

Below: -

an outline of the National Education Office's recommendation for branch educationals. This is an "advanced" educational class - not meant for new worker members. Look this over. The EC recommends we use this outline, beginning with the branch meeting of May 2nd and continuing every branch meeting - one reading per session.

- 1- Ginsborg, the Politics of Lenin
- 2- Harman - How the Revolution was Lost
- 3- Fighting to Win
- 4- Lenin - State + Revolution Joel Dave
- 5- Harman - Party and Class - PRP ~~PRP~~
- 6 - Marx, Wage, Labour and Capital

Most of the members of this branch have already read the above. Nevertheless, the context of a political discussion illuminates many points that are often missed reading them by oneself. Consider the readings and the proposal, and we will discuss them at the next branch meeting -
