

Here again vagueness and diffusiveness; Ladies and Gentlemen of the marsh, state your line on the advanced, because we know you join forces with all the marsh where you were rightfully assisted to go to your proper place as Lenin taught us, and you're hiding it with all this phrasemongering about "advanced elements".

We in fact do not belittle the role of the advanced, in fact we have been and continue to arm advanced workers, and train them, not only as the rightful leaders of the masses - in the abstract, but as the rightful leaders in the concrete, of the Party the Political leader of the working class, the Vanguard of the Proletariat, "The masses make revolution the Party makes them conscious" Enver Hoxha.

And what is the Party? - Lenin taught us -

"Our Party is a union of the advanced class-conscious fighters for the emancipation of the working class." Lenin.

On Our Organizational Tasks -

You raise up that we belittle the advanced, to cover up your own disdain for the role of the conscious element. That's why you try to peddle your Menshevik line disguised behind your claims that you are fighting "ultra-leftism" disgustingly covering yourselves up by raising the masses, while you praise the amateurishness and primitiveness of our movement, the disorganization, the scatteredness of our forces. More than anything else the masses need Proletarian Revolution, and there cannot be the successful seizure of State Power, smashing of the State, overthrow of the bourgeoisie, the establishment of the Dictatorship of the Proletariat, without the proletariat leading the way; Herein lies the treachery of the Mensheviks and all opportunists, that they deny the masses, the vanguard role of the Party of the Proletariat, its highest form of organization. Organization to these college professors, teachers and intellectuals of the worst type is something that fills their empty hearts with fear - It represents Proletarian discipline, and to phillistines this would mean giving up their individuality, their freedom to factionalize, and disrupt, spread demoralization and pessimism introduce that rotten spirit and decadent bourgeois youth culture, which for years they have carried into the movement, encouraged, promoted, led, and have succeeded in corrupting comrades of less ideological and political conviction, dragging them into the marsh of opportunism whether they know it or not and independent of their intentions, the wavering elements provide a basis from which this handful of dispicable leeches can operate from. At a time, in a period where our disorganization presents us with the complexities of raising our level of professional activity, from the narrow confines which at the present time characterizes it, these fools raise up the voice of treason accusing us of jumping ahead, or outstripping stages, of "being voluntarist" when in fact empiricism, pragmatism as a reflection of the Right, constitutes the philisophical deviations flowing from the main danger Right opportunism presenting itself as

(cont. on pg. 14)

14 'SEEK TRUTH FROM FACTS' (cont. from pg. 13)

the main obstacle in our way to raising the level of consciousness and organization among the workers. As we have moved forward from the narrowest of circles, to broaden our activity to build the Party organizations the Party committees, the Party branch the basic illegal unit the factory nuclei, a scientific plan to build our Party, as we hammer out its Political line and Program, these have been the very elements that stepped up their wrecking and splitting activity to delay the coming into being of the U.S. Bolshevick Party - They are even more dispicable than those elements that Lenin polemicized against when he said -

"In this, as in other respects, the narrow scope of our organizational work is without a doubt due directly to the fact (although the overwhelming majority of the "economists" and the novices do not perceive it) that we restrict our theories and our political tasks to a narrow field. Subservience to spontaneity seems to inspire fear of taking one step away from what is "accessible" to the masses, a fear of rising too high above mere attendance on the immediate and direct requirements of the masses. Have no fear, gentlemen! Remember that we stand so low on the plane of organization that the very idea that we could rise too high is absurd!"

(What Is To Be Done pg. 473)

These elements are way behind our times- lamenting (which is all they can do) about the past, when wearing long coats, they believed themselves the "great theoreticians" these ladies and gentlemen of the marsh cry about how "their organization" was 'destroyed' - covering up their wrecking and splitting - hegemonies to the core who were incapable of grasping the fact that the old forms of organization were no longer suitable for the conditions; rather than build PRRWO, as all of them would have had us do, we had to move as we have been moving without them, and in fact necessarily without them, we have been building the Party organizations, welding the Leninist core, strengthening the Party committees, organizing the Party branch, building the factory nuclei the basic unit of the Party. With traditions of renegacy all Mensheviks from Martov and Axelrods time to today, they all oppose the Party organizations - the fact which as Lenin taught us, to be a member of the Party - everyone must support the Party Program, support the Party financially and belong to a Party organization.

Precisely when the polemics on the Party organizations intensified, and as we were welding unities, all these hegemonies jumped out of their hidden closets, their outcries of we were going too fast, the "Party was being built too rapidly" they claimed. The masses have been groping in the dark for 20 years and these fools raise up we're going too fast! Trying to hold us back, pulling on us to go with them into the marsh. The complexities of building our Party, handling the ideological, political and organizational tasks, has been something that these elements have historically gone against and sabotaged; we have struggled and continue to struggle today not to simplify the organizational questions of building our Party. Fighting Bureaucratism as a manifestation of right opportunism, simplifying the apparatus, as the teachers have taught us fighting against inflating the apparatus, but not confusing simplifying the apparatus with the organizational task being simple. Because on the contrary to what these elements raise up in their sophistry and demagoguery the "onlys" by handling Party building as our central and only task in this period, we are broadening our field of activity concentrating all our efforts on drawing the draft of the Party program - which include the tactical line - the Party program being a concentrated expression of the Party's basic line, reorganizing ourselves along Party lines, and mustering all the Partyist elements, assembling the most class conscious proletarians, - quality over quantity, drafting the Par-

ty Constitution and the Party rules, moving forward toward our First Party Congress. These tasks with all their complexities are carried out in the heat of the class struggle. We maintain - Theory is playing the principle role, and any belittling of the role of the conscious elements causes serious setbacks, which results in more suffering for the masses which we must avoid, we can not be belated we must act in the interest of our class and our Party - Lenin said

"The character of any organization is naturally and inevitably determined by the content of its activity". (What Is To Be Done, pg. 122)

The character of the Revolutionary Wing is determined by the content of its activity - Party Building.

"The very idea that we could rise too high is absurd" - the very idea that we're being too theoretical is stupid in a country with years of tradition of belittling theory, at a time where the complexities of the world situation demand of us more not less theoretical work.

Again we quote Comrade Lenin -

"These people who cannot pronounce the word "theoretician" without a sneer, who describe their genuflections to common lack of training and backwardness as a "sense for the realities of life", reveal in practice a failure to understand our most imperative practical tasks. To laggards they shout; Keep in Step! Don't run ahead! To people suffering from a lack of energy and initiative in organizational work from a lack of "plans" for wide and bold activity, they prate about "tactics as a process"! The worst sin we commit is that we degrade our political and organizational tasks to the level of the immediate, "palpable" "concrete" interest of the everyday economic struggle;" (ibid. pg. 130)

We stand with the great teachers of the proletariat and in fact apply the science to our concrete conditions. This polemic like all our polemics is aimed at further exposing the line of the Sham Wing in general, these particular purged elements from the Revolutionary Wing, in particular and serves as further testimony of our rich history of struggle, our ever growing capacity to train ourselves the class and the masses in the revolutionary practice of building our Party in a tit for tat struggle against all forms of opportunism.

Expose The Sophistry Aimed At Attacking Key Link To Party Building

Something that has been and continues to be uncomprehensible to all the marsh forces, something we have fought for and proves itself everyday more correct, is the question of the struggle to hammer out the Party's basic line and program as the key link to Party building. In deed application of the universal principles to our concrete conditions. The fabrication that all the marsh forces raise up about the line of the Wing on the Political line is that we see "positions" on paper as "Political line". In fact by applying the science to our concrete conditions is how we correctly analyzed the key link in the first place, which today even the Sham Wing recognizes as authentic. Now these dispicable opportunist forces who know better raise what they hid internally all along. Shame on you! While we fought WVO on their "political line is the line on the topical issues" you went to the rear, as we exposed isolated and scored victory against the RU's treachery of "Five spearheads of struggle" bankruptcy these elements hid, to come up with their "line for each movement" another formu-

(cont. on pg. 15)

lation of the same treason to the proletariat and the oppressed masses. We have continuously fought for the truth - that the Party's basic line is application of the universal truths to our concrete conditions this is in deed how we stand and in fact how we continue to hammer out today the Party's basic line and program, through struggle - The polemics which are labelled "abstract" "phrasemongering" reflect the fierce struggle between the two lines. Introducing the program into the polemics as Lenin taught us, has been historically going on.

For example, on the National and Colonial question, we have had rich experience in struggling against Revisionism and opportunism struggling internally and externally against the thoroughly bankrupt revisionist thesis, "the divided Nation theory" which for many years has caused tremendous setbacks inside the movement of the oppressed Puerto Rican National Minority, therefore causing setbacks for the proletariat and the oppressed masses as a whole. The defeat of this bankruptcy draws us in closer connection with the masses since its opportunism which is responsible for the divisions in the class, and between the working class and the oppressed nationalities. PSP has been discredited and exposed as a Revisionist force to a high level although of course not thoroughly, as part and parcel of winning advanced comrades to the side of communism, the correct handling of the national and colonial question the fight for the Marxist-Leninist line, on the question has brought forward the class conscious fighters from within the movement, being trained in the science of revolution. But has PSP been exposed as Revisionist just within the movement of the oppressed National Minority, or just in their role as the revisionist rearguard betraying the just struggle for the liberation of Puerto Rico? Absolutely Not. The interrelation of PSP's position on the National Question, has been shown and proven without a doubt is interconnected with their partnership in crimes to the Soviet Social Imperialist.

Imbue The Masses With The Party Spirit- With The Spirit Of Internationalism

The line in the movement of the oppressed P.R. National Minority has been drawn and reflects itself in the new forms of struggle which have developed within the movement. So you see Ladies and Gentlemen of the marsh, it is not that the Revolutionary Wing is not "working within the movement of the nationally oppressed" nothing could be further from the truth, but that in fact our work rightfully so is interconnected to Party Building, interconnected to our line on Party Building, imbuing the masses with the spirit of internationalism, with the Party spirit, broadening the scope of activity, hightening the polemics - hammering out through struggle the Party's basic line and program - uniting Marxist-Leninist and winning the advanced to the side of communism, and in the course winning the masses to the side of the vanguard. We are not out to compete with PSP as all of you would have had us do - but in fact we are out to defeat revisionism, and have scored victories by drawing the line sharply. This which you see as "abstract" - "ultra-leftist" and "insignificant", has in fact proven even more so the correctness of the line; To you how many numbers sit on a committee for the defense of the political prisoners - is the criteria you use to judge things Quantity over Quality - the "CP"USA does "work" inside the movement of the oppressed nationalities - yet is that what we judge ties with the masses on? Again no - In your demagoguery you raise up work but again your characteristic comes through, vagueness ("work") diffusiveness "positions on paper" - This is your line, has been your practice, and you cowardly want to pin it on us - hands off!

Polemics Expose Rotten Manuvers Of The Opportunists And Revisionists

We know for a fact because of the richness of the polemics, that you forces will go with anyone who

you think can raise your "prestige" you in fact pushed that we go to the Havana Conference, this is your idea of "work" in the movement. Comrades in fact we must draw out how these thoroughly coward philistines operate. Richie Perez, came in one day to a CC meeting already the struggle with him as a go with the wind thoroughly spineless opportunist, had been intensifying. We had been struggling over the question of the Havana Conference, which in deed was a drawing of the line internationally - As comrades know we stood opposed to this Soviet Social Imperialist maneuver. Richie Perez, came in with El Comite's newspaper - raising up cowardly - thoroughly punkish that we should - "examine el Comite's position" - we stood opposed to this cowardly maneuver and drew him out, he then admitted that he stood on the line that we attend the Havana Conference - although retreated after 5 minutes of struggle not withstanding the sharpness of the polemic, and proceeded to conduct himself in his usual manner, to sabotage our unities of drawing the masses into struggle against the Revisionist maneuvers of the "CP"USA, the Soviet Revisionist PSP and the Cuban Party in a mass campaign. Instead he hid inside the ranks not criticizing himself to the Revolutionary Wing, and not lifting a finger to do the necessary work to engage in the campaign to expose Revisionism and give direct and resolute support to the national liberation struggle, for the liberation of Puerto Rico - they saw this righteous stands as "too much ideological struggle" - infact did everything to sabotage it, not putting out the necessary propaganda and agitational material which he as one of the leading opportunist responsible for the Agit-Prop unit, had control over. Yes this sabotage has caused isolation from the masses and we have suffered tactical setbacks. They did their sabotage to then turn around today and accuse us of being "ultra-left", but we refused to be taken into this type of "work" into the marsh, rip off that mask, which they use to cover up their true intentions, their treachery to the masses.

If you have any guts, a bone of honesty left you will answer this polemic, and stop terming it "phrasemongering", because you will most probably deny it being that our practice with you gives us no indication that you will do otherwise. But you and the conciliators who sat on the secretariat know this is the truth, and the truth will torment you.

Bolshevik Party Cadre stand on this as the truth, we have been and will continue to engage in principled polemics. We purged these elements because of their years of treachery and treason to the proletariat and the oppressed masses, "getting rid of these fools" was a good thing and our duty - Lenin taught us the enemy from within is the worst type that one which corrodes, introduces intrigue and conspiracy - right under our noses smiling in our faces, as they wrecked and split; introducing the spirit of hesitency who in fact were systematically dragging comrades down into the marsh of opportunism, comrades who began to waver, and get pessimistic, who till this day are either thoroughly cynical towards the struggle or elements who have degenerated into the marsh of opportunism standing opposed to proletarian Revolution and therefore embracing renegacy.

"Go Against The Tide" A M-L Principle

There is no doubt in our minds that we will be able to win back some of the comrades who demoralized drew away from the struggle, if they have been following the polemics and doing Bolshevik criticism and self criticism we are sure they will unite and proceed to join us in furthering the struggle to build our Party, they will be able to distinguish genuine from sham and in the spirit of our Party and our class join in unmasking the treacherous deeds of this handful of swindlers. As to the expelled forces some will repudiate their conciliatory attitude towards opportunism and move resolutely forward to serve the proletariat and oppressed masses in some capacity of revolutionary work. We certainly unite with comrades who have seen that they have wronged our Party and our class and are earnest in criticism and show in practice that they love the Party and the masses above everything else.

(cont. on pg. 16)

We Learn Thru Our Own Mistakes-

We have also seriously erred in the heat of the polemics we were in some cases belated in drawing the line with some of these forces in time - timely purgers are essential to strengthening our internal life and at times as a reflection of the right deviation, incorrectly applied the principle "cure the illness to save the patient", more and beyond since the illness was terminal and the patients were committing ideological and political suicide. In other cases contradictions were not handled correctly, where in fact "cure the illness to save the patient" did apply but comrades who were being isolated by the Mensheviks and conciliators, these comrades were not encouraged through the overall struggle to join forces in the struggle against the Mensheviks and all opportunists but in fact were left isolated, narrowing in the struggle many times on individuals and not sufficiently on the line and the main proponents. Subjectivism ideologically, "left" errors politically and inner organization sectarianism organizationally was at the root of these contradictions. In other cases conciliators or wavering elements were called out as Mensheviks a bad tendency to categorize rather again than taking it to line, and unfolding the polemics - systematically; haste, jumping to conclusions and system building, as a reflection of the above analyzed reasons. These were deviations from the line - the right deviation is the main danger we are fighting - the left deviation which we are also fighting is a secondary tendency, we do fight on two fronts but reject the theory of equilibrium and must not lose sight of the main danger, where we aim the direction of the main blow.

Intensity Of Polemics Draw Us Closer To The Masses Fusion In Deed!

Our accusers will undoubtedly once again distort our self criticisms. Comrades, we repulse unhesitatingly that the line of the wing is "ultra-left" and in fact the opposite is true the correctness of the line develops to higher levels with the intensity of the polemics, tightening our relation to the masses ever growing number of advanced workers and comrades from among advanced elements of other strata are drawn into the ranks of the Revolutionary Wing. We have welded a tight Core, the Leninist Core of the Revolutionary Wing, who as comrades know just recently held its first plenum advancing forward in the struggle against Right opportunism and Revisionism as the main danger the worlds people face. Striking yet more blows at Right Opportunism and Revisionism waging an all around struggle against the right deviation and the conciliatory attitude towards it, we are resolutely moving forward to our first Party Congress. As a prerequisite we have had to clean our ranks, purify our internal life by purging these unrepentant renegades and their followers. While inside they were the source of many of the wavering and hesitation that manifested itself.

We by no means believe that the struggle against opportunism is over, with the long history of struggle against opportunism in the communist and workers movement. Our struggle in fact has just begun, in our way forward to our first Congress, as we fight for the Dictatorship of the Proletariat - for Socialism and our final aim - Communism - Bolshevism truly on the rise.

Forward towards the future which indeed is bright, the road as Chairman Mao taught us hard and torturous. We cannot permit a handful of deceiving bandits to throw mud on our developing U.S. Bolshevik Party. We will intensify our polemics against all the enemies of the Party - more and better propaganda is a matter of deed. Lenin taught us that it is obvious no Party in the world can be built without a persistent struggle against its enemies internal and external. Marx taught us that we must raise the consciousness of the working class "from being a class of itself to be a class for itself". Yet these very elements continue to raise up, Vol. I No. 1 of Palante because in it they propagated that the final aim was the D.O.P. we repulse this treason which aims at attacking the D.O.P. as the tool to build

socialism the long transitional period toward Communism, these fools propagating that with the D.O.P. we have abolished classes. Revisionism, straight up Revisionism. We encourage comrades to go back to Vol. 1 No. 1 or any other volume of Palante and raise the polemics, write us and we will reprint any polemic that is truly a polemic and not slander, lies and gossip.

To sum up, this polemic aimed at further exposing the line of the sham wing in general the purged elements who wrote in Resistencia Rag sheet in "Communist Forum" which should bear the title Dear Abby in particular - slanderous, which we did not address, lies and distortions, bourgeois maneuvers which we unmasked, and sneaking their line through which we have unraveled. We have addressed the questions pertinent to Party building - the question of the ideological, political and organizational tasks as comrade Mao Tsetung taught us Bolshevization, the strategic principle in Party Building. Any further struggle for clarity again we ask comrades to write to Bolshevik/Palante - as well as voice any disagreements or stated unities with the polemics;

Bolshevik Party Cadre, the slanders being hurled against us clearly as we've summed up have the aim of provoking us and of trying to divert us from our Central and only task in keeping with Proletarian Revolution Party Building -

Guard Against Provocation / Social Pacifism / Bureaucracy And Self Complacent Optimism / Pessimism - Forward Towards Our First Party Congress!

We must guard against provocation, social pacifism, bureaucracy and self-complacent optimism/pessimism - Stand on Marxism-Leninism-Mao Tsetung Thought and in the interest of our Party and our class move forward resolutely toward still more struggle more victories. We close with this quote from comrade Lenin-

"THE PARTY'S PROGRAMME SHOULD LAY DOWN ITS ULTIMATE AIM: DO NOT FORGET GENERAL INTERESTS ON ACCOUNT OF PARTICULAR INTERESTS, OR FUNDAMENTAL TASKS ON ACCOUNT OF THE PARTICULARITIES OF THE SEPARATE STEPS OF THE STRUGGLE THE INTERESTS OF THE PROLETARIAN STRUGGLE IN ONE COUNTRY SHOULD BE SUBORDINATED TO THOSE OF THE STRUGGLE ON A WORLD SCALE

That is why it is quite natural that Social-Democracy as the party of the revolutionary proletariat is so solicitous of its programme, so meticulously defines the final aim long beforehand - the aim of complete liberation of the working people - and looks so jealously at any attempt to trim down this final aim; for this same reason Social-Democracy is so dogmatically strict and doctrinally unbending in separating small, immediate economic and political aims from the final aim. Whoever is fighting for all, for complete victory, cannot but be on the lookout lest small gains should binds one's hands, divert one from the path, force one to forget that which is relatively far off and without which all small gains are but the vanity of vanities. On the contrary, this care for programmes, this eternally critical attitude to small, gradual improvements cannot be understood by and is foreign to the bourgeois parties, even those that are the most freedom-loving and people-loving. (The Revolutionary Proletarian Party of a New Type, pg. 9-10)

MARCH IN STEP - WE WILL NOT BE DERAILED!

LONG LIVE PROLETARIAN REVOLUTION!

LONG LIVE THE PARTY OF LENIN AND STALIN!

THE ACTING CENTRAL COMMITTEE OF THE
REVOLUTIONARY WING
