

### AS WE SEE IT

By T. J. O'FLAHERTY.

JOHN SPARGO, writing in the Outlook, declares that socialism is obsolete. Spargo made his point in many years telling quite the reverse, but the outbreak of the European war aroused his John Bull spirit and he became one of the champions of democracy, represented by the British Empire. John has his price of war. He was on the payroll of the British government before the United States entered the war and he has since then not one penny from any of the...

SPARGO'S article shows light on the nationality of socialist parties. He tells of his visit to Sweden in 1920. While in that country he saw Premier Branting, socialist, who he intended to go to realize the socialist ideal. "Nothing at all" replied Branting. That same day he saw a program of maintaining the Swedish rate of exchange and in general a program that any white yard would support militarily. In fact the king was one of Branting's strongest supporters, a fact which was taken by the Premier Branting, socialist, as an indication that there was a split in the ranks of European monarchy, a costly number of them being ready to join the socialist democracy.

It is undoubtedly true that Branting and every other socialist premier succeeded in making their countries safe once the war did nothing to advance the socialist ideal. On the contrary they were the most willing agents of capitalism. Witness Kautsky, MacDonald in England and the Polish, Austrian and Czech-Slovak socialist. But Spargo has no word for Russia where the workers have ruled for over seven years and where they work for a more just and fair wage built. And should some one say that Communism has been a failure in Russia, we reply that Communism has never existed in Russia, but that the workers have all power in their hands and are advancing the Communist goal ideologically as well as industrially.

SOCIALIST parties are obsolete but not socialism. It may seem like a paradox, yet it is true that socialist parties have played the role of executioners of socialism, while the Communist parties who are successfully playing the role of the executioners of socialist parties are the deliverers of socialism. The capitalist system in Germany has failed and cannot maintain itself in power but for the assistance rendered to it by the socialist parties of Europe and the American capitalists. Spargo may console himself with the fact that socialism has not been realized in America before his carcass is turned to dust. In the meantime he intends to live the life of a prostitute.

A LOCHRAY, editor of the Mid West News, and a former booster of the former labor party, later of the Follette booster and still later a Calvin Coolidge booster, (he can't sink any lower) is now one of the most of the capitalists into believing that they are confronted with an immediate danger which must be met by the appropriate expenditure of cash given to worthy persons like the aforesaid Lochray. This fakir has turned his tag into a red halibut about almost exclusively. So far he has not proceeded by the change. Formerly the Mid West News carried the news that now it hurls the eye only once a month. Let us hope he makes it a year.

THE CINCINNATI INQUIRER recently published an article by one of the Chicago Tribune's correspondents, which states that a Communist International has ordered a revolution to take place in Italy in the next month of March. The story does not give the exact hour or minute in which the outbreak is to take place, nor is it very close to it. It will take place in the second or third week in March. It is also interesting to note that the main object of the Trotskyist and Communist party is to "beat the Czech between Trotsky and the Communist party" (the article that Trotsky is added to sulky (Continued on page 2).

### Results of Membership Meetings

SOUTH BEND, IND.—By mistake the Workers Party of South Bend, Ind., called a meeting of the City Central Committee instead of a general membership meeting. But after listening to Comrade Minor speak for the minority and Comrade Bay for the majority, the City Central Committee voted unanimously, eight to nothing, to support the majority. The committee met January 2.

GARY, IND.—On Saturday, January 3, Gary's general membership meeting, after listening to Comrade Bay for the minority and Comrade Swaback for the majority, voted 16 to 5 to support the majority.

### MINERS URGE SUPPORT FOR LABOR DEFENSE

#### Protest Michigan Rule As Spurious

That the white terror of the capitalist dictatorship is rousing the workers to a realization of the threat against every worker existing in the "criminal syndicalist" laws, is seen by the first resolutions beginning to come in protesting against the Michigan state supreme court in sustaining the conviction of C. E. Ruthenberg and opening the way for the appointment of William Z. Foster, William P. Danno and the other Michigan defendants.

Illustrative of the rising protest is the resolution, printed below, from the United Mine Workers of America, Local No. 275, at Christopher, Illinois. It is to be noted that these coal miners call upon labor to support the La Follette Council, 166 West Washington street, Chicago, Illinois, in the fight against the capitalist persecution of the defendants.

WHEREAS, the state supreme court of Michigan has upheld the conviction of C. E. Ruthenberg for "assembly" and the conviction of William Z. Foster, William P. Danno and the other Michigan defendants for "conspiracy"; and WHEREAS, the state supreme court of Michigan has upheld the conviction of C. E. Ruthenberg for "assembly" and the conviction of William Z. Foster, William P. Danno and the other Michigan defendants for "conspiracy"; and WHEREAS, the state supreme court of Michigan has upheld the conviction of C. E. Ruthenberg for "assembly" and the conviction of William Z. Foster, William P. Danno and the other Michigan defendants for "conspiracy";

WHEREAS, the sustaining of Ruthenberg's conviction by the United States supreme court will mean also the ratification to long terms in prison of William Z. Foster, Wm. P. Danno and 25 other well known movement; and WHEREAS, the sustaining of Ruthenberg's conviction by the United States supreme court will mean also the ratification to long terms in prison of William Z. Foster, Wm. P. Danno and 25 other well known movement; and WHEREAS, the sustaining of Ruthenberg's conviction by the United States supreme court will mean also the ratification to long terms in prison of William Z. Foster, Wm. P. Danno and 25 other well known movement;

RESOLVED, That we protest against and condemn the action of the Michigan supreme court in sustaining its own conviction of the defendants in support of the Labor Defense Council in this case and call upon all labor bodies and working class bodies to take the same stand; That we petition the governor of the state of Michigan to pardon the defendant in the event that the United States supreme court sustains the conviction; and we urge that such action on the part of the federal supreme court would be a multiplicity of wrongs to the workers and he further urges that the Michigan state resolution be sent to the governor of the state of Michigan and the labor party.

Leon Gremling, President, 400 Johnson, Recording Secretary, 400 Jobsse Per Week SEATTLE.—Unemployed workers meeting held at 1221 1st street, Seattle, Wash. Work on record in the largest scale on record is in operation.

Are You Going to the Open Forum Sunday Night?

### NEW GERMAN CABINET TO BE DICTATORSHIP

Von Seeckt Is Hope of Reactionaries BERLIN, Jan. 4.—The social-democratic party which ruled Germany under the revolution that sent the Kaiser to Holland no longer carries any figure in the Reich government. It is true Ebert still remains, but he is a puppet. The yellow paper "Mittelsachsen" in the last election, when Ebert was elected to fill out the term, depicted the most conservative collection that appeared on any government list since the fall of the Kaiser. The new cabinet formed by Marx is a non party affair and because of its weakness it is to be expected that majority it is proposed to equip it with dictatorial power.

### MINERS DIE IN BLOW UP OF UNSAFE POCKET

#### Coal Mine Was Old and Gaseous

(Special to The Daily Worker) W. FRANKFORT, Ill., Jan. 4.—One coal miner is dead, another is dying, and several were severely injured here when a fall of coal in some old and unsafe workings of Mine No. 19 of the Industrial Coal company caused an explosion.

The workers of the mine were filled with grief. The safety laws were directly violated when the men were allowed to work in a mine in which there was a fall of coal in some old and unsafe workings of Mine No. 19 of the Industrial Coal company caused an explosion.

### 'NATIONALIZATION OF CHILDREN' AND BOLSHEVISM, TOO!

#### Capitalist Arguments on 20th Amendment

Falling Coal Releases Gas NEW YORK, Jan. 4.—The falling coal released a pocket of gas, which rushed into the entry where the men were on their way to work, being treated when it came in contact with the lamps of the miners.

The Illinois law requires that the mine be thoroughly inspected before the men are allowed to enter, and if a fall is found in the mine, the men must be kept out of the workings. This law was evidently violated, according to the news dispatches. The United States department of labor, in a recently issued report, declares that many of these reports are avoidable, if the coal operator would employ the scientific methods of laying excessive coal and methods of reinforcing the sides of the entries to the extent that the operators have not done. This department of labor admits, and hence is creditable to the state, that increased in 1921.

### PETTY BOURGEOIS FIGHT FOR PLACE WITH PLUTES ON NEW GERMAN CABINET

#### (Special to The Daily Worker)

BERLIN, Jan. 4.—Germany on Monday will have a new cabinet in place in session without a cabinet to direct the government's policies. This situation was announced by Chancellor Marx again referred to President Ebert that he would not form a new cabinet. The reason, he said, was that the central party is insistent on a coalition with the workers' party. Marx said, refused to listen to any other plan. Marx has announced the plan to make the new cabinet even more conservative than the old.

### WORK OR PAY!

#### SAN FRANCISCO POLICE FORCED TO FREE 2 MEMBERS MOONEY'S UNION

SAN FRANCISCO, Jan. 4.—Unable to secure any evidence to connect them with the attempted shooting of W. J. Hamilton, open shop iron workers' officer, who has released Earl Parents and Hugh Hansen of the molders' union. Parents was recently beaten up in the street by unknown assailants, supposed to be gunmen hired by the open shop employers, against whom the molders' union has declared a strike.

### FRENCH BID ON DEBT NOT ACCEPTABLE

#### Infinitesimal Interest and 50 Years to Pay

(Special to The Daily Worker) WASHINGTON, Jan. 4.—Administration officials today envisioned a long and tedious period of negotiation over the funding of the \$4,000,000,000 French war debt. If the Clemenceau note, now reported en route to Washington, bears out the summaries of that have been published in press dispatches from Paris, it is considered a foregone conclusion here that the terms proposed by France will prove wholly unacceptable to the United States. These terms are understood to be: 1. A moratorium of ten years. 2. An interest rate of one-half of one per cent. 3. Payments to be made over a period of 50 years.

### DELEGATES FIGHT UNSEATING REDS IN FEDERATION

#### Military Training Camps Are Denounced

The mere talk of expelling Communists from the Chicago Federation of Labor was met with such indignation in the federation meeting yesterday. Only one delegate, who started the motion, had the courage to mention it, and he was talked down by every one else who spoke. Likewise the motion to unseat the military training camps given by the federal government to the A. F. of L. convention delegates, among these great many delegates, among these great many delegates, among these great many delegates.

The state department announced today that at the meeting of the allied finance ministers at Paris next Tuesday, the United States would be represented by Ambassador Frank B. Rowley, at London, Ambassador Myron T. Herrick at Paris, in addition to Col. James A. Logan, the customary "unofficial observer" at European gatherings. Last the presence of three such distinguished American diplomats would engage in a discussion of American war debts.

### GERMAN 'DEMOCRACY' IN LAST PHASE; 22 PARTIES CONTESTED RECENT ELECTION, END IN SIGHT

#### (Special to The Daily Worker)

BERLIN, Dec. 16 (By Mail).—The elections are over. The old cabinet has gone. Tomorrow the social-democratic party (the party of the center) or Stresemann (people's party), or some other agent of the heavy industry, to form a new cabinet. The triumphant tones of the social-democratic party have vanished in sobriety has returned. The Communist Party is still in existence—without the disappointment of the whole bourgeoisie, but particularly of the social-democracy. 2,750,000 workers and peasants voted for the Communist Party and its open revolutionary program. The Communist Party will live and grow; it cannot be crushed—not even by a white terror as it is at present raging in Germany. The 20 million voters who went to the polls have received another valuable lesson in the progress of democracy. The "stabilized" German republic is still writhing in agony. No problem has been solved by this election, no contradiction eliminated.

### RUTH FISCHER ARRESTED IN AUSTRIA

#### At the Instigation of the British Government

(Special to The Daily Worker) BERLIN, Jan. 4.—Ruth Fischer, leading figure in the German Communist Party, was arrested in Vienna on Saturday morning on a charge of crossing into Austria on a false passport and of registering under a fictitious name. Comrade Fischer is a native of Austria and has made frequent trips to her native country previous to her deportation. It is freely stated here that the arrest was made at the instigation of the British government, which has long been economic stranglehold on Austria and is now busy perfecting a cord of Balkan states for hostile action against Soviet Russia.

FRENCH REFUSE TO TALK CASH; ASKS QUESTION

U. S. Demands Return of Blood Money

(Special to The Daily Worker) PARIS, Jan. 4.—The French government will never pay a franc of its war debt to the United States if it can possibly avoid doing so.

This is the only conclusion to be drawn from the statement of a high official of the French foreign office when he declared that he did not see any reason why France should pay the bills for a "common war."

It appears that France has made an effort to liquidate its debt to the United States. But considering the condition of capitalism in Europe, the effort is tantamount to repudiation.

Light Payments. The payment will be spread over a thirty-year period. The first payments being rather light, a sum of \$100,000,000 during the first twenty years.

RAIL UNIONS BACK OUT OF THIRD PARTY MOVEMENT AND ADVOCATE "ANCIENT REWARD AND PUNISH"

(By LAURENCE TODD (Federated Press Staff Correspondent) WASHINGTON, Jan. 4.—Recommendations of the 35 associated railroad labor organizations relative to the part in the convention called by the conference for progressive political action on Feb. 21 in Chicago.

Signed by Officials. The report is signed by H. K. Willis of the Locomotive Engineers, Edward Keating, manager of Labor, Detroit weekly national paper, and H. M. Jewell, president railway employees department of the American Federation of Labor.

After reviewing the action of the national committee on Dec. 12, when 13 votes were cast against the convention, the report recites a long list of reasons for the withdrawal.

It is just like the "reward and punishment" of the national committee, which could not and would not become parties to the formation of a political party.

Claim Release from the Rides. The report states that the railroad workers will become full back of the revolution.

It is just like the "reward and punishment" of the national committee, which could not and would not become parties to the formation of a political party.

ARNOLD SOMMERLING

Joined the underground Communist Party of Estonia, in 1920.

On the 15th of April, 1921, the police raided this union, arrested the majority of the C. E. C. members.

He did not cease his activities, and on the third week after the raid, he was arrested.

He was sentenced to 10 years of hard labor. He was expelled by the Soviet government for his activities.

CIRCULATION OF 500,000 SHOWS PRAVDA'S GROWTH

(By ERIC VERNEY (Special to The Daily Worker) MOSCOW, Jan. 4.—On December 2 the circulation of Pravda reached 506,546 copies.

This record-breaking achievement is a landmark in the history of the world revolutionary press, especially as the circulation last January stood at not more than 125,000.

During the current year, daily sales reached the following figures:

Table with 2 columns: Month, Circulation. January: 126,234; February: 147,212; March: 167,246; April: 187,246.

These remarkable figures speak for themselves. Pravda in 1924.

We can only realize the full significance of these figures when we compare them with those of 1912, when the Pravda following in the wake of the liberal Bolsheviks began its "forward" and "backward" days.

12-Page Issue On the First Birthday of the DAILY WORKER.

THE issue of January 13 will be heaped full of facts and features—all fully illustrated with cartoons to best celebrate the very first birthday of the DAILY WORKER. Comrade Bob Minor's splendid cartoons will be a leading feature. A review of the past year of American labor in general and the Workers Party in particular—plus the part, the DAILY WORKER has played in both—will be another feature. Special contributions by Wm. Z. Foster, Wm. F. Dunne, J. Louis Green, T. J. O'Flaherty, Manuel Gomez and others among the best writers in the labor movement will add their share to the first birthday celebration. Give this issue to a worker and you assure the DAILY WORKER a new reader—and your branch of the party a new member. BUNDLE ORDERS MUST BE IN BY SATURDAY, JANUARY 10. PRICE 2 CENTS PER COPY. Name your order as large as possible and send it in with your remittance attached to this blank. THE DAILY WORKER Chicago, Ill. Here are my birthday greetings in a remittance of \$ for which you will send me a bundle order of copies of the January 13 issue. NAME STREET CITY STATE

# Division of Labor in the Tasks of the Farmer-Laborer in Massachusetts

**IN** going over carefully the "catechism" conducted jointly by Comrades Lovestone and Bledsoe, we find that the DAILY WORKER was particularly interested in their strenuous efforts to bring forth by a majority vote the tremendous sentiment for a farmer-labor party in this country.

They began by stating "Now for some outstanding facts showing the strong endorsement of sentiment for the building of an independent political party—in the ranks of the masses." No, under the question they give: "In the conference for progressive political action of Massachusetts, the vast majority of the farmer-labor party as against a fraudulent liberal third capitalist party were present and clear." Had our central executive committee given the party members in Massachusetts the same guidance instead of our course of phrases in a tape worn manifesto, the party could have struck a blow for the farmer-labor party and could have established our leadership amongst an increased mass of workers in the Bay State.

One in Frisco would imagine after this product of Communist propaganda that the party was incidentally there was no textile workers present! What a more strongly than the northwestern farmers in the peasant revolt of 1921. But we get the same sort of spin as I happened to see. The implications of the minority are clear. The fact is that the party associated from any blind faith in telephatic catechisms.

The committee for progressive political action recently held a conference in Boston. To this conference were eleven delegates from the ranks of sympathetic fraternal organizations, and one or two progressive workers from the American Labor Workers of America. At a meeting of the party delegates, the comrades present knew that the party would be in the committee for progressive political action. Comrade Bledsoe, our central executive, laid out the policy of our party was in a situation of this kind. He sent a party member to the national office asking for this information.

## THE C. E. C. IS CORRECT

**By HEINZ SCHROETER.**

THE Workers Party is now in a lively discussion over the C. E. C. (majority) thesis on the immediate tasks of our party. Shall we raise the slogan of a farmer-labor party or not? The majority say "no" and the minority say "yes."

The conditions that justify the use of a farmer-labor slogan are: Are the conditions in existence or not? Is the condition in existence or not? Even the minority thesis states that the LaFollette movement has developed into a definite form and established its leadership over the petty-bourgeois forces of a class party. Then will the slogan of a farmer-labor party be raised in the ranks of the LaFollette illusions? The minority thesis states that the petty-bourgeois forces of the trades union bureaucracy with the petty-bourgeois will make an entering wedge between the working masses and their treacherous leadership. The slogan will make "an entering wedge" and destroy the LaFollette illusion in the working masses.

Let Comrades Ruthenberg, Lovestone, Bledsoe, Engdahl and Gitlow go among the working masses and preach their gospel and we will follow them. They will get it. It is true that they will get a few who will follow them. But the farmer-labor party, these few who have arrived at such a conclusion are not the only ones and they did not raise a farmer-labor party, but on the back of the LaFollette movement, also known as the working class party, we will be ready to build up a class farmer-labor party, with the following conditions:

1. The LaFollette movement has developed into a definite form and established its leadership over the petty-bourgeois forces of a class party. Then will the slogan of a farmer-labor party be raised in the ranks of the LaFollette illusions? The minority thesis states that the petty-bourgeois forces of the trades union bureaucracy with the petty-bourgeois will make an entering wedge between the working masses and their treacherous leadership. The slogan will make "an entering wedge" and destroy the LaFollette illusion in the working masses.

## THE RIGHT TO LEADERSHIP; WHAT IS A COMMUNIST PARTY?

**By MORRIS CHILKOFF.**

THE working class, namely its most advanced, intelligent, self-organizing, and therefore, self-organizing. The Communist Party, differs from the general mass of the workers in that it has the historical march of the working class and at all turns and in every detail of its work, it is the working class and is the leader of the working class.

The Communist Party is the organized political lever by means of which the most advanced part of the working class leads all the proletarian and semi-proletarian masses.

The Communist Party is to be the class, who the interests of the body. If separated, they cease to function.

The working class is not a casual episode. It is what is any other war. The Communist Party is the general staff, the guide and the leader of the proletarian battalions in its struggle against capitalism.

**Strategy and Tactics.**

In war we lay out strategic plans and tactics which are valid for the whole period of the war, and not for that period. The most important task of strategy is to ascertain the main line of the war, by the working class movement, the line most advantageous for enabling the

## Our Wayward Majority Shouts "Stop This"

**By HERBERT BENJAMIN.**

NOTHING has contributed so much to develop our political movement in the life of the laborer as the campaign that the farmer-labor party has conducted in the past few months. It is through this campaign that we have been able to engage in building a "reformist" slogan and practice among the masses of workers and farmers. The campaign for the farmer-labor party must be continued as a major campaign of our party in the future.

The above is a summary of a statement published by our C. E. C. some time last August. It was part of the program of our party at present, at the questionable method used to induce our members to abandon a major policy and fundamental concept of Communism. Knowing this, Comrade Foster, I am not surprised, I am simply more determined than ever to help to move such comrades from positions of responsibility.

It is a policy approved by the Comintern and raised by two party conventions as non-Communist. It is a policy which, according to the members to justify their abandonment of the F. L. P. campaign, are much better off if we don't bother with it.

The members of the majority suddenly made the discovery that we were organizing a rival party to the farmer-labor party. It is through this campaign that we have been able to engage in building a "reformist" slogan and practice among the masses of workers and farmers. The campaign for the farmer-labor party must be continued as a major campaign of our party in the future.

The above is a summary of a statement published by our C. E. C. some time last August. It was part of the program of our party at present, at the questionable method used to induce our members to abandon a major policy and fundamental concept of Communism. Knowing this, Comrade Foster, I am not surprised, I am simply more determined than ever to help to move such comrades from positions of responsibility.

## OPEN LETTER TO COMRADE FOSTER

**By ISRAEL AMTER.**

**D**EAR COMRADE FOSTER—You and your group in the party maintain that you represent the Bolshevik section of the party. You declare that we "do not want a united front with the farmers in the ranks of the party in your hands."

You contend further that your group contains the active trade unionists in the party. Let us look into the matter. You declare that you represent the Bolshevik section of the party. You declare that we "do not want a united front with the farmers in the ranks of the party in your hands."

You contend further that your group contains the active trade unionists in the party. Let us look into the matter. You declare that you represent the Bolshevik section of the party. You declare that we "do not want a united front with the farmers in the ranks of the party in your hands."

You contend further that your group contains the active trade unionists in the party. Let us look into the matter. You declare that you represent the Bolshevik section of the party. You declare that we "do not want a united front with the farmers in the ranks of the party in your hands."

Comintern, "failed to maintain a Communist program" against the very comrades who fought against his deviation, as non-Communist, is carried out together to the masses.

To have comrades adopt the policy of one who has been declared by the C. E. C. as a "reformist" slogan, is to attempt to prove that the group opposed to the right to leadership is depending too much on the gullibility of the membership.

It is our belief that we must abandon the farmer-labor party campaign because there is no sentiment for it among the masses, and thus provide as a substitute labor congresses, which the proposition with very rich imagination, but are in no means practical.

The present majority have without doubt, done great injury to our party. They have already delayed considerable activity in furtherance of our program, and they have cast reflections upon the integrity of many of our most able and "trusted" comrades, but they cannot succeed in covering up their errors by shouting "Stop This!"

The party convention and the Comintern will decide who the real leadership of the party is. The majority and non-Communist are.

## English Branch of Washington, D. C., Is For Majority Thesis

WASHINGTON, D. C., Jan. 1. (By Mail)—The English Branch of the Workers Party discussed the majority thesis of the Comintern at its meeting on January 1. At the conclusion a vote was taken, resulting in 8 votes for the C. E. C. majority thesis and 6 votes for the thesis of the minority. Several members did not vote.

## Yonkers Hungarian Branch Is Unanimous For Majority Thesis

At the last meeting, held on Dec. 30, the Yonkers Hungarian Branch of the Workers Party discussed the majority thesis of the Comintern and the minority thesis and decided unanimously 13 to 0 in favor of the majority thesis.

## Remember These Dates

Jan. 11, Sunday afternoon and evening, Press Pageant and Paris Commune Celebration, Madison Square Garden.

Feb. 15, Sunday afternoon, Lenin Memorial, Madison Square Garden.

Feb. 16, Sunday afternoon and evening, Press Pageant and Paris Commune Celebration, Madison Square Garden.

## Subscribe for "Your Daily"

The entire New York organization is expected to co-operate in the following affairs. All affiliations with the C. E. C. and also the minority thesis are requested to arrange contacting dates.

Jan. 11, Sunday afternoon and evening, Press Pageant and Paris Commune Celebration, Madison Square Garden.

Feb. 15, Sunday afternoon, Lenin Memorial, Madison Square Garden.

Feb. 16, Sunday afternoon and evening, Press Pageant and Paris Commune Celebration, Madison Square Garden.

## CENTRAL BUREAU OF ETHNONATIONAL SECTIONS WITH THE MINORITY

The Central Bureau of the Ethnonational sections of the Workers (Communist) Party, at its meeting held on Dec. 23, 1924, after discussing the thesis presented by the majority and the minority of the Central Executive Committee, decided to create the Central Bureau of the Ethnonational sections.

The Ethnonational Bureau of the Workers (Communist) Party agrees with the minority thesis of the C. E. C., which aims at the unity of the workers and poor farmers in a political party.

## with the program of the Workers (Communist) Party

We do not share the opinion of the majority of the C. E. C. to the effect that LaFollette killed the farmer-labor party. We believe that the LaFollette movement is "dead." We believe that the majority of the C. E. C. instead of encouraging the organized and unorganized workers and the poor farmers to make their class consciousness and also make it possible for the Workers (Communist) Party. The winning over of the masses of workers and the poor farmers to the Workers (Communist) Party will help to make the party a strong and well-organized party capable of leading the class struggle in the United States.

It is our opinion, it is necessary to get the slogan of the "farmer-labor party." We understand that if we organize such a party, it will be the best way of bringing the organized and unorganized workers and the poor farmers to make their class consciousness and also make it possible for the Workers (Communist) Party.

The winning over of the masses of workers and the poor farmers to the Workers (Communist) Party will help to make the party a strong and well-organized party capable of leading the class struggle in the United States.

## Amsterdammers Nervous

It is amusing to observe the antics of the Amsterdammers when any of their number appears to be, by reason of wide-rank and life pressure, driven over to the left enough to make some speeches with a class struggle, not to say a Communist, tone. The executive of the Amsterdam International met at that city on December 1, while the cables were burning with the news from Moscow that the British labor delegation, visiting the Sixth All-Russian Congress of Labor Unions at Moscow, had imbibed of the Bolshevik atmosphere and were in both speech and writing letting the Soviet government as the force of the world and the citadel of working class emancipation.

The British delegation, it must be remembered, was headed by Purcell, who is also the president of the Amsterdam International, and who was invited to the burrah in Moscow for everything he saw in the land of proletarian dictatorship.

The remaining members of the Amsterdam organization, huddled under the wing (the right wing) of Holland and Oudegast in the little seaport of Holland, looked on with an amazing amount of consternation. "What bug had bitten Purcell? The British will bring ruin upon us!" Thus we conceive the thoughts of the nervous reformists at the solution of their president by the wily Bolshevik.

But, as Losovsky of the Profintern says, "When ever there is a particularly dirty piece of business to do, the Amsterdammers assign Oudegast to the job." Oudegast is the most able reactionary of the three secretaries of the Amsterdam International. So, in his secretarial capacity, Oudegast made up the press report which goes to all the world, telling of what the Amsterdam executive thinks of such goings on. And this is what we find on page one of Press Report 49:

"With regard to the attitude of Purcell in Russia, it was pointed out in the discussions of the executive, that Purcell did not go to Russia as representative of the I. F. T. U. (Amsterdam International), and that therefore he is only personally responsible for his utterances in or about Russia."

Again, on page two we find the following disclaimer of any "official" conversations between Purcell and the Russian unions regarding the burning question of world unity of all labor unions: "The president of the Amsterdam International, who is at present in Russia as leader of the delegation of British, trade unions to that country, has on several occasions spoken of the relations between Amsterdam and Moscow, and in the press these speeches have been connected with the negotiations between the I. F. T. U. and the Russian trade unions. It is obvious that the negotiations with Moscow are conducted by the Amsterdam executive exclusively on the basis of the Vienna resolutions, and that no definite resolution can be taken before the meeting of the I. F. T. U. general congress, which has been fixed for the beginning of February."

This does Oudegast rescue the fair name of Amsterdam and wash his hands of responsibility for the Amsterdam president who appears afflicted with the "virus" of Moscow.

But the masses continue to go left.

## Let the Scissors Talk

A disingenuous attempt by an Associated Press commission is making the rounds of Russia in search of local color to embellish his lying campaign against the Soviet Republic. He has already painted the Ukraine and Georgia. He is now doing Kazan, in the Tartar Republic. It is interesting to note what Kazan has to say, instead of arguing with him we use the scissors.

"The granite and bronze monuments to Alexander II, and other historical figures of Russia have been worked and replaced with harsh Communist features of workmen. From all flagpoles the red flag of the revolution flies. To many it is only that grim reminder of the spiritual death of the city, which has been in Russia's possession since the days of Ivan the Terrible."

"That is sad, indeed." No doubt the American workers will weep soft tears when they learn that the wretched figures of Russian workers are substituted for the mile-wide face of the czar. But the worst is yet to come:

"The churches present an especially melancholy sight. They are in full process of decay. The workers are to pour their offerings. Many of them have closed their doors. Others have been converted into Communist clubs or barracks. The correspondent visited the largest of the churches, the famous convent of the Virgin Mother, where mass was in progress. The priests and nuns were more numerous than the congregation, which numbered exactly six persons."

The scissors are eloquent. Comment would be like painting a rummy's nose.

## Hoover Is Cheerful

New Year's day finds the American people living better than at any other period in the history of this country, declares the rotund Herbert Hoover in a booster interview to a news distributing agency. The people live longer and better, their living standards are going up so rapidly that within a short time every man's home will be his castle in the literal sense as the workers are no longer satisfied with hall bedrooms in which a person cannot even change his mind without scratching the walls of his brain cell. The workers are now demanding flats and individual homes and they are getting them, according to the jolly Hoover.

He will be exciting news for the thousands of unemployed miners in Illinois, for the thousands of unemployed textile workers and for the hundreds of thousands all over the country willing to work, but who cannot work because the boss who owns the shops will not permit them.

This country is wealthy. On that point we are in perfect accord with Herbert Hoover. But the wealth of this country was built by the workers and we believe it belongs to the workers.

The New Year's resolution that Hoover would like to see passed is that he be thankful for being alive. The people live longer and better, their living standards are going up so rapidly that within a short time every man's home will be his castle in the literal sense as the workers are no longer satisfied with hall bedrooms in which a person cannot even change his mind without scratching the walls of his brain cell. The workers are now demanding flats and individual homes and they are getting them, according to the jolly Hoover.

That party is the Workers' (Communist) Party, Republic of America.

## The New Suicide Squad

Dispatches tell of the arrest of Comrade Ruth Fischer, of the German Communist Party, in Vienna. The dispatches state that the arrest was ordered by the British authorities and that it is part of a new drive against the Communists throughout eastern Europe and particularly in the Balkans.

On page two we stated that the four of Austria Chamberlain, British foreign minister, the four European capitals, the Vatican was included for the very good reason that it insists on being declared in on any dirty work that is on foot, for the purpose of organizing a new offensive front. So, in his secretarial capacity, Chamberlain made up the press report which goes to all the world, telling of what the Amsterdam executive thinks of such goings on. And this is what we find on page one of Press Report 49:

"With regard to the attitude of Purcell in Russia, it was pointed out in the discussions of the executive, that Purcell did not go to Russia as representative of the I. F. T. U. (Amsterdam International), and that therefore he is only personally responsible for his utterances in or about Russia."

Again, on page two we find the following disclaimer of any "official" conversations between Purcell and the Russian unions regarding the burning question of world unity of all labor unions: "The president of the Amsterdam International, who is at present in Russia as leader of the delegation of British, trade unions to that country, has on several occasions spoken of the relations between Amsterdam and Moscow, and in the press these speeches have been connected with the negotiations between the I. F. T. U. and the Russian trade unions. It is obvious that the negotiations with Moscow are conducted by the Amsterdam executive exclusively on the basis of the Vienna resolutions, and that no definite resolution can be taken before the meeting of the I. F. T. U. general congress, which has been fixed for the beginning of February."

This does Oudegast rescue the fair name of Amsterdam and wash his hands of responsibility for the Amsterdam president who appears afflicted with the "virus" of Moscow.

But the masses continue to go left.

The new public of Mongolia is showing a tendency to follow in the footsteps of Soviet Russia. This is putting it mildly, judging from the fact that the new public of Mongolia is following in the footsteps of the Soviet Republic.

The American capitalist press, formerly enthusiastic supporters of Mussolini (with few exceptions), has received his latest dose to suppress the organs of the workers. We do not ignore the enthusiasm. Even Arthur Brisbane failed to rise to the occasion.

# Concentrated Propaganda, Incorporated

By MORITZ J. LOEB.  
VERY few realize the significance of the changes which have been effected recently in our party with regard to the party press. The past time serious efforts are being made to concentrate the party's English language press; to bring into one organization the activity of the various organs of the party; to employ powerful organizers, educators and propagandists of our party; THE DAILY WORKER and a building, THE DAILY WORKER and a national headquarters, THE DAILY WORKER.

Monthly and the Literature Department. More exactly stated, for the first time these various efforts are bringing real results. For the truth of the matter is that the plans and the resultant efforts were started more than six months ago these are now beginning to bear fruit.

### Why Centralization?

A YEAR ago the party press situation was a model of decentralization and disorganization. We had weekly Worker with its editorial and administrative departments in one place. THE DAILY WORKER, THE DAILY WORKER and the press work was done in still another. There were three monthly magazines, each with its own editorial staff. The Labor Herald, The Liberator, and Soviet Russia Pictorial, all had their own editorial departments and all making separate printing arrangements. There was the Literature Department also apart from the rest of the party press. The result of all this was that a great deal of money was being wasted every year in the payment of wages alone to thousands of workers who were necessary perhaps to turn out the work were a needless drain on the party's resources.

Combined with the extravagant and wasteful expenditure of money in the most confusing and chaotic system of distribution imaginable. The result was that the various magazines were administered in a haphazard manner, each for the attention and active support of the party members. Below were the various members, discouraged and demoralized, for the most part inactive in the most important tasks of the party.

THE WORKERS MONTHLY is in its third issue. Already it has more than twice the circulation of any of its predecessors. This is not to be taken as a reflection on the Labor Herald, The Liberator or Soviet Russia Pictorial centralization is the reason.

CENTRALIZING THE WORKERS MONTHLY has been the first big step in the general centralization program. The advantages of this program are many. It has already been said that the party press is going to work two ways. First of all, it is to be a more efficient organization and efficiency of this distribution machinery and secondly to be a more efficient organization and constant improvement of the circulation building activities.

Communist movement, the distribution of the party press. The result was that might have been expected. In the past the party press was scattered in various institutions of the party was an year being made. Instead there was a great deal of money being spent in circulation all down the line.

THE first step which made centralization possible was to declare to the party that THE DAILY WORKER and a building, THE DAILY WORKER and a national headquarters, THE DAILY WORKER.

Monthly and the Literature Department. More exactly stated, for the first time these various efforts are bringing real results. For the truth of the matter is that the plans and the resultant efforts were started more than six months ago these are now beginning to bear fruit.
