It will more effectively than anything clae destroy the direct time. It will more effectively than anything clae destroy the direct connection between the trade union leaders and the capitalist class. Every millitant worker must strive toward that end.

Down with Gangster Rule!

Gangsters and ganmen known to be backed by business agents and other officials of the Amalgamated Clothing Workers' Union are conducting a reign of terror against the membership of that union in order to beat them into submission so they will not resist impending wage cuts that are being prepared for them by the officialdom.

After all the years of the existence of this republic the United States senate has still to decide the question of whether its members represent the government or the state from which they come. By the time we kick these fozzil inhabitants of the old men's home in Washington into the garbage can of history they may discover jus what function they perform.

While we have no objections to seeing a dragon of the ku klux klan go to jail, we extend condolences to the intelligent victims of capitalist justice who are compelled to associate with him. It adds new emphasis to the term durance vile.
