Imperialism Is Determined to Rule Thru Persecution and Murder

THE rapacious imperialists of America, England, Japan and France, the capitalist powers that are holding China in their grip, refuse to accede to the rightful demands of the Chinese people. Foreign imperialism is determined to hold onto China by sheer force, by jailing, persecution and wholesale murder. —From the Joint Manifesto of the All-America Anti-Imperial League, the Workers (Communist) Party and the Trade Union Educational League.

IMPERIALISM IS FORCE EUROPE'S IMPERIALISTS OUT OF AFRICA, TO PREVENT WORLD CONFLAGRATION

MOSCOW.—(By Imperial Cable).—The Oriental Bureau of the Communist International has issued the following proclamation to the workers and peasants, calling upon them to reject the imperialist war in Morocco which, supported by the socialists, is leading to a world conflagration.

The Palestine-Brand-Castellat government has started the Morocco war which for months had been prepared by Herriot in conjunction with General Lyttel. The imperialist Left Bloc which omits so much symbolic peace talk, is just as dangerous as the Nationalist Bloc. It is the old unbridled race for markets and for the acquisition of riches which benefits the capitalists only, and for which the workers must be sacrificed.

The suggestion proposed made by Abdel-Krim was to have the Moroccan territory divided by Lyttel and Herriot, who organized the blockade of the Rif by awarding the neutral zone with block houses and then allowing Abdel-Krim into the mountainous zone.

Leads to World War. The Moroccan events between 1907 and 1911 and the Azzouf episode were the first reverses of the great struggle from 1914 to 1918. The plundering expedition may lead to serious international complications. Not only France and Spain, but also England and Italy are interested in the plundering of Morocco.

France refused for the defeat of Spain in order to acquire the Rif territory of Spanish coast. Just as in 1911, so today we see the "taboo on France's frontier." Today again we are told that it was the interests of the Rif which have made the peaceful France. England and Italy are waiting for a favorable chance to demand in the name of the "right to peace."

In the present French imperialism seeks the Moroccan Rif as the only step which may lead to heavy tribute from the Mohammedan Rif. The Rif war directed against an oppressed people, the Mohammedans, is an imperialist war. Spanish imperialism against the independence of the oppressed Rif. In determining the fate of the Rif inhabitants are only defining their independence.

It is the policy of imperialists to belittle the workers and peasants who are opposed to the war, it is only from imperialist motives that the socialist and democratic of the left do not come out openly for the complete crushing of the Rif inhabitants and the Mohammedan Rif.

The war in Morocco will be long and murderous. It will call forth new conflicts and new international complications. Great Britain who is opposed to a nighty France based on imperialism, is opposed to the creation of a French empire in the name of the oppressed Rif. England is intruding.

with Spain who is also opposed to the French penetration into the Rif. France is intruding into the Moroccan situation in taking advantage of this situation by demanding Tunisia. It points to the Mohammedan Rif as the only step which may lead to heavy tribute from the Mohammedan Rif. The government of the left bloc in France is equally opposed to the creation of a French empire in the name of the oppressed Rif. England is intruding.

in reality, however, the war will be a blockade which will force the Rif inhabitants into submission and thus to get hold of their land. This is the policy of peace which is supported by the democratic and social-democratic of the left bloc. The social policy differs in no way from that of the bloc national. They have prepared the war, they are now preparing the peace. They will carry the Morocco war to a finish. This will be the end of the Moroccan war.

The democratic left bloc which will be the only force to flow out of the struggle of the oppressed and persecuted of the Moroccan Rif. The democratic left bloc will be the only force to flow out of the struggle of the oppressed and persecuted of the Moroccan Rif.

French workers and peasants! The horrors of the last war will be an even greater one for the Moroccan Rif which the imperialist bourgeoisie will use as a pretext for their intervention. The most war will require not only the complete victory of the Moroccan Rif, but also millions upon millions of money that will go into the pockets of the imperialist bourgeoisie.

Workers and peasants of Spain! Spanish imperialism has set the spark in Spain in order to drag your country into the bloody war in Morocco. Spanish soldiers were already fraternizing with the Rif, and they will continue to do so. It is your duty to join all your efforts with those of the Moroccan workers and peasants in the struggle for peace and for the execution of Morocco.

Down with imperialism! Workers and peasants of Italy! The French imperialists will do all within their power to resist the resistance of the Moroccan Rif. It is your duty to prevent in any manner the progress of the conflagration. Your government, the fascist government of Mussolini is inclined to make a complete triumph of the Moroccan imperialists. You will prevent your government from committing the crime of the Moroccan Rif.

Comrades, workers and peasants! The Communist International warns you against the impending danger. Only you can prevent the new mass movement from being a mere repetition of the last war. Only you can prevent the new mass movement from being a mere repetition of the last war. Only you can prevent the new mass movement from being a mere repetition of the last war.

Write a letter about your shop — Write a bundle to distribute thru the Communist International. The Communist International warns you against the impending danger. Only you can prevent the new mass movement from being a mere repetition of the last war.

Make It Hot for Imperialist Speaker

(Continued from page 1) Of Oriental diplomat to put across his reactionary arguments on the middle class politics of Rockefeller interests in China, especially in Szechwan, Hunan, Hubei, and Jehol. This speaker, who had shocked, horrified, and practically ruined the speakers who followed.

One awaking scholar in the audience wanted to know why, inasmuch as the speaker had said that the Chinese are to be ruled by the Chinese from above and below, that a good thing to invite him into China, in order to give him a chance to show to the Chinese people. This question the lecturer would answer: "I don't know what he would answer."

Yes! It depends "Depends what you call 'imperialist'." "Depends what you call 'imperialist'." "Depends what you call 'imperialist'." "Depends what you call 'imperialist'." "Depends what you call 'imperialist'." "Depends what you call 'imperialist'."

"But whom our diplomats have to deal with unless we have a revolution in China?" "But whom our diplomats have to deal with unless we have a revolution in China?" "But whom our diplomats have to deal with unless we have a revolution in China?" "But whom our diplomats have to deal with unless we have a revolution in China?"

"Because it is absolutely necessary to our people if they are to have a stable business in China?" "Because it is absolutely necessary to our people if they are to have a stable business in China?" "Because it is absolutely necessary to our people if they are to have a stable business in China?" "Because it is absolutely necessary to our people if they are to have a stable business in China?"

The questions were so well put that they were sufficient to put the speaker in a most embarrassing position. The speaker was a man of high social position, and he was a man of high social position, and he was a man of high social position.

Stander Sun Yat Sen has been a champion with the statement that "his imperialism was based on the Chinese people." Evilness, How in China. The whole difficulty in China, inasmuch as the Chinese people are so inefficient, and dumb general, and the Chinese people are so inefficient, and dumb general, and the Chinese people are so inefficient, and dumb general.

ALCATRAZ, Cal., July 5. — Paul Crouch and Walter Trumbull, United States soldiers who were sentenced at Alcatraz Barracks here, Honolulu, Hawaii, for organizing a Communist revolution, were today being sent to Alcatraz to serve their terms.

Crouch tells the DAILY WORKER, "While in Alcatraz, we will study and prepare for every possible way for more efficient work on the island of the working class after our release."

Speaking of an article in the Washington Post, Crouch said: "Meroy For Young Courts," Commander Crouch said he had no objection to any man who desires to favor from the capitalist class.

Crouch and Trumbull were court-martialed following an action given by evidence of an army spy, whose testimony was given by the court.

The verdict was not in after less than half an hour's deliberation and receipt of the trial was by the army authorities.

Build Party Strength in Steel Union

(Continued from page 1) The results are generally the same. The Communist fraction in the steel workers' union is growing rapidly.

On the other hand, where the Communist fraction are rapidly maintained and Communist activities applied in practice, healthy growth is taking place.

1. Demanding the launching of a national organization of workers employing the whole industry to take into the union all workers employed in or about the steel industry, regardless of race, color or religion.

2. The establishment of an organization department with full power to conduct work, establishment of district committees in each important steel district, which conduct the work in the district.

In the Anthracite Fields

The convention of anthracite miners, members of the United Mine Workers of America, held in Scranton, has been valuable in that the left wing of the organization has been able to bring 150,000 coal diggers and showed as well that these miners have not lost the fighting spirit that made the anthracite district the cradle of the modern American labor movement.

The endorsement of a labor party based upon the trade unions and including working class political parties is especially encouraging in view of the capitalist politics to which the officialdom has been confined since the organization of the U. M. W.

The demand for the repeal of all criminal syndicalism laws is a fine precedent for the whole labor movement.

The demand for the repeal of the scale and improvements in the working conditions were demanded by the convention which was remarkably free from the attacks on the left wing and the Communist, under the leadership of the Lewis machine, have featured similar gatherings.

The activity of the left wing in the grievance strikes, against the traitorous activities of Cappellini, their fighting program and the present attitude of the operators have made since 1927 when Lewis was able with the aid of his "brecking crew" to make millions thrown out of the Scranton convention.

The miners are facing a great struggle. Within the next year it will either a gradual decrease of the strength of the union, if it allows the operators to cut it to pieces with a shutdown policy, or a great influx of miners now unemployed, if it adopts a fighting policy.

The anthracite miners are assured of staidier employment than that of the bituminous workers. The bituminous workers are in the shot of officialdom that they will continue to work and finance the strike in the bituminous fields if one is called.

The mistake policy of the "right wing" set its face free left against this plan, amounting as it does to division of the miners' forces. The United Mine Workers must, when they strike in the anthracite union, prepare to fight all the miners' parties to the losses and their supporters without any sentimental regard for the anthracite-using "public" which does nothing for them or any other class group.

The anthracite miners must fight any attempt on the part of officials to separate them from the soft coal workers. Only disaster for all sections of the union can come from such a policy.

The program of the left wing in this regard is clear and plain—all together for a powerful union, all together for the organization of the nonunion fields, all together against the coal capitalist.

Japan and France

Japan has proposed, according to Paris dispatches, an alliance with France. The proposals do not mention Great Britain, it is understood, as the southern China coast—the only Chinese territory with right to establish a naval base at Saigon opposite Britain's new Singapore base and dyked.

France has proposed, according to Paris dispatches, an alliance with Japan. The proposals do not mention Great Britain, it is understood, as the southern China coast—the only Chinese territory with right to establish a naval base at Saigon opposite Britain's new Singapore base and dyked.

The possession of Saigon would close the Japanese line of naval and military bases along the coast of China from Sakhalin island in the China sea and give her full control of the trade routes.

The alliance proposal is doubly interesting as concerning the conditions drawn by us from recent events in China—where Japan had actually overthrown Chinese sentiment to be directed against Great Britain but has actually encouraged it.
