

TRAFFIC IN HAMBURG, Germany may be merely a commercial matter but traffic in arms is not. This was the gist of a speech delivered by a Belgian coast, in opening the international conference for the control of traffic in arms, a few days ago. The court's listeners applauded the speech. The United States is not allied with the league of nations, there is an American delegate at the arms conference. The thing is a fake and will have no detrimental effect on the business of making, selling and shipping lethal weapons any more than the opinion conference had on the business of making profit out of death.

**AS WE SEE IT**

It is funny to hear some of the deluge talk about "the sacred right of revolution." This may sound revolutionary, but the hidden job in the world is that this gives the big money, a strong lever against any small country that will not take their orders. It is a well known fact that the United States uses this club in South America. The group that lines up with Wall Street gets the clubs and their opponents get the bullets. So much for capitalist peace conferences.

Three women of Great Britain are fighting against the tax on silk, now proposed by Winston Churchill, the chancellor of the exchequer. Their spokesman is Ellen Wilkinson, the poor working girl. She declared the presidential silk stockings at 37 cents a pair, because they are cheaper than wool. The "poor working girl" is a "poor" working girl, and women's etiquette and pay dearly for their job as the employing class own the industries and run the government. Only when the "poor" work.

## OHIO SUPREME COURT BRANDS UNION ILLEGAL

### Smashing Blow Aimed at Carmen's Union

(Special to The Daily Worker)  
CLEVELAND, May 6.—The Ohio supreme court delivered one of the most telling blows ever directed at the trade unions when it handed down a decision yesterday branding illegal in the case of the Cleveland Railway company against its unionized employees.

The case has been in the courts for almost a year. About this time an arbitration committee handed down a wage award which the company refused to accept, and a notice that each one of the arbitrators was favorable to the workers. The man immediately took a strike vote. Then the republican party convention was held and fake labor leaders advised the union to call off the strike for the time being.

Offered Five Cents.  
The company offered the union an increase of five cents an hour and when the men turned this offer down, the company declared an open shop. The president of the union secured injunction preventing the company from declaring an open shop and the company bulletin announcing the loss of the strike vote. The case was heard a few days ago when the supreme court decision was handed down.

No sooner had the open shop decision reached President John J. Stanley of the street car company than he had couriers on their way to all car barns posting up the open shop announcement and a notice that each man would receive a five-cent an hour increase in wages. Stanley declared that he would no longer recognize the union representation but would deal with individual employees.

Would Not Break Laws.  
Stanley will not consider any suggestion to make arbitrary agreements, he told reporters. "I know you are not ask me to do anything illegal," he said. "You mustn't ask me to make any agreements when the courts have said plainly that I am forbidden to do so. I know you are not ask me to do anything illegal."

Strikebreakers are being assembled at all the car barns and guards are being posted all around the company's properties. Heavy wire armor for the cars, thousands of wooden clubs, berberies for the barns, mass halls and bunk houses for strikebreakers, has been in readiness for more than one year.

The supreme court decision is considered the most drastic ever handed down by a capitalist court in the United States. It means that:  
No public utility enjoying a monopoly of its field can make a closed shop union contract with any kind of labor.

Class shop union contracts are contrary to public policy on the ground that they might bar from employment individuals not wanting to join a union.

The Factors Crawled.  
Radicals point out that the crawling-back of the labor fakers to the capitalists, did not mollify the latter's feelings against organized labor. A Workers Party leader in Cleveland declared that "had the streetcar employees of Cleveland struck when they threatened to do so last June, when the republican party convention was in session, they would have compelled the company to surrender." He continued: "The workers have again learned to their cost that the capitalist courts are tools of the employing class. The workers' only salvation lies in the trade union and political class organizations."

International officials of the street carmen's union are expected in Cleveland.

## CROUCH GIVEN FORTY YEARS BY AMERICAN IMPERIALISM FOR HIS DEFENSE OF HAWAIIAN WORKERS

(Special to The Daily Worker)  
HONOLULU, Hawaii, May 6.—Paul Crouch was sentenced to forty years in a United States federal prison at hard labor for declaring his solidarity with the workers and soldiers of Hawaii.

The principal "evidence" used against Crouch at the court martial of the executive committee of the Hawaiian Communist League to the Communist International.

It was this letter, which pointed out the oppression of the Japanese and Filipino workers by the American sugar trust which rounded the ire of the American imperialists who control the United States army.

## MCCARTHY WILL TELL STORY OF IRISH FAMINE

### Mass Meeting Will Be Held Tomorrow Evening

John P. McCarthy, recently returned from Ireland, will be the principal speaker tomorrow evening at an Irish famine relief mass meeting in North Side Turner Hall, at 827 North Clark street. Comrade McCarthy spent several months on the west coast of Ireland where the failure of the crops and the constant downpour of rain hit the peasantry most severely.

During the course of his visit to Ireland McCarthy interviewed leaders of all factions of the trade union and radical movements in Ireland. He tells a very interesting story of the present situation in that country which has passed three years of revolution and civil war.

William F. Dunne, editor of the DAILY WORKER, T. J. O'Flaherty and Robert Totten will also speak. Pictures of Irish scenes will be shown. The proceeds of the meeting will go towards the relief of the famine stricken workers and peasants of the west of Ireland.

(Special to The Daily Worker)  
MEXICO CITY, May 6.—The direct subservience of Mexico to Wall Street is seen in the fact that President Calles today formally notified Soviet Russia thru the Soviet legation here, that Mexico would not tolerate any interference in her internal affairs nor permit Russia to use the Soviet legation as a stepping stone to Communize the Americas.

This follows the acceptance by Calles of the Morgan-made Lamont-De Huerta agreement, which is the signal of Mexican servitude to United States imperialism.

GENEVA, May 6.—The United States was today unanimously elected a member of the international bureau of nine countries to carry on the work of the present conference for the control of international arms traffic.

International security was the chief issue before the conference today. The Swedish, Polish and Greek delegates were the principal speakers.

## CHICAGO CARMEN MAY STRIKE FOR THE 1922 SCALE

### Ask Nickel Raise on New Contract

Chicago streetcar and elevated workers are likely to face a wage war with the traction magnates when their contract expires on May 31. Conferees will be asked by President Wm. Quinn of Division 241 of the Amalgamated Association of Street and Electric Railway Employees of America, with President Blaylock of the Chicago surface lines.

The union has instructed its officials to fight for the 1922 scale, calling for 30 cents an hour, limitation of eight runs to not later than 6 a. m. and insurance to be paid for by the company. The elevated employees are also demanding the 1922 scale, and the surface men are now getting only 70 cents an hour.

The matter of whether there shall be a strike or not is wholly up to the company, and depends upon whether or not it refuses to consider the demands.

## BUILDING TRADE WORKERS STRIKE FOR UNION SHOP

### 2,000 Walk Out on New Market Project

Two thousand building trades workers employed on the immense new market project at 14th St. and So. Racine Ave. being constructed for the city by the city-owned company, McLennan Construction Co., went on strike yesterday morning against the open shop.

Strikers, which include the bricklayers, steel metal workers, tile setters, the structural iron workers, the electricians, the plumbers and the ornamental iron workers, demanded that the several thousand carpenters, cement mixers and laborers who are working on the market be organized under the non-union "Landis award" scale, be unionized. All laborers who belong to the union have come out on strike, and the non-union workers are expected to join the walkout this morning.

Big Bosses on Job Only Two Hours Daily, Admits Kept Financial Editor

By J. LOUIS ENDDAHL

TODAY, some of the truth leaks out about those "excessive" long hours that great industrial capitalists and financiers, according to all the rules of "success" propaganda, are supposed to toll at their desks...

The monotonous tune played is to this effect: the capitalist toils long hours, therefore the wage worker, in mill, mine and factory should be content to remain at his machine the day thru...

One financial writer, however, in order to relieve the monotony of his daily department, took up the discussion of the seven-day week, and it has led him into interminable pitfalls...

Except during his early years, John D. Rockefeller never was a slave to long hours. Neither was Andrew Carnegie...

It is good for the steel workers to know that when Gary and Schwab were urging the 12-hour day for steel workers, they contended themselves with dropping around to their offices an hour or two each day...

It is especially good for the great armies of office workers, Rosemary, to know that their multi-millionaire bosses, who toil excessively long hours in the "largest mail order house in the world," do not take things easy...

Workers can use the argument for short hours for the capitalist to apply equally well in demanding the short workday for themselves. The great employer says he "can do more and better work in two hours than his predecessor of 50 years ago could do in twelve—

Not that the boss is not adverse to using all the modern appliances invented by mechanical genius to shorten his own workday. His "business" can be so organized that practically all work can be sloughed off onto "white collar slaves" who are nothing more than wage workers who refuse to admit it...

The myth of the hard-working boss is thus exploded. Back of the two-hour employer must be revealed, clearer than ever, the great army of parasites, who do no work at all, yet live richly off the fruits of industry...

Only the workers can change the conditions by ending the rule of capitalism. Only the Communists lead in the struggle for this change.

In a recent issue of the London Daily Herald, Noe Jordania, former menshevik prime minister of Georgia, British trade union delegate to Russia for the favorable report made by them on present conditions in Georgia, said that he had a scorching reply which is written up as follows in the Herald:

Mr. Jordania's abusive remarks about the delegation are to be expected, writes Mr. Purcell, because their report has killed the idea of a British trade union movement...

Wonderful! Soviet Russia has established a stable currency without aid from any foreign government...

Georgia currency was "100 times better than the Russian" at the time of Jordania's somewhat hurried departure from Georgia...

Amazing! How did Jordania's friends get that four million? Very simple, he said to the peasants: Land! The wicked Bolsheviks have an incurable weakness for restoring the land to the peasants free of charge...

# COLUMBIA RUSHES TO DENY CHARGE IT TELLS TRUTH

## Refuse to Condemn Looney Gas

NEW YORK, (AP)—May 6.—Columbia University appears to be too friendly to the Ethyl Gasoline corporation—which makes Standard Oil, New Jersey, General Motors and the Du Ponts—to tell the truth about the tetraethyl lead treated gasoline issue.

The two Columbia University research workers have been stricken with lead poisoning in the course of their investigations of looney gas. Columbia University officials are quick to deny the announcement made by the research men that the university's report would brand the new motor fuel as "a menace to public health."

Murrie to Detest of Standard Oil. The announcement of the nature of the coming report was made in a public talk by Dr. Haven Emerson in charge of the work and one of his staff, Dr. Frederick B. Pina, assistant professor of toxicology who was one of the two victims of the experiment.

The university statement in behalf of the corporation was issued by Dr. Orlando B. Williams, professor of physiology who admitted that some lead was found in the excretions of two laboratory workers. He admitted the reports of actual lead poisoning as imaginative and the report of the coming condemnation of ethyl gasoline true.

The Victim Has Reason to Think Differently. Pina, the unfortunate sufferer and the research worker closer to the facts than any of the other workers except his chief, Emerson, regards lead poisoning as an alarming menace and points out that in addition to the dangers it is common for workers in lead, to suffer from sterility.

The Columbia investigation was made at the request of the Ethyl Gasoline corporation.

Houghton's Speech Good for the Other Fellow, Plutes Say

LONDON, England, May 6.—The business interests of each European country see in the British proposal, urging Europe to produce wealth and pay back her debts, a slap at the other European countries in the statement.

The English newspapers declare the speech hits at France and Germany, and the German press at France, France and England, France interprets the speech as a warning to Germany, and Belgian papers look on Houghton's utterance as a slap at the other European countries.

Stripped of its diplomatic courtesies, Houghton's speech was a warning to the European countries that they must get on their feet and pay back their debts, and that they must get on their feet and pay back their debts, and that they must get on their feet and pay back their debts.

IRISH WORKERS' AND PEASANTS' RELIEF CONFERENCE IN NEW YORK

NEW YORK, May 6.—The conference called by the Irish Workers' and Peasants' Relief Committee took place on Sunday, May 3, and laid the basis and decided on the plans for carrying on a campaign for the relief of the 750,000 workers and peasants who are starving in western Ireland.

Joseph Manly, secretary of the provisional committee, said that the conference and outlined the situation of the Irish Free State, and endeavored to do the same relief work in Ireland that it did in Soviet Russia during the famine of 1921.

THE Famine of 1921. "There is one difference, however, between these two cases. The Soviet government sent out information and photographs graphically depicting the situation, while the so-called Irish Free State is suppressing the facts by a conspiracy of silence."

Comrade Manly read some letters recently arrived from Irish peasants who are on the verge of starvation. One of the letters showed that some workers were given a half day's work at three times the normal rate. "This was before the elections, and the politicians that they could buy their votes after the election, the men lost their work and are starving today."

Expelled Free State. P. J. McClellan was elected chairman of the conference and was secretary. Comrade McClellan introduced Sean Conroy, who exposed the sham of the Irish Free State government, which is nothing but a puppet of British imperialism. "That there is a conspiracy of silence is only too true," he said. All the foreign news coming to the United States and Ireland is full of lies and propaganda to send the shiploads of grain and gold to Ireland. This aroused the anger of Victoria, who is leading the fight to demand that England was taking care of the famine.

# BRITISH CAPITALIST INDUSTRY BANKRUPT; DAWES PLAN ASSISTS BOSSES IN OPEN SHOP DRIVES

(By The Federated Press)

LONDON.—Capitalism as applied to the mining industry has broken down. The British workers cannot pay its way. These are the simple facts of the British labor case emerging from the joint inquiry undertaken by the miners and their bosses. According to the publicity department of the Trades Union Congress:

"The plain fact is that the industry is not paying and cannot pay its workers a living wage. The only solution lies in a more efficient and more economical method of producing the using coal. As things stand the workers are being compelled to stand for keeping old, inefficient, and obsolete machinery, and for the sake of the sake of production if the industry were organized as a national service and the overlapping of managerial and administrative expenses eliminated."

An attack on British railwaymen's national agreements similar to that led by the Pennsylvania railroad, in America in 1914, appears to have been begun by the Great Western. The railway has gone direct to the mine instead of negotiating with the workers. Its alternatives are (1) suspension of the guaranteed 8-hour day and 48-hour week, (2) reduction in all railway work, or (3) wholesale reduction of force.

The joint sectional council, to which the proposals were made, declared that the unions had presented demands for a general increase in railroad wages.

The Metal Trades Employers' federation followed with an attack on British hours and conditions railway workers. It proposed the regular week from 47 to 50 and 65 1/2 hours and a reduction in overtime rates. The only concession these employers will make in the request of the unorganized Metal Trades Union is an increase of 30 shillings (1 shilling is 1/20 of a week) is a shilling increase in the weekly wage. This would add less than 50 cents to the weekly wage of those entitled to the bonus.

The lengthening of the week, the employers say, is not unworkable. They are making a working week extending to 60 hours at 100 percent wages.

The British Trades Union Congress general council has ratified the agreement reached by the Anglo-Russian trade union conference. It calls for joint efforts to increase the standard of living of the workers in the Russian and the (Amsterdam) International Federation of Trade Unions. It also provides for a joint committee of representatives of the British and Russian unions.

Comrade Manly read some letters recently arrived from Irish peasants who are on the verge of starvation. One of the letters showed that some workers were given a half day's work at three times the normal rate. "This was before the elections, and the politicians that they could buy their votes after the election, the men lost their work and are starving today."

Expelled Free State. P. J. McClellan was elected chairman of the conference and was secretary. Comrade McClellan introduced Sean Conroy, who exposed the sham of the Irish Free State government, which is nothing but a puppet of British imperialism. "That there is a conspiracy of silence is only too true," he said. All the foreign news coming to the United States and Ireland is full of lies and propaganda to send the shiploads of grain and gold to Ireland. This aroused the anger of Victoria, who is leading the fight to demand that England was taking care of the famine.

THE Famine of 1921. "There is one difference, however, between these two cases. The Soviet government sent out information and photographs graphically depicting the situation, while the so-called Irish Free State is suppressing the facts by a conspiracy of silence."

# SACCO, VANZETTI JAILED FOR FIVE YEARS, MAY DIE

## Anniversary Finds the Victims Still Firm

(Continued from page 1.)

The Bridgewater Hospital where he was being examined and treated while his nervous system was upset from his brooding on the injustice of his case.

Sacco is in Dedham jail, while the supreme court of Massachusetts considers the evidence for the new trial, that was denied by the trial judge, Webster Thayer.

The Murder of Salsedo "This case which has aroused such indignation in Europe and South America and caused the American Federation of Labor to brand it as a 'ghastly miscarriage of justice' is closely interwoven with a sensational and notorious case in New York City on May 3, five years ago.

Early that morning passers on Park Row saw a body crash to the pavement from the top of Justice tower, 14 stories high. It was Andrea Salsedo, an Italian radical who had been held incommunicado by Palmer's agents for two months while they gave him the third degree in the effort to get the names of his friends for deportation purposes and if possible to make responsibility for the June, 1919, bomb explosions that subsequent evidence indicates may have been the work of agents provocateurs.

Now the Framers Begin Sacco and Vanzetti were close friends of Salsedo. Vanzetti had sought his release in New York before his trial and was arrested by the two friends being arrested the Italians of New England to this latest act of the department of Justice's reign of terror.

After the shooting in Brockton had been drawn up, when, with a handbill in their possession, they were seized May 5 in the streets of New York.

Two days they were grilled as "reds." Then, their friends say as an after thought of the authorities, a charge of murdering a Boston street guard at South Braintree, a nearby shooting town, was sprung.

Cogs in the Framers Machine. At the trial in the city of New York Sacco and Vanzetti were convicted partly on circumstantial evidence, partly on the testimony of eye witnesses and largely on prejudice.

At the scene, there were none against Vanzetti, two, Lola Andrews and Louis Pelletier, were against Sacco and Vanzetti under pressure from the prosecutor; a third, Giorgio Ladriani, has been twice a convict after long imprisonment and had two lawyers, both of which were quashed after his services on the stand.

Fourth and fifth, Miss Espino and Dervin, two common clerical workers, were a good distance away and there is decided discrepancy in their testimony. Neither were positive as to the precise time when Sacco shot the cocksure at the trial a year later. Most of the newspapermen who covered the trial, said, in a poll of the press table, pointed out regarded the conviction as unjust.

In Hand of State Supreme Court. Sacco and Vanzetti will be sentenced to death by the state supreme court. Thayer if the supreme court denies appeal. The fight in their behalf is conducted by the Sacco-Vanzetti Defense Committee, 1315 Massachusetts Street, Boston, Mass.

# MEMBER OF PARLIAMENT EXPOSES TORTURE OF POLITICAL PRISONERS BY ROUMANIAN WHITE TERROR

(Special to The Daily Worker)

BUCHAREST, May 6.—(IRA)—The member of parliament, Dr. J. Pistiner presented the following interpellation to the Rumanian parliament protesting against torture of political prisoners:

"Mr. President: I address the following request to the minister of the interior. Many of those who have been arrested charged with Communism have made statements that they have been maltreated by officials of the Siguranza. I read the statements of some of these prisoners:

"1. Andrei Virgi. I was arrested in my home in Tomesvar, and was there beaten in the presence of the proprietor of the house. I was beaten six times by Commissar Popescu, by the agent Toma and by others.

"2. Dr. Julius Gyongyoszy, lawyer of Hercegovina. I was beaten at my arrest by the Siguranza of Arad.

"3. Aron Kuperman. In the Siguranza at Bucharest an agent attacked and struck me with his fist on the nose and in my stomach. On the third day I was led late at night to Mr. Banulescu who struck me immediately when I entered the cell.

"4. Luka Lascio. I was taken to the Siguranza in Kronstadt where I was beaten from 12 to four o'clock by the chief of the Siguranza, the son-in-law of the inspector and an agent with their fists and with pieces of wood.

At seven o'clock they again maltreated me for two hours.

Bernard Kats, from Cernovitz. In the night of December 24 I was examined in Bucharest by Commissar Popescu, who instructed me to sign a statement. In the night of December 27 I was beaten on the instruction of Commissar Popescu by two agents with rubber sticks over my face and head; they tore my hair out and kicked my head against the wall in order to force me to sign a statement. The contents of which I did not know. I was led to Commissar Georgeanu who struck me for two hours with a rubber stick and threw me on the floor.

"It is clear that this 'system of examination' is not only barbarian but also criminal. I therefore have the honor to ask the minister of the interior to take the necessary measures he intends to take against the guilty officials and against this whole system."

FANCY HOTELS AND CHEAP EAT HOUSES ALIKE IN LONG HOURS, LOW WAGES AND ROTTEN FOODS

By PARQUALE RUSSO.

"Laws grind the poor and rich men rule the law."—Oliver Goldsmith, in The Traveller. In this glorious country of ours, the newspapers are clamoring for an increase in legislation and law to check the prevalence of theft, bootlegging and other crimes. The daily plating of the papers is laws, laws and more laws.

Senator James Reed of Missouri tells us that there are now more than forty thousand useless laws in the United States, all of which should be repealed. Further, said he, many lawyers, judges and other respectable citizens violate these laws daily owing to the fact that they are ignorant of their existence.

Like Shaving a Jackass. The law can be compared with the case of the Italian peasant who took a jackass to the barber to have him shaved. He had hoped that in this manner he would stop the growth of hair on the animal's body. At the end of a few days, when the peasant discovered, owing to a new crop of hair on the jackass, that he was wasting time and money. Laws and crime are in the same case. The more laws, the more crime and vice versa. Crime is an evil of the present capitalist system and cannot be checked by any system of law making.

Nevertheless the politicians keep at the old business of making new laws. Recently we read in the Chicago Tribune that Theodore D. Smith has introduced in the Illinois legislature a bill providing that cooks should have as much knowledge of gastronomy as a plumber has about installing a bath tub. We are also told that the leading hotel owners favor the bill. They like the feeling requiring that the cooks wash their hands frequently during working hours. From the same source we learn that Greek restaurant owners oppose the bill because it intrudes upon that which they regard as their rights.

An Interference With Exploitation. Nick Stamatoopoulos, 2909 West Roosevelt Road, in speaking of the bill, said: "The foodiest law ever brought up in Illinois. The law should say how we train our cooks. It is none of the business of the state of Illinois how I run my kitchen. That's my business and if my customers like my food what business has the politicians sticking their noses in my kitchen?"

Other Greek restaurant owners use more violent language regarding the bill. The principle reason why the Greeks oppose the bill is because the enforcement would interfere with the employment of newly arrived immigrants in their restaurants. All these owners are quite conscious of the fact that it is comparatively easy to exploit a new arrival. Another reason is because they employ non-skilled cooks. They are great believers in the open shop. Several days a week and very inadequate wages.

Low Wages and Poor Cooks. The Greek restaurant owners and all difficult to secure efficient cooks at the wages they are willing to pay and for this reason are opposed to the proposed legislation. When the Chicago Tribune states that the leading hotel owners favor the bill on account of its sanitary

backs pass thru many unclean hands. Is this sanitary?

Soup Pot. Bones, scraps of meat and vegetables are dumped in the stock pot. It is boiled all day until midnight. The pot is not covered and cockroaches and flies easily find their way into it. The contents is usually a mess of fifty alike, never the less it is served to the public as delicious soup under a dozen misleading French and English names. It must not be forgotten that while low wages are paid to the cooks and other employes, high salaries are paid to chefs.

The reason because they are so efficient than the cooks or because they are intelligent, but on account of the fact that chefs can be handled and are stooge-queens. Chiefly they spend their time adorning the bill of fare with stupid French names. They have no meaning, but they do serve to fool the public into accepting rotten food.

All Hotels Alike. Of course, it would be unjust to say that the Hotel La Salle was the only place where such conditions prevail. All hotels have been built on sanitary kitchens and the workers are exploited in the same manner. It is our wish that Representative Smith investigate the filthy conditions in all hotels. Hotel La Salle is in the others as well. Having such an experience he would very likely then introduce a bill demanding clean and sanitary kitchens providing for the health of the cooks. The law might provide penalties for operating a kitchen in the basement, and compel the hotel owners to provide clean and sanitary kitchens, showers and soap. Shower baths, clean dressing rooms and rest rooms provided with beds would not come amiss. The employes should be given a separate sleeping room, and making it a penal offense to feed them on our stew or decayed food. Finally to reduce the working hours of the cook of ten and twelve as it now is.

Hotel Owners Would Fight Law. But Smith understands quite well that it would be foolish to introduce such a bill. The hotel owners have the abundance of money and they would use it to kill any such measures.

What then is the remedy? Appeal to the board of health? No, many such appeals have been transmitted to the board of health, pleading with them to enforce the law regarding the sanitation of hotels, but make no result from our efforts. In such cases the board of health is useless. Russell J. Poole, former city high cost commissioner, speaking in room 317 of the County Building, said that the Smith bill, charged that the health department food inspectors are inefficient. He also stated that they were not allowed to go into the kitchen and the inspection is over.

This is the substantial truth. During 1923-24, not a single food inspector ever visited the kitchen of the Hotel La Salle. It may be that the inspectors did visit the front office, and arrange the matter for a clean report.

So we can ask again what is the remedy? Workers Must Organize. Fellow workers take less than the mule. If the farmer puts a heavy load on him, he refuses to move. If the farmer whips him he moves. If the farmer starves him he dies. If the farmer is compelled to remove some of the load. Workingmen, like the mule, have been exploited by the industrial lords. For centuries they have carried heavy loads on their shoulders, and submit to the exploitation of the capitalist, but to change all this is not too late. You still have the power to stop the mule. But to do this most effectively you must organize.

When the workers of the world organize as masses, they will then be able to kick to pieces this damnable system of capitalism, and make this a decent place for the working class. CROUCH FOUGHT FOR INTERESTS OF THE WORKERS

(Continued from page 1)

at Schofield barracks, objected particularly to a paragraph which said, "The condition of the working class in Hawaii is much worse than in America and the European countries, and practically all land is in large plantations which employ Japanese and Filipino labor. Strikes are very frequent and there is a good field for propaganda." The army officers are guarding well the profits of their imperialistic masters, which are gouged by the oppressed dark races in Hawaii. Letter to Communist International. The letter written to the Communist International as given out by the army authorities, is given below. The DAILY WORKER has not, of course, been able to ascertain from Crouch whether his letter was quoted correctly by its prosecutors.

The letter, according to the army officers, states: Executive Committee, Communist International, Moscow, Union of Soviet Socialist Republics. Comrades! Meeting to the Communist International from the class conscious workers and soldiers of Hawaii.

Knowing that unity is essential for the success of world revolution, the class conscious workers and soldiers of the Hawaiian Islands have organized themselves into the Hawaiian Communist League.

The Hawaiian Communist League wishes to take its place in the world movement for revolutionary Communist League. We wish to cooperate with our comrades in other lands in the fight against capitalism. We desire to affiliate with the Third International.

The Hawaiian Communist League accepts the principles and regulations of the Communist International with our reservation and will cooperate to the full extent of its ability in the movement to free the workers of the world from the chains of capitalism.

The members of the Hawaiian Communist League have been very active in a publicity movement for the purpose of presenting the facts about Russia to the Hawaiian proletariat and the workers of the islands. We are into a common movement. Of course this is meeting with opposition from the capitalist forces and the Communist League has been very important developments.

The condition of the workers in Hawaii is much worse than in America and the European countries, and practically all land is in large plantations which employ Japanese and Filipino labor. Strikes are very frequent and there is a good field for propaganda.

The Hawaiian proletariat desires to take its place with the revolutionary parties of the Communist International.

All mail for the Hawaiian Communist League should be sent to the secretary, Roderick P. Nadeau, 21st Infantry Barr, Schofield Barracks, Hawaii.

Hawaiian Communist League. The executive committee, Walter M. Trumbull, Roderick P. Nadeau and Paul Crouch.

Spy an Ignoramus. Another "charge" against Crouch was that he "did on or about Feb. 18, 1924, advise counsel of secret organizations (the government stool pigeon), Co. G, 37th Infantry, to become a member of the secret organization. The Hawaiian Communist League is a secret organization and military discipline." Crouch, in presenting his defense, proved that the Hawaiian Communist League was not a secret organization, holding its meetings in the squad room, and sending out letters with the league's letterhead addressed, "To the Hawaiian Communist League." He showed that Crouch, in presenting his defense, had been a spy and returned to admit him for a spy and refused to admit him.

Forty Years for "Disrespectful Language." The other charge against Crouch was that "Private Crouch did orally and in the presence of other soldiers in the United States the following disrespectful language. The majority of the common people will be hard to swing into the Red column. I am in part of the overthrow of the United States government—by peaceful means if it can be done, if not by any other method that may present itself, including revolution." Crouch tells of Communism. Crouch declared that he had been misquoted, and went on to explain his "Communist" views. He showed that part of the capitalist state plays in the class struggle, and how it is necessary for the working class to gain control of the state in order to exterminate the profit system.

When asked whether he "believed in political action," Crouch replied that political action plays its part in the struggle of the working class to gain power. Crouch's court martial was composed of one lieutenant colonel, one major, five captains, five first lieutenants, and one second lieutenant. "Are you still interested in Communism?" Crouch was asked. "I am very interested in everything that pertains to Communism," was Crouch's reply.

BUILDERS AT WORK

Organization for the Present and Future

Kansas City, Mo., Does This

COMRADE E. HUGO OEHLER, Assistant City DAILY WORKER Agent, and other local comrades of Kansas City are beginning from the ground up.

Look closely to this plan of theirs, which is systematic, and if well followed will eventually develop in Kansas City a better and bigger center for Communism. Note also that in their plans the DAILY WORKER is used as the means to build up the party thru EVERY phase of party activity—which is exactly what the DAILY WORKER is for. His letter says:

At the last business meeting of the English-speaking local they indorsed the following program that the City Agent and myself have inaugurated:

To leave Kansas City to be divided into six districts with a manager for each district, as many assistants as possible, with the City Agent in charge.

Manager to give written report once a week in campaigns; once a month in off seasons.

Purpose is to renew subscriptions, take charge of Red Sunday drives, locate compact working-class areas within the district, and retail and religious groups.

To have an organized yearly compact mass propaganda for the DAILY WORKER, drive against deportation, strikes, unemployment relief, notices of meetings and for elections.

This will enable us to have written reports of the city according to classes so the followers may start where we left off in drives it will eliminate waste and inefficiency, giving us a periodical propaganda all over the working-class districts in the city at once, and is the rudiments of systematic propaganda for a mass party.

We are in need of a number of workers to handle this in detail. However, we must start NOW.

Faternally yours, E. HUGO OEHLER, Asst. Agent, DAILY WORKER, Kansas City, Mo.

Detroit Leads Today!

LOCAL DETROIT, with a distribution of 20,000 copies of the DAILY WORKER on May Day, sends us the immediate results of 22 new subs, with 11 more on the way. In addition, this local is distributing a mountain of "Dailies" during this week. And to climax the splendid work for the official organ of our party they will cap this tremendous distribution with a mass meeting on Sunday, May 10, at the House of the Masses, 2646 St. Aubin St. Comrade William F. Dunne, editor of the DAILY WORKER, will speak at this meeting, and without question Detroit will not only climb up to near the top of the list in the campaign but also the party is sure to feel the results in membership increase. There are real Communist Builders in Detroit and City Agent Comrade Alfred Goetz is a BUILDER of first rank, as his direction well testifies.

STANDARD OIL FORCED TO STOP LOONEY GAS SALE

Government Came to Aid of Monopoly

(Continued from page 1) from sale, "pending the outcome of the investigation by the United States attorney general into effects of its on public health.

Throws Off Poison. However, Harvard, Yale and Columbia university professors condemned the sale of the gasoline declaring it throws off a lead poison which is slowly absorbed into the system of those who come into contact with it. The poison gas made the stinky company give consent to Bright's disease, diphtheria, beriberi, insanity and other diseases, physician state.

Even the investigation by Columbia University was unfavorable to the sale of the looney gas. Columbia University is closely connected with the tests backing the sale of the gasoline, and the Columbia investigation was paid for by the Ethyl Corporation, which made a contract with Columbia to conduct the research. Two Columbia workers were come by lead poisoning during course of the experiments.

Columbia Report Suppressed. The Columbia report, however, was not published, having been sent Surgeon General Cummings at Washington. It is known to be unfavorable to the sale of the gasoline. This gasoline has been sold twenty-seven states despite the claim leveled against it and the tests backing the sale of the gas from the effects of the gas.

Government Involved. The sale of the gasoline was investigated by the United States attorney general, thru the bureau of mines, issued a favorable report, the sale of the gasoline. This investigation was also paid for by the Standard Oil Corporation.

As soon as the criticism of the government's report exposed its bias favor of the corporation, the bureau of mines issued a favorable report, the sale of the gasoline. This investigation was also paid for by the Standard Oil Corporation.

Officials of the United States health service now say that the real cause of the illness "never before" has been issued without more adequate explanation, and an independent investigation may be conducted the health department of the government.

Local Unions Join in Utica Workers Party in May Day Meet

UTICA, N. Y. (By Mail).—The Workers' (Communist) Party 1 Day celebration in Labor Temple was successful with many local labor unions participating. J. J. Bousan, local organizer for the Workers Party, vice-chairman of the local West Union, was the chairman of the meeting. Comrade Franklin P. Brill, Buffalo was the principal speaker, showed up the Wall Street Deal plan and the instrument of the rail rolling class to bring out of exploitation of the German world class the vast reparations that many. He said that the only way of the "last international slough was the American banking fraternity. Resolutions were adopted prior to the meeting of the imprisoned Charles Crouch and Trumbull for 40 26 years respectively for Communist activity in the U. S. Army. In spite of the Ammatedting Workers backing out at the minute, withdrawing their support and renting their own hall, we have very fine and enthusiastic meeting
