

Machine Troops With Machine Guns to Break Strike of Scotia Coal Miners

HALIFAX, Nova Scotia, June 12.—The miners of Nova Scotia, District 25 of the United Mine Workers, started into despatch by the "Beaco of Beaco"—British Empire Steel Corporation—are in open mass revolt, and in the coal town of New Waterford last night 2,000 or more miners took possession of the town, took over the company stores and put out of commission the power house which was furnishing the "white collar" scabs power to work in the mines.

AS WE SEE IT By T. J. O'PLANNITY.

No doubt the socialists will criticize the supreme court decision in the *Butler* case, limiting "free speech" to the expression of opinion sanctioned by the capitalist class of the United States. And without doubt they will also blame the Communists for being responsible for the action. The socialists will argue that the supreme court was provoked by the Communists, and that it should have maintained its dignity and paid no attention to them, nevertheless the extenuating circumstances are considerable.

In fact, the Milwaukee Leader goes further than that. The Leader is a socialist paper, that expresses the Milwaukee Victor Berger brand of socialism. It says: "Our constitution states has a right to protect itself against insurrection. It need not even encourage preachers of long-distance insurrection by giving them the free use of halls in which to blow off." This is one step ahead of the supreme court decision. Berger's back, the Workers, who wrote the article, suggests that the government refuse the use of public halls to Communists.

Blaming the Communists for the repressive measures adopted by the capitalist governments to protect the capitalist system against a proletarian revolution is a favorite device of the socialists. They know they are on trial before the working class. They know that the working class will justify the use of public halls to Communists. Of course, they don't put it in that way.

But the working class in all generations have been granted only such liberties as they have been able to force the master class to concede them. Labor unions are illegal to them in several small European nations. Poland is one of those. Labor unions were illegal in Russia before the Communist revolution took place. Unions were illegal in the United States at one time and the labor unions of Latin America many years could not meet except in secret. How was the right to public assembly on the part of the workers secured? By a meek obedience? No, but by fighting for the right.

At the present time, there is a ship docked in the Chicago river, called the "Success." It is a ship owned by the bloody government used to implicate fellow workers in the foul cells of that death ship, men and women were held for years for the most trifling violations of law. Among these imprisoned were workers who demanded a paltry increase in wages. For this "crime" they were sentenced to many years imprisonment in the evil smelling hells of the "Success."

JACQUES SADOUL AGAIN CHARGED WITH "HIGH TREASON" FOR HIS ALLEGIANCE TO SOVIET UNION

PARIS, France, June 12.—Jacques Sadoul has been charged with high treason during his stay in the Soviet Union, where he was sent by the French government as a member of the French military committee. Sadoul has been tried before the workers and peasants government. During his stay in Russia he was tried by a Soviet court and sentenced to death in 1919, on a charge of "deserting to the Soviets."

Machine Guns and Steel Helmets.
As a result, 500 troops with machine guns and steel helmets are patrolling the town today, but the power house machinery is out of commission. The same situation prevails thruout the surrounding coal camps.

The trouble began when the Beaco officials and company gunmen tried to start up operations at the New Waterford power station which generates power for the various mines of the corporation. The strikers stopped operations.

Gunmen Started Trouble.
The miners after beginning picketing, were fired upon by the gunmen from the plant, which angered the miners, whose ranks were fanned to fury by seeing one of their brothers, William Davis, fall dead and others pouring blood from wounds.

After raiding the plant the miners opened the company stores, whose efforts to starve them into accepting a wage cut by locking them out and cutting off store credit had engendered an anger that smoldered sullenly under their ragged jackets.

KLANSMAN WOULD SEE ACCUSATION OF HIS VICTIM Dying Girl Charged Stephenson with Rape

NOBLESVILLE, Ind., June 12.—Another legal milestone in the approaching murder trial of D. C. Stephenson, Earl Kinnick and Earl Grey, alleged slayers of Madge Oberholzer, 28, was passed here today.

Arguments likely to continue thru-out the day were started before Judge Hines in Hamilton circuit court on a petition of defense attorneys to compel the state to turn over to them an alleged dying statement of Miss Oberholzer.

This statement accused the Klansman of attacking the girl and keeping her in his hotel room overnight by force. She drank poison and Stephenson refused her medical assistance, she said.

LADIES GARMENT HEADS SUSPEND LOCAL OFFICERS

(Special to The Daily Worker)
NEW YORK, June 12.—Executive officers, joint board delegates and managers of locals 2, 8 and 22, known as the left wing locals, were suspended by the joint board of the International Ladies' Garment Workers' Union on charges preferred by Feinberg for general executive board.

The principal charge is that the three locals held May Day meetings with Communist speakers. The international officers are trying to curry favor with Governor Smith and his commission by making war on the left wing in the union, and by carrying out employers' demands in the shops.

SCIENTISTS IN BERLIN LAUGH AT SCOPES CASE

(Special to The Daily Worker)
BERLIN, June 12.—The issue in the trial of John Scopes in Tennessee is that of freedom of lecturing rather than any question of science.

"The man who adheres to the views of a scientist of the university of Berlin whose interest has been turned on an approving 'evolution' trial at Dayton, Tenn."

"It is regrettable that professor Scopes should be prosecuted for teaching evolution," Professor Frank Kelbel, director of the Anatomical and Biological Institute of the University of Berlin.

"Yes and no," was the answer. "I am an opponent of the so-called orthodox Darwinism attributing the development of men and animals chiefly to a struggle for life resulting in the survival of the fittest, but I am an adherent of evolution in general, which claims that men and animals are descendants of certain beings of different structure. Darwin's theory is only part of the general theory of evolution which is much older than Darwin."

Professor Kelbel said that controversy between the theory of evolution and anti-evolutionists was practically non-existent in Germany.

A more pronounced stand was taken by Professor O. J. Untermyer, director of the Pathological Institute at the University of Berlin.

"It seems incomprehensible to me—and surely to any other German scientists—that a teacher should be prosecuted for teaching evolution," he said.

Chinese Boycott Against British and Japanese Is Reply to Foreign Threats

(Special to The Daily Worker)
SHANGHAI, China, June 12.—From north to south along the Chinese coast and even farther into the interior spread the flames of revolt against foreign imperialism. From Peking today, comes the news that the imperialist powers, to whom the Chinese government yesterday sent a sharp note demanding evacuation of foreign armed forces from Shanghai, have replied insolently, ignoring the demand that foreign troops should evacuate Chinese soil before discussion of peace proposals, and threatening that "the Chinese government incurs a heavy responsibility in any situation which concerns the maintenance of order in Shanghai, Peking and generally speaking, throughout China."

In the face of this arrogant and threat, the students and strikers of Shanghai which gathered by the tens of thousands yesterday, not only decided to start definitely a boycott against everything British and Japanese, but—reiterating their demands, notified the Peking government that they would move to elect the commission for foreign affairs of the Chinese government from office if he did not secure a compliance with their demands in 24 hours.

These demands, couched in the form of an ultimatum to expire by Sunday at the latest, included the rescinding of martial law, withdrawal of foreign marines, a joint British and Japanese apology, indemnification for killed and wounded, the turning over of the foreign mixed court to Chinese jurisdiction, Chinese representation on the municipal council (taxation without representation is tyranny) and the employment of Chinese instead of British police commissioners.

Meanwhile, the marine strike has spread until thirty-three British and Japanese ships are tied up in river and coastal trade. The first batch of so-called "rioters" tried, sixteen in all, were released "with severe censure and placed on parole." This (Continued on page 2)

NO SUCCESSFUL BLOCKADE UPON SOVIET FINANCE

(Special to The Daily Worker)
MOSCOW, June 12.—Soviet Russia reports that the quantity and quality of her exports are increasing, and that there exists an organized conspiracy on the part of other nations to cut off Soviet credits and raw materials.

Fin. Minister Sokolnikov, who has his finger on the Soviet's economic pulse, laughed at the reports.

"Similarly, our purchases of American agricultural machinery and automobiles are too large to be ignored."

Improving as Russo-American economic relations are, however, M. Sokolnikov said he wished they were better.

These demands, couched in the form of an ultimatum to expire by Sunday at the latest, included the rescinding of martial law, withdrawal of foreign marines, a joint British and Japanese apology, indemnification for killed and wounded, the turning over of the foreign mixed court to Chinese jurisdiction, Chinese representation on the municipal council (taxation without representation is tyranny) and the employment of Chinese instead of British police commissioners.

CARPENTERS TO VOTE TODAY FOR DISTRICT HEADS

Frank Stahl Expected to Defeat Jensen
The members of the United Brotherhood of Carpenters and Joiners of America, in Chicago, will vote today for officers in the district assembly to begin on July 3 and expire one year.

The present incumbent is Ed Jensen. He is opposed by Frank Stahl, candidate on the program of the progressive caucus.

Jensen has lost the confidence of the rank and file for many reasons, but his sponsoring of a cash agreement in Chicago was the chief reason. It is perhaps the chief reason why the membership want to get rid of him. Jensen placed this cash agreement before the members and represented it to be a closed shop agreement. Jensen is in open alliance with the contractors; in fact, he is a boss's man in every respect.

The progressive caucus organized their forces and put forward a program that calls for more solidarity among the workers, a labor party and other important matters that the rank and file are interested in.

DUBUQUE, Iowa, June 12.—Speaking before the Iowa State Federation of Labor convention, Miles Reno, president of the Iowa Farmers' Union, declared that he had the farmers been organized they could have been the dominating class and demanded a place among the labor with organized labor and industry.

He said that the rights the American people now enjoy are the fruit of work done by the "wayward and ignorant" of the exploited farmers and their struggle against the financiers and the railroad magnates and middlemen place among the labor with organized labor and industry.

LITTLE RED LIBRARY CIRCULATED IN THE "GREAT DESERT" OF NEVADA; PLASTER GUGGENHEIM WITH "DAILY"

(Special to The Daily Worker.)
ELY, Nevada.—(By Mail).—Out of Fallon yesterday, crossed the Great Desert and about 90 miles from nowhere the engine cut to no food. Fortunately a passing auto took me on to a ranch 15 miles further, where I had dinner.

That ranch, the gateway to a huge mountain, the summit over 7,500 feet high, which I afterward crossed, should be in the movies. The old cattle corrals, dove house, cowboys and Shoshone Indians were there again.

From there I caught a ride 75 miles to an old silver mining town, where I stayed all night. This morning I had a chance to talk to some men going to a road camp to work and gave them some of the Little Red Library books.

I'm trying to get a ride to Eureka, 10 miles, which I want to make to-night. And the copper mining town of Ely, 158 miles north. I expect to make Monday night. It's a strenuous life, but I feel fine. Most of the time the weather has been cold and stormy, but is fine today.

Am expecting good meetings at Optima and Salt Lake City. It will seem strange to see towns and cities again. Here they only have mail three times a week. I've been away from all railroads since left Reno. They have horseless lamps here and many other primitive things.

Must now try to catch a ride. I couldn't find one cent for fares and don't intend to, even bus fares. They charge \$1.50 a night for all the luggage (?) of these camps. Am glad to see the Guggenheim's territory at Ely. It's plaster it with DAILY WORKERS.

FILE BRIEF TO STOP DEPORTING OF J. C. SCHEDEL

Must Leave Starving Family Behind

The brief of I. E. Ferguson, attorney for John C. Schedel, filed with the Department of Labor, addressed to James J. Davis, secretary of labor, is a noteworthy document. In showing cause why Schedel should not be deported, Ferguson challenges Davis to look upon deportation in a different light than was previously done by the department of labor under pressure of the hue and cry raised by the Department of Justice during the days of the Palmer Red Raids.

Ferguson said that the deportations of 1920 were far better explained than he could ever hope to do in Louis F. Post's book "The Deportation Delirium of 1920," and asked that a certain chapter of that book be considered part of the brief.

Post by the way was assistant secretary of labor during the delirium of 1920 and was forced to sign deportation warrants and orders with which he was in complete disagreement. While this wartime legislation still abides, Ferguson points out that its strict enforcement at this late date is needless.

Schedel was originally deported to Germany in 1920. Schedel left a wife and three children in distressing circumstances. In 1922 he made an abortive attempt to return to his family and was quickly re-deported from Norfolk, Va. Virginia. He returned for the second time and was deported in Chicago on October 1924, charged with criminal violation of the immigration law.

Ferguson points out that the Department of Justice has dropped the criminal charge of illegal entry against Schedel and appeals to the Department of Labor to follow the precedent, taking into particular consideration the fact that Schedel has a large family in grave circumstances and is unable to take them to Germany with him for lack of funds.

UNION HEAD DENOUNCES COOLIDGE DEAL WITH RAILROADS TO RAISE PROFITS; LABOR FOE IN CHARGE

(Federated Press Staff Correspondent.)
WASHINGTON, June 13.—(FP)—Henry Strickland, secretary of the Railway Mail Association, affiliated with the American Federation of Labor, denounced the greed of the railroad companies in the United States in demanding and securing continually higher rates for carrying the mails, while the general public is steadily getting poorer.

The pledges of betterment contained in the Republican platform of 1920 were betrayed as soon by the reported top coaling of the mails.

Joseph Stewart, attorney for the postoffice department, who directs the fight against the postal workers' management, they had drawn a \$112,000 administration allowance, is the official who caused the change in November, 1918, from the weight basis to the cubic basis of payment to the railroads for carrying the mail.

At the time the railroads did not understand that they would make more out of the game by the new arrangement. They had drawn \$112,000 for transporting the mails in the fiscal year ending June 30, 1918. But for the year ending June 30, 1926, Congress has appropriated \$112,500,000 to be paid to the railroads for the same purpose—though the service this year involves only 14 per cent more car-miles than last year.

While the cost of rail transportation of mail has gone up in the past ten years, service has gone down. Between Nov. 1, 1916 and June 30, 1920, Burlington cut the distribution service of mails on routes from 194,749 car miles annually—operated on a 60-foot car basis—to 147,689 car miles, or more than 25 per cent reduction.

The republican campaign textbook of 1920 declared that this policy of abandonment of service was destroying the efficiency of the postoffice department by curtailing of service, and insisted on "operation for service rather than for profit." Yet between June, 1920, and June, 1924, a further curtailment of 13,383,901 car miles has been enforced.

Officials of the department, seeking to show a "profit" in the service under the present system, use fewer trains and send mail less often, thereby delaying delivery and slowing down communication and business throughout the country.

On through railroads lines, Strickland declares, the present mail service is bad enough, but on branch lines it is not much better than in stage-coach days. Frequently a train is required to carry a letter between postoffice that are only a few miles apart, by the cumbersome "closed pouch" method of cutting expenses.

Protest Tyranny of Military Rule of Virgin Isles

WASHINGTON, June 12.—(FP)—Captain Philip Williams, the navy governor of the Virgin Islands by arbitrary appointment, has dissolved the native advisory body, the St. Croix Council, in a fashion which the Civil Liberties Union has protested to President Coolidge as "high handed."

Williams, who had already antagonized native sentiment, revived an old Danish law in order to get rid of the council because that body had refused to accept at once the cabinet of certain new appointees of his own.

This is the second dissolution which has been ordered by American naval governors during the last years of "temporary" Danish government of the islands by the navy; during more than a century of Danish rule the order was invoked only once.

The western fields are no longer producing a big surplus for shipment to the eastern market, the bulletin said.
