

# SUBJECT INDEX SPARTACIST— Autumn 1972 to Autumn 1980 (Issues Nos. 21-30)

This volume contains the issues of *Spartacist* (English edition) published from Fall [Autumn] 1972 (No. 21) through Autumn 1980 (No. 30). *Spartacist* is the theoretical organ of the international Spartacist tendency which is published with varied contents and frequencies in English, French, German and Spanish.

From its inception in 1964 until the inauguration of the monthly *Workers Vanguard* in October 1971, *Spartacist* was the publication of the Spartacist group (by 1966 the Spartacist League) in the U.S. Beginning with issue No. 21 in the autumn of 1972, *Spartacist* began to be transformed into a journal reflecting the program and work of the Spartacist tendency internationally.

Issues Nos. 21 and 22 continued to be published by the Central Committee of the Spartacist League. Issues Nos. 23 through 26 were published by the Interim Secretariat of the iSt. The issue immediately following the first delegated conference of the iSt in August 1979 (No. 27-28) was published by the International Secretariat of the iSt. Beginning with issue No. 29 (Summer 1980) *Spartacist* became the English-language organ of the International Executive Committee of the iSt and has remained so to date.

In addition to *Workers Vanguard*, the SL/U.S. has from time to time published pamphlets directed toward particular subjects of immediate concern. Some of these pamphlets could well have been published as *Spartacists* and will be included in the bound volumes. This volume contains the "Moreno Truth Kit," published in January 1980. The "Moreno Truth Kit" was first produced as an offset pamphlet in October 1979; we have chosen to include the second edition here because its format more closely corresponds to that of *Spartacist*.

## GUIDE TO THE SUBJECT INDEX

- The fullest listing is by SUBJECT. Subject headings are arranged alphabetically. Entries are listed under subject heads chronologically.
- The numbers following each entry headline give the issue number, date and page number(s) for the article. Thus:  
The Faces of Economism, No. 21, Fall 1972 (24, 22, 23)  
means the title of the article, Issue No. 21, Fall 1972, beginning on page 24 and continuing on pages 22 and 23.
- No entry is listed twice; see cross references for guidance in locating the subject head for particular articles. Cross references are of two types: those following the word "see" deal centrally with the subject head; those following the words "see also" are related articles. Subject heads in cross references are separated by a semicolon. Thus:  
Political Revolution—See China; Maoism; Poland.  
means that articles that deal with the question of political revolution can be found by going to the subject heads CHINA, MAOISM and POLAND.
- Individuals mentioned in articles are usually not listed separately unless the article is primarily about the given person. Entries relating to specific countries are listed under geographical headings. Articles concerning international political formations are listed under their organizational names; articles primarily about a national section of a political organization are listed under the appropriate country. General articles about the ostensibly revolutionary left are listed under LEFT ORGANIZATIONS.
- Contemporary studies on historical aspects of the Marxist movement are listed under HISTORY OF THE MARXIST MOVEMENT, while historical reprints are listed under ARCHIVES OF MARXISM.
