'B. & O.' BILL JOHNSTON AND HIS GANG STEAT "HINISTS" UNION **ELECTION BY DAVISON'S COUNT**

WASHINGTON, D. C., June 4.—William H. (B. & O. Bill) inston and his machine, have counted themselves into office "re-ejected" by one of the rawest election steals in the history the international Association of Machinists.

General Sceretary-Treasurer E. C. Davison has finally issued official statement on the returns of the I. A. M. election, and strange "prophecy" made by the Johnston machine long best the votes were counted, that 'JB. & O. Bill' would be rected by "about a thousand" and that Bill Hannon and C. W. Fry of the Anderson centrist group would also be given an office, this strange prophecy of Johnston has turned out true.

"And why shouldn't it!" say the long the left vingers. "Whan Johnston's machine counts the votes and atms to spill the Addreson group by this con-

The grand jury decleared there were two classes of public officials—those who connive with jew velocators for its and those who flagrantly cendons orime activities. A everaging investigation was recommended.

Let the American Forces Before Shanghai Produce Their Martys or Sadouls

By J. LOUIS ENGDAHL

TODAY, 438 more American naval officers, in the uniform TODAY, 438 more American naval officers, in the uniform of Wall Street imperialism, step forth to do the bidding of the empire builders of the United States. This is the annual graduating olses of the U. S. Naval Academy at Annapuls, with its military counterpart at the West Point Academy on the Hudeon River in New York.

"Gal" Coolidge was there, and in his best New England hypocrioy, declared that "the navy is a great instrument of peace," and that he saw no cloud on the horizon. One editorial quack, in the lingo press, remarks that there is no cloud on the horizon, that it is above the horizon, the fleets of airships that he prophesies as coming out of Japan.

But it is unprecessory, today to a row leans to look for

of airships that he prophesies as coming out of Japan.

But it is unnecessary today to go to Japan to look for future wars. There is a war aiready on in the Orient—the war against the workers of China, in which workers blood has aiready been spilled. To be sure, the workers and poor farmers of the United States have heard of no war being declare war against the Workers' Republics, when the territory under Soviet Rule was invaded by American airms at Archangel and Visidivestok. Neither was war declared against Hayti, altho 3,000 natives are reliably reported as having been murdered by American marines. The same is true of other islands in the West Indies, of Mexico, Central and South American. Imperialism, doesn't take the trouble to declare war to advance its ambitions. It just takes what it wants. And those who interfere suffer,—unless they are powerful enough to resist successfully.

terfere suffer,—uniness they are powerful enough to resist successfully.

There is bloody work being done and to be done at Shanghai for U. S. imperialism. An active summer awaits many of those invaid officers, just graduated at Annapolis. Cunningham at Shanghai frantically appeals for more were vessels. There are today at the Chinese port the gumboats Eloano and Villalobos, the mine sweeper Penguin, and the destroyers Pope, Truxton, Pilisbury, Stawart and Ashville; eight warships in all. Marines are landing in large numbers, under orders, in the Orlent, as in the United States, during strikes, to "Shoot to Killi" But the call goes forth for more warships, more man killers!

strikes, to "Shoot to Killi" But the oall goes forth for more warships, more man killers!

It will be remembered that large numbers of American soldiers, sent into Siberia in an effort to overthrow Worker's and Peasant's Rule revolved against the task set them. Many deserted. Others committed petty orimes in order to be sent back to "The States," more willing to serve a term in prison in this country than to aid in making war on the Soviet government. Recently the whole Wall Street military machine was thrown into spasms of fear thru the discovery that the army barracks at Honolulul harbored two Communists and more sympathizers.

The attack of French imperialism against Soviet Rule produced two herolo figures, Jacques Sadoul and Andre Marti. Sadoul deserted to the Soviet cause from the French army and he was condemned to death charged with treason. The military court that recently tried him for treason, following his return to France and his immediate arrest, did not dare find him guilty, due to popular protest. Marti led the mutiny before Soviet Odesse, in which the French sailors ran up the red flag of the workers' revolution on their battleship and declared they would not fire on the Russian city under workers' rule. Marti was sent to prison but labor has forced his liberation and elected him to the municipal council of Paris.

The naval forces before Shanghai, called upon to slaughter Chinese workers on strike against their masters, should produce a Sadoul, a Marti, a Crouch or a Trumbull.

Even among the 438 new naval officers drawn from the Annapolis Academy there ought to be some who refuse to carry out the murderous tasks assigned to them. But surely among the common sallors and mariner, taken in large part from the working class, there should flicker and flame the spark of revolt.

while Coolidge blabbers about "the spiritual and moral forces of manking," the soldiers and sallors of the United States murder lenocent workers structured to better their conditions. Even these soldiers must have more and more that they fight only for Wall Street's dollars. With that knowledge comes the alliance of these same soldiers and allors with the workers and poor farmers for the struggle to win all power, not for the imperialist masters but for themselves and the liberation of their class.

PORTUGUESE LABOR ON GENERAL STRIKE AGAINST DEPORTATIONS

LISBON, Portugal, June 4.—The labor confederation today called a eneral strike as a protest against the deportation of workers.

NEW YORK, June 4.—Stocks of the motor companies were as conspicuous in the reaction of prices in the stock market today as they were in the brisk upward movement in the two previous seasions of this week.

"Make A. W. I. U. a Real Union"

(Continued from page 1)

(THE agricultysis cysis of 1924 InA, volving lancalar vais for farmers
undoubjedly had its affect upon the
success of the Agricultural Workers

W. We see that in spite of the methot used of district organization with
stationary delegate—explained in
Bulletin 31.0 Kagtember 10, 1924, the
A. W. I. U. 110 did not increase its
average membership during last year
over the year before. In fact, It lost;
as 1923 showed as average membership of A443, walid 1924 agures show
1017, 4540.

Concenting Fundamentally Worng.

It the smaller membership ware six-

deniesting Fuidamentally Wrong.
If the smaller membership were given better returns in heurs or wages, the fall of of numbers, ought to have been compensated for by more loyal citching to the union during the winter months. However, the March general office bulletin above that in that month the A. W. G. U. paid per capital to the property of the pr

tax for only 950 members. This situation is not secouraging, in fact it reveals the fundamental flaw in the A. W. I. U.—the dependence appen the harryset drive alone, the matchings of situitious and quest from the floating and seasonal worker riding the trains, and a complete indifference to the possible building of a stable and gaunise unloss of the 2,000,000 agricultural wage workers of the United States.

Don't Forget to Fight Employle

It is, of course, the easier task to gather in the seasonal harvest work-ers, and these should by no means be neglected. Thousands of them have become accustomed to taking out a new card as a sort of season railroad ticket. But the besefts to members of an agricultural workers' union should not be limited to transports tion. The R. I. A. C. feels that if the A. W. I. U. 110 would deliver other and larger benefits it would recleve more permanent support—it could receive more permanent support.

But what do we find as the result of the Omaha conference? We re-

... It, is little, to heast of that the 10-hour day exists in many sections, as it is not altogether an innovation, nor should the union stop there, but demand shorter hours, as 10 hours is too long for such heavy work in the

too long for such meany wars an use terrible heat.

And in wages, the explanation that these are better fixed by .ccal con-ditions pertaining to the supply demand of abort, would be good only if it were not the duty of the union that the such that the such that the tag of a minimal way and the set-ting of a minimal way and the set-ting of a minimal way are and any any event, a stimulus to organization in addition in ancessers to off. addition, is nec

Hence we see that the fight against the bosses has been nearly forgotten in the fight against the formation of a dual union by the "emergency" fac-tion. This ruinous situation should be a dual union by the "emergency" inction. This ruinous situation should be
the continued of the continued o

basis of militant class struggle for immediate demands.

The R. I. A. C. points out that a necessary part of the struggle is a political party of the working class composed of its most stavanced ele-ments which hammers out from world repartence the clear revolutionary control of the class of the ab-solute perception is a revolutionary action.

Abolish Angrobiet Anti-Politics

ntionary theory does not arise spon-aneously out of the amorphous mass, unt comes as the conscious effort if the most advanced elements who iraw their condusions from world wents of all history and hammer ham out in collective discussion with 1 the organization which is not the 1 the organization which is not a 1 the organization which is not seen that the property of the seen that the think the seen that the property of the think the the think the think the the think the the the think the

courts, the following methods be ob-served to bring the divided rank and dis together:

1. Unity on the job so far as fight-ing the boses is concerned. Com-mon action with all workers on the job, including those rank and filers who have militantly gone "emer-gency."

split, with the agenda to be limited to the one question—unity.

3. The next general convention of

discuss terms acceptable to both.

In the meantime, the general
headquarters should send the G. E. B.
headquarters should send the G. E. B.
headman or the general sceretarytreasurer, or both, to the coast and
call mass meetings to contest the
"emergency" program in its strongest section with an ideological war
against decentralization, pacifism,
anarcho-gradicalism and anti-revolumarcho-gradicalism and anti-revolu-

wage workers in agriculture. Until that is done it is idle to call the A. W. I. U. an effective union. Until that is done it is a grave mistake to scatter the financial proceeds of the generous hand, and not provide for a systematic drive to unionize the residential and semi-residential "hired men," ranch hands, dairy hands, cot-

ceed in agriculture or any other in dustry. RED INTERNATIONAL AFFILIA TION COMMITTEE,

China

China is the center of world interest.

China is the center of world interest.

Why?

Recame the imperialist nations have invaded Chinese territory and are trying to suppress strikes and anti-imperialist demonstrations of Chinese workers and students?

Not at all. These things happen almost every day in some quarter of the globe which the policemen of imperialism patrol to guard the indestens and spheres of influence of their masters. But China is the last undivided territory accessible to the profit-hungry capitalist class of the great powers. Here the clash of imperialist rivalities rises to a shrill creacendo and every foreign nation watches jealously the manesurers of the rest.

It is because one does not trust the other that some powerful nation, Great Britain for instance, is not delegated by all to guard the interests of each. Now, the rivals dare not adopt this more efficient method. All the jackals must be present to take a bite at the body of the Chinese nation, but this does not prevent each from trying to get the biggest chunk.

The theory underlying the present raid on the peaceful Chinese people is that the interests of foreign imperialists come before those of the Chinese and that the great powers can act in accord to suppress revolt against the domination of any particular power. In this instance the aggreed power happens to be Japan because in mills owned by capitalists of, that nation a strike took place.

It is quite obvious that while American marines are carrying out instructions and protecting Japanese property it will be without (any great amount of enthusians. The same is true of the mercenaries of other nations.

This jealousy among the imperialist powers is the best assur-

out instructions and protecting shapness property it will be without any great amount of enthusiasm. The same is true of the mercenaries of other nations.

This selaousy among the imperialist powers is the best assurance of the success of the Chinese anti-imperialist movement. The greatest danger to it is in the dissension sown by the tuchnus, the corrupt military leaders, in the ranks of the Chinese people.

A China united against foreign invasion, backed by Soviet Russia, can expel the imperialist robbers. This is the leading part of the program of the Kuo Min Tang party and in South China it has built up a tremendous following.

The isoderahip of the present movement is in all probability vasted in Kuo Min Tang and the desperate measures resorted to by imperialists are undoubtedly directed more toward suppressing this party than the immediate invasion on a large scale and an attampt to conquer China by force.

Powerful, unscrupulous and cunning forces are at work in China and the Chinese people are forced to fight almost with bate hands. But in their millions of workers and peasants and in their unity against the loreign robber clique lies-their strength.

Class Justice

Ten years in prison is the penalty handed out by a West Virginia court to a coal miner for taking part in booing a scab.

It sounds almost increditable even to us who read and write over day of the dosens of cases of persecution of workers by the capitalist governments for activity in behalf of their union, their party and their class.

The conviction of this miner, one among many indicted, was secured under a law called the "Redman Act"—one with which we are not familiar, but which is evidently one of those pieces of special legislation found on the statute books of states like West Virginia, where the big capitalist concerns like the steel trust are in full control. As a rule such laws are passed with but little publicity. They remain practically unknown until the bosses want to make an example of some group of fighting workers.

The scab who was being ridiculed shot one of the pickets, but he has not even been charged with crime doubtless because at such times the capitalist courts always hold that scabs are acting in self-defense. Besides a scab is one of the institutions of capitalism.

In connection with this case it is interesting to note that 20 coal mining companies in West Virginia have just had their temporary injunction against the union made permanent by an obliging indge thus outlawing thousands of striking miners.

Class justice in a class society.

The way to meet it is organize, meet blow with blow, fight capitalism and its agencies of suppression as a class, at every point, unite in defense of the victims of the class war and make every new incident of savage persecution an object lesson for the whole working class.

Ford's System Thru Eyes of Workers

We wish to call the attention of our readers to the story about conditions in the Detroit Ford factory, that appeared in yesterday's DAILY WORKER. It was of special interest for two reasons.

First, it is written by a member of a shop nucleus, a worker

cond, it contains facts that have never been brought out in mes written about Ford and the Ford plants. The facts are those only a worker would note and emphasize—unimportant if taker only a worker would note and emphasize—unimportant if taken by one, together they make up a most damning indictment of the d efficiency system and expose with a commendable terseness of, rance the manner in which slavery is enforced by making every ker feel his helplessness and insignificance.

The preparations made for the reception of the prince of Wales ecorded in "our worker correspondent's story speak volumes. The trast between the Fordian attitude toward workers and royalty

contrast between the Fordian attitude toward workers and is striking and proof complete of the hollowness of all preter equality of treatment and opportunity is possible under a syst places parasitic idlers above workers in the social scale.

The whole article is a powerful argument for shop committees, militant unions and workers' control of industry. The distribution of such articles to the Ford workers will do more to arouse them to sense of their slavery and revolt against it than many reasoned

Forged Documents and Revolution

The well-organized international forgery agency in Berlin has in exposed and a huge supply of counterfeit "revolutionary" docu-nts, manufactured for sale to capitalist governments for emergency s has been secured as a result of the arrest of the well-known exrist police spy Drushelovsky.

carrist police spy Drushelovsky.

The arrest of this spy by the German police is an example of one of the contradictions of capitalism that handicap it in its war on the working class. All capitalist governments are not prepared to go to such lengths at present as did the British tories and the bloody Zankov Bulgarian regime. There is a certain danger in the use of such methods and besides most capitalist governments are quite ready and willing to expose the machinations of the rulers of other nations. The German government had been a customer of Drüshelovsky at the time of the raid on the Soviet trade bureau, but when he tried to peddle to the allies documents purporting to show the presence of large quantities of arms in Germany and secret pre-narations for a way of revenge, he got in bad with the German political carries. tions for a war of revenge, he got in bad with the German polit

The exposure of the filthy role to this creature has pla The exposure of the first year to this creature has placed the capitalist world in a ridiculous position. Not that such isolated incidents bring capitalism to its knees, but certianly an accumulation of proofs of deliberate duplicity which a child can grasp, does not help the ruling class to keep its grip on the minds of the masses. On the strength of such forgeries the Bulgarian government has

on the strength of such torgeries me nongarian government has murdered thousands of workers and peagants. Because of the now famous forged Zinoviev lettler, which that darling of the liberals, Ramsay MacDonald, either believed genuine or had not the courage to expose, the British labor government was defeated. With such documents as an excuse the various governments initiate mass raide documents as an excuse the various governments initiate mass raids on working class organizations. It was not so very long ago that the then Secretary of State Hughes was telling the world of the orders from Zinovier to "raise the red flag on the White House" and mak-ing this a reason for non-recognition of Russia.

Such criminal but futile methods used by the ruling class are irrefutable evidence of decay. Before the collapse of the Roman Empire bribery, corruption, perjury together with murder were the commodities chiefly in demand. Preceding the downfall of feudalism monthless that it to the forging of official documents and the hatching of plots and counter-plots was a regular business. Just before the overthrow of the ezar forgery and perjury had become a fine art in Russia.

So it is today. Fantastic tales of terroristic plots by which the working class or some section of it intends to wipe out some ruler or retainer are handed out to distract attention from the ceaseless campaign of blood and from waged against the workers by the capitalist government.

st government.

The workers are beginning to understand, however, that revo-Interest are beganing to understand, nowever, can reco-lutions are not the product of conspirators plotting in some dark corner, but are the inevitable result of mass oppression. Spondic revolts are not revolutions and what the rulers want is an abritive revolt now and then that can be drowned in blood and used to cow working class.

But there is danger for the rulers even in provocation tional uprisings. The czar's police once planned it turned into a real revolution. When the gong of history sounds the hour forgothe ruling class little good.
