REVOLUTIONARY WING OF THE U.S. ANTI-REVISIONIST COMMUNIST MOVEMENT

THE YOUTH ARE THE SUCCESSORS OF THE REVOLUTION

We are living in the era of imperialism, the eve of socialist revolution, the International Proletariat and all oppressed peoples have resolutely taken up arms against the bourgeoisie, imperialism and all reaction.

Throughout the world the proletariat under the leadership of the Communist Party of China and the Party of Labor of Albania and the developing Bolshevik Parties have been winning revolutionary and communist youth to the side of the vanguard class and its Party. We have the brilliant examples of the Young Communist League of Russia, under the leadership of Comrades Lenin and Stalin leading the Communist Party of the Soviet Union (CPSU) (B), of the Red Guards in China under the leadership of Chairman Mao and the Communist Party of China (CPC) and in the Youth Labour Union in Albania under the leadership of Comrade Enver Hoxha and the Party of Labor of Albania (PLA).

Boldness And Courage Of Youth An Inspiration For The Proletariat And Oppressed Masses

Youth who bravely fought against fascism and all reaction under the leadership of the Bolshevik Parties, youth whose boldness and courage was and is an inspiration for the Proletariat and all oppressed peoples.

We have examples in Mexico, where at a massive demonstration against the fascist rule, workers and youth were massacred by the hundreds, to this day many parents have not had any news of some of their children, brothers or sisters because by the next morning after the statesnipers had slaughtered the masses they burned the bodies to hide any evidence... without informing any one! In Puerto Rico during the countless clashes with the state trained by the U.S. imperialists workers and youths were killed, imprisoned or exiled. In Thailand last year the newspapers were filled with pictures which depicted a terrible slaughter which had come down on a demonstration of workers and youth. The Thailand bourgeoisie backed by U.S. imperialism had propped up these right wing, fascist, anti-communist elements who with the state (these right wing organizations being riddled with agent provocateurs) had taken and attacked the masses of workers and youth, hanging, maiming and burning them, the masses vigorously fought back. There is the example of the heroic South African youth in Soweto who have given their lives in the struggle for freedom and against the oppressive system of apartheid. "Where there is oppression there is resistance!"

We in the superpowers, U.S. Imperialism and Soviet Social Imperialism, have a great duty to complete. We stand on proletarian internationalism to smash the bourgeois state here, building the U.S. Bolshevik Party to lead the Proletariat who leads all the oppressed masses in making proletarian revolution. The conditions

Comrade Enver Hoxha among the students of the "Ali Demi" secondary school of general education.

here are not separate from those faced by the Proletariat and the oppressed masses the world over. Because as the Imperialists carry on their aggression and exploitation internationally the conditions in their own countries for the masses worsen. The crisis of Imperialism is felt everywhere for it is a world wide system.

Conditions For Youth Worsen Under Imperialism

As a system that is decadent and moribund as Lenin said it is all around us trying to drag the masses down with it, trying to make it's influence day by day more and more felt. The conditions for the class as a whole and specifically for the youth get worse.

The youth face exploitation and oppression as the bourgeoisie tries to take it under its wing. In the schools the repression utilized by the deans and principals, beating and harrassing our youth, racial discrimination and degradation are seen. The bourgeoisie passing laws which allows for the vicious physical attacks on youth (corporal punishment). The bourgeoisie has its prisons filled with youth from the ages of 13 to 21, in fact they make up a good majority

of the prison inmates. In the Black Belt South there was a case of 4 Black youths who were being raised up on charges of attack which were clearly drummed up to then put them on death row. We stand opposed to youth being imprisoned and the use of capital punishment.

The tracking system which is geared not to the education, development and welfare of our youth but to pushing them through school, leaving them illiterate and trying to stifle their creativity and development. At very young ages, many times still adolescents, youth are forced to drop out. Thereby joining the ranks of the proletariat, whether employed or becoming part of the bourgeoisie's already large reserve army of the unemployed. Capitalism has created its own gravedigger - the proletariat. The swelling of the ranks of the proletariat with youth, the development of future generations of proletarians is a good thing and in the interest of the proletariat. The youth have the right to free, adequate and compulsory education up to the age of 16.

The unemployment among the youth is kept high by the bourgeoisie raising that youth need experience or a skill before working. How can youth gain experience if that experience is kept from them? Many of the factory machines they are taught on in school are so old and outdated that they are not able to use the skills learned in looking for jobs. We stand against the exclusion of youth from production based on lack of experience or skill.

While on the one hand they need these "qualifications", youth when they are hired are put into industries such as the mines, and certain chemical industries which are hazardous to their health, development and welfare. They are used to work on night shifts for 10 to 12 hours a day. This also stifles the development of the youth. We stand opposed to the hiring of youth up to the age of 21 years in industries hazardous to their development and opposed to night work, swing shifts, and forced overtime. Along with these conditions the youth are paid only a certain small percentage of the minimum wage earned by adult workers, thus using them concretely as a source for cheap labor. The youth have the right to be paid the full wage earned by adult workers in the industries they are located. We stand opposed to the exclusion of youth from joining the trade unions and from full participation in organizations such as workers committees. They exclude the youth by using different maneuvers - in one plant youths were excluded from joining the trade union by raising that they were probably there for the summer only "so why join", when the reality was and is that many of the youth who come during the summer to plants, etc., usually remain at those jobs due to the scarcity of the bourgeoisie hiring youth and the need to supplement the money coming into their homes.

Life for the youth as for all the oppressed masses under capitalism is unbearable. In Detroit the unemployment for the youth is the highest in the country and the bourgeois state is trying to lower the outrageous curfew on youth. Presently, at 11 o'clock all the youth have to be home or they and their parents face harassment and arrests. Now they are trying to lower it to 9 o'clock. The bourgeoisie fears like the plague the force that lies in the youth most especially under the leadership of the proletariat and its Party.

Oppose Bourgeois Youth Culture Which Pushes Do Your Own Thing

Hand in hand with the oppression and exploitation of working and oppressed youth is the propagation of bourgeois youth culture - here we have the youth, the vast majority unemployed, earning the meagerest of wages, surrounded by the propagation of decadence. An example of this bourgeois decadence is the use of children and youth in pornographic magazines and films - we stand vehemently opposed to the use of children and youth in pornographic films, magazines, newspapers, etc. The bourgeoisie uses the youth for this to make profits off of them, to degrade and demoralize them, to strip them of all their pride. The youth who stand so firm and proud when united under the leadership of its Bolshevik Party and the proletariat. The bourgeoisie prop-

agates through the movies, newspapers, schools, clubs, etc.... "Do your own thing." They are pushed into discotequing all the time, drugs and decadent fashions. They promote competition among the youth on who's the "baddest in hustling", in dressing, etc. It is not incorrect to dress up to date but what the bourgeoisie propagates is for example "punk rock". This is a fascist movement which the bourgeoisie is trying to spread and develop, trying to find a base for it among the upper strata of the petty-bourgeoisie, the right wing of the petty-bourgeoisie. The bourgeoisie slanders the working class youth saying they are into this "punk rock", saying they are a bunch of hippie slobs who go around in ripped jeans held together with safety pins, young girls walking around with just underwear and blouses which is what "punk rock" promotes! Nothing could be further from the truth. This "punk rock" has even been promoting the Nazi symbol swastika as fashionable! and even naming rock groups "The Dictators". This is a bunch of hippy freaks who at discos beat each other up! This has nothing in common with the working class youth - no matter what slander the bourgeoisie runs.

The youth are very open to new ideas, for they are young and not yet set in their ways. This the bourgeoisie knows and that's why it so heavily tries to influence them with bourgeois ideology.

The Youth Are A Reserve Of The Proletariat In Making Proletarian Revolution

But the proletariat is also striving and must win the masses of exploited and oppressed youth under its influence and it can be seen come summer, many youths flock to the plants and factories seeking jobs. Those that are hired try to learn as much as possible from the adult workers. They stand up boldly when they see the tyranny of the bourgeoisie because as youth who have their whole life ahead of them they are fearless. In one factory district the youths gathered in a backyard of a public school to have at the end of the week block parties where workers and youth can wage struggle and relax. The school officials and other elements called the police on them to make them leave but they stood firm and united, against the harassment by the state. The working class and youth do not have recreational facilities to go to - the parks that exist in factory districts throughout are inadequate and often more dangerous than the very streets, with faulty equipment. We demand the immediate construction of free and adequate recreation facilities - gymnasiums, theaters, parks, readily accessible to the workers and oppressed masses. For two or three weeks the state harassed the youth but they never gave an inch. Now, every end of the week workers and youth gather there to struggle, dance and sing. Another particularity that brings them together is the national oppression, for the majority of youth and workers are Puerto Rican, Latin American and Afro-American. As oppressed national minorities they were further drawn together by the out and out racism and national chauvinism of the bourgeoisie, particularly the state.

The bourgeoisie propagates that working and oppressed nationality youth are lumpen, a bunch of slugs who terrorize the masses. It is the bourgeois state who terrorizes the masses. There are hundreds of incidents where workers and youth have been senselessly beaten or slaughtered. For example the senseless and bloody slaughter of Randolph Evans, Clifford Glover, Claude Reese and Derek Humphrey who were shot down by the police viciously. Another recent example of a senseless murder is in Bridgeport, Connecticut of a young Puerto Rican brother Tito Fernandez. This brother was killed by the police, and the masses justly indignant at this brutal act of tyranny hung an effigy of a policeman and have rallied to protest this savage murder. Yet another example is the murder of Angelo Reyes by police in Philadelphia, Pennsylvania another young Puerto Rican brother viciously shot down leaving behind a wife and six young children, and again the masses are rising to protest this

murder. The Bourgeoisie also props up fascist, right wing, vigilante groups who aid the state in repressing, attacking and even killing youths and proletarians. For example the beatings of Afro American youths by vigilante groups of Hassidic Jews in Brooklyn. Some of these organizations are formed with the active participation of the Bourgeoisie for example in Brooklyn the vigilante groups of Hassidic Jews were organized by the owner of a factory who had the audacity to appear on television to brag about how in case of an "emergency", which is to them whenever workers or youth specifically from oppressed nationalities appear in their neighborhoods, all he, the factory owner has to do is put a portable speaker on the roof of his car to mobilize 2,500 Hassidic Jews to come out to beat them up, as they did to one 16 year old Afro American youth where a car load of Hassidic Jews jumped out of the car and beat him up. We stand resolutely opposed to these attacks by these Zionist forces, and uphold the right to self-defense.

We stand by the right of the proletariat to bear arms, to fight back against the bourgeoisie who tries to kill us everyday either by starvation, or out and out murder.

THE CAPITALIST CLASS WILL PAY FOR EVERY YOUNG LIFE TAKEN FROM THE RANKS OF THE REVOLUTIONARY MASSES.

PROTESTING THE MURDER OF AFRO -AMERICAN YOUTH - DETROIT, AUGUST 1975

In the high schools we have countless incidents of youth who have walked out in solidarity with the proletariat and its struggle. For example, in an all girls catholic high school where there were communist youth working, giving out propaganda and doing political agitation against the repressive tactics utilized by the teachers, the banning and censorship of communist literature, where 60 girls were suspended from school, the solidarity was welded day by day. We rallied and demonstrated every day in front of the school, youth were mobilized from other public and catholic high schools. The state was called in everyday at times provoking the youths to justify assault on them, the bourgeoisie through the church heads and superintendents tried many maneuvers to scare the youth into

giving up, asking for letters from parents stating they will not rebel again against the school officials. The youth struggled with their parents not to submit the notes. Through the struggle the fighting initiative of the youth was steeled. In mass meetings of the young girls the social props the Mensheviks in particular also played their role, when many revolutionary youth (those youth who unite with the proletarian revolution and are struggling to become communists) stood up in unity with the Marxist-Leninist line fought for by the Revolutionary Wing of the U.S. Anti-Revisionist Communist Movement. The social props propagated that the communist youth were to be "security conscious" and not speak, many times leaving the youth without the support they needed! We stand by the right to have free, adequate, secular and compulsory education for the youth upto the age of 16.

The growing threat of Imperialist war means for the working class and youth their militarist recruitment into the armed forces of the bourgeoisie, for the use of youth as cannon fodder by the bourgeoisie. We stand firm in support of the National Liberation struggles of Latin America, Africa and Asia and opposed to the aggression, exploitation and oppression of the worlds people by the Imperialists and Social Imperialists supported and aided by the comprador bourgeoisie.

These conditions worsen but the bourgeoisie cannot rob the youth of their strength and vigor. Only under the leadership of our Bolshevik Party based on the Proletariat can the initiative and creativity, boldness and courage of our youth be unleashed.

Our Party Is Being Born In The Great Class Struggle Of The Proletariat

Our developing Party is being born in the great class struggle of the proletariat against the bourgeoisie, in the struggle to apply Marxism-Leninism to the concrete conditions of the Proletarian Revolution in the U.S., against all forms of opportunism, against modern revisionism.

In the field of work with the youth our Party has much rich experience - indeed it is an honor for our Party that comrades from the ranks of the youth hold positions in all levels of our leadership, it is an honor for our Party to see young comrade workers singing loud and with great pride our Party Building Song ("The World Is In Great Disorder"), it is an honor and an achievement in our work when young comrades with a vigilant eye over our Party advise us to continue to keep our doors tightly shut to the enemy, admitting only the best sons and daughters of the working class. We hold in great pride the influence and authority of our Party which is developing in the fight for the Marxist-Leninist line and we watch with great joy our proletarian children with their fists raised high in the air singing the Internationale. Indeed the youth are the successors of the Proletarian Revolution.

We know that our achievements come as a result of our struggle for the Marxist-Leninist line in our country, battling against opportunism, applying the principle which Comrade Lenin taught us that the struggle against imperialism is a sham and a humbug without a struggle against opportunism.

Fight For The Marxist-Leninist Line On The Question Of Youth And All Class Questions

We have fought for the Marxist-Leninist line on the class question of youth as on all class questions - struggling against such lines as the Young Bolshevik League (YBL) should not be under the leadership of our Party - the propagation of the Menshevik line of "neutrality" for the mass organizations - liquidating the independence and initiative, in fact the vanguard role of the Party, surrendering the hegemony of the proletariat to that of the bourgeoisie. In a class society each class struggles for its interests, and everything

is stamped with the brand of a class, for nothing escapes the class struggle. In our society where the principle and fundamental contradiction is between the capitalist class and the working class, these two classes are in constant battle, and our Party must fight every inch of the way for its very existence, it is a bitter struggle to establish and develop the influence and authority of our Party which represents the interests of the working class and no other class. Our Party guides the Young Bolshevik League, as it guides all the organizations of the proletariat. This line which rejects and attacks the leadership of our Party reflects the liquidationist trend in the Anti-Revisionist Communist Movement, that trend which liquidates the very need for the Party.

The fight for the vanguard role of the Party has been a historic one in the mass youth organizations such as the Puerto Rican Student Union (PRSU) and February First Movement (FFM), the struggle against the line of anti-imperialism as a third ideology, against the line that Marxism-Leninism should not be studied in mass organizations dates back to 1971, when comrades from PRSU struggling against revisionism, stood firm on the verdict of the international communist movement that in fact capitalism had been restored in the Soviet Union, that revisionism has state power and that the once glorious USSR was no longer the dictatorship of the proletariat, comrades stood firm against the revisionist betrayal of the Communist Parties in the capitalist countries and in our country of the CPUSA, reaffirming Marxism-Leninism as the guiding ideology.

But the revisionist line of anti-imperialism as a third ideology, attacking the vanguard role of Marxism-Leninism and the vanguard role of our Party reflecting Right Opportunism as the main danger continued to raise its ugly head and in the battles against it we have scored victories. Indeed it would be an absurdity for us to hear in our ranks today such lines as the YBL should not be under the leadership of our Party or that mass organizations such as the YBL should be anti-imperialist.

The fight for the Marxist-Leninist line on Party organizations has indeed shed clarity on all the muddle that the opportunists introduced into our ranks about the YBL being a Party organization - for in this fight we have reaffirmed the Marxist-Leninist principle that the YBL is a non-party mass communist organization (see polemic Bolshevik, Vol. 6 #11 "In The Fight For The Party Build the Young Bolshevik League"). In this fight we have reaffirmed that the basic unit of the YBL is the factory nuclei - a unity which was reached long ago on the Party Building Commission (PBC) but which was sabotaged by the opportunists and secret political police specifically Paul Sanders.

Draft The Program Of The Young Bolshevik League

Flowing from the consistent fight for the key link to Party Building - the hammering out of our Party's basic line and Program of Action, we have arrived at the truth that the most important task we face in building the YBL, in keeping with our central task Party Building, is that we must draft the Program of the YBL.

In struggling over this we have united that the Program of the YBL must state clearly its unity with the line and Program of the U.S. Bolshevik Party, it must state clearly that it is a non-party communist organization fighting for the smashing of the bourgeois state and the establishment of the dictatorship of the proletariat and that its final aim is the complete abolition of classes - communism, it must in unity with the Program of the Party be a declaration of war with the bourgeoisie, expressing and standing resolute on the proletarian internationalist character of our struggle that of doing "the utmost possible in one country for the development and awakening of the revolution in all countries" by fighting our "own" U.S. bourgeoisie. It must reaffirm the vanguard role of the proletariat as the only revolutionary class.

It must clearly and precisely sum-up the objective conditions which face the youth flowing from the component parts of the Party Program which clearly includes:

- "1. An analysis of the basic features of the development and decline of U.S. Imperialism.
2. A definite statement on the inevitable results on this state of decay and decline the general political and economic crisis of imperialism which results in more deprivation and poverty and the developing mass uprising and indignation of the proletariat."
(Bolshevik - Mayday Supplement)

On this question of the conditions of the youth the Draft Program of the Young Communist League (YCL) clearly states:

"Capital exploits the small amount of defensive strength of the working class youth, and squeezes special profits out of the cheaper and for the employer, more advantageous labour of the youth. Long working hours, out of all proportion, which, in spite of the immature bodily development and weaker stamina of the youth, and the necessity for their mental development, often exceed the working hours of adult workers, wages disproportionately low in comparison with those of adult workers, although the work is done equal to theirs, night work, work in factories injurious to health, barbaric treatment at the hands of the employers, unemployment without support and its consequences (sinking into misery, prostitution, crime) - that is the lot of the working youth under the domination of capitalism."
(Draft Program of the Young Communist League - (1924?))

Its tactical line must include demands on the questions of unemployment of youth, night work, shifts, forced overtime and work in industries specifically injurious to the health of youth, standing opposed to the discrimination against youth in hiring, firing and joining unions. It must include demands for the free, adequate and secular education up to the age of 16, for free and adequate health and recreation facilities. It must expose the bourgeois youth culture, which propagates anti-communism and which sucks the youth into gambling, drugs, alcohol and pornography - expose the utilization of children and youth for pornography and prostitution exposing all the corruption of the capitalist system. It must expose the utilization of the youth as cannon fodder in imperialist wars and their recruitment into fascist organizations such as the Moonies, Hare Krishna, ROTC, Cadets, Nazi Party and KKK Klan Youth Corps as well. It must expose the savage brutality of the state on the youth, capital punishment, beatings, harassment and the prison system as well as the courts which railroad the youth to reform schools, mental institutions and jails, and denounce the recently passed law allowing the corporal punishment of youth in school. It must uphold the right of the youth and the entire working class to bear arms.

Comrades, in order to draft the Program of the YBL we have taken as our guide the Draft Program of the Young Communist International and the Program of the Young Communist International. Much more study, struggle and hard work is needed - indeed our ties with the masses of youth must be strengthened and on this question all is not well. Both Right and "Left" deviations away from the Marxist-Leninist line have caused great harm in our work.

The Acting Central Committee (ACC) has summed up that comrades have not been resolutely raising the political struggle to comrade youths, not arming them with the polemics, with an understanding of the historic fight for our Party, but rather "hanging out" with them as if one were an ordinary non-communist reflecting the Right deviation, belittling the role of theory and the conscious element and overemphasizing the ob-

jective factor. This undermines the revolutionary youth who unite with Proletarian Revolution and who are struggling to become communists. It negates that these revolutionary youth are seeking the guidance and leadership in the struggle which only the Party can give them. It negates that the youth want to learn communism, want to study Marxism-Leninism and are eager to apply it to solve the concrete problems of the U.S. revolution. It negates the leadership that our Party must give to the work with youth and to the development and growth of the Young Bolshevik League. Comrade Stalin taught us this about the role of the Party in giving leadership to all the organizations of the proletariat:

"3) The Party as the highest form of class organization of the proletariat. The Party is the organized detachment of the working class. But the Party is not the only organization of the working class. The proletariat has also a number of other organizations, without which it cannot wage a successful struggle against capital: trade unions, co-operatives, factory organizations, parliamentary groups, non-Party women's associations, the press, cultural and educational organizations, youth leagues, revolutionary fighting organizations (in times of open revolutionary action), Soviets of deputies as the form of state organization (if the proletariat is in power), etc. The overwhelming majority of these organizations are non-Party, and only some of them adhere directly to the Party, or constitute offshoots from it. All these organizations, under certain conditions, are absolutely necessary for the working class, for without them it would be impossible to consolidate the class positions of the proletariat in the diverse spheres of struggle; for without them it would be impossible to steel the proletariat as the force whose mission it is to replace the bourgeois order by the socialist order. But how can single leadership be exercised with such an abundance of organizations? What guarantee is there that this multiplicity of organizations will not lead to divergency in leadership? It may be said that each of these organizations carries on its work in its own special field, and that therefore these organizations cannot hinder one another. That, of course, is true. But it is also true that all these organizations should work in one direction for they serve one class, the class of the proletarians. The question then arises: who is to determine the line, the general direction, along which the work of all these organizations is to be conducted? Where is the central organization which is not only able, because it has the necessary experience, to work out such a general line, but, in addition, is in a position, because it has sufficient prestige, to induce all these organizations to carry out this line, so as to attain unity of leadership and to make hitches impossible?

That organization is the Party of the proletariat."

(Selected Writings - J.V. Stalin, pgs. 124-125)

The Right is the main danger we face however the "Left" deviation has also manifested itself in talking at the youth and not with them, running off at the mouth, not listening to the youth, investigating the conditions they face - overemphasizing the subjective factor. This deviation has been reflected in viewing youth involved with drugs as "lumpen" and making this the main point of struggle with them. It has been manifested in viewing youth who join the military as "fascist." Therefore negating the conditions which force the youth into the military, and how the training of the youth in the military can and must be used in the interests of the proletariat. Comrade Stalin has taught us this about strengthening the ties of the Party with the masses:

"But the Party cannot be only an advanced detachment. It must at the same time be a detachment of the class, part of the class, closely bound up with it by all the fibers of its being. The distinction between the advanced detachment and the rest of the working class, between Party members and non-Party people, cannot disappear until classes disappear; it will exist as long as the ranks of the proletariat continue to be replenished with former members of other classes, as long as the working class as a whole is not in a position to rise to the level of the advanced detachment. But the Party would cease to be a party if this distinction developed into a gap, if the Party turned in on itself and became divorced from the non-Party masses. The Party cannot lead the class if it is not connected with the non-Party masses, if there is no bond between the Party and the non-Party masses, if these masses do not accept its leadership, if the Party enjoys no moral and political credit among the masses." (Selected Writings - J.V. Stalin, pg. 121)

COMRADES LENIN AND STALIN TWO OF THE GREAT TEACHERS AND LEADERS OF THE INTERNATIONAL PROLETARIAT.

We must guard against both Right and "Left" deviations by persevering in the struggle for the Marxist-Leninist line in our country. We must guard against one tendency covering another - for instance on the question of "youth gangs" - the bourgeoisie propagates that all youth are hoodlums and belong to gangs. This is nothing but the contemptuous view of the bourgeoisie - however, in struggling against this if we blame it all on the objective conditions we would negate that youth who join such gangs consciously do so and must be held accountable to the working class. If we say no such thing as youth gangs exist it would be like covering our eyes and saying the sky does not exist, it just is not true.

Youth gangs exist - they are a minority of corrupted elements who harrass, rip off, intimidate and many times kill other youths and proletarians. The working class is opposed to these gangs and rightfully so! The majority of the youth contrary to what the bourgeoisie pushes do not belong to gangs - but rather many times have joined together in social clubs, sports teams, or com-

(con. on pg. 6)

munity groups and factory groups many times to struggle against the conditions they face whether it be broken down streets and houses, drug pushers in the community, no recreation centers or not being able to join the trade unions, harrassment on the job by foremen or for the purpose of socializing and sports. This is as different as night and day from the youth gangs.

The Sham Wing In The Service Of The Bourgeoisie Disarms The Masses Of Youth

Comrades, in the service of the bourgeoisie the Sham Wing of the U.S. Anti-Revisionist Communist Movement, revisionists old and new disarm the masses of youth with their program of reforms, never raising the consciousness of the youth. They pave the way for fascism by propagating the line of least resistance "They say cutback, we say fightback", centering the struggle of the youth exclusively on the college campuses and the economic issues, they attack the struggle to insure the proletarian core of the Young Bolshevik League as they are incapable of this. In fact their line speaks not to organizing the working class, oppressed nationality, high school and college student youth but solely college students and professors.

A clear example of this is August Twentyninth Movement (ATM) and Resistencia (LPR"ML") who have been propping up and trying desperately to give credibility to the "struggle at Brooklyn Collège" propagating the most narrow, realisable demands - "special admissions programs, financial aid programs and ethnic studies" (June 77 - Revolutionary Cause) and in this case covering up the work of the secret political police, specifically the agent provocateur Richie Perez and his band of provocateurs operating out of Brooklyn College.

Workers Viewpoint Organization (WVO) is another example pushing that the struggle of youth is for "quality education, socially productive jobs" and throwing in at the end "exploitation and repression." (Revolutionary Youth Newspaper of the Revolutionary Youth League)

The future of the youth is inseparably bound to the future of the proletariat - the class that is growing and developing with each passing day. The youth are the successors of the revolution, their struggle as reserves of the proletariat is to construct a new socialist order, to smash the bourgeois state and establish the dictatorship of the proletariat - (the working class organized as the ruling class) build socialism and onward to classless society - communism. "What a bright future lies ahead for all the young masses!" (They Stand Erect and Tall) But Revolutionary Youth League - W.V.O. limits the struggle to reforming the conditions under capitalism "quality education, socially productive jobs." They try to fool the masses by pushing that jobs under capitalism are "socially productive" when under capitalism what is produced is for the bourgeoisie, it is under socialism that labor becomes socially productive.

The Program of the Young Communist International states:

"The establishment of the socialist society demands and makes possible, a complete change in the conditions of youth labour. The socialist re-organization of youth labour is the linking up of productive work with training and education, and the entire transformation of youth labour from the viewpoint and with the aim of training fully developed members of the socialist society. Because of this, socialism replaces wage labour for the youth by social maintenance.

This aim was pointed out to us by the great teachers of the proletariat, Marx and Lenin. Marx said:

'In the factory system we have the embryo of the education of the future which will combine productive work with tuition and gymnastics for all children

over a certain age, not only as a method of increasing social production, but as the only method of bringing up fully developed human beings.' Lenin taught us:

It is impossible to visualise the ideal future society without linking up for the young generation the process of production work and education. Neither training and education without productive work, no productive work without training, can reach the level required by modern technical development and scientific knowledge.'" pg. 31

By propagating that under capitalism the struggle is for "socially productive jobs" WVO liquidates the dictatorship of the proletariat and the construction of socialism.

The O.L. "Communist Party" "ML" also makes a mockery of the struggle of the youth with their Romper-Room "Childrens Corner" and their paper the Young Communist. They also push that the struggle of youth is for the most narrow economic, reformist demands. In faking a polemic with the revisionist "CP"USA and its revisionist youth organization the Young Workers Liberation League they say that the "CP"USA "divert youth away from the struggle for their right to a job (our emph., ed.) and against imperialism." (The Young Communist, June 1977)

Six of one and half a dozen of the other! Both the "CP"USA and "CP" "ML" sniveling right behind them divert the struggle of youth away from the struggle for fundamental change - a new socialist order! Both push that the struggle is for reform - "jobs" as both revise all the fundamental principles of Marxism - Leninism Mao Tse Tung Thought.

All the Sham forces have bombarded the youth with ragsheet youth newspapers. Taking Young Red by R"CP" as another example in issue No. 2 this is how they revise the need for class struggle:

"If you're goint to eat, have any boy friends, girl friends and a family -- then you're going to have to have to deal with the society you live in."

Talk about the most palpable demands - this is the lowest of the low - vulgar materialism without a doubt! These forces talk to the youth as if they were fools - but the hard life under capitalism makes the youth wise for their young years and this patronizing foolishness - this utter revision of the class struggle, of MLMTT cannot get over. In this same issue they printed an article entitled - "What Is Communism?"

"Is it This?"

Natasha and Boris slinking around in their dark glasses and trenchcoats stealing military secrets. Or sneaky men and women who try to sucker innocent American youth and brainwash them to be robots for revolution.

Trying to take control of the government and set up a society where everyone dresses alike (in very grey overalls), thinks exactly alike, slaving in factories 12 hours a day for some dictators. Where it's a federal crime to own a T-Shirt because there's no private property...

AIN'T THAT WHAT THEY TEACH US?

WELL NO, THAT'S NOT WHAT COMMUNISTS STAND FOR."

This is straight up anti-communism under the signboard of communism. It sounds like a document from the House Un - American Activities Committee! This is the line of all reaction, all the enemies of communism the world over - distorting and slandering the world wide struggle of the proletariat for its final aim the abolition of classes- communism.

All the sham forces and their ragsheet newspapers reflect their contempt for the youth-talking to the youth like Sesame Street, never giving the youth the respect they deserve. Genuine Communists teach the youth Communism

not by revising it but by fighting for the Marxist-Leninist line, standing resolute on principle, fighting in practice in the interests of the oppressed and exploited masses, summing up their experiences, imbuing them with discipline and organization and making them class conscious fighters of the proletariat. Bringing the youth under the wise eye, open heart and strong arm of the Party which trains them for the bright future.

The Revolutionary Wing In The Interests Of The Proletariat - Calls A Nationwide Youth Conference

In order to combat all the treachery of the Sham Wing, in order to carry out our internationalist duty we must be ever more resolute in our struggle to build our Party, building the Young Bolshevik League in the course of that struggle.

Comrades, the Revolutionary Wing of the U.S. Anti-Revisionist Communist Movement is preparing for a nationwide Youth Conference to outline the tasks to draft the Program of the Young Bolshevik League, in keeping with Party building our central task and building the revolutionary non-party mass organizations. The organization of the youth is a very crucial task which our developing Party has before it, in this area of work we have much rich experience from Youth Organization for Black Unity (YOBU), Third World Student League (TWSL), Puerto Rican Student Union (PRSU), Black Anti-Imperialist Student Caucus (BAISC), and Revolutionary Youth Collective (RYC), to our present day work in building the YBL.

The fight for the Marxist-Leninist line on this class question will be represented at a higher level in the Program of the Young Bolshevik League (YBL). We must sum-up our relationship to the masses of youth-our work to bring them under the leadership of the Party, to teach them communism which is one of the most important tasks of the YBL, and in learning from the youth whose revolutionary spirit, openness to new ideas and keenness are a lesson for us all. In fact the combination of both old and young cadre and non-party masses is a very important one for the Party and Proletarian Revolution as a whole.

We must sum up our relationship to the masses of youth-summing up the forms of struggle and organization in winning the youth to communism, always remembering and applying what Comrade Lenin taught us that the youth come to communism in different ways than their forefathers. Comrades:

The agenda for the Youth Conference will include:

1. Opening Presentation
 - a. Summing up work amongst the youth historically, in the fight for the Party and the fight for the Marxist-Leninist line on this class question. Summing up deviations both Right and Left away from the Marxist-Leninist line which have caused great harm in our work, never losing sight of the Right as the main danger.
 - b. Present level of development of the conditions both objective and subjective.
 - c. Presentation on the Draft Program of the Y.B.L.

Lunch

2. Workshops for struggle on the Draft Program

Dinner

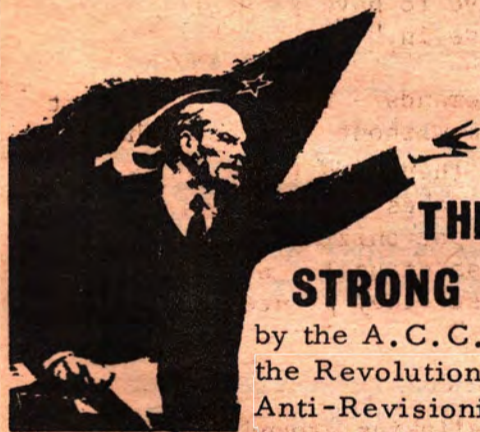

3. Summation and Closing - Songs

LETS STRENGTHEN OUR TIES WITH THE MASSES!

FORWARD TO OUR FIRST PARTY CONGRESS!

IN THE STRUGGLE FOR THE PARTY BUILD THE YOUNG BOLSHEVIK LEAGUE!

WORKERS AND OPPRESSED PEOPLE OF THE WORLD UNITE!

THE YOUTH ARE A STRONG AND VITAL FORCE

by the A.C.C. of the Leninist Core of the Revolutionary Wing of the U.S. Anti-Revisionist Communist Movement

The youth are a strong - a strong and vital force
The youth are the successors of the Revolution
This is the Proletariat's gain
And the bourgeoisie's loss

The Revolution awakens in them
Their spirit to be free
The Revolution tempers them
Tempers them to be

Young heroes, Party cadre
Young masses tempered like good steel
Young soldiers of the Revolution
Who love the People
Whose bright future is very real

Forward, young sisters and young brothers
Our tasks are great
We must build a new society
We cannot hesitate

United in our Young Bolshevik League
With our Bolshevik Party always in the lead
We struggle true to the end
Our Young Bolshevik League
Is the faithful supporter of the Party
And to the masses a dear friend

It supports the Party, its line and program
It is the sworn enemy of all who are sham
Revisionists and opportunists it resolutely opposes
Staunchly it defends Marxism-Leninism
And falsehood it exposes

It must serve the People
Struggling without doubt
Learn Communism - learn it well
And implement it throughout

Forward, young sisters and young brothers
The masses have suffered too long
We must smash the bourgeois state
Establish the Dictatorship of the Proletariat
And establish it strong

We must construct Socialism
In the interests of the masses
And move on to our final aim
the abolition of classes

Life under capitalism throughout the world
Is unbearable for our sisters and our brothers
It is a wretched life of exploitation and oppression
For our fathers and our mothers
The bourgeoisie recruits us for their imperialist wars
But we will turn those guns around
Of this, they can be sure

STATEMENT OF PRINCIPLES OF THE REVOLUTIONARY WING

THE REVOLUTIONARY WING OF THE U.S. ANTI-REVISIONIST COMMUNIST MOVEMENT STANDS ON AND FIGHTS FOR THE APPLICATION OF THE UNIVERSAL PRINCIPLES OF MARXISM-LENINISM MAO TSETUNG THOUGHT.

WE STAND ON THE ORGANIZATIONAL PRINCIPLE OF DEMOCRATIC CENTRALISM, WE REJECT BUREAUCRATIC CENTRALISM AND ULTRA-DEMOCRACY, WE RESOLVE CONTRADICTIONS INTERNALLY THROUGH THE METHOD OF CRITICISM, SELF CRITICISM, THE PARTY BECOMES STRONG BY PURGING ITS RANKS OF OPPORTUNISM.

THE STRATEGIC OBJECTIVE OF THE REVOLUTION IS THE DICTATORSHIP OF THE PROLETARIAT, FOR THE CONSTRUCTION OF SOCIALISM, TOWARDS THE ABOLITION OF CLASSES THE FINAL AIM OF COMMUNISTS.

WE FIGHT FOR THE VIOLENT, ARMED OVERTHROW OF THE BOURGEOISIE, TO SMASH THE BOURGEOIS STATE, IN ORDER TO FIRMLY ESTABLISH AND CONSOLIDATE THE RULE OF THE PROLETARIAT, THE DICTATORSHIP OF THE PROLETARIAT.

WE STAND THAT THE STRUGGLE AGAINST IMPERIALISM IS A SHAM AND A HUMBUG WITHOUT A RELENTLESS, UNCOMPROMISING STRUGGLE AGAINST ALL FORMS OF OPPORTUNISM AND REVISIONISM, TROTSKYISM, MENSHEVISM AND CONCILIATIONISM. WE BELIEVE THAT THE MAIN DANGER IN THE INTERNATIONAL COMMUNIST AND WORKERS MOVEMENT IS RIGHT OPPORTUNISM AND REVISIONISM REPRESENTED INTERNATIONALLY BY ALL THE REVISIONIST PARTIES AND LED BY THE "CP"SU AND IN THE U.S. BY THE "CP"USA AND THE R"CP" REVISIONISTS. RIGHT OPPORTUNISM REPRESENTED BY THE MENSHEVIKS AND CONCILIATORS OF THE SHAM WING OF THE U.S. ANTI-REVISIONIST COMMUNIST MOVEMENT. WE STAND ON THE PRINCIPLES OF INTERNATIONAL BOLSHEVISM: PRACTICE MARXISM NOT REVISIONISM; UNITE, DON'T SPLIT; BE OPEN AND ABOVE BOARD; DON'T INTRIGUE AND CONSPIRE.

WE STAND, THAT THE BUILDING OF THE U.S. BOLSHEVIK PARTY IS THE CENTRAL TASK OF ALL COMMUNISTS AND CLASS CONSCIOUS WORKERS, AND HAS BEEN SINCE THE REVISIONIST BETRAYAL OF THE "CP"USA. THE PARTY OF THE PROLETARIAT MUST BE FOUNDED ON THE WORLD VIEW OF THE PROLETARIAT, DIALECTICAL AND HISTORICAL MATERIALISM. THE PARTY MUST BE A UNION OF THE MOST CLASS CONSCIOUS PROLETARIANS. WE STAND ON THE STRATEGIC PRINCIPLE OF BOLSHEVIZATION BY CARRYING OUT THE IDEOLOGICAL, POLITICAL AND ORGANIZATIONAL TASKS OF PARTY BUILDING. IN THIS PERIOD THE TACTICAL PRINCIPLES ARE UNITING MARXIST-LENINISTS AND WINNING THE ADVANCED TO COMMUNISM, IN ORDER TO BUILD OUR PARTY, THE PARTY OF THE U.S. MULTI-NATIONAL PROLETARIAT, THE U.S. BOLSHEVIK PARTY. WE HOLD THAT THE HAMMERING OUT OF THE PARTY'S BASIC LINE AND PROGRAM OF ACTION IS THE KEY LINK IN THIS PERIOD.

WE STAND ON THE METHOD OF LENINISM, HARMONY BETWEEN WORD AND DEED, TRAINING THE PARTY, CLASS AND MASSES BY LEARNING THROUGH OUR OWN MISTAKES. WITHOUT CRITICISM, SELF-CRITICISM, THERE IS NO BOLSHEVISM. WE FIGHT HEGEMONISM OF ALL TYPES-SMALL CIRCLE SPIRIT AND BIG ORGANIZATION HEGEMONISM, BY IMBUING THE MASSES WITH THE PARTY SPIRIT. WE FIGHT SELF-COMPLACENT OPTIMISM AND PESSIMISM THROUGH PROLETARIAN REVOLUTIONARY OPTIMISM. WE UPHOLD THE STRATEGIC PRINCIPLES FOR REVOLUTION, THE MASSES MAKE REVOLUTION, THE PARTY MAKES THEM CONSCIOUS.

REVOLUTION INDEED IS THE MAIN TREND IN THE WORLD TODAY. THE THIRD WORLD, ASIA, AFRICA AND LATIN AMERICA IS THE MAIN FORCE, THE STORMCENTER OF REVOLUTION. WE STAND WITH THE INTERNATIONAL PROLETARIAT AND WILL RENDER DIRECT AND RESOLUTE SUPPORT TO THE LIBERATION MOVEMENTS OF THE OPPRESSED PEOPLES AND NATIONS AGAINST IMPERIALISM MOST ESPECIALLY U.S. IMPERIALISM AND SOVIET-SOCIAL IMPERIALISM. WE FIGHT FOR THE RIGHT OF NATIONS TO SELF DETERMINATION UP TO AND INCLUDING POLITICAL SECESSION.

WE FIGHT FOR THE VOLUNTARY UNION OF THE PROLETARIAT OF THE OPPRESSED NATIONS WITH THE OPPRESSOR NATIONS. "THE WORKINGMEN HAVE NO COUNTRY." THE INTERNATIONAL PROLETARIAT IS LEADING THE MASSES OUT OF POVERTY, HUMILIATION AND OPPRESSION IN THE STRUGGLE AGAINST IMPERIALISM, COLONIALISM, NEO-COLONIALISM AND SUPERPOWER HEGEMONISM. NO NATION CAN BE FREE WHILE IT OPPRESSES ANOTHER NATION.

WE STAND WITH THE PEACE LOVING PEOPLES OF THE WORLD IN PREPARING AGAINST THE DANGER OF A THIRD IMPERIALIST WORLD WAR INSTIGATED BY THE TWO SUPERPOWERS WHO ARE BOTH THE MAIN SOURCE OF WAR. EITHER WAR WILL GIVE RISE TO REVOLUTION OR REVOLUTION WILL PREVENT WAR. REVOLUTIONARY WAR IS THE ONLY ROAD TO PEACE. THE RESPONSIBILITY OF COMMUNISTS IN THE IMPERIALIST COUNTRIES IS TO TURN AN IMPERIALIST WAR INTO A CIVIL WAR.

WE STAND WITH THE ADVANCED DETACHMENT OF THE INTERNATIONAL PROLETARIAT THE COMMUNIST PARTY OF CHINA AND THE PARTY OF LABOR OF ALBANIA AND WE AS

PART OF THE INTERNATIONAL PROLETARIAT TAKE GREAT PRIDE IN LEARNING FROM THE LEADING REVOLUTIONARY EXAMPLES OF CHINA, ALBANIA, KOREA, LAOS, CAMBODIA, VIETNAM AND ROMANIA. WE COMMIT OUR LIVES TO THE FIGHT AND FULFILLMENT OF THESE PRINCIPLES, WHICH WE OPENLY PROPAGATE AND WILL NEVER BE COMPROMISED.

WE STAND ON THE INTERNATIONAL PRINCIPLE OF MARXISM-LENINISM MAO TSETUNG THOUGHT - WORKERS AND OPPRESSED PEOPLES OF THE WORLD UNITE!

BOLSHEVISM ON THE RISE!
FORWARD TO THE FIRST PARTY CONGRESS!

THE YOUTH ...

Unemployment lines, police harassment and abuse
Makes the youth feel that there is no use
Drugs, alcohol, pornography, gambling
Bourgeois youth culture says "Do Your Own Thing"

Trying to corrupt their spirit, bodies and minds
But a power which cannot be stopped
In the youth - the forces of reaction find

Forward, young sisters and young brothers
We have chosen our course
The youth are a strong
A strong and vital force

The wise eye of our Party
Teaches them and watches them grow
The open heart of our Party

Welcomes their spirit, their openness
And loves and cherishes them also
The strong arm of our Party
Guides them with firmness and discipline
And keeps them on a steady course
For the youth are a strong
A strong and vital force

Our Party guides the Young Bolshevik League
Training the worthy successors
Which our Revolution needs

Educating and persuading
Our Party trains them well
Fighting always in the interest of the working class
And giving the bourgeoisie hell!

BOLSHEVIK is the theoretical journal of the Revolutionary Wing. It is in striving to uphold the revolutionary tradition of the great Bolshevik Party of Lenin and Stalin that we dedicate the publication of **BOLSHEVIK**.

BOLSHEVIK is an organ directed to forging the U.S. Bolshevik Party through hammering out the party's basic line and program - the key link we must grasp in this period to unite the genuine Marxist-Leninists and win the advanced to Communism. **BOLSHEVIK** is dedicated to upholding the purity of Marxism-Leninism-Mao Tse-Tung Thought by waging ruthless struggle against all forms of opportunism, particularly the dangerous Menshevik line of the opportunist wing in the U.S. Communist movement.

We plan to publish **BOLSHEVIK** four times a year. Our propaganda, aimed at Bolshevik Party cadre, Marxist-Leninists and advanced workers, will be focused on drawing sharp and clear lines of demarcation; and we will introduce the struggle over the Party's program into the polemics.

Editors Note:

In accordance with the development of the line of the Bolshevik Wing the masterhead of our Party Press has been changed from Palante to

Bolshevik. Bolshevik, concisely sums up the stance, the line and the character of the Revolutionary Wing. It boldly represents the type of party we are building, A Bolshevik Party!

In terms of our theoretical journal there is still struggle being waged as to its name.

EDITOR'S NOTE:

Comrades, friends, and all subscribers of Bolshevik, we have had to raise the price of Bolshevik (Palante) from 25¢ to 35¢ and the subscription rate from \$3.60 to \$5.00.

After a number of years of struggling to maintain the price of the paper at 25¢ which barely paid for just the production of the paper, several factors make it no longer possible.

Firstly, the wrecking and splitting led by a handful of renegades which included stealing money, destroying subscriptions, and breaking the machinery which is so costly to fix in a capitalist society such as this one.

Secondly, the cost of producing the paper has gone up as has everything. Each individual copy

of Bolshevik (Palante) costs us 20¢ to have it printed. This doesn't even include the costs of the supplies to produce the paper as well as the mailing costs which as everyone knows have gone up. As comrades can see we cannot under these circumstances maintain the previous price.

We are sure that the masses of subscribers, and all who fight in the interest of Proletarian Revolution will help us maintain and more importantly improve the propaganda of the Rev. Wing on our way forward to the First Party Congress.

Please forward all criticisms, contributions, or any comments to: B.D. & C.

THEY STAND ERECT AND TALL

DEDICATED TO THE YOUTH INTERNATIONALLY. LONG LIVE THE SUCCESSORS OF THE REVOLUTION!

by the A.C.C. of the Leninist Core of the Revolutionary Wing of the U.S. Anti-Revisionist Communist Movement

Erect they stand
Their heads up high
Inspiring us All
It is in their hands
that the future lies....
Young and spirited
Full of life, seeking to understand
What is the situation at hand
struggling, grasping
With such open minds
A will of iron they manifest
taught by life itself
they learn - to remove
obstacles
placed by Capitalism
before them
the Young
are determined
Rebellious and bold
and will rise against
What is decadent and old
In the fight for our Party
they will rise that much
more
loyal to the working class
and oppressed masses
Of this we are sure -
Though lacking experience
They are full of
vigor and life

A lesson they teach us
is to be honest and
outright....
Not biting their tongues
they are acutely aware
of who's bragging
while hiding who's down
and who ain't
flaky elements they detect
from a mile away
But for who is
true
They get down all the way
The young
so full of life
Faces gleaming
like shining stars
lighting up what seems hazy and
dark
while rising like the sun
at the break of dawn
like the happiness which fills the air with
the cries of a baby that
has just been born....
Their minds are so fresh
like a stream from a
mountain
Their strength and determination
the Party will guide towards
Proletarian Revolution
It's no lightweight
responsibility
Which you have shown
You can shoulder
To the international
Proletariat
You will always remain
faithful sisters and brothers....
and in this spirit
the Young Bolshevik League
will be born
Under the leadership of
the Party it will grow
Very strong

We rejoice
voices laughing and gay
being born out of struggle
young Communists day by day
An ever blazing torch
which makes the bourgeoisie
tremble
before the masses of youth,
their old decadent state is
nakedly clear....
Boiling blood,
the Youth fight
exploitation and
hunger
like a lightning and thunder
like a tidal wave
which recognizes no borders....
The Young are not
fooled
And this is the truth
rejecting what's old
while embracing what's
new
The militant fighters
of the new socialist order
We find in the Youth -
The Young hero George
Jackson
A painful lesson which
We turn into strength
Strong, young a Revolutionary
Till the Very End -
He lived a brave life
Never bending his convictions
Standing Erect and Tall
A fighter for liberation -
We shall always remember
our Fallen heroes
by pledging our own lives
for the masses' freedom
The bourgeoisie will pay
for the murder of George
Jackson and all others -
of this we are clear
their doom is very near
We salute you
Young women and Men
And of this we are
certain
A new day is on the
horizon
A better world
with dignity
that's what we fight for....
Standing Tall and Erect
happy, witty and strong
life itself confirms
what history has told
The brave
the fresh blood
rejuvenating till Victory
Cleansing the hard and
torturous road
They stand Erect and Tall
the sons and daughters
of the Working Class
worth much more than All the gold...
The chosen successors
with each day
that passes
what a bright future
lies ahead for
All the Young
masses
They Stand Erect and Tall!
