SURVEY OF FIGURES KNOCKS BOTTOM OUT OF BOAST OF INCREASE IN JOBS FOR ILLINOIS WORKERS THIS FALL

By LELAND OLDS. (Federated Press Industrial Editor)

A gain of 24 per cent in Illinois factory employment between August and September is hailed by chief statisticians of the Illinois labor department as a turn for the better. Cain says. Expansion runs with such a force in the industries that the quality of betterment is unquestioned.

It is reported that about 13,000 more people were at work in the factories of Illinois in September than in August. It is the largest gain in the history of the state's industry since the close of the Civil War.

But comparison with figures for the same month last year shows a pessimism. It shows that factory employment in Illinois in September was less than 12 per cent above September, 1927. It was actually 3 per cent below September, 1921, the year of the largest expansion since the war.

"These figures show that we cannot look for any employment for the drop in the ratio of applicants to jobs available at the end of September. Some throughout the state. In September there were 10,000 unemployed in the state, according to the figures for that month...

"Employment increased 13 of the 100 industries but that gain was largely seasonal. The report comes especially that the plant, firm, factories, car buildings, furniture shops and industries, as well as the Chinese workers of the United States...

18,160 ILLINOIS MINERS JOBLESS DURING THE YEAR

Average Tonnage Rise with Speed-up

SPRINGFIELD, Oct. 13.—There were 87,676 miners employed by Illinois coal mines during the year ended June 30, 1928, according to Director A. D. Lewis, of the state department of mines. This means a decrease of 13,160 from the previous year when there were 100,836 miners on the pay roll...

The report continues figures on the tonnage rate in Illinois mines which showed a 10 per cent increase in tonnage against the Illinois law permitting only three months to be mined at one time. The figures show that the state has increased its tonnage rate...

The Bloody Fight in Panama

Yesterday's invasion by American troops of Panama City, added another chapter to the long series of crimes against weaker peoples perpetrated by the international bandits comprising the United States armed forces.

The Panama invasion is purely for strikebreaking purposes. The working class of Panama City organized peaceful mass protests against the extortionate rates imposed by the landlords.

Against this savage invasion the unarmed workers are fighting with every weapon at their command. The streets of the city were strewn with chairs, clubs and other improvised weapons.

As in usual in such cases there is no declaration of war against people of Panama by the American government. And it is not possible to claim that the invasion is necessary for the defense of the United States army.

Furthermore, energetic action must be taken beyond mere demands. Every class conscious worker, every militant in the labor movement should immediately start organizing the up transportation of munitions and supplies from this country to the troops in the Canal Zone.

While Haberman, yellow socialist, hanger-on of the Morones machine in the Mexican Federation of Labor, Calles supporter and fraternal delegate to the American Federation of Labor convention, was giving a report of the force of the strike to the Communist Party.

The class nature of the struggle is shown clearly by the fact that the strike committee is composed of representatives of the workers and not of the bourgeoisie.

The general statement is as follows: "The strike committee is composed of representatives of the workers and not of the bourgeoisie."

The action threatens to disturb the public peace. The Communist Party is calling for a general strike to support the workers.

The role of Haberman, like that of the German delegate who praised the Doves plan, is that of an international scab. He comes to Panama to lie in wait for the workers and to betray them.

Some Pages of Bessarabian "Happines"

In connection with the trial of five hundred peasants in Kishinev, the Roumanian governmental press announces that the newspaper Lupa proposes that foreign representatives visit Bessarabia with the aim of "studying the Bessarabian proletariat and their discontent."

The deputies of the Roumanian Bessarabian "parliament" — the "trachearchy" — have decided to approve the proposal advanced by the newspaper Lupa.

"LUPA is endeavoring as usual to make a scandal out of the trial of five hundred peasants in Kishinev. Can anything be more obvious than that the trial is a political trial?"

"The trial is a political trial. It is a trial of five hundred peasants against the Roumanian government. It is a trial of five hundred peasants against the Roumanian government."
