CHAPTER III INDUSTRY

The outpard appearance of Moscow and other principal towns is almost the same as it was before the war, except for all provement in cleanliness. Shops are open and the middle-all-provement in cleanliness. Shops are open and the middle-all-provement in the common region is to organize production and consumption so as to exclude exploitation of the worker and peasant. And this particular contracts of the contract of the worker and peasant. And this particular contracts of the contract of the worker and peasant. And this particular contracts of the contract of the worker and peasant. And this particular contracts of the contract of the worker and peasant.

casa is again in evidence, pursuing its usual life of private profit is a less in their reach, and flathing monitoring the street of the control of the worker and peasant. And this control exploitation of the worker and peasant. And this are resulted in a very complete change of conditions under the land of the control of the worker and peasant. And this worker are the control of the worker and peasant. And this worker are the control of the worker and peasant and the control of the worker and peasant and the whole administration of individual communism of the whole administration of individual control of the worker and planting the worker of "Glatin" that had brought the Revolution through the present of "Glatin" that had brought the Revolution through the present of "Glatin" that had brought the Revolution through the present of "Glatin" that had brought the Revolution through a series of wars, any one of which would have overthrown a least strong and stable war administration, soon showed that it was unsutable to pease conditions. Indeed, it because clear was unsutable to pease conditions. Indeed, it because clear was unsutable to pease conditions. Indeed, it because clear workers are the workers and peasants, and the peasants had the workers and peasants and the peasants had the workers and peasan

small industry

Russia made peace with the enemy within the gate in time. The subsequent three years under this Socialist compounds known as the New Economic Polley, show very different results in material prosperity and in moral progress than did the three preceding years of uncompromising War Communism.

New Economic Policy and Nationalisation

The first measure of the New Economic Policy did practi-y, though not in principle, denationalise the conduct though the control of industry.

The nationalisation of industry had been, in fact, much less

The nationalisation of industry had been, in fact, much less strays its emesses size do the systematic and sweeping than is generally supposed. "Works ers' control," established November 14th, 1917, was followed by conflacation of certain enterprises, but it was not until the decree of June 28th, 1918, that the large industries were great with specifically and approaches the value of the conflacation of War Communism, when by a decree of November 29th, 1920, all enterprises employing more than five workers with machinery or industry was legally absolibed. But this last development was well of the conflacation of the conflaction of t systematic and sweeping than is generally supposed. "Workers' control," established November 14th, 1917, was followed by

Economies

In order to lighten the burden and to halance the Budget,
Russia has severely reduced expenditure. Military expenditures, as elsewhere explained, have been greatly reduced. The
Red Army expenditure can be estimated as about one-fifth
Red Army expenditure can be estimated as about one-fifth
the economic and educational experiments of War Communium
have been removed in the first case by the New Economic Policy
and reduced in the second case by a policy of severe economy.
Public services, lighting, transport, all are now charged for as
making the economic solution and medical care, which remaking the economic policy educational and medical care, which remaking the economic policy.

mains free.

The Government departments and those enterprises not abolished or put on a business basis as trusts, etc., had their staff reduced by half. Finally, the Central Budget was relieved of all expenditure that could advantageously be left to the local Budgets—such as education, public health, roads, etc.

Bedgets—such as education, public health, roads, etc.

Ben reduced by the Revolution to one-quarter of what it was. And there does not seem to be any region in which it can be still further reduced. It is indeed the avowed intention to increase it coagderably at the earliest possible moment in respect of a tew national debt to be incurred for re-equipment of industry and agriculture.

To these recent economies must be added the eco To these recent economies must be added the economies or reconstruction originally effected by the Revolution, such as of reconstruction originally effected by the Revolution, such as tries to 400 million per annum, even before the court which had rise to 400 million per annum, even before the court which had rise to 400 million per annum, even before the court of the recommitted of the court of the court

Corruption

Corruption

Another savingf as important as any, has been the successful campaign carried on by Communism against corruption. It is impossible to make a comparison in figure—one can only say that the Taustie of includion was on the whole as corrupt communism fraudulent officials were shot if Communism or it non-Communism traudulent officials were shot if Communism or it non-Communism traudulent officials were shot if Communism or it non-Communism traudulent officials were shot if Communism or it non-Communism traudulent of the communism of the order of the communism of the order of t

The taxes at present in force are:-

The taxes at present in force arec(1) The horome Tax falling on the townspeople and wellto-do, producing in 1923-4 about 63 millions.

In the producing in 1923-4 about 63 millions, about 63 millions,
is a tax paid on the profits of all financial, industrial, and commercial enterprises and is graduated to the character of their
produce, i.e., production of or trading in luxures is rated higherror of the companion of the

All these indiriect taxes may be roughly estimated as fall-ing one-fourth on the peasantry, one-fourth on the middle class, and one-half on the workers and clerks.

on the peasants.

(3) The Rural Tax paid by the peasants and prabout 158 millions per annum.

(5) Customs duties, producing 59 millions (6) Duties amounting in all to 66 millions, of which the important are a rate on urban buildings and lodgings and so on Bourse operations—on hawkers, and on entertaints.

(4) Excises on sugar, tobacco, tea, wine, beer, and such, mostly imported products. The proceeds amount to 242

and one-half on the workers and cieris.

This gives the general result that of the total amount of the revenue raised by taxation about one-half is paid by the peasantry, one-third by the workers and cieris, and one-sixth peasantry one-third by the workers and cieris, and one-sixth class also contribute in the form of loans free or foreed, it class also contribute in the form of loans free or foreed, it becomes evident that, in the first place, they are now able to work at a profit, and in the second place, that a large, pérhaps to largest, part of that private profit is aborded by taxation.

Central and Local Finance

Indirect Taxes

Another important feature of Russian finance is also still under elaboration, and that is the respective responsibilities of the Union, of the Federations forming the Union, and of the Republics forming the Federations.

the Union, of the Federations forming the Union, and of the Republics forming the Pederations present held by the various components of the Union are no varied in precept, vary no much in practice from the precept, and are no clearly still in rapid development, that it is impossible to review them here. The clear enough it is to consider as a financial entity any unit in the Union that seems capable of conducting its own finance—whether that unit be a Pederation like the R.S.-S.R. or a self-unit in the Component of the Componen

Budget Procedure

Budget Procedure

The procedure by which the Budget is framed by the Commissariat of Pinance in co-operation with the Gosplar—the expert State Panning Commission—is most interesting, but too of the Budget in the general interests of national economy, and a proper control of the central and local administrations and industrial interests. The function of the Gosplan in this respect to the control of the Commissaria of the Commissaria of a federal structure, or that are undertaking social reconstruction. An open are the Commissaria of the Commissaria of Pinance as to the Commissaria of the Ringer Commissarias and the Commissaria of Pinance as to the consonance of the Union erimmental and social reconomy, and also as to the effectiveness of its securious.

General Conclusion

General Concussons. Financial reforms and reconstruction, in so far as concerns this latest and last stage of it—a definitive Budget without a deficition of the tilly achieved. But on the present lines it clusion that will be come to in respect of Union finance by any impartial inquiry is that, not only is it now on the right lines, but is a long way absed of Continental countries which are at present profitting by the confidence of the foreign insertor.

COPS BEHAVE AT SECOND MEETING

linen. The attern is cut in 3 sizes: 18, 18 and 20 years. An 18 years size requires 1½ yards of figured material for the dress portions, if made as illustrated in the large view. Without the cascade 1½ yard of plain material is required. The width at the foot is
