Fund to Save the DAILY WORKER Reaches \$1,500 Mark

SYTY-SEVEN wide awake and militant party branches and individuals gave a mighty boast to the "Sewe to DAILY WORKER Fund" yesterday. They added almost \$500 to the amounts previously received making the total \$1573 or almost a third of the fund necessary by the end of the week.

week.

The campaign to keep the DAILY WORKER has thus entered into a new phase. The desperate effort and anxiety have not not the spirit and the willingness to save their paper but also the ability. Not that the crisis is over; by no means. The \$30000 set as the minimum amount necessary of the spirit and the spirit and

has not abated.

But the returns thus far Indicate with what temper the class conscious working class has received the DAILY WORKER'S call for help and seem to assure us that the emergency will be overcome.

Above all it is important that no individual and no organized unit refrain from participation in the passive and dangerous attitude that others have stepped forward to do the work. In this ordis it is particularly essential that every militant individual and every organization assume full reaponsibility.

By Universal Vigilance—By United Effort We Can Turn the Threat of a Crushing Defeat Into a Glorious Communist Victory.

## Wages Going Up Under Soviet Rule But Falling Under Rule of Capitalism

By J. LOUIS ENGDAHL.

TODAY, one of our readers sends in a clipping from the Newark, N. J., Ledger showing that this capitalist sheet, published in the heart of an open also industrial district, is busy operating propagands attacking the wages received by a serial new Jersey for the Workers' Republic must be grow-ing. Else why this carefully prepared poison?

The big fact for Americas workers to know is that everywhere through the capitalist world wage cuts are the order of the day. In the territory of the Soviet Republics, on the other hand, wage increases are everywhere going interfect.

This is the big reply that can be made to every capital statuck on Soviet wage standards that have now passed the pre-war wage under czariam and continue mounting to new heights.

new heights.

The Nework, N. J. Ledger tries to minimize the fact that Soviet agricultural production has reached 89 per cent of what it was in 1913; that industrial production has gone to 98 per cent of what it was in pre-war days, by questioning these figures that have been accepted by list neighbor across the Hudson River; the New York Times. But in order makes the bald statement that yearour aging showing and makes the bald statement that will be 25 per cent lower than the pre-war wage."

The facts are set forth in data compiled by the All Counsil or Circultural Council of Trade Unions, revealing that Council of Trade Unions, revealing the following council of the Council of Trade Unions, revealing the Soviet Union during the first quarter of the current flocal wars:

	Monthly		Percentage	
	Vages in	Mon	thly W	
Pre-	War Rubles		in 191	
Average for entire industry	24.01		- 76.0

Industries in Lenlaged Prov. 2232

Let American workers remember that when they consider their increases in wages, compared to their pre-war wage, that their follar today is only worth about 50 cents of the pre-war follar, with the cost of living still going up, of the pre-war follar, with the cost of living still going up, sower than the cost of living still going up, the contract of the cost of living still going up, higher than that of the gold rouble at present, although the pre-war rouble, the purchasing capacity of which was considerably higher than that of the gold rouble at present, although the pre-war rouble, the purchasing capacity of which was considerably higher than that of the gold rouble at present, although the pre-war rouble, the pre-war rouble and the pre-war rouble, and the pre-war rouble, the pre-war rouble, which does not show the many special allowances made to workers under Soviet Rule. But they do show, and the Newark, M. J., Ledger, will not publish this fact, that wages to workers under Soviet Rule. But they do show, and the Newark, M. Increasing productivity is making it possible to raise wage in the sevent Union.

Increasing productivity is making it possible to raise wage in the sevent Union.

In the sevent Union was a sevent was a sevent with the textile industry, boosting the payroll \$2,000,000 roubles. One pare this to the wage reductions in both the American and British textile industries.

The Soviet Southern Steed Trust has authorized a wage that the sevent was a sevent was a sevent with the sevent into force by other Soviet industrial branches. Wage increases have been effected in the oil industry and are impending in the mining industry, which should give some food or thought to the miners of both the United States and for thought to the miners of both the United States and in the three most backward industrial branches in the Soviet Union—mining, metal and textile.

And this is only the beginning. Greater wage increases

## Lying About the Riff Campaign

After the world war was over, one British corresp was decorated for lying about the German army, wrote a book unde the title: "Now It Can Be Told." This meant that the war wa over and no good purpose could be served by lying any longer. The truth would now be more profitable and would command a better market than false information.

rect than mass unformation.

During the war both sides fed their followers on victory after the state of the sides fed their followers. The morale of the sides for strategic purposes. The morale of the sides of th victory. Every retreat was for strategic purposes. The morale of the masses had to be kept up. The bourgeoisie have no quaims of conscience about lying. Indeed it is one of their most effective

weapons.

The capitalist powers have not suffered any impairment in the fine art of prevarieation since the end of the world war. This is plainly evident by their conduct in the Moroccan campaign against the Riffans.

the Rimans.

Up until now the forces of Abd-el-Krim have decidedly the best of the struggle, yet stories of victories appear daily in the capitalist press—victory for the Spanish and French.
