

WORKERS VANGUARD

1993 SUBJECT INDEX

1 January to 17 December 1993 (Issues Nos. 566-590)

GUIDE TO THE SUBJECT INDEX

- This subject index covers issues of *Workers Vanguard* published during 1993, from issue No. 566 (1 January) through the end-of-the-year issue No. 590 (17 December). During this time, *WV* was published biweekly.
- The fullest listing is by SUBJECT. Subject headings are arranged alphabetically. Entries are listed chronologically with two exceptions: all entries comprising a series are listed together immediately following the first entry of the series; corrections immediately follow the relevant entry. An asterisk (*) after the page location of an entry indicates that a correction follows.
- Entries are listed under subject heads. In some cases, subject heads are broken down into subcategories. These subcategories are listed immediately after the initial subject head and preceded by a dot (•). The numbers following each entry headline give the issue number, date and page number(s) for the article. Thus:
GM Declares War on the Workers, #566, 1 Jan. (12, 11)
means the headline of the article, issue No. 566, 1 January, beginning on page 12 and continuing on page 11.
- No entry is listed twice; refer to cross references for guidance in locating the subject head for particular articles. Cross references are of two types: those following the word "see" deal centrally with the subject head; those following the words "see also" are related articles. Subject heads in cross references are separated by a semicolon. Thus:
Elections—See **New York City; U.S.: General.**
means that articles on elections can be found by going to the subject head **NEW YORK CITY** and by going to the subject head **UNITED STATES** and looking under the subcategory **General**.
- Individuals mentioned in articles are usually not listed separately unless the article is primarily about the given person.
- Entries relating to foreign countries are listed under geographical headings and not necessarily under any other subject heading. Unless listed separately for some unusual reason, all foreign political organizations are listed under appropriate countries, while U.S. political organizations are listed under their organizational names.
- Articles on the various countries in the Confederation of Independent States (the former Soviet Union) are now listed under their individual names (e.g., **RUSSIA**, the **UKRAINE**); the Soviet Union category exists only as a cross reference to articles that relate to the country prior to the triumph of counterrevolution. Articles on the various countries that once comprised Yugoslavia are now listed under **BALKANS**.
- Abbreviations used in entries are:
C: Correction S: Series
L: Letter YSp: *Young Spartacus* article
R: Review
