# **GREEN TRIES TO STOP MOVEMENT** FOR WORLD TRADE UNION UNITY BY ATTACKING LABOR DELEGATION

WASHINGTON, D. C., Dec. 27.—Following the custom of the American Federation of Labor's whole bureaucracy of labelling any and all elements of real opposition to its policies of class collaboration as "Communist," President William Green of the A. F. of L. has issued a circular letter to all affiliated unions attacking of the movement among the unions for a labor union delegation to investigate conditions of labor in the Union of Soviet Republics. In this letter of diatribe and falsification not only does Green misrepresent the movement now spreading among American unions for a delegation as a "Communist" affair, but he completely leaps the boundary of all well-established facis by terming the famous delegation of leaders of the British Trade Union Congress who visited Soviet Russia last year as also "a Communist communist committee." nist committee

# Not One Communist!

Who are the members of the delegation sent by the British Trade Union Congress to investigate conditions of life and labor in Soviet Russia in 1924? William Green, president of the American Federation of Labor says they were "a Committee of Communists." Yet Green read the report they wrote as published by the British Trade Union Congress and read the list of the delegates' names and their biographies as published bely and Green knows that not one is a Communist. These delegates were as follows:

# MEMBERS OF THE DELEGATION

# 33 More Reasons Why All Labor Must Rally to **Build The Daily Worker**

By J. LOUIS ENGDAHL.

TODAY, the workers of Chicago have 33 more reasons why they should rally to the support of The DAILY WORKER.

they should rally to the support of The DAILY WORKER.

These reasons are found in the list of names made publisher and the support of the Daily Neve, of those associated with him in the new management. Half of those taking up control of this big, capitalist newspaper property are bankers. Others are corporation lawyers, who have amassed great fortunes, retired parasites, millionaire politicians like former Covernor Frank O. Lowden, and some industrialists.

The "open shop" thread runs distinct thru the whole list of names. Only a few of the names of the bitterest enemies of the workers need be cited to typify the lot. There is Reuben H. Donnelley, vice-president R. R. Donnelley & Sons, enemy of the printers' union; John W. Leary, president of the United States Chamber of Commerce, that claims to have initiated the Dawes' plan, and James A. Patter, the odd speculator, supporter of the Lands used. The tablishing non-union could be supported by the control of the limited States. The labels have included the Dawes' plan, and James A. Patter, the odd speculator, supporter of the Lands takes. The labelshing non-union could be supported by the property of the Linds takes. The labelshing non-union could be supported by the property of the Linds states of your company, Miller Brainard, assistant vice-president of Central Trust company, and the way of the printers of the print the state of the Pirit National Bank.

It is announced that Sam Insull, the electric light, gas and phone car of Chicago, as well as large sections of the United States, is not among the purchasers. Evidently the new owners feared to have the sheet labelled from the start as the organ of Chicago's great public utility interests, privately owned. But the banks that dictate the policies of the Coke Co., and the Bell Telephone Cole Sas. Light and Coke Co., and the Bell Telephone Cole are all owners of the Daily News, and it will attend to all their interests.

Workers should especially pay attention to the fact that the great non-union concerns in Chicago, like the International Harvester Co., Montgomery, Ward & Co., Sears, Roebuck & Co., the packing interests like Swift & Co., among many others, will from now on he more actively engaged in shaping the policies of the Daily News.

Those are the enemies of the workers, whose cause will be supported, every time a worker puts down his two pennies and takes up a copy of this anti-labor sheet in this fortified stronghold, by strengthening the DAILY WORKER. By throwing all their energies in support of their "Daily," the workers can make it more powerful than all the kept organs of capitalism.

Against the Daily News, The DAILY WORKER.

# REMEMBER CLASS-WAR PRISONERS WHO ARE IN AMERICAN JAILS!

(By r. L. D. News Service)

There are over one hundred class war prisoners in the United States who are likely to spend the holiday season behind the bars. It is customary to remember those victims of capitalism every Christmas and New Year with little stifts that cheer them in their confianement and make them resilize that they are not forzotten by their fellow workers on the outside. The International Labor Dermas hereby publishes a list of class war prisoners with the roquest that anybody able to do so should send them a boilizely stift. As the different prisoners are their contractions as to gifts, the most acceptable present is cash, which can be used by the prisoners as they see off.

An extract to present on Fabrum prices must be sent care of warden, financial control of the con

#### The Bankers' Government

Opponents of Coolidge on the world court question are at least logical in their opposition. They assail every act of the administration on foreign policy. The other day when the Italian debt settle ment was under fire on the floor of the senate. Jim Reed of Missouri ment was under need the conditions of the second state of the became indignant over the seventy-five per cent cancellation that lifts the burden from Mussolini's government and places it on the American taxpayers. The senator from Missouri thinks the Italians falsi-

from tanjoures.

The distancement regarding the ability of Italy to pay, thereby cheating the government of the United States. He said:

"If I were an American banker I would tell the representatives of any foreign country that came to me to borrow money that It forst must clear honestly with my country before it got any money

A total misconception of the role of the government per A total misconception of the role at the government personages the mind of Reed. He fails to perceive that the government of the United States exists for the specific purpose of defending and extending the power of Wall Street. Like Victor L. Berger and the socialists. Reed the democrat, confuses the people who liv yellow socialists, Reed, the democrat, comisses the people who for in the United States with the government of the country. The gov ernment rules the citizens of the nation in the interest of the bank ers. The Italian debt settlement ought to convince even the most staunch believer in democratic illusions that the binkers use the nment to plunder the workers of this country as well as other

The Italian boar was floated with money obtained from the sale of liberty boals that draw  $V_{ij}$  per cent interest. The govern-ment was supposed to act as the collector of interest and without compensation to diself pay the money received direct to the holders of bonds in this country. But Italy could not pay the principal and interest without improveding its industries, thereby making in-secure the Italian investments of the House of Morgan. So the occurs the trainin unvestments of the trouse of storgatic so the agents of Morgan in the government cancelled two-thirds of the field to scenre the investments already made and to enable Italy to cabilize its currency and borrow more from Wall Street. All the ramifications of this piece of financial pillaging are just

All the ramifications of this piece of financial pillaring are just conting to light. In the first place Morgan holds most of the issue-of bonds that were floated to make the Rulian bean and the United States government is pledged to pay  $W_2$  per cent on those bonds. In order to pay that interest to Morgan the government must collect it from the American taypayers. So in spite of the fact that Mus-solin's government is relieved of the debt payment, the taypayers of this country must pay it. The cancellation paved the way for a Morgan-Joan of Simonomono. This born was discounted at nine per cent, reducing the agental amount Morgan was to lend to Traly of Simonomono and the state of the state of the state of the spite of the state of t that was due from Italy so that old loan was deducted from the total amount, making the actual loan to Italy \$11,000,000. Without a cancellation of the debt Morgan could never have collected the \$80, 000,000. On the forty one million actually bound to Italy the House of Morgan collects 7 per cent interest of one hundred million. The government at Washington is the confidence main and gun man of Wall Street. But no one expects Senator Reed and the perty hourgeois opponents of Coolidge to understand that fact, which is indespensable to an understanding of the role of the government

under capitalism.

#### Mr. Berger's Admirer

Withou L. Berger, socialist congression from Milwankey, has a new admirer. During the dislate in congress on taxation Berger rigid to induce Congressional Ration of Texas, to yield to a question. The southern bourbon didn't want to yield any of his time, but which is secured in extension of time be did yield. The question Berger asked was: '11 not the gentleman aware that everything good in any bill is socialistic?' While dearing the conjection Blanton praised Berger as "the greatest student in the house," and added that he had never been able to find "auxthing good in socialism everpt my friend from Wisconsin."

Of course, buthers kits Blanton knows mothing of socialism and less of what constitutes a modern student, otherwise he would not have compliament Victor, the fings kalver socialist.

It is noteworthy that such a palpable ignoramis and fossilized reactioning as Blanton should praise Berger, as it reveals that this

It is noteworthy that such a pulpadae ignorantias and fossilized reactionary as Blanton should protee Berger, as it reveals that this so-called representative of the working class is betraying the trap-orther working the solution of the Wisconsin workers who observed in their tribunal. A true representative of the working class in congress would fusur the undesignated of creatures of the Blanton type and would not reach the working class movement by fainting that there is even a scintilla of solution in the Condige Mellon tax proposals.
