

RAIL CHIEFS HAD KILLING BEE FOR 3RD PARTY, NOV. 8

Meeting Was Called by Warren Stone

CLEVELAND, Jan. 9.—The third party, so far as the railroad brotherhoods and associated unions are concerned, was killed over a week before the opening of the American Federation of Labor convention in St. Paul, Nov. 17. The killing took place in Cleveland, Nov. 8, at a meeting called by Earl Warren S. Stone of the locomotive engineers for another purpose.

There were present, according to Editor John E. McNamee of the Bulletin of Locomotive Engineers & Engineers' magazine, the chief executive or representative of 17 railroad labor organizations and of the Locomotive Union, the railway employees department of the A. F. of L., the A. F. of L. itself and Edward Keating, manager of Labor, the railroad workers' weekly.

The principal business was the handling of the Howell-Barkey rail road control bill which is backed by rail labor.

U. S. COMMERCE REPORTS SHOW HOW BAN ON RUSS TRADE KEEPS WORKERS HERE JOBLESS

WASHINGTON, Jan. 9.—How the failure of the American government to recognize Russia is hurting American trade is once more indicated in Commerce Reports, official publication of the department of commerce, in which the chief of the hide and leather division of the bureau of foreign and domestic commerce says, concerning Russian foreign purchases:

"Purchases amount of 3,000,000 feet of chrome and kid leather have just been completed by the Russian state trading organization. This was a government order, placed to cover the needs of the leather industry. These purchases include: Germany, 200,000 feet of chrome and 150,000 feet of colored kid; France, 400,000 feet of kid; the United States, 450,000 feet of kid. Part of those orders had already been received and the remainder is on route. Terms of four to five months without interest were obtained from the firms making the sales. A contract has also been made for delivery of 2,000,000 pounds of sole leather from a leather factory in Lufshania in a year's time."

In the same issue, A. E. Pensaul, clerk to the American commercial attaché at Copenhagen, reports: "Eight machine-building plants in Sweden are engaged in executing Russian contracts for machinery, four of which will employ about 1,500 workers on those Russian orders and four others 200 hands until the end of the year. Three plants in addition to the eight mentioned recommenced operations during the second quarter of 1924."

Germany, France, Sweden and Lithuania all have full diplomatic relations with Russia. Unemployment increased. Meanwhile the Federal Reserve Bulletin for July, 1924, has declared that production of basic commodities in the United States was lower in May, 1924, than for May, 1923; that factory employment fell 4 per cent in May, and that the "largest reduction of working forces occurred in the textile, silk, automobile and leather industries."

Without diplomatic relations, American exports of machinery, leather and other goods needed by Russia are compelled to face special difficulties as to credits, insurance, ship papers, inspection of goods, etc., or to cut prices to cover the cost of this extra work. It is to be done by the Russian government trading corporation.

BOGUS COUNCIL WOULD ENSLAVE POOR FARMERS

Coolidge and Bankers Control "Co-operative"

WASHINGTON, D. C., Jan. 9.—The preliminaries to a libel suit against Henry Ford have been completed by Aaron Sapiro, who is asking the banking community to support his marketing organization, charging Ford with libelous statements and with conspiring with being in a "communist conspiracy" with Bernard Harsh, Harold Harsh, Julius Rosenwald, Otto H. Kahn, Albert D. Lasker, and other bankers.

According to the formal document which Sapiro has sent Ford, announcing his intention of suing for libel, Ford said: "This whole through-laborer-Rosenwald-Sapiro project is carefully planned to turn over to the entire agricultural industry of the republic. Between the lines one reads the story of the Jewish Communist movement in America, which seeks to make the United States what it has already made of Russia."

The national council of farmers' organizations is controlled by the bankers, who keep in close touch with President Coolidge. It was formed in 1917 and is controlled by the bankers from the trains of the farmers.

In line with its program of sabotaging the interests of the farmers, the council is now endeavoring to get the federal government to help their bank-credit condition, the "co-operative credit" in Washington, and to get the government to declare it "unwise to invest in the United States any money by any sort of governmental aid, special favoritism or subsidy."

Burn Girls' Time Cards to Dodge the Minimum Wage Law

TORONTO, Jan. 9.—The changing and dirty of employees' time cards figured in the evidence given before the minimum wage board that the W. H. Harsh Chocolates, Ltd., had violated the minimum wage law. This is the first case which the Toronto Trade and Labor Council made charges. The case was kept secret until just lately.

LABOR DEFENSE COUNCIL ISSUES FINANCIAL STATEMENT AND CALLS FOR FUNDS FOR NEW LEGAL BATTLE

The great, aggressive defense fight for the Michigan Communists started in September, 1922. Hundreds of thousands of pieces of printed matter, publicity, leaflets, pamphlets, folders, etc. were spread far and wide.

An enormous legal battle was waged. The Foster jury disagreed in the spring of 1923, but the prosecution offered the machinery for Rutenberg's conviction. After a year and a half the Michigan Supreme Court upheld the conviction, and the prosecution of the Michigan Communist Party was speeded up. The law is ignored, the courts show their capitalist colors once again. A whole organization of the Workers (Communist) Party is in danger since 32 of its leaders are menaced.

Thousands of dollars are needed immediately for the Rutenberg appeal to the United States supreme court, for the Miller trial and those that will follow. From the beginning of the case must receive the widest publicity, the facts must be spread broadcast so that workers and their organizations will know that THEHR "CASE" is the cause of these Workers (Communist) Party defendants, and will unite in a mass protest and demand for their freedom.

The Labor Defense Council appeals to all workers to give generously, without stint, NOW, in the new emergency. Let funds pour in as in 1922. The need is very great. The money is carefully and economically raised and used. From the beginning in 1922 up to Jan. 1, 1925, the total amount raised was \$127,714. This total amount was \$47,456.62. Other expenses, administrative and for the collection of funds was \$50,148.00. This latter sum, about 35 percent covers the entire cost of printing, publicity, leaflets, folders, pamphlets, advertising, etc., as well as rent, postage, circularizing, wages, etc. and is low considering the results accomplished.

The financial statement for the quarter ending Dec. 31, 1924 follows:

Table with 2 columns: Description and Amount. Includes National Defense Fund, Chicago Branch, Finnish Federation, South Slave Organizations, Unions, coupons, etc.

DISBURSEMENTS Collection of Funds—Printing, postage, publicity, ad, etc. \$118,726.34; Expense—Rent, Heat, water, phone, supplies, etc. \$12,114.14; Legal Expenses—Attorney fees, printing of briefs, etc. \$308.55; Loans on Bull Security \$450.00; Cash on hand \$5711.50; Balance Dec. 31, 1924 \$234.17; Balance, Sept. 30, 1924 \$44.94; Total \$278.11.

## Honor the Spartacists

The Communists of America are honoring on this Sunday the memory of Karl Liebknecht and of his comrade in life and death, Rosa Luxemburg, both illustrious leaders of the Spartacus Bund, which carried on the struggle for its few but valiant leaders the star of proletarian revolution through the midnight of confusion and betrayal, into which the German working class was plunged by traitorous social democrats at the end of the world war.

These traitors, who have fathomed the nethermost depths of political and ethical decadence and counter-revolution, on January 15, 1919, jointly with monarchist officers who acted under their orders, murdered in the most brutally and brutally brutal fashion Karl Liebknecht and Rosa Luxemburg, who were formally traitors, helpless, unarmed and cut off from their comrades.

Karl Liebknecht! How your name rang the world around in those days after August 4, 1914! Son of a fighting ship, old Wilhelm Liebknecht, comrade and friend of Marx, even your training of years, to abide by the unit rule in the parliamentary bloc, and the fact that you stood alone against the whole fraction of 110 deputies of the social-democratic party in the reichstag of the kaiser, could not keep you, after the surprise of your first vote on the peace resolution, above the tempest. "The workers have no Fatherland, and no enemy but capitalism!"

In the reichstag Karl Liebknecht launched a daring crusade against the imperialist war. His speeches, protected by parliamentary immunity, rang out around the world, and in the armies of the German kaiser's legendary foe—the conscripts murmured his name in veneration of that power which they instinctively knew was the only power to save their class from world slaughter—the power of the social revolution. And under many a spiteful German hammer Liebknecht was a name loved but forbidden.

When expelled for violating the decision of the traitorous social-democratic party to support the war, he answered: "Mightier ties of discipline bind me—those of international solidarity."

When the kaiser's order of arrest and sent him to serve on the eastern front, he addressed a tremendous crowd in Berlin on May Day, 1916, and openly called for armed revolt. A sentence of four years followed his immediate arrest. (How light the kaiser's was beside the savage sentence given Rittenberg by American "democratic" courts.)

But the wave of revolution which he had chained, released Liebknecht in October, 1918, and he at once took the fighting position of the Communist, guided minority who, recalling the memory of the great gladiators of the revolution, led the German people themselves Spartacists and began an armed struggle against the class collaborationists of the social-democracy who turned the infant Soviets into the paralyzing substitute *Berliner Arbeiter*.

Liebknecht and Luxemburg was again arrested and lodged in a military prison in the west end of Berlin. On January 15, 1919, they were ordered transferred by motor car, under guard, to the Moritz prison, but on the road they were brutally murdered by their guards in a lonely spot in the Tiergarten. The socialists have seen that the assassins escaped with a light term in jail. Liebknecht is dead, but in the coming German revolution the workers will fight for power with his name upon their lips.

## The Gang Was All There

It was that admitted to be the first test of strength for Collidge since the election, the strike-breaker administration won its fight to present the postal workers from getting to work without a strike vote and let the autocrat in the White House know what would happen to the sacred cow of "business interests." The darned critter would, we imagine, wrinkle up and die. But they ought, at least, to have an eye open as to who are the enemies of the workers.

If the postal workers—or the workers generally—for example, will survey the whole capitalist system with an analytical gaze, they would see that they are foolish to depend upon anything but their own strength to get to work without a strike vote and let the autocrat in the White House know what would happen to the sacred cow of "business interests." The darned critter would, we imagine, wrinkle up and die. But they ought, at least, to have an eye open as to who are the enemies of the workers.

The American dollar is now worth only 58 cents, taking the 1913 dollar as a standard, according to the results of a survey made by the chief statistician of the International Typographical Union. Why call it a dollar any longer?

but five upheld the sentence. It sounds like the poor devil got a "fair and impartial" trial, but the net result is that he gets a broken neck. The "dis-senting opinion" of the four judges fail to save his life.

But when the postal wage bill was up in the senate, how brilliant was the example of Collidge's savage aim to keep the working class from getting one penny more wages out of the enormous fortunes piled up by the capitalist class of this country. He called all the blood-sucking and semi-moribund old senators, half of whom are all ways absent from their benches in ordinary times, to attendance and support against the postal workers. Only two senators were absent on the final roll call, and called all the blood-sucking and semi-moribund old senators, half of whom are all ways absent from their benches in ordinary times, to attendance and support against the postal workers.

And what a lovely steering committee Calvin had. Senator Curtis, the senate "whip," was every where, working every minute right up to the roll call, urging the dithering old-fiducies to stand fast for reelection, saying any appeal from voters in their constituencies. They stood.

In the republican cloakroom sat Secretary Weeks of the war department, to whom the hesitant and weak were going for divine guidance. And Mr. Butler of Massachusetts did his utmost to help Mr. Butler, you must remember, is the president of the Textile Manufacturers Association, which is trying to force a ten per cent cut of wages upon all workers of that industry. Mr. Butler is the son of a senator, and he is a cunning and crafty man, who would give you the eye for the eye and the tooth for the tooth.

The gang was all there. And such a pronouncing it was. If only the postal and other workers would elect a real Communist into that assembly of senators, they would guarantee themselves a successful wage raise, but a those exposure of the most reactionary gang of capitalist leeches who ever gathered in any parliament in the world.

## The Chicago Elections

The Workers (Communist) Party has entered the local aldermanic elections in Chicago. The party's candidates must be non-partisan. Like the primary law this provision is another one of those typically American political pretensions calculated to fool the masses into the notion they have democratic control over "their" governmental institutions. The candidates endorsed by the Workers (Communist) Party are, before the law, partisans.

But when you read the program upon which the candidates are running you will discover that they are not partisans at all.

The democratic and republican aldermanic candidates are raising issues. They are the usual municipal issues concerning schools, traction, building etc. They are issues that are almost invariably forgotten outside election time. They are not the issues that the Communist party is something to fight with each other about.

The platform of the Communist candidates has something to say about these issues also. It has very important things to say about every phase of municipal government. It says things that the other parties would not and cannot say. The Communist candidates don't look upon these issues as merely conventional grounds upon which to disagree with political opponents. Nor do they merely take a negative stand because these issues have been raised by the capitalist parties.

They say that the problems of schools, traction, unemployment and building vitally concern the working class of Chicago. And they have taken a stand on every point raised in the campaign.

They say that the city shall take up all transportation and street control. They say that the administration of school affairs shall be conducted by joint councils of teachers, parents and students. They say that the "Chicago Republic" shall be turned into a plan to make homes for workers. They say only what should be on all local questions, but they point out, as well how it can be done.

The Communist aldermanic candidates in Chicago have a practical program. It is a practical program because it is based on the coming to power of the working class. The Communist candidates stand for a class platform for which every worker can vote without fear of being either reformist or preposterous. It is a Communist program.

## PEASANTS EAGER TO LEARN NEW FARM METHODS

**Priests Regard Tractors as "Black Magic"**

(Special to The Daily Worker)  
WILMINGTON, Del., Jan. 9.—Harold Williams, a young farmer from Pennsylvania, who has returned from agriculture work for three years under the annual government loan campaign, will conduct a series of lectures on the tractor at a meeting of the Society of Friends. He said that while he had the tractor, he regarded the tractor as black magic, and bitterly opposed the bringing in of this advanced method of farming, they were "met with the heartiness of cooperation at every step."

Williams said that he had learned and eagerly learned as much as they could of the new method in farming. ## Chicago Party Activities

THE aldermanic election, Feb. 21, was the main feature of the last city central committee meeting of the Workers (Communist) Party. The whole plot to run candidates entered wages organized for activity, petition for a referendum on the city's reorganization and policy of the campaign were outlined.

The aldermanic campaign will conduct itself under high large national activities initiated by the central executive committee. The campaign will be conducted by such as child labor, release of class war prisoners, special legislation with the recent Black Legion convention, unemployment abolition of the injunction, education, etc. Resolutions to be introduced in trade union and other working class organizations in connection with the campaign will be the job of their organizations to put them over.

This is a so-called non-partisan campaign, but the party label does not appear. However, all candidates of the party will have the full party name on their names. The program of the Workers Party in Chicago. The organization committee in fact will take these matters up shortly.

**Program for Election Adopted.**  
A program for the election adopted by Comrades Swabok, Gomez and Williams, members of the city central committee. This is being printed in all the DAILY WORKER. A digest of the program will be made for leaflet distribution through the city in the shops and houses. Full details in the DAILY WORKER. The program will be put out our workers on the ballot by issuing the necessary number of signs.

**Industrial Activity Noted.**  
Comrade Pali reported on the industrial activity in Chicago. He said that the left wing had made excellent gains in the recent elections in the Amalgamated Clothing Workers, the International Union of Marine and Shipbuilding Workers of America, the International Ladies' Garment Workers Union, the International Union of Bricklayers, etc. A campaign was being conducted by our comrades in this city. The Industrial Union of Marine and Shipbuilding Workers of America is being led in conjunction with their industry. (Building Trades) group is being led in conjunction with their industry.
