Buffalo, N. Y., a comparatively small local, with the great sesistance of the Finnish branch came in third and only one point behind second. Here sealn, the hard work and patent inelatence of City Agent Comrade Dirbs was greatly responsible.

Minespolis, followed by Milwaukee, Kansas City, Los Angeles, Detroit and St. Paul did well—and-fit seeh of these cities the City Agent, part of the splendidly improving DAILY WORKER machinery, was chiefly responsible for the shawing made.

New York had a much more difficult problem. Only shortly before the campaign, this local mainly thru the efforts and good generalship of Comrads L. E. Katterfeld, power dover three thousand new short term subs at a monster meeting held there. The whole oilty organization from them on was engaged in the gleants task of securing renewals and the IEI new subs secured in the campaign is a complementary good performance.

All cities, including those of outstanding campaign performance, have a problem on hand which necessarily becomes now the immediate task. Intense interest in only one phase of DALLY WORKER activity, that of securing new suba, permitted the overlooking of a cervical following of removals and the close attention to newstrain dates. Both these matters, especially for the large cities, are and quot the one of the chief angles of DALLY WORKER activity—applementing helps pain factory.

## Smaller Cities Best

One of the really splendid showings made was that of Comrage J. C. Das of New Orleans. Single handed, without the aid of any Communist units, this comrade left obligated to fill his quota and did—getting the ten subs needed.

This is the caliber of Communist Builders and sympathetic workers to whom meet of the success of this campaign can be traced directly—and with the further election of DAILY WORKER Against in erggy single Communist unit in the country, insistance so their proper functioning, and support from every Communist member to these meet insperation activities, the DAILY WORKER can prov to be one of the world's really great Communist papers.
