FOR FREEDOM OF EDUCATION

**FOR FREEDOM OF EDUCATION**  
(Special to The Daily Worker)  
DAYTON, Tenn., July 13.—Charging that the educational liberties of the American people are at stake, counsel for John T. Brady today called for a fight to destroy the Tennessee anti-evolution law as a violation of the state and federal constitutions.

**AS WE SEE IT.**  
BY T. J. O'FLAHERTY  
HIDDEN away in a remote corner of one of our big capitalist cities lies a tiny building where the staff of 77 Communists, who were alleged to have participated in a late April revolt which seized the Rainbow government, was opened in a court martial. No doubt, the evidence of this revolt was being tried by a court martial. No doubt, the evidence of this revolt was being tried by a court martial. No doubt, the evidence of this revolt was being tried by a court martial.

There are rumors that the Soviet Republics already may be revived. It appears that the United States has issued a statement that it stands and Japan in the present Chinese situation. It is a statement that is being made in London and Japan that were secondarily involved in the Chinese situation.

British diplomats are now insisting that the United States should hold the line when she is asked to sign the Kellogg-Briand pact. It is a statement that is being made in London and Japan that were secondarily involved in the Chinese situation.

BRITAIN would never have given up the Japanese alliance but for pressure from America and New Zealand. And ever since the United States has issued a statement that it stands and Japan in the present Chinese situation.

**KUOMING PAPER TELLS ISSUE UPON WHICH PARTY FOUGHT AND WON THE RECENT CANTON BATTLE**

THE DAILY WORKER has received from China a copy of the Canton Gazette appearing as organ of the Kuomintang government. This issue contains a report on the recent battle between the Kuomintang troops financed by British and French imperialists.

It is of great historical interest, to observe the leading article in the Canton Gazette, which gives the reasons for the Kuomintang forces of the civil government at Canton, and the reactionary Yunnan army, have since more clearly the issue upon which the Kuomintang fought bravely and won after once, the city of Canton. The article is as follows:

# Lies that Lead to War

LONDON, July 13.—No agreement has been reached between Japan, the United States and Great Britain regarding a policy toward China, it was stated officially at the foreign office today.

It was said that discussions regarding the possibility and scope of a tariff conference were going on but that no decision had been reached.

In the British view, the tariff conference must precede the conference on extra-territorial privileges by the nations interested in discussing the abandonment of extra-territorial privileges by the nations interested until China has sufficient funds with which to operate the country. These funds, in the British view, would be provided by a tariff revision.

## NATIONAL DRIVE FOR PRISONERS LABOR FREEZE DAY CALLED FOR SEPTEMBER 13

Hold Mass Meetings and Conferences  
Monday morning is the time when strikers are lost. Such is the experience of strike committees in all the laboring countries of the world.

International Labor Defense, the non-partisan workers' organization held for the purpose in Chicago on June 26, will be officially launched in New York on September 13. The day will be called "Labor Defense Day" and any one wishing to be set aside as "Labor Defense Day" should contact the organization.

Local conferences of delegates from workers' organizations will be held in all the laboring countries of the world in the afternoon of Sept. 13, at which local organizations, International Labor Defense will be set up. They will be followed by another mass meetings stage in the evening.

These conferences and mass meetings will be held in no less than one hundred cities in the United States and in many other countries. The labor movement will be the object of the day.

Freedom for Labor's Prisoners  
This action was decided on at the first meeting of the National Executive Committee of the new organization for the purpose of reviving labor defense issues in the labor movement generally on a large scale and to establish a broad-based movement with its roots in the labor movement.

James C. Cannon, secretary of the organization, said: "We have made the labor movement rich with the ideas of the laboring people. We have made the labor movement rich with the ideas of the laboring people. We have made the labor movement rich with the ideas of the laboring people."

NEW YORK, July 13.—(AP)—The House Committee decided today to send a bill to the President which would allow the American government to send troops to any country in order to defend ourselves or to defend ourselves or to defend ourselves.

TOKIO, July 13.—Altho no definite agreement has as yet been reached, it was officially stated here today that the United States, Japan and Great Britain are approaching a compromise basis for a solution of the Chinese problem.

M. Calmouho, a foreign office attaché, pointed out that there were no differences in fundamental policy, the divergent views thus far expressed, involving only the method of handling an admittedly difficult situation.

It is believed that recent shiftings between Foreign Minister Shidehara, John Y. A. MacFarlane, American minister in China, Edgar A. Bancroft, American ambassador here, and Sir Charles Elliot, British ambassador, brought a reconciliation of the divergent viewpoints appreciably near.

# Donkey Not Monkey to be Hit Hard by Bryan's Raid Against Anima Kingdom

By J. LOUIS ENGLISH

TODAY, interest shifts to a very great extent, from the courtroom at Dayton, Tenn., where the anti-evolution trial is being held.

The trial is being held in the heart of the "Anima Kingdom," rock-bibled territory.

It is this blind fanaticism of Charles Michelson, a well-informed Washington correspondent, says he considers "so was abolished."

Michelson says that Bryan's "reversion to the mental habits of the dark ages" becomes a great political liability.

One of the contradictions of the American political struggle is the fact that Bryan and Clarence Darrow, who have been for years boon companions in politics.

Both Bryan and Darrow were at the New York democratic convention last year.

It is no safe assertion that the world has progressed so far that the hopes incident is merely an interesting demonstration of the present state of the community.

(Special to The Daily Worker)  
ROME, Italy, July 13.—Professor Gastone Salvemini, Italian professor of history at the University of Florence, was called to the stand today charged with writing and editing "The Dawn" in the U. S. and the Italian government.

Prof. Salvemini is charged with writing for an opposition newspaper owned by the fascist, Benito Mussolini (Don't Weaken).

Prof. Salvemini's affidavit submitted in the statement of a printer of the "Dawn" in the U. S. who once gave him a manuscript for the paper, mentioned Salvemini.

FACTORY PAPER AND DAILY GET BOSS EXCITED

He Actually Offers Vacations News

(By Worker Correspondent.)
ANN ARBOR, I. J. July 13.—I have some important news to tell my fellow workers about the director of the factory paper had the DAILY WORKER, on his stop.

On the same day that two were fired, the rest of the workers who have been three years in service, were promised a week's vacation with pay. I believe that the workers are waiting his act, and are organizing. Now before has any vacation ever been granted?

Most of the workers in the shop are with the progressive in the fight for better conditions, which gives them the so-called "boss" ones have lost their grip on the employer.

The little strikers who work on the mill, however, are not so much interested in the "boss" ones. They are not so much interested in the "boss" ones.

Kuomintang Paper Points Out Issues

(Continued from page 1)
In their manifestos sheets that it is not only the Kuomintang, but also the workers and the masses who are the true force for the maintenance of the Republic.

Those in the treaty ports who are beyond the Kuomintang's jurisdiction in China, in the form of high taxes and excessive duties, are also the property of the Kuomintang. The Kuomintang is the only power that can maintain the Republic in the treaty ports.

It is to replace the Kuomintang by an economic, political and social life of the province to the satisfaction of the people of the province. The Kuomintang is the only power that can maintain the Republic in the treaty ports.

It is to impose upon this country the principles of centralization as against the principle of decentralization. The Kuomintang is the only power that can maintain the Republic in the treaty ports.

These are not the issues upon which the Kuomintang is fighting. The Kuomintang is the only power that can maintain the Republic in the treaty ports.

The British Coal Crisis

According to indications, a general tie-up of the nation's coal industry will take place in Great Britain shortly. The operators claim that their properties are no longer paying big profits...

The Trade Union Congress has voted to support the miners, and a fighting alliance of workers in the other basic industries is being urged by men like A. A. Purcell, A. B. Evans and J. J. Cook...

Fortunately for the British miners the Thomas-Hodges leadership of the Trades Union Congress is not so much interested in the struggle as Frank Hodges, resulting in a defeat for the miners.

The Industrial crisis in Britain comes at a time when the ruling class in this country is busy with the preparations for the coming disaster. They are involved in China; their relations with France are delicate and the American capitalists are everywhere encroaching on their territories.

Keep Up the Fight

The action of the executive committee of the Chicago Federation of Labor and several of its members in condemning the scabbery of the United German Workers in the present Amalgamated strike against the International Brotherhood of Bricklayers is another example of the same kind...

The fact that the striking laborers are members of a union not affiliated with the American Federation of Labor does not alter the fact that they are laborers in Chicago who are being defeated a signal for a reduction in wages and more profits at the expense of employees.
