GUIDE TO THE SUBJECT INDEX

- This subject index covers issues of *Workers Vanguard* published during 2000, from issue No. 727 (14 January) through the end-of-the-year issue No. 748 (15 December). During this time, *WV* was published biweekly, except skipping three alternate issues in June, July and August.
- The fullest listing is by SUBJECT. Subject headings are arranged alphabetically. Entries are listed chronologically with two exceptions: all entries comprising a series are listed together immediately following the first entry of the series.
- Entries are listed under subject heads. In some cases, subject heads are broken down into subcategories. These subcategories are listed immediately after the initial subject head and preceded by a dot (•). The numbers following each entry headline give the issue number, date and page number(s) for the article. Thus:
ANC Regime Cracks Down on Township Poor, #727, 14 Jan. (12, 11)
means the headline of the article, issue No. 727 dated 14 January 2000, beginning on page 12 and continuing on page 11.
- No entry is listed twice; refer to cross references for guidance in locating the subject head for particular articles. Cross references are of two types: those following the word "see" deal centrally with the subject head; those following the words "see also" are related articles. Subject heads in cross references are separated by a semicolon. Thus:
Nader, Ralph—See **International Socialist Organization; U.S.: Elections**. See also **Quote of the Week**.
means that articles about Ralph Nader can be found by going to the subject head **INTERNATIONAL SOCIALIST ORGANIZATION** and by going to the subject head

UNITED STATES and looking under the subcategory **Elections**. Related articles can be found under the subject heading **QUOTE OF THE WEEK**.

- Individuals mentioned in articles are usually not listed separately unless the article is primarily about the given person. Foreign political organizations are generally listed under appropriate countries, while U.S. political organizations are listed under their organizational names.

- Articles relating to foreign countries are listed under geographical headings and not necessarily under any other subject heading. Articles which deal centrally with U.S. foreign policy and threats or acts of war involving the U.S. will be found under **U.S.: International Relations**. Articles on this year's presidential campaign are listed under **U.S.: Elections**.

- The periodic columns by death-row political prisoner Mumia Abu-Jamal are listed under the subject heading **ABU-JAMAL** in the subcategory **Message from Death Row**; articles on his case and the campaign to free him are in the subcategory **Defense Campaign**.

When articles are reprinted and/or translated from the press of other sections of the ICL, the name of the press will appear in parenthesis following the headline of the entry.

- Articles on the protests against the IMF, World Bank, WTO, etc., which occurred internationally, are listed under **"GLOBALIZATION" PROTESTS**.

- Abbreviations used in entries are:
