Practical Information	10
A Selection of American Books	11
Reports, etc.	12
Women's Liberation Groups and Contacts	13
Some American Women's Liberation Groups	14

INTRODUCTION TO SECOND EDITION

This booklist arose out of many requests for advice on reading matter on the subject of women's liberation. That it is needed is shown by the rapidity with which the first edition sold out. The list here has, besides some books so new that at the time of writing they are still on the "Books to Come" list, some very old books of rather limited interest; these latter are included both for the benefit of those doing research and to give some idea of the books written in bygone days. I have restricted the titles mainly to those mentioned in more modern works. American and other "foreign" books are restricted, too, otherwise the list would be far too long, and those included are those generally available in this country. No doubt there are many mistakes and omissions and I welcome corrections. I would also be grateful for details of books not mentioned in this list. As I have by no means read all the books, some are bound to be in the wrong category, or perhaps they should not be in the list at all.

The new edition is arranged under categories and contains about 100 more titles than the first. The list of Women's Liberation Groups has been enlarged, showing how much the movement is growing, even in a matter of weeks. A list of American groups is also included this time.

The "Recommended Books" are, of course, chosen from those I have read, so that I have found myself revising the list several times as my reading turns up something better! I have tried to choose books that are, above all, readable; no matter how worthy a book may be, if one cannot read it because of boredom, then it is useless. Unfortunately, to my mind the definitive book on the working women today has not yet been written, although several rather dull books covering some aspects of the question do exist. Another difficulty is that I read some of the books some time ago, so perhaps I am counting on the fact that I remember them at all to prove that they are interesting.

Finally, I would like to thank the staff of the Southall Central Library for putting up with me this past year, and for generally being so helpful.

Leonora Lloyd, November 1970

I. Women in the Past
