

AS WE SEE IT
By T. A. O'FLAHERTY

THINGS do not look bright for the coal miners of the United States. Their ranks have been decimated by unemployment and the union weak-

EVER since the Jacksonville pact was signed the operators have been violating it. Strikes have broken out after the mine owners have refused their patience asking for redress of their grievances. In every instance Lewis sided with the bosses, even going to the extent of lifting local union banners.

THE casualties in leadership suffered by the mine workers during the past few years, thru the splitting policy of John L. Lewis, number such that a national scale strike is not only out of the question as leaders on a national scale impaired. Now that the coal bosses have Lewis' tactics so efficiently weakened the once powerful union, they are ready to open fire. But regardless of treacherous underlings the rank and file of the United Mine Workers of America, will fight in the future as they have fought in the past, and in the forefront of the fight, against the operators will be the Communists in the coal miners' union and the militants under the leadership of the Trade Union Educational League.

WHEN the C. P. A. did out from under the collective of yellow socialists, renegade socialists and all-around freaks that attended the last conference of that organization, Morris Hillquit made a motion that the socialist party should quit the C. P. A. Later on, when the liberals who held the field, decided not to C. P. A. (Continued on page 3)

"GET ALL CITY WORKERS OUT!"
SAYS T. J. E. L. COMMITTEE
TO STRIKING STREET CLEANERS

The National Committee of the Trade Union Educational League with offices at 1115 West Washington Blvd., has issued the following statement on the strike of the Chicago sanitary department workers and threat of the city authorities to break the strike:

Mayor Dever, Colonel A. Sprague, commissioner of public works and Chief of Police Collins have finally made up their minds to crush the strike of the white wigs. Mayor Dever, the so-called friend of labor, feels that to yield to the modest demands of the street sweepers would set a bad example and might interfere with the general wage-lowering campaign now being conducted through many industries.

The Alderman election & over, the election "friends of labor" maneuvered very skillfully out of an embarrassing position. To have used their brains during a city election would have defeated the administration forces, so they straddled the fence and bluffed their way thru. Now the strike must be crushed.

Dozens of extra police, sluggers, gunmen will be hired. Thousands of dollars will be spent to crush the strike. Only 2,500 common laborers are affected directly, but the scheme "to" the city administration, to crush out unionism on public works will be strengthened. The school teachers who more than any other labor group supported and aided in the election of Dever were the first to feel the heavy hand of the city administration. Their attempts have and are still being made to turn contracts to "open shop" streets, and to "open shop" the strike of the white wigs will be a part of the general "open shop" drive.

An appeal will be made to the "public spirit" of Chicago to help keep the city clean. Scarce headlines will appear in the capital daily papers about the danger of epidemics. All the forces of capitalist oppression will be mobilized to defeat the miserably paid street sweepers, the public health is endangered which is the health or profit, under which the strike will be crushed.

Out in all kinds of weather, unsteady employment, sweating and clearing up of the filth and muck of the city, which is a miserable wage for the street sweeper. The hundreds of thousands of dollars will be poured to crush the strike. That would pay the raise asked for by the laborer for many years to come. But the mandate has gone forth. "No was in crowd" is another strike is going to be crushed unless the workers mobilize their forces and fight as one.

The only way to meet this situation is to bring in other unions call out other city workers, to attract the strike, tie up the city completely so that not one cent of expense will be moved until the demands of the strikers have been met. No yielding to arbitration. No yielding of the city that the health of the city is in danger.

The sign who are denouncing the health of the citizens are the city of Chicago. No 155; Carpenters, No. 106; Electrical Workers, No. 28; Glass, No. 131; Independent Order Sons of Italy; Italian Anarchist Group; Journeyman Tailors, No. 162; Ladies, No. 2; Labor Defense Council; Molders, No. 213; Painters' District Council, No. 8; Patlans, No. 11. LABOR LEADER
BUYS CHUNK
OF WINDY CITY

Michael Artery Deeply
Interested in Chicago

Michael Artery, Chicago labor leader, has just bought a \$20,000 flat building on Barry avenue. When Fred Meier quit the labor movement, Artery bought the building, planned bitterly that he only had a paltry \$100,000 to his credit in the bank. "I'd I devoted my life to the real estate business, it would be now worth at least a half million. It does not pay to sacrifice yourself for the workers," wailed the pretent Fred.

Artery is head of the Metal and Machinery Movers' local and is the man who made the motion to accept the Laidlaw Award in the Building Trades Council. BOURGEOIS BURLESQUE

COMES TO QUICK END

HOW LEWIS IS
WRECKING THE
MINERS' UNION

INDIANAPOLIS, Feb. 27.—When the Indiana senate roll was called today all but one of the democratic senators who fled to Ohio as a protest against a republican "E. Derrum" and in protest the worst law from the absentee, Senator A. G. Bryan, was said to be in Cincinnati. He did not accompany the other minority members to Dayton, Ohio.

When the Jacksonville agreement tying the miners up for a three year contract was signed, the progressive pointed out that the operators were only abiding their time in order to pave the way for an open assault on the United Mine Workers of America. Their predictions have come true.

The story carried in the DAILY WORKER yesterday and suppressed by the capitalist press shows that the hour has come to begin the grand attack in the minds of the coal operators, in what the notorious John L. Lewis' policies left the union to meet this attack.

AMSTERDAM INTERNATIONAL IN
COUNCIL, EVADES WORLD UNITY;
BRITISH FIGHT WILL FOR ACTION

Working in harmony with the re-
commendation of the majority report
of the government commission, ori-
ent by coal operator men, the follow-
ing statement was written by Ellis
Searle, John Moore and Thomas
Kennedy, representing the United
Mine Workers of America and sent to
the United States Coal Commission.
It was published in the Miners' Jour-
nal, June 1, 1921.

"We have had a greater opportunity for a real service to the American public than that which now presents itself to the coal operators. If they will close down all of the unnecessary coal mines that are now open and operating spasmodically they will reduce the number of surplus miners proportionately and thus reduce the production cost of coal. This in turn would mean cheaper coal to the consumer. That's what the consumer is interested in. The United Mine Workers of America cannot close down these mines, because it has no such right, power or authority. Nor can it for the same reason, put 200-

PENNSYLVANIA MINERS AROUSED
AT BETRAYAL OF MEN IN PRISON
AND STEALING OF RELIEF MONEY

PITTSBURGH, Pa., Feb. 27.—The cowardly betrayal of the miners who are languishing in Moundsville prison for their alleged participation in the Cliftonville riots was exposed at a mass meeting of miners held in Chartered Sunday, which was called for the purpose of proving that the district officials have stolen money from the organization.

A miner from Arvella, Pa., who served four months in Moundsville, told his story of the betrayal of the officials of District 5, who would the miners

FIGHT BILL TO DEPORT ALIENS BY WHOLESALE

Foreign-Born Workers Subject to Espionage

NEW YORK, Feb. 27.—The American Frank Liberties Union announces a united campaign to defeat the house bill "opening wide the doors to deportation of aliens."

Demand Public Hearing A public hearing is demanded by the union in a formal request and similar demands have been made by other organizations interested.

The bill changes the present deportation law, giving the department of labor power to deport for alleged espionage ANY ALIEN at any time after entering the United States, instead of within three to five years as at present.

The dangers of this bill are incalculable. Says the Liberties Union in a formal statement: "It is not part of a general immigration bill. It does not deal with quotas or other restrictions for the admission of aliens."

"Any alien convicted of an offense for which he is sentenced to imprisonment for a term of one year or more, is liable to deportation, instead of as at present those convicted of an offense involving moral turpitude committed within five years after entry."

AlIens frequently get one year sentences for very slight offenses. Two small penalties amounting to a fine or 18 months, also are grounds for deportation. This bill violates the constitutional provision against an ex post facto application of a law. It makes deportation retroactive on cases which have been long before the drafting of the bill."

ATTENTION! Don't forget to come to your convention. You are invited as visitors if you are not delegates.

THIS is generally a very high order indeed. Grand Duke Nicholas Nicolofitch, of the czar's empire, used to pull off similar stunts when his long legs were breaking all speed records getting so far from the German armies as possible. When the capitalist press carried the news that the Ural mountains on a certain day they had the German tanks, "Nich" had all this planned out a long time in advance and that his retreat was merely a ploy to "carefully prepared positions."

WITH Hillquit and his disappoitned managers it is a case of sour grapes. They chased the liberals and their poor friends and boasted about their success in remaining on good terms with the bourgeoisie. Today they are letting the Communists, saying: "You damn revolutionists, who take your orders from your poor friends and let us down. We have kept you out of the C. P. FRENCH CAPITALISTS AND HERRIOT WAR ON IMMIGRANTS; TERROR AIMS AT SMASHING THE LABOR UNIONS

(Special to The Daily Worker) PARIS.—(By Mail.)—The united front of capitalism against the workers of all lands become more apparent every day. The Herriot government is allied the white guard governments of Italy and Spain by persecuting and expelling the revolutionary workers who have sought asylum in France from expelling the revolutionary workers in their own countries.

The government is pushing to the last extremes its hatred of all those who refuse to submit to capitalist exploitation. The French police, aided by foreign spies, is carrying on a reign of terror among the immigrant proletariat. They have no right to possess a picture of Lenin, to speak of the Russian revolution, even in private, or to discuss the interests of the proletariat, or bring swift vengeance.

Expelled for Having Lenin's Portrait. In Lorain, Mussolini has sent his crew of terror to see that this piece of dirt work is carried thru. Acting under fascist orders, the police have forcibly entered and searched the hundreds of workers' dwellings, and workers who have been found in possession of Communist papers or leaflets, or even a photograph of Lenin or Mussolini, have been beaten up, and then expelled from their homes.

In one house two women who dared to remonstrate when they "police" entered their poor furnished apartment, their search for "subversive literature" were brutally maltreated. The chief object in this fascist Communist paper published in France for circulation among the Italian com-

radicals. We are now in the labor movement. Our goal is reached!" Using Yellow "Labor Leaders"

The American capitalist press is only too glad to tell of the efforts made to save British capitalism by British labor leaders of the Frank Hodges, John R. Clynes and MacDonald type.

These gentlemen, whose badges of leadership are somewhat tarnished due to their betrayals of labor and the publicity given those betrayals by the Communist Party of Great Britain and the left wing press, are calling loudly for a truce in the war between British capitalism and British labor.

Hodges is a clever fellow and has made his demand for peace upon the depression in British industry without actually telling the workers to quit fighting.

Clynes, however, is less diplomatic. He says, according to dispatches: "The best service which labor leaders can render just now is to concentrate upon and support any efforts which are being made to strengthen and improve the trade union movement."

Here we have the whole philosophy of the followers of MacDonald—the belief expressed in word and deed that capitalists must first be fat and happy before labor can ask even a decent wage.

This acceptance of capitalism with all its appendages is the most characteristic feature of social democracy all over the world; it is shown also by the labor officialdoms of countries like the United States where the labor bureaucracy reject all the theories of social democracy in their sabotage of the labor movement, their war on the left wing and revolutionary elements of the labor unions, their kowtowing to capitalism and capitalists, the heads of the American Federation of Labor and the British labor party are as one.

The British capitalist press praises the "sanity" of the American trade union officials and the American capitalist press returns the favor.

It is supposed to aid in keeping the workers of both countries in the same groove. This is the great international problem which the whole capitalist world is trying to solve—with rather poor success as the growing strength of the drive for world trade union unity launched by the Red International of Labor Unions proves.

Reaction in the Amalgamated

The Hillman Amalgamated machine is wadding no time in getting down to the business of expulsions of left wingers now that it has decided to follow the trail blazed by the objection of the International Ladies' Garment Workers.

In New York City the Executive Board of Local 1 has been removed from office and three of its members suspended. The indictment against these workers shows the lengths to which the Hillman machine is prepared to go. It recites that the executive board declared a strike to show that two workers over a private matter and then went down in a body and picketed the place. This evidence of militancy is so rarely seen in executive boards that this one, it seems to us, should have been given some kind of a decoration instead of being removed from office. Perhaps the other executive boards were frightened by the precedent set and afraid that the officials might get their high priced suits all dirtied up on some picket line if the thing became fashionable.

The important thing, however, is the open war of the Hillmanites on the best elements in the union—a war that is welcomed in warm words by Justice official organ of the I. L. F. U. In its last issue.

A new united front against the militants in the needle trade is probably in process of formation. It will be not to a united front of the rank and file organized against the Communists and the Trade Union Educational League.

That reaction in the Amalgamated is not going to have easy sliding is shown by the sympathy and support given Local 5 by other New York workers of the Amalgamated.

Every capitalist government, the jingoes and social patriots of all lands, believe of profess to believe that the idea of the overthrow of capitalism as the only road to freedom open to the working class is an imported product.

"They try and fail to treat it as they do commodities of foreign manufacture by excluding those who hold this idea from their territories. But capitalism itself is both the soil and seed of social revolution. It does not need to be imported. Like Tokyo, it just grows."

The Chinese Eastern railway, under Soviet Russian management, shows an increase of 24 per cent in business over last year. More bad news for the imperialists of America, France, Great Britain and Japan.

Russian Aid for Irish Famine

The workers and peasants of Soviet Russia are the first to come to the aid of the famine stricken Irish workers and peasants. This is one of those acts of working class solidarity that the workers have come to expect from the masses of Russia. It is a symbol of the advance of the revolution and a rebuke hurled in the teeth of the British imperialists, their Free State government vassals and the hierarchy of the Roman church that keep the Irish masses in ignorance and poverty.

The pious walls of the priesthood rent high and when the Russian workers and peasants learned of the famine in 1921, they were being punished because they had gone against God, said the cossack and cowed brethren of the cross. The Irish workers and peasants have not fought and won a revolution, they have not rejected Mammon and thereby offended orthodox christianity but they are hungry nevertheless.

The Russian workers and peasants, having no capitalists to feed, have enough food to spare for well over a million people who are less revolutionary, but more poorly fed.

It is not clarity that comes from Russia. It is simply a method by which the Russian masses show the world the troubles of their workers and their desire to help.

In the imperialist press there will be no praise lavished on the Russian workers and peasants for the manner in which they have come to the aid of their comrades in Ireland. The reason is not only that there has been a revolution in Russia, but that it was not a Russian revolution but part of the world revolution.

British imperialism and its hangers-on in parliament and parliament are very much afraid that the Irish workers and peasants may come to know and understand this fact.

Connecticut Conservatism

There is humor in the story of our victorious fight for the right to carry on Communist work in Waterbury, Connecticut, where, at a successful meeting, Communist proof that communists were crazy, but that other a fool, had to milk cows for a living, while she, a believer in things as they are, had a well paying little business.

We get a laugh out of this, but some fool for thought, remained. I was thinking, this woman had hit upon the crux of the whole question of the causes of revolutionary movements. Her brother is not milking cows because he is a revolutionist, he is a revolutionist because he is milking cows.

Please do not misunderstand me. I am not a revolutionist any more than every business man is a capitalist, but the workers as a class are revolutionists because they are at the bottom of capitalism's social scale. If all workers could be businessmen and enjoy incomes of \$5,000 per year and up, even the most ardent Communist would give up hope of revolution.

This cannot be. There are millions and millions of workers and working farmers who have no hope but to continue the daily round of monotony till or starve.

The only way these millions of useful workers, who have no photographic galleries and grocery stores, and no money to buy their own tools, their own masters and masters of the tools and materials they work with is to make war upon and defeat the state power of capitalism.

This is what we mean when we say that the working class is the only revolutionary class in society.

In spite of the remarks of the Connecticut lady, we are not discouraged. Capitalism has not enough photographic galleries to go around.

Greeting "The Young Worker"

The Young Worker, official organ of the Young Workers League of America, is now a weekly.

The volume of it is now published. It speaks now 52 times a year, instead of 26, to the youth of the working class in this, the most powerful capitalist nation in the world, The Young Worker is part of the Communist press of the world. It carries to young workers in the factories, mines and workshops and to young students the Communist line to struggle against capitalism and its strongest weapon—the capitalist state.

The Young Worker alone in the United States speaks for the sons and daughters of working men and women and with its older brother, the DAILY WORKER, appeals to them on the basis of their class interests. It is ably edited by young workers, not by archbishops.

Its approach to the problems of the young worker is a result of its correct belief that the daily battles of that working class are of primary importance and that they must be organized into a movement international in outlook and affiliation; that out of the daily struggles grows the conflict that must end in the victory of the working class, young and old.

The DAILY WORKER is very happy to see the growth in the Young Workers League. Stimulated by the enlargement of its press, a growth that the weekly Young Worker will stimulate immensely.

Long live the Young Workers League! Long live the Communist Press—the Herald of the World Revolution!

BRITISH FIGHT AMSTERDAM FOR WORLD UNITY

(Continued from page 1) while in Soviet Russia, and had the "raah" process. Outcast and Jew-hater clearly were not floored by an "excitement" for revolution.

Fred Bramley of the British delegation opened up the fight for unity in reply. It was an achievement in itself, and was the first time that speech Bramley has ever made, and the only reply in that it was made in private and not in front of the world's workers.

Bramley's Party Outcasts Bramley showed both surprise and displeasure at Outcasts' statements against the sincerity of the Russian unions' efforts to reach unity. He clearly pointed out that Outcasts had dodged and evaded the offers of friendship and never made any effort to meet them.

Bramley Uses Plain Talk An outcast and Jew-hater took an exception to the statements of the British delegates made both while in Russia and in England, as of no importance because they were "merely official statements." Bramley caustically asked why no reference had been made to the British delegates' collective statements concerning Germany, the improved and happy condition of the Russian workers, and so on.

Bramley extolled the workers' methods of spreading their views and matters in the publications of the Amsterdam International and the British Workers' League, and pointed out by Outcasts in vain attempts to prevent the growing friendship between the English and the Russian workers.

British for Unconditional Meeting Outcasts like a Jew-hater, Bramley offered in the name of the British General Council of Trade Unions to meet the Communist Party of America at an unconditional conference between Amsterdam and the Russian unions, in London, on the 15th of the next month.

Reformists Fear Outside Pressure Reformists of the Amsterdam International would never support their insolent refusal of offers of unity and friendship with the British workers. The reformists at Amsterdam and there was much screeching and the American Union was the result.

When the next session opened in Amsterdam, Hillman moved the British compromise motion, declaring the readiness of the I. T. F. U. to meet the Russian delegates in the city of Amsterdam, providing the Russian unions declare their desire to affiliate to the Amsterdam International.

Tricky Motives in Proposal The motives of the right wing capitalist press in the United States, of meeting the Russian unionists, but they still hate more to have the largest and strongest section of American workers, going over their heads and into the hands of the Communist.

Another resolution from Switzerland for an unconditional conference to be held at Moscow was offered. Amsterdam, being one of the few capitalists for Russians to visit, because Holland has not recognized Soviet Russia yet, was unsuitable.

The Vote on Three Proposals The left wing proposal of the Russian resolution. But it was defeated by a vote of thirteen to six. The same vote showed on the Russian resolution. The Stenhus resolution carried by fourteen to five, the five being the solid British delegation supported by Finmen.

The council's meeting was marked by the most disgraceful lies in the history of the world. It was a complete falsehood that both Bramley and Purcell had "repudiated" the idea of a world congress as a "Communist trick." Tracing these outrageous lies to their source, it is discovered that none other than Sassenbach of Germany gave out such information.

Even this was not enough. Merets' In the council, moved that this alleged "repudiation" be put to a vote. Sassenbach, and Purcell and Bramley vigorously objected and proved by the evidence that the lies were lies. Yet Sassenbach saw to it that Merets' motion was spoken of in the evening meeting.

The British delegates are determined that, come what may from the Amsterdam International, they will not be sent to the Russians, the existing arrangements, which are being made for the purpose of propagating the world unity of all unions shall not be abandoned, but all shall be pressed enthusiastically until unity of all unions in the world is achieved.

BUILDERS AT WORK

IF ALL GOES "JAKE" IN KENOSH— We will have a circulation much larger very soon in this town where Comrade Alvin is in the WORKER again.

The local comrades are not entirely satisfied. There has been trouble in regular delivery. We are now trying to get this matter straightened out at the post office and will be glad to hear from you if you are doing.

They have secured a number of boys to sell the DAILY WORKER on the streets and at factory gates. In order to stimulate the sale the DAILY WORKER Committee decided to give a prize to the boy who sells most copies during the month.

But they also have an eye on the future in Kenosha. Comrade Tiahon writes: "The boys sold the Thursday issue on Friday and yet the results show up well. Will yet hear from me soon for more copies if all goes Jake."

There are three large plants each employing about 5,000 workers and the party, planning on having a nucleus in each of them. When this is done and the members all have moved to sell I will have them write it up and send it in to the DAILY WORKER. This will make a hit with the readers here."

We will propose the Kenosha comrades that this will also make a hit with our other DAILY WORKER readers. But why wait until a nucleus is formed? Let's have it now! Send in your letters now and "make a hit" with Kenosha workers at once.

In the meantime we want our readers and agents to note that these Kenosha comrades are doing and planning work for the DAILY WORKER and the shop nucleus in Kenosha is a part of the Communist group as nothing else will.

The movie showing of "Polikubsh" on Saturday, Feb. 28, at the German-American Home, 400 Grand Ave., is a particularly important place not only to enjoy yourself, but also to give the DAILY WORKER agent, Comrade Tiahon your sub. Tell him you want to volunteer your services and take a good look at the ad of the DAILY WORKER on the screen.

Pennsylvania Miners are Aroused

(Continued from page 1) The difference in money which the district officials claim to have turned out for the strike for over \$1,000,000, and in spite of the attempts of the district officials to cover this matter up as well as if the money were not in the hands of the miners, the government revenue agent came up to them before, regarding the difference in these statements, last week when six weeks of the revenue office in Pittsburgh, was told that the matter was dropped.

Proof of Stolen Funds Proof that the district officials had stolen funds of the union thru paying the strike relief they were supposed to have given the striking miners was given when Brother Steve Sasa and his wife told the district officials paid the relief they claimed to have given them.

In giving the proof on this the following letters were sent: Sturgeon, Pa. Dec. 15, 1924. To the Internal Revenue Agent, Brownsville, Pa. Dear Sir: The money received by Steve Sasa from my partner (since dead) since March, 1920, to my best knowledge and belief is as follows: From March, 1920, to Jan. 1921, he received in relief \$18,000 each week.

From Jan. 1921, to June, 1921, he received in relief \$18,000 each week and \$200 for service. From June, 1921, to March, 1922, he received in relief \$14,000 each week. From March, 1922, to July, 1923, I have no knowledge of what he received except from me which is as follows: From Sept., 1922, to July, 1923, he received \$20.00 each week.

Yours respectfully, (Signed) Robert Galena. Galena is an organizer for the miners in District 5, and is part of the Paken machine. Countering this statement is the story of Steve Sasa which is as follows: Dec. 28, 1924. Springdale, Pa. All: G. Dear Sir: I send you a copy of my amount of money I made during the three years 1920-1921-1922 up to 1923. In Jan. 1920, to Jan. 1920, I received in relief (etc. weeks I received nothing) \$6,000 each week in credit, just a slip to the store.

From June, 1920, to Feb. 1921, I received in relief \$18,000 each week in cash. From Feb. 1921, to March, 1922, I received in relief \$14,000 each week, and \$15.00 for transportation (this was not for the purpose of striking). From March, 1922, to July, 1923, I received service money each week, \$20.00. This was expense and relief together. (Signed) Steve Sasa.

Party Members! Show Your Hospitality!

Logging for some 30 comrades from out of town will be needed during the duration of the Party Intensive Training School in Chicago. The school will last for two weeks commencing March 15 and lodging for the comrades will be necessary for that period.

Comrades in Chicago who can spare accommodations for one or more comrades during the duration of this party work will aid the party school immensely. If you have such accommodations to spare get in touch with the district office immediately, Room 303, 166 W. Washington St., Tel. State 7895.

DRIVE HOME THE SPIKE!

AS WE NEED IT By T. O'FLAHERTY.

At the rate the spike is going down, unless our readers send in their dollars right away or sooner, they will miss an excellent chance to try their muscle on the capitalist system.

Perhaps most of you would rather have a fat bourgeois under your elbow, but take it from me, this spike, representing sharpened Communist propaganda, will make things more uncomfortable for capitalism than if you dropped a barrel of ants inside some money baron's underwear.

This \$100 donation swings a wicked wheel. It shows there are many thousands of our readers who have not yet sent in their dollar. March 15 is near, and that day the masses of those who helped to insure the DAILY WORKER for 1925 will be published. Every reader of our daily who can afford one dollar will participate in the spike-driving contest.

This year promises to be an unusually interesting one. Big strikes are looming on the horizon. The coal barons are getting ready for war on the miners' union. It will be a bitter fight. The coal baron is powerful, but the miners are great battalions—both in the American army of labor. Their official leaders are corrupt but the DAILY WORKER will help rally the workers against the bosses despite all handicaps. It will support the rank and file against their enemies, the coal operators, and in support of progressive leadership.

The Soviet government, thru its growing power, has forced the proud capitalists of the United States who own and control this government, to take steps looking toward recognition. But the capitalists are by no means unshaken. This government, there are powerful elements who fear that Soviet recognition will have a demoralizing effect on the capitalist system in the United States. The DAILY WORKER will urge unconditional recognition. The Russian workers and peasants owe the United States capitalists nothing. The capitalists of the United States caused the loss of thousands of Russian lives and the destruction of millions of dollars worth of property thru invasion and pillage. Other interesting struggles are on and in sight. The DAILY WORKER must be insured. It is the most powerful weapon in the arsenal of the American working class. You cannot afford to miss the opportunity of insuring it for 1925. Send in your dollar!
