WORKERS PARTY ENTERS CHICAGO CITY ELECTIONS

Securing Signatures Is Our Immediate Job

In the coming aldermanic elections on February 24, 1925, the Workers (Communist) Party, Local Chicago, is entering candidates in various wards. The immediate task of the Workers Party and Young Workers League members will be to get sufficient signatures to place the Communist candidates on the ballot. Time is short. Only a short time is available for this purpose, and comrades therefore must get busy immediately and go out every day in their locality to get necessary signatures. Every petition must be in the local office, 166 W. Washington St., Room 305, by FRIDAY EVENING JANUARY THE 23rd. The number of signatures required varies in each ward according to the size of the ward. An average of about 800 signatures is necessary in each ward to get on the ballot. If the comrades will be properly active, all capitals of the wards have been fully supplied with blank petitions of the Workers Party and Young Workers League have branch election committees to function in the territory assigned them and every member of the party has been assigned to cover certain territories. Get signatures on petitions and should arrange to cover that territory immediately.

Report Once a Week. Members should not delay when they have gotten the lists filled but should report at least twice a week to their branch committee.

This is a non-partisan election, that is the names of our candidates do not appear as running under the label of the Workers Party, but should report at least twice a week to their branch committee. This is a non-partisan election, that is the names of our candidates do not appear as running under the label of the Workers Party, but should report at least twice a week to their branch committee.

Every registered voter and citizen living in a ward and who has not signed any other petition for another election is eligible to sign petitions to place our candidates on the ballot. Comrades in securing petitions should make certain of the fact that the signer has not signed for another candidate, otherwise the name will be thrown out. Also comrades should see that the signer gets his full name and address on the petition and is duly qualified citizen and voter in that ward. Carry Daily Worker Bundle. In connection also with the immediate drive to place the Communist candidates on the ballot, we are conducting a DAILY WORKER drive. Every comrade who goes out to secure signatures must take a bundle of THE DAILY WORKER with him and must leave a copy at each place he visits. Also comrades are to take subscriptions to THE DAILY WORKER and there is every possibility of excellent success for THE DAILY WORKER campaign. This is done carefully and systematically.

Dock Strike Ties Up Tasmania; Two Thousand Stranded

(Special to The Daily Worker) HOBART, Tasmania, Jan. 7.—Tasmania is threatened with a shortage of food and other necessary supplies because of a dock strike, which has completely tied up all commerce. Over 2,000 visitors and tourists in Tasmania are stranded, and some whose business is pressing have chartered steamers.

ANOTHER STRIKER MURDERED IN THE ANTHRACITE REGION

(Special to The Daily Worker) SCRANTON, Pa., Jan. 7.—Steve Frely, 21, miner, was shot to death while standing with a group of striking miners in front of a car of Old Fingers, near here early today. Frely was the second striker at Pennsylvania's Great company to be murdered within 24 hours in this region.

CAPITALISTS IN CONFERENCE TO DISCUSS SPOILS

Revisit Scenes of the Versailles Pact

(Special to The Daily Worker) PARIS, Jan. 7.—The thieves have gathered to quarrel, in a polite way, over the plunder. Representatives of the twelve allied robbers, including six finance ministers, assembled in the famous clock room of the foreign office palace and were called to order at 3 o'clock. Recalls the Dead. It is the same room where the three old men, now either dead or politically dead—Wilson, Lloyd George, and Clemenceau, drew up the language of the famous Versailles treaty of 1919. The specific purpose, it was announced, was to make a division among the allies of German reparations payments on the basis of the Dawes' plan.

States Has Something Else. European states do not conceal, however, the most important question to be discussed is the problem of the allied war debts. In spite of the fact that it is not mentioned in the official agenda, it is to be discussed.

Plan to Claim Debt Cuts. All delegations except the American are anxious to begin the discussion of the thorny debt question. The solution of the problem, it is held, depends entirely upon the solution of the French war debts to the United States and Great Britain. The American and British delegations have been told that their countries will receive what they depend upon what concessions are received by France from her creditors.

Opposition to Funding. One thing that appears certain to the funding of the \$7,000,000,000 which France owes the United States and Great Britain is an antipathy to the French as the cancellation of that debt is unacceptable to the American and British taxpayers.

French newspapers, regardless of political opinion, approve of the idea of a complete restoration, and they have much to do with the education of public opinion.

Frenchman and Briton Clash. A highly important talk between Finance Minister Clementel of France and Winston Churchill, British chancellor of the exchequer, was held this forenoon.

Mr. Churchill opened the discussion by setting forth the well-known British standpoint that Great Britain must receive from her war debtors sums equivalent to those she must pay the United States.

The French finance minister's reply was that the French were obliged to take exactly the same attitude, that France likewise could not forgive her debtors while obliged to pay her creditors.

American Pressure Charged. Up to that point, it appears, the conversation was easy in tone. It grew more difficult when Mr. Clementel began to place responsibility for the diminution in reparations payments on the shoulders of the American, charging it to the other allied powers. Mr. Churchill, France's finance minister, Clementel, was elected unanimously to the presidency of the international conference, however, on the motion of Churchill.

Yes, Mussolini—RED GUARDS!

TEXTILE STRIKE SPREADS THROUGH NORTHERN ITALY

Mussolini Disarms Anti-Fascist Troops

(Special to The Daily Worker) ROME, Jan. 7.—A strike in the textile industries which began at Breda, has spread throughout the northern part of Italy. The textile employers have declared a general lockout. Mussolini, learning that the Italian troops are sympathetic to the workers and peasants, and are ready to fight against the fascists, has begun to disarm all national troops. General Diaz and General Giardino the two leaders of the army, are against the fascist government.

All Communist Party branches have been raided and declared "dissolved" by order of Mussolini. The socialist and liberal parties and associations have also been "dissolved". The newspaper Gazzettino di Venezia was burned to the ground in Venice and the newspaper Gustavia was suppressed by the prefect of Milan.

The fascists have so far raided 625 private homes and suppressed over 200 opposition organizations. Rioting and general unrest are on the increase. Outposts occurred in Milan, Carrara, Ferrara, Florence and Venice, and for a time were beyond police control.

Ex-Prisoner Salandra's change from support of the fascist to the opposition has caused a division in the liberal party. Some of the liberal deputies have passed to the opposition with Salandra, while others are remaining with the fascist party. The fascist liberals are now being led by ex-fascist Salandra, who resigned from the cabinet to relieve Mussolini of embarrassment.

Foreign newspaper correspondents in Rome have been hounded by the fascist police. Their homes have been raided, their offices searched, and several of them placed under arrest.

"Polisukba" is coming to Gertrude Independent Theater, Jan. 15.

"EXPULLED" LEFT WINGERS STILL IN UNION; OTHER MEMBERS ARE FORCING HANDS OF OFFICIALS

The officials of Local No. 181 of the carpenters' union are in an awful pickle, they have been in this pickle for quite some time, in fact it dates back to the time when W. L. Hutchison, general president and Harry Jensen, district president, signed a "Landa" "open shop" agreement without the consent of the rank and file.

A few weeks ago they decided to end their troubles by expelling the reds, but these damned reds refused to be expelled and herein lies the story. They have been denied a working card, but they still work, they have been denied the new pass word but they still attend the union meetings.

Furnishing Comedy. Monday night one of the supposed expelled members asked the chairman why he refused to give them the pass word and yet allowed them to attend the meetings. The president was stamped, he said he did not know. However the answer to this puzzle is, that the members would not allow the expelled members to be removed.

Some time ago one member was fined one dollar and another two dollars for daring to defend the expelled members, last night by motion the members renited the fine. The fight has continued on (Continued on Page 2.)

New York Express and Western Indiana Train Collide; Four Injured

Stand by the Michigan Defendants!

A Statement by the National Executive Committee of the Young Workers League

YOUNG Workers and Communists of America! The sentencing of the executive secretary of the Workers (Communist) Party of America, C. E. Ruthenberg, to a prison term of from 3 to 10 years, and a fine of \$5,000, is the beginning of a new ferocious drive against the entire working class movement in this country.

The revelation of Coolidge, the republican arch-reactionary tool of imperialism, has given impetus to renewed persecution not only against the Communists but also against every section of the labor movement, against every attempt of the workers to better their conditions. It means a more concentrated drive by the bosses of America to lower wages, increase the working day, and break (up the trade unions); it means the increase of exploitation and more energetic preparations for new imperialist wars.

Young workers of America! As that section of the working class which suffers the greatest in the industries, mines and fields, which is the first to be dragged into capitalist wars, which is discriminated against in almost every field of industry—both in the trade unions and in the shop—it is your duty to rally to the defense of the revolutionary leaders of the working class. The persecution of the Michigan Communist defendants is an attack on the entire working class.

Unite against the persecution of Communist and all other right workers in the shop!
Demand the abolition of all criminal syndicalism laws and the release of all political prisoners!
Demand more wages and longer hours instead of lower wages and longer hours!
Join the struggle to abolish child labor!
Abolish the discrimination against young workers in the unions and in the shops and mines!
Unite for the six-hour day and five-day week for all young workers!
Join the Young Workers League for the struggle against capitalism, the exploitation of the young workers, and the coming of new imperialist slaughters!
YOUNG WORKERS LEAGUE OF AMERICA,
John Williamson, National Secretary.

BIG QUARREL AMONG LOOMS IN THE DIPLOMATS

For the First Time Nobody Talks

(Special to The Daily Worker) PARIS, Jan. 7.—A lull before the storm atmosphere prevailed in Paris this afternoon as time brought to ever closer the opening tomorrow of the allied financial conference.

In diplomatic circles there was a distinct feeling of expectancy and, for the first time since the war debt situation became a controversy no foreign representative was willing to talk.

United States Ambassador Kellogg arrived from London this afternoon. He would not discuss the situation. It was thought possible, however, that a statement outlining American policy on payment of the war claims through the Dawes plan would be forthcoming.

U. S. Wants \$905,000,000 Reparations America's fight to obtain \$905,000,000 as full reparation of the war debt was the chief concern for the cost of the American army of occupation at the Cobden building will be tomorrow, when the second financial conference convenes.

The United States claims \$320,000,000 for damages to persons and property by Germany during the war, and \$275,000,000 for keeping the Doughboys on the Rhine for five years.

The finance conference must decide whether the French will be permitted to continue to deduct the cost of the Ruhr armies of occupation from the cash and material reparations due. The Ruhr between January, 1923, and September, 1924, or whether all the proceeds shall be lumped together and divided pro rata.

Readjust Percentages. Then the finance ministers must re-adjust the allied reparations which reduces the total indemnity Germany was ordered to pay by the 1923 agreement from 132,000,000,000 gold marks (\$220,000,000,000) to an intermediate figure, generally set at 400,000,000 gold marks (\$111,000,000,000).

The fixation and deduction of various priorities must also be determined including the American claim for priority for the cost of the Cobden garrison under the Versailles agreement, and the expenses of various commissions.

The total of these priorities exceeds 400,000,000 gold marks (\$111,000,000,000), so for a few years the Allies will have only 500,000,000 gold marks (\$137,500,000,000) to divide for actual reparations.

The American delegates, Ambassador Myron T. Herrick, Ambassador Frank H. Kellogg, and Col. James G. Thompson, are instructed not to permit any discussion of America's war debts, and to insist on a settlement of the United States' claims.

Latest Train Theft Up to \$500,000 Loss Postoffice Guess

CHICAGO, Jan. 7.—The loot taken from the Chicago and North Western No. 12, which was robbed Sunday night, has been estimated by Chicago police to amount to between \$250,000 and \$500,000, postoffice inspectors estimated today.

The car, the hands loaded with mail, was seized and contained valuable parcels of various kinds, it is estimated, more than half the contents.

Just where the robbery occurred has not been ascertained. It is believed until the train reached the depot. The robbers are believed to have climbed aboard the train near the left Omaha and with boys to the strong boxes, worked leisurely, as the train moved slowly.

Soo Line Passenger Train Ditches and Seriously Injured

ESPANANHA, Mich., Jan. 7.—Efforts to rescue 140 seriously injured persons were hindered, first seriously when the Soo line passenger train derailed Sunday night, and when the train derailed near the depot. The seriously injured were taken to the hospital in the city. The train was carrying 140 passengers, including 100 children, when it derailed near the depot.

RUSSIAN LAND NOW OPEN FOR THE ONCE PROSCRIBED BREASTS

MOSCOW, Jan. 7.—In addition to the 80,000 acres set aside recently by the government for the Jews on 250,000 acres of land, the government has now opened the Russian land now open for the once proscribed breasts. This is for the Jewish small town population of small traders and artisans which is being started out by the growth of cooperatives and government factories, as well as by the policy of the government toward private trade. THE TEXTILE WORKERS MUST FIGHT AGAINST SLAVE CONDITIONS

Capitalist Imperialism Turns Its Force Against Textile Workers; Other Industries Will Follow; Nothing But a Militant Class Struggle Can Save the Workers. Unite With the Workers (Communist) Party for the Political and Industrial Struggle. Class Statement of the Workers (Communist) Party of America.

(Vote out! Longer hours! Speeding up! That is the message delivered by the textile bosses, united in their National Association of Textile Manufacturers, to the workers, men, women and children, who work in the textile mills of America.

Do you not know that the infamous Dawes Plan, which the German capitalist class has put into effect, crushes the textile workers of Germany and from there, proceeds to crush the textile workers of France, England, and America? Do you not know that the slave wages of the German workers, enforced by the Dawes Plan, is now used as the excuse to drive YOU down to the level of the German workers?

You must unite for the immediate struggle against the textile bosses by amalgamating all your little separate unions into one solid and powerful organization.

You must organize the unorganized textile workers! And above all you must join with your fellow workers in all other industries in the general struggle of the working class against the capitalist class.

You must join in the revolutionary struggle of the workers of the world against the slave-pact of the Dawes Plan! You must prepare to take your part in the struggle of the working class to wrest the power of government out of the hands of your enemies, the bosses.

Organize the unorganized! Strike against all wage cuts and lowering of conditions! Unite with the revolutionary workers around the Workers (Communist) Party of America for the overthrow of capitalism, for the Workers' and Farmers' Government.

ANTHRACTITE MINERS FIRM IN DEMAND FOR CONVENTION AND QUICK SETTLEMENT OF GRIEVANCES

(Special to The Daily Worker) PITTSBURGH, Pa., Jan. 7.—The anthracite miners are firm in their demand for a convention and the quick settlement of their grievances. The miners, now in the seventh week of their strike for adjustment of local grievances, are demanding a special district convention to take action on the original grievances and to reconcile the ten local unions with the district and international organizations.

This convention demand is more in the nature of a ultimatum, for the miners, who are in the midst of their strike, demand a special district convention to take action on the original grievances and to reconcile the ten local unions with the district and international organizations.

The demand for a convention is coming in the shape of uniformly worded resolutions, which the strikers and the men employed by other companies. Officials Oppose Convention. The strikers' union board will continue opposing the demand for a special convention.

In the meantime, the strikers are demanding a special district convention to take action on the original grievances and to reconcile the ten local unions with the district and international organizations.

Let Workers Emulate in their Battles Deeds of Liebknecht, Luxemburg

By J. LOUIS ENGDAAHL. TODAY, the current issue of the Workers' Weekly, the official organ of our British Communist Party, arrives at the various immediately centers in a cartoon entitled "The Change."

It shows on the one hand the veteran fighter of the working class, J. Keir Hardie, who died on the eve of the world war, declaring, "CAPITALISM IS OUR ENEMY!"

And on the other hand there is pictured a motley crew labeled "The Mutual Admiration Society." It consists of the present-day labor leaders in Britain, such as MacDonald and Clynes, standing on the same platform with the anti-labor reactionaries. Hundreds of thousands of workers, all hysterical proclaiming, in chorus, "COMMUNISM IS OUR ENEMY!"

That is "The Change"—from Hardie's "Capitalism is our enemy," to MacDonald's "Communism is our enemy!" This change, crystal clear in all capitalist nations, becomes the theme for the tremendous Communist demonstrations planned over the anniversary of the martyrdom of Karl Liebknecht and Rosa Luxemburg.

The assassination of Liebknecht and Luxemburg, under the regime of the German social-democrats, is the logical culmination of the war declared on militant labor by the class-collaborating reactionaries. Hundreds of thousands of working class fighters have been martyred by this fascist-socialist alliance against the workers' social revolution.

Keir Hardie and Jean Jaures opposed the oncoming capitalist war. Yet they did not live to raise the standards of revolution in France and Great Britain.

It was in Berlin, however, the seat of power of the kaiser and German capitalism, that Liebknecht and Luxemburg, by the overthrow of the kaiserdom, struggled for the creation of the German Soviet Republic.

First they were arrested and imprisoned, then brutally murdered under the Ebert-Scheidemann-Noske regime.

The echoes of the revolver shots that ended the heroic lives of Liebknecht and Luxemburg, but emblazoned their names on the minds of the world's working class forever, are heard on this side of the Atlantic.

It was in the United States of Europe, the official regime of organized labor joins with capitalism in the cry, "Communism is our enemy!"

The U. S. labor officialdom joins the so-called "socialist" regime of Calles, Cortes, and Carranza, in Mexico, declaring "Communism is our enemy!"

Therefore the answer must come loud and clear, true to the western world, from the masses of exploited workers and poor farmers—COMMUNISM MAY BE THE ENEMY OF CAPITALISM, WITH ITS LABOR SOCIALIST REACTION ALIVE; BUT FOR THAT VERY REASON COMMUNISM IS THE SALVATION OF THE WHOLE WORKING CLASS.

On this Sunday, Jan. 11th, let the tolling masses join in the many Communist demonstrations wherever keeping alive, not only the memories of Liebknecht and Luxemburg, but the memory of accused labor into the capitalist camp in this country.

Remember the deeds of Liebknecht and Luxemburg by emulating them in the struggle against American capitalism.

REvolutionary YOUTH OF WORLD IN TRIBUTE TO LIEBKNECHT, LUXEMBURG

The revolutionary youth of the world will pay tribute to two great working class leaders, Karl Liebknecht and Rosa Luxemburg on January 11. It is now six years since these two comrades were foully murdered by the socialist henchmen of German imperialism. During that period the working class has suffered untold hardships.

The Communist Party has endured oppression equal only to that of the Russian revolutionaries under the czar. This persecution and imprisonment has been the lot of the Communist Party in every country.

The Young Communist International calls upon the entire working class youth to join in the celebration of the anniversary of the death of Liebknecht and Luxemburg.

POSTAL WORKER FIRED FOR HIS UNION ACTIVITY

Demand for Wage Raise Called Disloyal

(Special to The Daily Worker) ST. LOUIS, Mo., Jan. 7.—A demand to settle for a living wage; it's fully," said Theodore F. Kaiser, a railroad mail clerk, who was fired for his removal from the service for alleged "disloyalty and antagonism to the government."

Kaiser is chairman of the Allied Postal Legislative committee, a federated body of postal employees in charge of activity in behalf of the postal wage bill.

Heard Union Committee. Kaiser headed a committee, which has "lost touch with the public," in behalf of a postal wage raise. No other postal workers in the country are the postal workers more active than Kaiser.

The federated committee has made visits to labor organizations which resulted in telegrams and other communications pouring to Missouri several times a week.

Kaiser has been in the mail service for 23 years, during which time he often has demonstrated the extent of his knowledge of the postal work by working for almost unbelievable periods during emergencies without rest.

He was fired for his activity upon employees in the St. Louis district, where he was the alleged "disturber of the peace" for 15 hours in one 15-hour stretch.

BOSSSES IN BIG CAMPAIGN ON U. S. CHILDREN

Only One State Has Yet Ratified Proposal

(Special to The Daily Worker) NEW YORK, Jan. 7.—The capitalist class and their agents are making the most formidable drive to defeat the ratification of the child labor amend-

ment ever organized by the exploiting classes in America.

During the present month 40 different legislatures will act on the proposed amendment to the constitution, which would give congress power to limit, regulate and prohibit the labor of persons under sixteen years of age.

One State Ratified. So far only one state, Arkansas, has ratified the amendment. Three states—Georgia, Louisiana, and North Carolina have passed it.

Among the powerful organizations that desire to see the blood of America's youth converted into gold for the use of our parasitic class is the Roman Catholic church. This cardinal O'Donnell, that politician-religious corporation waged a bitter campaign in the recent elections against child labor, declaring the law to be against the interests of religion. As the interests of organized religion and those of the capitalist are identical it is not surprising that the cardinal had to give the bible in order to find the theological justification for his attitude.

Defending Big Biz. All the big business institutions and the voluntary stooges such as the American defense society, the senate of the republic, the national league and others of the same stripe pretend to look on the harmless amendment as a most dangerous and perilous interference with the rights of the capitalists.

The American farm bureau sees in it an interference with the "beneficial activities of the farm boys and girls." The American Federation of Labor is as usual making a bluff at fighting for the amendment. But outside of an occasional milk and cream canner, from whom donations are being taken, no one is doing.

Stop Women's Night Work. PARSIPPANY, N. J. Night work for New Jersey women was outlawed last fall, between the hours of 10 p. m. and 4 a. m., as the nonsect-work women law went into effect. Many women plants are objecting. The law was passed by the 1923 legislature.

More Textile Wage Cuts. WHITEHALL, Mass. Over 700 textile workers received notice that 10 and 12 per cent wage cuts were coming in the Linwood and Saundersville cotton mills owned by Arthur P. Winn.

WHISPERED SCANDAL AGAINST POSTAL CLERKS' UNION ADMITTED FALSE BY THE ADMINISTRATION

By LAURENCE TODD (Federated Press Staff Correspondent)

WASHINGTON, Jan. 7.—By open confession of the administration itself the scandal which was whispered about the postal employees had broken a senate committee employe for \$10,000 to help them pass the salary increase. The man who has been dismissed or suspended for alleged complicity in the deal was a boss, who has been unjustly hostile to the postal employe's union. When it is remembered that this scandalous attack on the unions was put in circulation by the same man who presided over the session from the president himself, the quality of the Coolidge method of dealing with wage questions may be understood.

Fidelity Make Protest. When the names and positions of the alleged parties to the transaction with the senate committee employe, government servant, was a formal protest against the false impression created by the whispered scandal was made. This protest was signed by the National Federation of Postoffice Clerks; Edw. J. Gilmer, president of the National Association of Letter Carriers, Wm. H. Collins, president of the Railway Mail Association, and Victor H. Stoenferf, representing the National League of Dist. Postmasters.

The organization involved, they said, was the National Association of Supervisory Employes, is composed of many of the supervisory officials in the first and second class offices. The subordinate clerks, carriers and other postoffice workers are not eligible for membership in this organization. These subordinate groups have separate organizations of their own, many of which are involved in these charges.

In private industry these supervisory officials would be classified as employers or with the managerial or boss group.

Cost Using The Park. Seventy-three senators voted for the bill last May. The votes of pairs of 49 are needed to re-pass the bill over the veto. Coolidge is working upon many of the 73, to get them to raise their vote. Patronage was always been effective in fights of this kind. The White House has a long list of profitable jobs to award to our loyal senators who see the Coolidge light, or to friends of senators who will give an office, and are treatable. Comparison of the original roll-call with the one about to be taken will indicate how far the light has penetrated.

Add to Government Lunchrooms. MOSCOW.—The government dining houses, established a year and a half ago by the soviet, and are profitable, well-cooked meals to the workers. They have now a chain of 150 restaurants, which will then have special facilities for workers. They expect to open 400 more in 1925 in the city industrial region.

COAL BARONS AND FAKERS WAR ON PROGRESSIVES

Use Capitalist Press Against Militants

(Special to The Daily Worker) MARTINS FERRY, Ohio, Jan. 7.—The fakery in control of the Miner's Union in eastern Ohio, evaporated at the first puff of the radicals in the recent election. The miners, who were the hostility of the capitalist press in order to strike back at the miners, are now being used by the coal barons to attack the progressives.

The progressives who are trying to take the union out of the hands of the coal barons are using their own personal aims as distinguished from "subversive" aims.

Fakers Break Laws. The fakery who claim that the radicals are not violating the laws of the union. This is being done by the coal barons who trample on any law that does not suit them. The following article, taken from the Martins Ferry Times, shows to what desperate straits the Lewis henchmen are driven.

"Circular letters giving the standing of the sub-fiducial officers of the union, taken from the Martins Ferry Times, shows to what desperate straits the Lewis henchmen are driven."

Fear Next Convention. Prior to the election the administration officers of the union had circular letters had been sent out denouncing the officials and praising opponents. But these were disregarded. With the election now over, sub-fiducial officers have issued a circular letter to the members of the union, asking in making what is described as the "disgraced element of the organization" to the principles of the organization.

President Lovinsky names certain political activities of the union, as a result of the situation, combined with the fact that many of the defeated candidates appear to have been elected, the fact that many of the defeated candidates appear to have been elected.

BRITISH LABOR DAILY SAYS GOMERS WAS A "PILLAR OF CAPITALISM" AGAINST CHANGE

(By The Federated Press) LONDON, Jan. 7.—Samuel Gompers was a pillar of capitalism, declares The Daily Herald, organ of the British labor movement, in attempting to explain to its readers how the late American Federation of Labor chiefdom could at the same time be a labor leader and a bitter foe of socialism.

"Many minds" comments The Daily Herald, "reluctant to people not very closely acquainted with the American scene, must have been puzzled by the statement that the late Mr. Samuel Gompers, so long America's labor leader, was a vehement opponent of socialism."

"Labor and socialism have now been placed on an equal footing, meaning the same thing. In the United States they have been very different things. In the United States they have been very different things. In the United States they have been very different things."

"Labor leaders of the Gompers type, on the contrary, regard it as a dangerous brand. They therefore find it impossible to understand how anyone could wish to alter the system which has made Mr. Ford and Mr. Rockefeller and about two dozen others 'the richest man in the world' and which enables the makers of skilled workers to own motor cars."

"Most Americans sympathetic with the demand of the workers for a decent life. It is someone else will arrange for it. It is someone else will arrange for it. It is someone else will arrange for it."

"As Mr. Gompers and his like worked hard to prevent business being interfered with and set their faces against any change that they regarded as pillars of the capitalist system. That is indeed, exactly what they did."

"Not that we complain of this, or even claim any right to criticize. Conditions in their country have been different. It is someone else will arrange for it. It is someone else will arrange for it. It is someone else will arrange for it."

"The executive committee of the I. F. T. U. discussed at its meeting of December 1, our letter of October 23, 1924."

"It has been changed by pressure of events. Twenty-five years ago the I. F. T. U. was a union of workers. It has since become a union of capitalists. It has since become a union of capitalists. It has since become a union of capitalists."

GERMANY DENIES ALLIED CHARGES AS "POOR LIES"

Appeals to U. S. Interests Against Allies

(Special to The Daily Worker) BERLIN, Jan. 7.—A storm of protest has been aroused in the German press by the allied note "explaining" the delay in the evacuation of Col-

"The ambassador's note assured the allies that Germany had not lived up to the Versailles treaty, but had continued the manufacture of war materials and the storage of arms and munitions in quantities far above those permitted by the treaty."

"The only exception to the general protest was the socialist Vorwarts, which declared, 'Compliance with allied ordinances and redressing of their grievances, is justified, in the only way towards evacuation.'"

"The nationalist press, on the other hand, has been denouncing 'peace news' and urges an immediate reply, 'ignoring the allies with flagrant violation of the Versailles treaty. The point out that Germany's officers may be taken for the retention of a guilty conscience.'"

Appeals to American Imperialism. "The 'Lokal Anzeiger' characterizes the allied note as 'a poor lie covering a cowardly fear. What else America in this infamous violation?'"

MARXISM OR PSEUDO-MARXISM?

Notes on the "Mardian Trunk" and a Primary on the Marxian Role of Our Party.

By M. J. B. GIN.
We are the Marxists of the party," says the minority. "We are the Marxists of the party," says the majority. It is easy to confuse Marxism. But Marxism is not a confession of faith. It is a method of investigation. It is a method of investigation of social conditions. It is a method of investigation of social conditions. It is a method of investigation of social conditions.

This little essay wishes to suggest that the leader of the minority, John Pepper, is a pseudo-Marxist. It is a pseudo-Marxist because it opens a case for it which is the moving spirit of the Marxian group. If the minority calls itself the Marxian trunk, then John Pepper is actually the mardian trunk. It is the root is hollow, then there is something the matter with the trunk.

How did John Pepper apply the Marxian analysis to the present United States? It must be remarked that the application of Marxism to the United States is a pseudo-Marxism. "It is well known, comrades, to know what is Leninism," said N. K. Krupskaya the widow of the Russian leader. "It is well known, comrades, to know what is Leninism," said N. K. Krupskaya the widow of the Russian leader. "It is well known, comrades, to know what is Leninism," said N. K. Krupskaya the widow of the Russian leader.

Subsequent events have proven that it was a pseudo-Marxism. It was a pseudo-Marxism because it was a pseudo-Marxism. It was a pseudo-Marxism because it was a pseudo-Marxism. It was a pseudo-Marxism because it was a pseudo-Marxism. It was a pseudo-Marxism because it was a pseudo-Marxism.

"When a Communist makes such a statement before the party, it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism.

"It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism.

"It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism.

"It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism.

"It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism.

such immense migrations, such deep changes in the manner of living of such great masses of people could be made in the short period of only three years. It was a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism.

John Pepper not only made the mistake of heralding the lifeless organ of the mass party of American workers and farmers. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism.

Does it not look like a veritable revolution? Indeed it does. So it was understood by John Pepper himself. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism.

But let us return to John Pepper. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism.

"As a word for the majority thesis from the West." It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism.

"We are creating a Communist Party." It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism.

who always knows how to reckon with real life, who knows how to combine theory with practice, a slogan is the motto of realizing it in life. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism.

If this is Leninism, then what are we to do? It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism.

Now, we know that the minority will label an attack on such mislead. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism.

But while all these statements only show how Marxian analysis should be applied to the present United States. It is a pseudo-Marxism because it is a pseudo-Marxism. It is a pseudo-Marxism because it is a pseudo-Marxism.

CHICAGO BRANCH TAKES 200 MOVIE TICKETS TO SELL

Night Workers' Matinee Put in Pittsburgh

On the basis of past performances 150 tickets for Chicago's coming showing of "The Beauty and the Beast" were taken at Douglas Park English branch. Every member was asked to take five, and the ease of selling a fifty-cent ticket to such an interesting program was stressed, as well as the financial benefits to the DAILY WORKER and The International Workers' Aid. Although quite a few members were absent, the 150 were not enough and another committee had to dig out fifty more that were intended for another smaller branch.

The showing of this long-awaited program will be on Tuesday, February 10, at Ashland Auditorium, Ashland and Van Buren streets. The show will be continued from 7 to 11. All comrades are urged to come early to get the best seats. An attendance of 7,500 is expected.

A. Mierowski, secretary of the C. P. U. of South Illinois, has taken the only copy of the picture "The Beauty and the Beast" which has not been shown long ago in that one or another of the branches has always been on "something else." Now however, the White Eagle Theater, 1125 W. Division St., has been engaged for Feb. 11, and a record-breaking success is expected.

Pittsburgh to Run Day Show. Because so large a proportion of the steel workers are on night shift, the committee in charge of the showing of "The Beauty and the Beast" in Pittsburgh has decided to invest another \$50 in rent and run a matinee as well as a night show. Both performances will be run in North Side Carnegie Music Hall, Feb. 2. Tickets can be had from headquarters, 807 Jackson St., Room 5.

"Polukaska" is coming to Gertner's Independent Theater, Jan. 15.

"WHO OWNS THE WORLD" THE SUBJECT OF OPEN FORUM TALK SHOWING WHY U. S. ENTERED WAR

All who heard Leland Olds at the Open Forum last Sunday, were pleased with his exposition of the subject of "The Men Who Own America" which, in fact, turned out to be "The Men Who Own the World." Furthermore, those present were pleased to learn that Robert Minor, cartoonist and journalist, will lecture next Sunday on "The Signant Story in the American Revolution."

The Financial Revolution. Prior to 1914, Mr. Olds explained, great portions of American corporate securities were held in Europe, particularly in England. The industrial revolution of about 150 years duration, had made England the dominant power. But the financial revolution of a deliberate preparation for the war, and its material consequences. From the marriage of "Commerce and Finance" of April 15, 1915, he read quotations saying that the week previous a new world financial revolution of the United States "and opened a new world financial revolution of the same paper had prophetically declared that America faced an "overstock" of securities, and that the allies would have American securities held abroad," but that the financial revolution of the minimum prices on shares be removed.

The New Reservoir of Credit. The speaker cited the present dependence of America on the British banks, the pound sterling being the greater portion of the international reserve at 1913 had released reserves to the use of the bankers and it is to be a "new reservoir" of five, which had again been doubled by the amendment to the act passed in 1917. The international reserve at 1913 had released reserves to the use of the bankers and it is to be a "new reservoir" of five, which had again been doubled by the amendment to the act passed in 1917.

These banks, in October, 1915, began to put pressure on Europe, especially England, by saying, "We cannot continue to supply you with gold, England, driven to the wall, threatened to dislocate the entire world, with Russia and France, shipping a billion dollars gold to the United States for munitions—their demonstrating gold as a money standard."

"Why America Went to War." England had done this, the United States would have lost the basis of world power, and stood a chance of being dislocated. The United States retreated, fell in with England, Wilson announced that "economic neutrality was abandoned" and soon abandoned all neutrality and led the nation into war against Germany. "We must take the world safe for democracy."

But the unmetted conflict between England and the United States had been the background, the open issue, of everything since 1910, the Dawes plan, the reparations bank in Germany, the war debts and so on. The speaker showed how imperialism created its own world, the open issue, of everything since 1910, the Dawes plan, the reparations bank in Germany, the war debts and so on. The speaker showed how imperialism created its own world, the open issue, of everything since 1910, the Dawes plan, the reparations bank in Germany, the war debts and so on.
