How to Save the Daily Worker

WITH the DAILY WORKER engaged in a bitter struggle for its very existence, the question which must be asked and answered by everyone who has the welfare of the working class at heart, is: "How can I help save the DAILY WORKER?"

DAILY WORKER?"
This is no small or simple question. Ever since the day the DAILY WORKER was established it has had to wage a determined flight for its continuance. Now affer twenty months of day after day combat the crisis is at hand-"It be DAILY WORKER is to survive the efforts of every mill-tant worker must be exerted without a moment's delay.

Can the DAILY WORKER Be Saved?

THERE are those who may ask, "Can the DAILY WORKER really survive? Or is it a mere matter of postponing the inevitable end?"

Methods Which Will Turn the Trick.

THERE are many ways in which help can be given to the DAILY WORKER. Some of these methods have been used by practically all of our readers during the past year and a half and this accounts for the rapid development of our press.

f our press.

Now the DAILY WORKER is in a desperate crisis. To seet this emergency special means are necessary.

First of all, ALL OF US, every Communist, every millint worker, every millitant organization will have to ACT—TOGETHER ann AT ONCE.

— TOOLE THER anno AT ONCE.

The need is for money, at least \$5,000 within a week and an additional \$5,000 before the next week is up.

There are several ways to get this money. The quickest is to send in donations. "As much as you can and as quick as you can."

quick as you can."

Another way is to renew your subscriptions. Whether you all is seon to septie or not you can send in your regarded to the septie or not you can send in your good way to make sure that the DAILY WORKER will continue and that you will continue to receive it.

Another way is to sell subscriptions to other workers.

Another way is to sell subscriptions to other workers.

The self-way is to sell subscriptions to other workers.

One of the suggestions received from the Communist international for developing interest in International Press Day consists of a questionnaire for be answered by both party and non-party readers of the Communist press. Here are some of the questions:
Why do you not our Communist members, the DALLY WORKER? What theiremings do you find in the DALLY WORKER, patitically

otherwise?
What criticisms have you so to make-up, contents, sta.?
Can you set as a weeker correspondent for our paper?
What experience do you meet with in getting others to out

Green's Green Goods

William Green, president of the American Federati read the Communists out of the trade union movement in a speech vered in Detroit last Monday. This has been done before, therefore it is not novel. Driving the Communists out of the unions is a e profitable and less hazardous occupation for the labor fakers than bringing the unorganized workers into them. They will earn than bringing the unorganised workers into them. They will ear the gratitude, and we dare say the dollars of the master class with out drawing on their reserves of energy. They will rob the labout morement of its brain and backbone, provided they are successful We do not believe they will be successful. In fact we can guarante

they will not.

Hitched up with the Green tirade against the Communists was an extrension of the olive leaf to the capitalist class. Green spurned the idea that there was any confict between capital and labor. He was also also the configuration of the configura ered by Green and company.

Tantered by Green and company.

"Green ordered all Communists out of the trade union morement.

It can't be done, Bill, not by all the labor fakers and stoolpigeous on the payroll of the capitalist clease and the capitalist government.

If Green's drawing account from the United States Chamber of Communication and the Communistic Communistic from the labor movement, he had better put a few

more irons in the fire.

The Communists are in the unions and they are in to stay. If they are kicked out the front door, they will come in the back. They may be a similar to be suffered and his pirate crew have done that only too well. It is because the communist are active in the unions, with a constructive program, because they want to build up the organizations of labor for the strength against the bosees, because they want to give the members of organized labor of the members of the strength of the s

Self-Determination and Oil

England is on the edge of war with Turkey over the Mosul oil as. Of course England does not put the case in this crude (idi) illon. She never does. What England says is that the Mosulians serve better than to be saddled with the rule of such a lot of bar-tans as the Turks. It's all in the interest of civilization.

MARIE AN LOW ALVEST. ITS BIT IN THE INTEREST OF CVIIIDATION.

If Moon! had nothing of greater value in the ground than limene or granife; it is hardly likely that England would worry how
downtrodden natives would get along. But five billion barrels
fil are worth fighting for.

The fight is not between the English capitalists and the Turks. real battle is between the English oil kings and American oil mates. Admiral Chester, the agent of the American oil interests le this quite clear when he stated a few days ago that the natives magnature. Annural Chester, the agent of the American oil interests that the native of Monti (entry when be stated a few days age that the native of Monti (entry when be stated a few days age that the native of Monti (entry) and an advanced cirillation long before the Angie and Saroon." So as the admiral, and the refriete set dog is prevident of the Ottoman American Development company, which holds concessions for industrial projects in Turkey including the Mossil oil fields. The admiral declares that the people of Mossil have confidence in the good intentions and the honor of the Unifed States, and be sharten to state that they will not be disappointed. Not as long as they have a barrel of oil is, their native land or until Chester and his associates succeed in selfconcession for a worthy consideration. They have already red over \$100,000,000.

For the sake of peace the Chester concessionaires are willing to For the sake of peace the Chester concessionaires are willing to let the British oil men share in the spoils. If the British oil men agree there will be no war to avec civilization in Mosal. The United States will not intervene to protect the principle of self-determina-sizes will not intervene to protect the principle of self-determina-sizes will not intervene to protect the principle of self-determina-tions.

This is the tale unadorned. Let our renders point the moral.

When a War Is Not War
