

# SUBJECT INDEX

Workers Vanguard—6 January to 15 December 1978 (Issues Nos. 187-221)

## GUIDE TO THE SUBJECT INDEX

• This subject index covers issues of *Workers Vanguard* published during 1978, from issue No. 187 (6 January) through the end-of-the-year issue No. 221 (15 December). During this time, *WV* was published weekly from issue No. 187 through issue No. 208 (2 June) and biweekly beginning issue No. 209 (16 June). This single index covers two volumes: No. 8 (6 January-5 May) and No. 9 (12 May-15 December).

• The fullest listing is by SUBJECT. Subject headings are arranged alphabetically. Entries are listed chronologically with two exceptions: all entries comprising a series are listed together immediately following the first entry of the series; corrections immediately follow the relevant entry. An asterisk (\*) after the page location of an entry indicates that a correction follows.

• Entries are listed under subject heads. In some cases, subject heads are broken down into subcategories. These subcategories are listed immediately after the initial subject head and preceded by a dot (•). The numbers following each entry headline give the issue number, date and page number(s) for the article. Thus:

Miners on the Attack, #192, 10 Feb. (12)

means the headline of the article, Issue No. 192, 10 February 1978, page 12.

• No entry is listed twice; refer to cross references for guidance in locating the subject head for particular articles. Cross references are of two types: those following the word "see" deal centrally with the subject head; those following the words "see also" are related articles. Subject heads in cross references are separated by a semi-colon, while subcategories of subject heads are separated by a comma. Thus:

Carter, Jimmy—See U.S.: General, International Relations.

means that articles on Carter can be found by going to the subject head UNITED STATES and looking under the subcategories General and International Relations. Likewise,

Teamsters—See Supermarket Workers; Truck Drivers.

means that articles on the Teamsters can be found by going to the subject heads SUPERMARKET WORKERS and TRUCK DRIVERS.

• Individuals mentioned in articles are usually not listed separately unless the article is primarily about the given person.

• Entries relating to foreign countries are listed under geographical headings and not necessarily under any other subject heading. Unless listed separately for some unusual reason, all foreign political organizations are listed under appropriate countries, while U.S. political organizations are listed under their organizational names.

• Specific defense cases (e.g. Philip Allen) will be found under CIVIL LIBERTIES: Cases.

• Articles on historic aspects of the Marxist movement are listed under HISTORY OF THE MARXIST MOVEMENT, while reprints from writings of particular individuals are listed under ARCHIVES OF THE MARXIST MOVEMENT.

• Abbreviations used in entries are:

C: Correction                      R: Review  
L: Letter                            Sup: Supplement  
S: Series
