It is good if we are attacked by the enemy, since it proves that we have drawn a clear line of demarcation between the enemy and ourselves. Chairman Mao.

CARRY FORWARD THE ANTI-FASCIST STRUGGLE ON THE CULTURAL FRONT!

Revolution is the main trend in the world today and the reactionary forces, in a frantic attempt to survive are stepping up their fascist attack against all revolutionary movements and wars of national liberation. Here in the U.S., the monopoly capitalists, chieftains of all reactionaries of the world, lacerated both at home and abroad, by a deepening economic and political crisis are desperately doing everything to solve it. Because this crisis is a result of the capitalist mode of production based on profit the only way to resolve it is to increase profit. This can be done only by a) the superexploitation of the workers, b) the fascist repression of any progressive and revolutionary movements of resistance and c) launching further wars of aggression abroad.

Just after the elections last November, fascism stepped up its ac-

tivities. After having deceived the American people for months of the coming peace in Vietnam the monopoly capitalists through their chieftain Richard Nixon launched a yet more ferocious aggression against the three Indochinese people, which was turned into a nazi-like bombing of civilian population of the Democratic Republic of Vietnam in the latter part of December. Their barbarity has reached such an extent as to discuss in their Congress the use of nuclear weapons against the Indochinese people. At home, their ferocity was manifested in the anti-labor activities (e.g., Nixon's announcement of the National Commission for Industrial Peace), the clamor for raising Productivity, that is, to increase profits by the superexploitation of the workers, a continuous increase of the use of armed police to repress

Statement of the Ann Arbor Student Movement:

ANN ARBOR STUDENT MOVEMENT WILL CERTAINLY NOT BE INTIMIDATED BY THE FASCIST ATTACKS OF THE F.B.I.!

On Jan. 10 comrade Tim Hall, secretary of the Detroit unit of American Communist Workers Movement (Marxist-Leninist) received the following post card (postmarked Jan. 9):

Mr. Tim Hall c/o
American Communist Workers Movement
P.O. Box 604-A, Detroit, Michigan 48232
Tim: I enjoy your publication "Ann Arbor Student"--keep up the good work.
Tell Mohan hello for me.
Love, your friends at the FBI.

This is yet another of a series of attacks and threats being carried out by the FBI against the ACWM (M-L) and against the revolutionary national minority students who have taken up as their own the just cause of the American working class and people to overthrow monopoly capitalism and fascism. By "revealing" their knowledge of

(cont'd on page 2, column 2)

(cont'd from page 1) 2
the American people, by jailing, beating and shooting them and thereby creating a police terror in the community. Recently in the Detroit area, under the pretext of searching for "suspects", the police has been intimidating and harassing large numbers of people and has "accidentally" shot one dead. In Ann Arbor too these harassments were made of three innocent girls by the police who broke into their home in the middle of the night. The freedom of press itself comes under attack from various sections of the ruling class under the guise of protecting the "security of America".

In the face of this growing fascism the American people are continuously resisting and fighting back. The working class is organizing itself under the banner of Marxism-Leninism-Mao Tsetung Thought into a revolutionary Communist Party which will lead the entire American people to overthrow the fascist rule of the monopoly capitalist class and establish the dictatorship of the proletariat.

In the monopoly capitalist university in particular fascism launches its attacks through the daily propagation of ideas and theories whose main aim is to mystify the objective reality, obscure the basis of social change, development and motion and suppress the revolutionary sentiment of the students. When the students rise up against the fascist ideology, this ideology and its ideologues are defended by resorting at first to connections and lies; when this does not work, the Administration steps in with its rules and regulations; but the final answer is left to the intimidation, threats and violent repression by the plainclothes police agents, the FBI, local police and National Guards.

Thus the two heroic Afro-American students of Southern University were murdered in cold blood. (see pag. 6) Thus two of our comrades were threatened by the FBI agents (see pag. 1).

We students in Ann Arbor have a long tradition of struggling against fascism in its various forms. To carry forward such struggles to a higher level the Ann Arbor Student Movement has launched and widely disseminated the call: DENOUNCE, CRITICIZE AND REPUDIATE THE FASCIST IDEOLOGY OF THE MONOPOLY CAPITALIST UNIVERSITY! (see Ann Arbor Student, Vol. 1, No. 1). Starting at a low level we have been actively putting it into practice. In the wide-scale mass work that the Ann Arbor Student Movement has been doing not only have the masses of students received the call warmly and with great enthusiasm but many have come forward with the desire to participate actively with the Ann Arbor Student Movement.

Students! Let's march forward under the banner of Marxism-Leninism-Mao Tsetung Thought to denounce, cri-

ticize and repudiate right amidst the masses the fascist ideology and its ideologues on campus!

IT IS RIGHT TO FIGHT FASCISM!

the name of comrade Mahankumar, who has been doing public work for a long time, the nazi FBI hoped to intimidate him and other national minority students from participating in the anti-fascist struggles of the American people. This is a fascist attack by the agents of the U.S. monopoly capitalist class against the proletarian revolution and against the genuine Marxist-Leninists who are resolutely building a revolutionary Communist Party in the U.S..

By couching the post card in "chummy" terms, the FBI hoped that the Ann Arbor Student Movement and the ACWM(M-L) would not expose the attack fearing that it would appear that they have "friends" at the FBI. How stupid do they think people are?? We have never feared to declare openly before the masses that we are communists and come under their supervision. The ACWM(M-L) comrades and the comrades of the American Student Movement have always staunchly stood up to the attacks of the fascist agents of the monopoly capitalist class. Over 70 have been arrested since May '69 and some have served jail terms as long as 2½ years. The masses in various areas will never be fooled by these vicious attempts to spread confusion, lies and slanders as well as threats and intimidation.

In Ann Arbor, ever since May of last year, national minority students who took up the cause of American people have continuously been harassed and threatened by the FBI. Their friends and supporters were also harassed by these fascist agents. In a vain attempt to intimidate and create terror amongst them the FBI repeatedly called them by

intruded into their homes at all hours of the day and subjected them to hours-long interrogations about their studies, their status as students, their political principles and beliefs. Exploiting their situation as foreign students, the fascists tried to force them to give up all their dignity and "cooperate" by furnishing information about their friends. True to their fascist nature, the FBI sank to such a low level

(cont'd on pag. 3, column 1)

(cont'd from page 2 column, 2)
 vel as to shamelessly request one of them whether he would like to become a spy! But this back-fired! The progressive foreign students refused to be intimidated. Their hatred of fascism and firm opposition to it rose higher and higher.

The FBI concentrated their attacks against comrade Mariano Bianca asking people what are his connections with ACWM(M-L), does he support armed revolution, declared his father a Communist etc., etc. Getting no response, they threatened him with deportation if he did not "turn himself in". But when this tactic failed to intimidate comrade Mariano, the FBI backed down temporarily on the deportation threat. Now with the formation of the Ann Arbor Student Movement just following the October Conference, "Problems of Proletarian Revolution in the U.S.", and with the publication of the "Ann Arbor Student" the monopoly capitalist class has launched a new threat against another member of the Ann Arbor Student Movement, comrade Mohankumar. They are desperate! Their earlier attempts at intimidation rebuffed, they are now writing post-cards thus trying to avoid showing their fascist nature openly among the masses. What does this mean? It means that the struggle of the American working class and people has reached a higher level, that their contradiction with the monopoly capitalist class is sharpening. Being more and more isolated from the masses the monopoly capitalist state machine

at first tries, before launching direct attacks on the masses, various "underground" maneuvers of intimidation and threats. Fascist maneuvers behind the backs of the people has always been the first step towards the carrying out of open fascism against the masses. This latest threat by the FBI clearly shows its weakness. It is desperately trying to stop the inevitable rise of the struggle of the students against fascism and their aspiration to come under the leadership of the working class and its party.

Revolutionary students! This is a victory for us! We see that the FBI is desperately trying to intimidate and threaten us: this means that we have nothing in common with the fascists! As Chairman Mao points out: IT IS GOOD IF WE ARE ATTACKED BY THE ENEMY, SINCE IT PROVES THAT WE HAVE DRAWN A CLEAR LINE OF DEMARCATION BETWEEN THE ENEMY AND OURSELVES! We students are proud to be attacked by the FBI, it is our honor. Comrades Mariano and Mohan are national minority foreign students who came here to the U.S. from their countries like millions and millions of other immigrants. This country was built by the blood and sweat of the immigrants, slaves and Native Indi-

ans, and all people who come from any country in the world have the inalienable right to participate in the struggle against U.S. monopoly capitalism and build the REVOLUTIONARY COMMUNIST PARTY ON THE BASIS OF MARXISM-LENINISM-MAO TSE-TUNG THOUGHT. Furthermore US imperialism is holding the people of their home countries in bondage through imperialist plunder and wars of aggression. As Lenin has taught us, only the unity between the proletariat of the oppressor countries and those of the oppressed countries can give rise to the final defeat of imperialism and to the world-wide victory of socialism and communism.

The Ann Arbor Student Movement resolutely defends the right of the workers and oppressed people to unite against their common enemy, U.S. imperialism.

There is a bright red future in the destiny of the American working class and people, that is the establishment of the dictatorship of the proletariat, which no reactionary force on earth can take away from them.

We resolutely denounce the Nazi FBI and its masters, the monopoly capitalist class.

AGENTS OF CHIANG KAI-SHEK BANDIT
 CLIQUE DENOUNCED ON CAMPUS

Taiwan is an integral part of China and the Chinese people are firmly determined to liberate it from the clutches of U.S. imperialism which is still occupying it. In 1949, after many years of valiant revolutionary struggle, the Chinese people under the leadership of the Communist Party and Chairman Mao liberated themselves from imperialism, feudalism and bureaucrat capitalism; they have given to the people of the whole world including the American people the invincible weapon of MAO TSETUNG THOUGHT-the Marxism-Leninism of our era and have shown in practice that the only way to achieve liberation from oppression and exploitation is through armed revolution led by the proletariat and its party. The reaction-

(cont'd - on page 4, column 1)

nary forces of the world not only have attacked socialist China through armed aggression but they have done everything in their power in a vain attempt to obstruct the inevitable historical path of the Chinese working class and people of building socialism. In this attempt to attack socialist China and isolate it from the world community the imperialist forces headed by U.S. imperialism have helped the Chiang Kai-shek fascist gang to form a puppet regime in Taiwan, which they have also used as a military base to launch further aggression against the people of Asia. This regime imposed itself on the Taiwan people with bloody massacres in which thousands upon thousands of people were killed. The people of Taiwan although fascistically oppressed by a daily terror for over 23 years have always fought back. The Kuomintang (KMT), the party of Chiang Kai-shek not only has carried out a vicious anti-communist propaganda and violent repression at home but also abroad. In particular in the U.S. the KMT with the full support of the state machine here has for years intimidated and oppressed the Chinese foreign students and the entire Chinese community. But the Chinese students and people far from being intimidated have always resisted the attacks of the agents of the KMT. No longer is it possible for these fascist dogs to operate publicly and lord it over the Chinese students and people in the U.S. with their blatant anti-communism and slanders of the People's Republic of China. Today when PRC has been recognized as the only legitimate representative of the Chinese people and hailed by all the oppressed people as the bastion of world revolution and their guide, the Chiang gang thrown out by the community of nations can only receive support from the U.S. imperialists, the arch enemy of the whole people of the world. Recently the Chief of "Intelligence Bureau of the Ministry of Defence", the Taiwan secret service, branch of the CIA, Mr. Hsiang-Chi yeh, together with his acolytes was running around in the U.S. to propagate slanders about PRC and to find help for their counter-revolutionary schemes. In Ann Arbor too, these fascist dogs dared to come in great secrecy and sneakily made arrangements with China-scholars, local spies and "friends of Chiang" such as Mr. Wan, director of Asia Library. A group of patriot Chinese students, always alert to the underground maneuverings of the KMT came to know of these intrigues and resolutely decided to expose and denounce them and valiantly defend their socialist motherland. At the initiative of these students a meeting was arranged with th-

ese agents at which also some other students took part. These gentlemen undermining the anti-fascist spirit of the Chinese students had come to propose arrogantly Chiang Kai-shek, who was thrown out by the Chinese people in to the dustbin of history 23 years ago, as the savior of the Chinese people! The Chinese patriots full of love for Chairman Mao and a deep hatred for Chiang Kai-shek, denounced all the crimes committed by the Chiang gang against the Chinese people. Expressing the sentiment of all of them, one student angrily spoke out: for all our lives you have oppressed us, now you come here again with the same intention?! Mr. Hsiang-chi Yeh, his bull-dog-a minister of the so called Taiwan embassy, and a local spy of KMT, Mr. Hu Cha-chi, disguised as "student" in the Department of Math., in front of such resolute denunciation completely took off their mask and showed their real mournful nature. They claimed, today China is in its weakest period and they are making preparations for a "take over from within": unite all the "anti-Mao" forces, launch a counter-revolution and "recover the Mainland". This plan is certainly not just a dream of the Chiang gang, but nothing else than yet another instance of the incessant maneuvering of its master U.S. imperialism! Dear Mr. Hsiang, in your plan you forgot only one thing: Chairman Mao is the most beloved person of the whole people in the world including the Chinese people, who are ready to defend their socialist motherland with more strength than ever. Further, China is today under the leadership of the Chinese Communist Party and Chairman Mao stronger than ever and it is not China that is weak but instead, is U.S. imperialism.

The hate of the Chinese students in front of such fascist arrogance became deeper and deeper. When Mr. Hsiang replying to a denunciation of a bloody massacre of 50,000 people committed by the Chiang armed forces referred to the "governments right to use force" to repress people's movements a student fiercely cried: "you are a fascist!" In front of such anti-fascist spirit these dogs lost their minds and fell into a frenzy; Mr. Hsiang said that it was late, that he had to meet Mr. A. Whiting, a notorious anti-communist China-scholar, in a room of an hotel in Detroit and took to his heels followed by his dogs.

The Ann Arbor Student Movement resolutely supports the anti-fascist spirit of the patriot Chinese students.

RACIST AND FASCIST PROPAGANDA IS THE
ESSENCE OF THE MOVIE "SYMPATHY FOR
THE DEVIL".

In the middle of December the movie "Sympathy for the devil" by Jean-Luc Godard was shown in the campus. The movie is a vicious racist and fascist propaganda presented under the camouflage of "artistically describing" the political movements in the U.S. In a decadent avant-garde style which reminds one of the Italian Futurists who opened the road to Mussolini's fascism in Italy, Godard viciously attacks the American people as being racist, reactionaries and war-lovers. According to him, as he has presented in the movie, the main contradiction in the U.S. is between the black people and white people: one is as racist as the other. His criminality goes far beyond this: he maliciously projects an image of the Afro-American people as wanton killers of innocent white people! This is a blatant fascist propaganda! Certainly the key of the bourgeoisie has of course failed to see that the Afro-American people have staunchly fought against racism and fascist oppression from the U.S. monopoly capitalist class and in doing so have contributed tremendously to the advancement of the revolutionary struggle of the whole American people. He has failed to see that the interests of white and black American people are identical and that the only way they can liberate themselves is to come under the leadership of the working class, overthrow the fascist regime of the monopoly capitalist class and establish the dictatorship of the proletariat, that is the working class as the ruling class.

Godard completely negates reality by blaming the American people for racism. No, dear Mr. Godard, the American people are not racist! You are the racist for propagating these ideas which serve the interests of the monopoly capitalist class, which is the root cause of racism. As Chairman Mao has pointed out: "RACIAL DISCRIMINATION IN THE UNITED STATES IS A PRODUCT OF THE COLONIALIST AND IMPERIALIST SYSTEM. THE CONTRADICTION BETWEEN THE BLACK MASSES IN THE UNITED STATES AND THE U.S. RULING CIRCLES IS A CLASS CONTRADICTION. ONLY BY OVERTHROWING THE REACTIONARY

RULE OF THE U.S. MONOPOLY CAPITALIST CLASS AND DESTROYING THE COLONIALIST AND IMPERIALIST SYSTEM CAN THE BLACK PEOPLE IN THE UNITED STATES WIN COMPLETE EMANCIPATION. THE BLACK MASSES AND THE MASSES OF WHITE WORKING PEOPLE IN THE UNITED STATES SHARE COMMON INTERESTS AND HAVE COMMON OBJECTIVES TO STRUGGLE FOR".

Through this movie, Godard attempts to create an atmosphere conducive to an escalation of the fascist attacks on the American people and to a drive for a racist war. No, dear Mr. Godard, your attempts, for which you are remunerated by your masters with "fame and honor" will not work and the only war that the American people will launch will be a revolutionary war against the monopoly capitalist class and to finally put an end to this system of exploitation of man by man.

Godard has a long tradition of serving the international bourgeoisie; we need only to remember his movie "La Chinoise" in which in the same avant-garde language he slanders the French people and especially the youth and students in their revolutionary struggle. So, Godard, the intellectual prostitute of the international bourgeoisie, passing as a "leftist" is an old hand at using the film art for the purpose on the one hand of promoting imperialist culture and on the other spreading slanders and confusion about communists and their revolutionary struggles.

In class society art and culture can only serve one or the other class; they either serve the bourgeoisie or the working class and oppressed people. The role of bourgeois art and culture is to perpetuate the rule of the bourgeoisie, that of the working class is to prepare ideological conditions and to facilitate their revolutionary struggle. Today, when more and more oppressed people come forward to struggle under the banner of communism, Marxism-Leninism-Mao Tsetung Thought, bourgeois art has to assume pseudo-left postures to mystify and confuse the nature of communism and communist movements.

Mr. Godard! you and your class have no destiny, the destiny is in the hands of the invincible proletariat which will finally put an end to the capitalist system, to the exploitation of man by man together with such reactionary "art".

DOWN WITH BOURGEOIS ART!

DENOUNCE JEAN-LUC GODARD
LOYAL SERVANT OF MONOPOLY CAPITALISM!

FIGHT THIS GROWING FASCISM ON
THE CULTURAL FRONT!

On November 28, 1972, the American Student Movement issued a statement supporting the struggles of students at Southern University and denouncing the fascist repression used against them, including the cold-blooded murder of two black students. A summary of the statement follows.

In the course of struggling against racial discrimination and the university curriculum denounced by the students as "geared to the continuation of the oppressive conditions that black and other poor people are subjected to", and for a greater say in university affairs, housing improvements, food and classroom facilities and the resignation of leading fascist administrators, the students were savagely attacked by the state government and the police. While deceptively holding negotiations with students at this predominantly black university, Louisiana Governor Edwards had police unjustly arrest several student leaders in the middle of the night. Not stopping at this, the government wantonly murdered two black students and wounded several others when fascist police fired shot-guns into a group of students. This is the latest in a long chain of fascist atrocities committed by the U.S. government against the black people.

The students at Southern University were not cowed down by these fascist attacks and held rallies and marches in both Baton Rouge and New Orleans to denounce the murders of their fellow students and continue their struggle. This struggle has been supported by rallies and demonstrations against racism and fascism at numerous schools across the country.

The ASM statement briefly outlined the history of American student struggles from 1957 (Little Rock) to the present and commented that all the fascist repression by the U.S. monopoly capitalist class has only served to move forward the struggle of American youth and students against racial discrimination, cultural oppression and fascist attacks. American students have not been cowed down and never will be by fascist repression. They are standing up to fight back heroically.

The statement concluded by saying that the major lesson to be drawn from this and other struggles is that under the rule of the U.S. monopoly capitalist class, the American people cannot hope for any reforms. "We have learned that the complete emancipation of black people and the destruction of the decadent bourgeois educational system can only take place with the overthrow of

the U.S. monopoly capitalist class and the elimination of the imperialist system."

SUMMATION OF THE FIRST PUBLIC MEETING OF THE ACADEMIC ACTIVITIES COMMITTEE.

The Academic Activities Committee (A.A.C.) recently formed held its first public meeting on Dec. 4, 1972; a summation of this meeting is here reprinted from the A.A.C.-Newsletter, No. 1, Dec. 12, 1972.

Topic: The problem of scarcity of natural resources.
Speakers: Prof. M. Ross - Department of Physics.
Prof. C. Olson - Department of Natural Resources

...The meeting started with the speech of the first speaker, Prof. Ross, who mainly directed his attention to the problem of raw materials and energy. He said that the limitation of natural resources is determined by the rate of consumption, by their finiteness in the earth and by the prohibitively expensive cost to extract them. Today, he added, there is not an absolute scarcity of natural resources but there could be scarcity in relation to a particular resource. For example in USA there is not yet scarcity of crude oil, but if the current rate of consumption continues, certainly in the near future there will be an actual scarcity of it; scarcity that will inevitably cause a conflict of interest between USA and other countries by the fact that for USA to continue to use oil at the same rate it will have to find any means to acquire it. In regard to nuclear power he said that, although it could be used to supply a great amount of energy it will inevitably bring in its wake social problems, for example its possible misuse, nuclear pollution, possible sabotage etc., and technical problems owing to its complexity. If this is the situation what can be the solution? The solution presented by Prof. Ross consists in working for a society in which there will be a better balance between the rate of consumption and the amount of natural resources; such goal will be reached starting with a moderation of the rate of consumption, a better distribution and a better utilization of waste. Generally, he finally said, we should use the energy available in a more efficient way.

The second speaker, Prof. Olson, stated that he had differences as well as agreements with what the former speaker had said. He then started (cont'd on page 7, column 1)

(cont'd from page 6, column 2)

ted by giving his interpretation of the development of the history of mankind. In essence he said that the difference between the social systems in other historical eras as for example, the slave society, and the actual social system in USA today is that in the former the people were exploited, while in the latter they are free from exploitation; but even today there is still a certain form of exploitation which, he said, is tourism. On the basis of these premises, Prof. Olson, went on to claim that there is no scarcity of natural resources but instead there is scarcity of people; there is a lack, he said, of people who "think". People who think of how to use natural resources not only for materialistic values but also for other values such as recreational and esthetic ones. But man is selfish by nature, he later added, and in the final analysis all problems mankind faces are due to this essence of human nature.

Then in a serious atmosphere the general discussion started with a participant who said that we already have the solution to the scarcity of natural resources, the solution is the full use of the technological capabilities. He emphasized that the scarcity of energy could be eliminated with an extensive application of nuclear power, which is rendered impossible in this country by the obstruction made by the capitalist corporations whose interests depend on the production of oil. The above views, as another participant pointed out, are inherently incorrect, because of the lack of consideration of the whole political and social reality. He pointed out, to discuss about natural resources the following three points should be fully considered: a) the enormous creativity of human labor to transform nature, b) the development throughout human history of the means of production and c) the whole socio-economic and political system that is subject to change. He supported his position with various examples such as: the great transformation of nature made by the labor of the Chinese people since liberation and the development of human production from the stage of hunting and fishing to that of cultivation of land. He further stressed that any theory that does not take into consideration the above three points cannot be considered as a scientific theory about natural resources as it does not reflect the concrete reality.

With regard to the question of famines that are seriously affecting some parts of the world today, especially India, on the one hand Prof. Olson stated that USA had the capability of solving the famine problem in India but she could not do it

because if she were to do so, it would affect the economy of some European countries who are at present exporting food to India. On the other hand, a participant said that the solution to the problem can only be accomplished by a "world socialist government". But these views were strongly contested by another participant, who pointed out that the real cause of famine in India is the exploitation and oppression of the majority of the Indian people, in particular the peasants, by the landlord and money-lender class and the only solution could come from the Indian people alone, in taking their destiny into their own hands, just as the Chinese people had done in solving their problems.

After the formal part of the meeting was concluded, people with great enthusiasm continued discussing their views informally.
