BORAH IN FAVOR OF SOVIET RUSSIA

Plays Political Poker with Cal Coolidge

By LAURENCE TODD (Federated Press Staff Correspondent) WASHINGTON, Jan. 14.—Recognition of the Union of Soviet Republics may be given earlier by the government of the United States as a consequence of the resignation of Hughes and the selection of Kellogg as secretary of state. And even so, it may be delayed until after the presidential election.

Recognition Granted.

But Russian recognition is another matter. Development of Morgan & Co., proclamation of Cal for a year past has got Hughes, of the Senate, things, who begged the president to do something in that direction.

Nurmi, White Guard, Is Labor Renegade; "Brass Check" Press Grets Him

By J. LOUIS ENDDAHL TODAY, the "Brass Check" press throes its columns wide open to Paavo Nurmi, the long distance runner, from Finland.

Nurmi was of the Finnish working class; paper hanger by trade. He belonged to the Finnish Workers' Athletic Club and produced one of the world's best athletes.

Nurmi as a member of the Finnish Workers' Athletic Club would not be welcome in the United States. He would be denounced as Bolshevick, and Communist, and immediately deported as a threat to the stability of American capitalism.

The story is told of the Persian couriers employed by the Turkish sultan to run from Constantinople to Adrianople and back. They were good and obedient slaves; as docile before their masters as only in Egyptian Gargas.

Olympic chronicles tell of the Greek runners like Ladatis, who were called slaves. It is told how they were used to run for their masters, and how they were used to run for their masters, and how they were used to run for their masters.

But all that has changed, as Nurmi well knows, because of the Finnish workers in this country, and because of the Communist movement. They have an effective boycott against Nurmi.

NINE SCHOOL JOBS BY GLAZIERS

Board of Education Favored Open Shop

The violation of an agreement with the Glaziers' Union by the board of education's supervisory architect, Edgar W. Martin, is tying up construction of nine new public schools which are to house part of the 100,000 children now crammed into insanitary, unsafe and uncomfortable makeshifts.

George H. Myers, the Glaziers' business agent, declares that Martin has contracts to the open shop firm of William Hallis and company after promising to award the building contracts to the open shop firm of William Hallis and company.

SECOND CHICAGO DEFENSE MEETING SHOWS BIG GAIN

4,000 Tickets Out for Feb. 5 Show

The second full meeting of the Chicago conference for Defense and Relief, held at 722 Blue Island Ave., last Saturday, Jan. 10, showed a big gain over the first meeting held a week previous. This time 25 organizations were represented as against 11 last Saturday.

Comrade Krus, acting local secretary, really made the most of the arrangements for showing "The Beauty and the Bolshevik" at Ashland Auditorium, Feb. 5. About 4,000 tickets had been placed in circulation about 20 ticket stations were established, advertising literature was sent out and about 400 worth of advertising had been solicited for the program.

The advertisement program will be a 10-page book, 5 1/2 inches in size, giving the story of the film in word and picture, and containing advertising matter from friendly business and professional men as well as greetings from branches and fraternal organizations.

Comrade Mazur reported on the great Ruthenberg Defense Drive now being launched by the Labor Defense Council. Trade unions had already begun to send in resolutions of protest and speakers would be sent out to bring the case before the organized workers.

In answer to a question it was explained that defense and relief work could be carried on much better jointly than by two conferences, and this met with the enthusiastic approval of the delegates. Language committees were made up of the delegates from each language group and these will be charged into sections of the larger conference in charge of its work among the workers of their respective nationalities.

The next meeting will be held at 722 Blue Island Ave., next Saturday, Jan. 17, at 3:00 p. m.

Unions in Omaha Back Up W. P. in Child Labor Fight

OMAHA, Neb., Jan. 14.—The campaign of the local Workers Party and T. F. E. L. militants on the child labor question already has received the hearty support of the Omaha labor unions.

Resolution Against Child Labor. "Whereas, the physical and moral well-being of the children of the work force in this country is being destroyed thru brutal exploitation in the mines, mills, factories and sweatshops to the great detriment for employers and workers.

"Whereas, thru the exploitation of the children of the work force in this country it is being endeavored to reduce wages and lower the conditions of labor and to weaken the solidarity of the workers.

"Whereas, the children of the workers and small farmers are entitled to a full education, without being penalized and a certain number of weeks of life that forces them into hard work in their childhood, thereby stunting their lives and.

"Whereas, children are forced to work because of the poverty of their parents and a child labor law without government support for the child labor school would have little value; therefore be it

"Resolved, That we demand the immediate ratification by the state legislatures of the Child Labor Amendment to the United States Constitution and that they immediately pass a law prohibiting the labor of children under sixteen years of age, and be it further

"Resolved, That since the child labor amendment would be meaningless without government maintenance of the school children of the workers and small farmers, the state and federal legislatures shall provide by law for full maintenance of all school children of workers and small farmers. The funds for this purpose to come from special taxes on high incomes, and be it further

"Resolved, That we favor setting aside all discriminatory clauses in the constitution of the trade unions and admitting of young workers to the unions with equal rights, and that dues and initiation fees be adjusted to the young workers so that they may strengthen the unions against the employers; and be it further

"Resolved, That our organization is ready to enter a common political fight with the workers and small farmers and for full government maintenance of the school children of workers and small farmers and to cooperate with other working class organizations to this end.

Adopted at a regular meeting of Omaha Local, Journeyman Stone Cutters, American Union, held at Labor Temple, Omaha, Nebraska, January 2, 1925. ROBERT J. PIDDEN, President. DAVID COUTTS, Secretary.

Of this amount the 42 branches that have remitted in District 1, have made \$22,725. There are an average of 2,110 members in District 1. Although the quota is \$300 per member, we have not yet received even \$100 per member from this district. We know that District 1 is going to make good. We expect that when we print the next issue of the position of the total remittances will average at least \$100 per member. And then on to the \$300 per member goal.

## NEWARK'S ARMY OF UNEMPLOYED REACHES 50,000

### Crisis, Not Prosperity, Follows Coolidge

(Special to The Daily Worker)

NEWARK, N. J., Jan. 14.—There are 50,000 unemployed in Newark, with no relief in sight. The large factories are working on part time or are completely closed down. The Crucible Steel company, the Hyatt Roll Bearing company, the Ziegler and Ford factories, the Western Electric company and other large concerns all closed down for a few weeks during the holidays. They have now a shutdown as a means of cutting wages, the workers finding that wages scale reduced when they returned to work.

Business conditions are very bad and the whole of the industry are suffering. Workers are beginning to talk of a severe crisis as the only result of Coolidge's election, which was predicted by the revolution would bring prosperity. The workers of this city—one of the largest industrial centers in the world—are largely unorganized.

Five hundred men are applying for jobs at the municipal employment bureau every day. Applicants to the employment office are increasing steadily and practically all are unemployed. In 1924 the bureau secured 10,000 jobs for unemployed workers. They were able to secure in 1925 only 4,000 at the Green S. employment office by social service agencies are also increasing, and the newspapers are publishing many stories showing that destitution caused by unemployment is widespread.

Bronnan, the superintendent of the city employment bureau, is an American Federalist of the type which has established the best job which came his way. Bronnan is the man responsible for governing Newark. He is now speaking in Newark using his office of "director of public safety" to attack the conditions.

## EVEN IGLESIAS, LABOR FAKER OF THE CARIBBEANS, HAS TO COMPLAIN—BUT TO DEAF EARS

(By The Federated Press)

WASHINGTON, Jan. 14.—In the face of J. P. Towner's long cablegram to the Literary Digest, claiming that the election in Porto Rico was peaceful and orderly and registered, President Coolidge has been forced to order the war department to investigate.

When Santiago Iglesias, leader of the Free Federation of Workmen of Porto Rico and leader of the socialist party in the island, saw Coolidge on Jan. 20 carried with him a letter to the chief executive from William Green, new chief of the American Federation of Labor.

"On behalf of the A. F. of L. I bespeak for the request of the Porto Rican workers adequate, impartial investigation, serious consideration and favorable action," said Green. "The charges are of no grave a nature that our government should take steps to secure authoritative information. I urge this matter for your immediate attention with the earnest hope that you will give all possible aid to this effort and assure an understanding necessary for the realization of the high ideals of our government."

Coolidge listened to Iglesias' statement of the theft of the election by the plantation owners' and corporate political agents, and to his account of the misery of the workers in Porto Rico, and received from him a series of affidavits in support of the fight for a federal investigation. He promised to take the matter up with the secretary of war and "do his best." Secretary Weeks notified Iglesias today that he would meet him for discussion of the whole matter.

"Outlaw" Strikers Win Wide Support

By THOMAS MYERS-GOUGH.

WILKESBARRE, Pa., Jan. 14.—In a special convention called by Wednesday, Jan. 14, impacted proceedings will be started by the miners of District One, United Mine Workers of America. The above, in substance, is the ultimatum given by a joint general grievance committee meeting held here last Saturday night and which lasted nearly four hours.

"To ascertain if such a special convention will be called by the district president or the executive board by that time, a committee consisting of the chairman of four of the general bodies will visit the district office in Scranton and failure to receive satisfactory answers will be the cue to stamp an angry appeal committee."

God Standing Lulls to Speech

This committee, consisting of two men from each of the local standing general bodies, is already selected and if they are not assured by Wednesday that no convention is being called, they will begin to prepare the charges on which to impeach the officers.

"There has been a clear cut case is evident from the fact that about 100,000 men from each of the districts for the convention, Cappellini himself having informed admitted that such a case and imposing heavy charges will be for 'Agrar' violation of Article 7, Section 2 of the constitution of the district. Special conventions of the district shall be called by the president upon the request of one-third of the members of the district."

(Special to The Daily Worker)

WASHINGTON, D. C., Jan. 14.—The postoffice department is denying postal employes their sick benefits and making them work more than eight hours. T. F. Flaherty, secretary of the National Federation of Postoffice Clerks charges in a statement issued here.

"Apparently not satisfied with having the postoffice department deny sick benefits and making them work more than eight hours, T. F. Flaherty, secretary of the National Federation of Postoffice Clerks charges in a statement issued here. The U. S. postoffice department is denying postal employes their sick benefits and making them work more than eight hours. T. F. Flaherty, secretary of the National Federation of Postoffice Clerks charges in a statement issued here.

"New York postoffices have abandoned the eight hour law and many employes are forced to work over time every night. In Chicago the speed up system has been inaugurated that raised all carriers to weigh their output of mail, which move is designed to harass the man to the limit of human endurance."

"Sandalwood" Says Judge.

In New York Judge Winslow, of the first court, refused to allow postal clerks, before his charges with transferring cancelled stamps. "The day of the clerks is at stake," Judge Winslow said of the postal clerks. The four men, William Huber, Arno Schaller, William M. Gallagher and James Connolly, employes at a postal substitution, have records of service extending from 14 to 31 years. They received \$1,800 to \$2,000 a year, and all are fathers of large families.

Wages Increase.

There was also an increase in wages and the general well-being of the population has improved as witnessed by the amount of money spent on the purchase of goods. This, the textile industry was operating to the full of its capacity and its exports were increasing. The United States. Its total output of goods and services over the year was about 1,300,000,000 yards of fabric. But, still in many localities a shortage of goods is being felt. This is due to increasing demand of the population for the product. The growth of the Soviet foreign trade has increased many times over the sums advanced in the preceding year. The partial restoration of capital as a result of the new economic policy enables the Soviet state to satisfy the needs of the Soviet foreign trade to a degree not heretofore. Thus, there have been purchases of sugar made in large amounts to meet the needs of the present population for this product, also the output of the sugar industry this year amounted to the highest figure in its history, nearly double the output of last year.

Marked Growing Prosperity.

The effect of the good crop in the Volga region was, to increase the downward pace of the growth of the country's resources. However, the crop yielded over 2,700,000,000 pounds covering to the full the country's need in grain cereals. Instead of the grain exports of the year 1925, the Soviet Exportable (grain export) is furthering the exports of their products of agriculture. The ordinary deals effected in some of these products show that their exports will exceed over the preceding year. The recent drought has hit chiefly the wheat regions. But the resources of the country have increased rather considerably, quantities worth export from abroad, mainly for the port cities which are the furthest removed from the wheat producing areas. These four purchases are a result of the growing prosperity of the country and the increased demand for grain for higher grades of bread, and they furnish in fact, another proof of the growth of the country's economic situation of the Soviet republic.
