Borah Should Stick to His Logical Arguments for Soviet Recognition

By J. LOUIS ENGDAHL.

TODAY, the tug-of-war in Washington, over the question of American, recognition of Soviet Russia, develops in Intensity. "Silent Call" announces for the steenth time that he hasn't changed his mind on the subject, while Senator Borah is out over the country making speeches and giving interviews demanding that Soviet rule be recognized. Every time that Coolidge declares he has not changed his mind; the capitalist press restates its claim that the president is hostile to Soviet recognition. But Borah is the head of the senate foreign relations committee, which has a lot to the senate foreign relations committee, which has a lot to say about this question, in fact, it often speaks louder than the White House tenant.

Borah has just finished making two speeches; at Bridgeport, Conn., and Chicago. The senator stressed the recognition issue in his bastern address advancing, however, some
new reasons for desiring to desire with the workers' and
pessants' government at Moscow. He said:
"I favor' recognition of Russine Beause I believe in confiscation or Bolshevism, but because the said:
and Bolshevism is to bring the accommic disease. The only way to
get rid of it is to adopt such a policy as to bring about a condition
of affairs which will bring presperity and a sane course of conduct to
140,000,000 people."

MAGOO.000 people."

Perhaps Borah thinks that is a good way of breaking down the prejudices of great financial interests and winning over their political lackeys in Washington. It is not conceivable that he believes what he says. If he did, he would, naturally, have something to offer the workers and peasants of Russia in return for the surrender of their power.

Borah is a great believer in "America,"—in American "patriotism." He is one of the loudest "America First!" statesmen in Washington. He is opposed to the world court he thinks that the Morgan-Dawes plan is "a god-send to Europe," remedying all the evils of the Versailles peace. He kids himself into believing that the Harding-Hughes disarmament conference brought peace a little closer to the world. So he wants another conference.

But all this is poor bait for the Russian masses. They Rhow that "America First!" means "The Dollar First!" that the Morgan-Dawes plan is a slave plan for the German workers, to be fought by labor everywhere; that disarmament conferences will continue to be standing jokes as imperialist ambitions strive for world rule.

Borah speaks of the American capitalist state, that he would offer the Russian workers for their Soviet rule, as follows:

"As a result of well organized and venal propaganda on the one

It is easy to laugh in the face of the Idaho senator as he tries to cloak that charge, that capitalism rules in Washington, in a mantle of mystery. He would almost have us believe, it seems, that the whole. He stepot Dome scandal pased entirely over his head, just to mention one chapter in Washington's dollar statesrnaming. Borah had better stick to his other, more olgical arguments for the recognition. Solvet Russia, and there are plenty of them. There is nothing in the whole American capitalist system, in the grip of the Wall Street profiteers, that appeals to the Russian masses. All that Borah charges against American capitalism, was true of Russian Carsism.—BUREAUCRATIC, BURDENSOME, INEFFICIENT, ARRITRARY—terturing Russian labor. It fell. Soviet rule took its place.

Of course the Russian workers and peasants desire recognition of their Soviet Republic, even by the American capitalist government. But there is something they would like more—a Soviet Government in power in Washington Recognition by Wall Street and Washington of the stability of Soviet rule at Moscow, will not after by the smallest lota the Russian desire for a Soviet America.

American capitalism has nothing worthwhile to offer the world's workers but an invitation for its own destruction. Soviet rule on the other hand leads the way for the liberation of labor in all lands.

Now Is the Time if Ever it Was

This is the Time For Action!

HE Communist movement is being mobilized. Every worker convinced of the principles of Communism—whether in or as yet out of the Workers (Communist) Party—is being asked now and until June 15 to aid in building up the standard bearer of Communism in this country—the only English Communist daily newspaper in the world!

The goal is 15,000 NEW SUBSCRIBERS by June 15 and it can be reached by a ve Communists: the task of getting two new subscriptions to the DAILY WORKER.

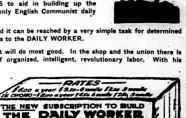

You, a convinced Communist—are asked to get where it will do most good. In the shop and the union there is one worker who will make good material in the ranks of organized, intelligent, revolutionary labor. With his sub on this brick you can "Make Another Communist." Clip, determine—and send it in:

The second part of the task assigned is better done if it can be accomplished like the first. If you can't do that-do this:

Pay for a sub out of your own pocket (if you can) to convince another worker. "Our Daily" reaching him every day of the week, giving him the inspiration of the action of revolutionary labor the world over—and the principles that guide it—will surely make still another Communist.

THESE ARE TWO THINGS THAT YOU CAN DO —and this is the task of every Communist until June 15 that will add at least 15,000 new subscribers-future members of the Communist ranks who will make 15,000 other Communist who add greater strength that will lead eventually to working class power.

What have you done to accomplish such a simple task for so great an accomplishment?

MILLIONS OF WORKERS NOW BELONG TO INTERNATIONAL RED AID, STARTING 3rd YEAR

Two years are a short time. However, when the International Red Aid looks back on its achievement during these two years it can state with great entirection that at the beginning of its third year of existence, it has taken its place in the ranks of the international mass organizations. Described in these 4s months to gather an army of four million members around the banner of the I.R. A. One of the Russian sections—the Ural section—and with putilifaction in its telegram to the executive committee that it was due to the devotion and true international confiderity of the workers and peasants themselves which made it is not the devotion and true international confiderity of the workers and peasants themselves which made it. Many Class Prisoners.

The I. R. A. is no invention of individual comrades, but it is the "legit mate" child of its time, for never has the prolectrait had so many viotims as now, in the "peaceful postwar period," in the time of "reconstruction" and "reparation."

The I. R. A. was formed yn a roup. The I. R. A. was formed yn a roup in the control of the control of the carrier prisons and Siberian axile. It is natural that the activity of the I. R. A. found a specially favorable ground in the Russia of the workers and peasants. While in the capitalist countries the white terror is not only directed against the "half traitors" and the "political criminals," dar a directed against the "half traitors" and the "political criminals," dar a directed against the "half traitors" and the "political criminals," dar a directed against the "half traitors" and the "political criminals," dar to apport these "traitors," the wave of general sympathy for the fighters of the world revolution grow in the Soviet Union. Already, one year after its formation, the I. R. A. had 500,000. But the control of the control of the Russian Red Aid received 300 roubles and in December, 1934, this sum had increased to 250,000 coubles. In the following months about the same amounts were collected. At present there is no locality in Russia without a branch of the I. R. A. in these

40 Years for Class Conscious Soldiers

Soldiers

Soldiers

Had Private Paul Crouch of the American army occupation in Hawaii been located somewhere in the United States when he formed a Communist ague, he would probably have received a "bobtail" incharge and perhaps a short jail sentence.

As it happened, he was in one of the colonies of merican imperialism and was given 40 years. Private Trimbull, another active member of the ague, yet to be tried, will probably receive the imperial treatment.

These soldiers are charged with no overt acta-

imme brutal treatment.

These soldiers are charged with no overt actamingly with holding certain-political beliefs of which the militarists do not approve. In other words they are members of the workingleass first and soldiers only incidentally. Even in the homeland this is considered a serious matter but in access like Hawaii, set apart for intensive exploitations and for use as navab bases, such a frame of raind is met with the severest punishment.

The army is a special instrument of pobbery and oppression. It is an organization on which the ruling class depends for just protection from the outraged workingclass.

The trial and sentences of our soldier comrades. The trial and sentences of our soldier comrades in Hawaii shows clearly the class nature of this

in Hawaii shows clearly the class nature of this armed force of the capitalist state.

There must be set on foot in the United States a morement of agitation and protest for the release of these soldier-workers. It must be linked up with the open preparation for another war by the militarists seen in the flood of propaganda geleased first the capitalist press, the movies, the radio and the magnatines.

The French Crisis

The French Crisis

The Pench crisis in France.

The Prench poverment is forced at last to consider what it has been trying to avoid ever since the war-a paration scheme that will give the war-a paration scheme than the Alice in westernand character it now has.

A capital levy is proposed on fortunes of \$10,000 and over which is expected to raise \$2,000,000,000 and over which is expected to raise \$2,000,000,000 and over which is expected to raise \$2,000,000,000 and over which is expected an outside possibility, and that the French population is to be told that it will have to bear the burden of the war debts. A striking illustration of the constrainctions which prevent any liquidation of the economic and political crises in Europe is contained in a recent dispatch from France wherein one M. Dardel, a manufacturer of railway equipment, urges the cessation of German reparation payments in kind on the ground that they are running French industry. Railway rolling stock, says this capitalist, cannot be sold to England and America but only in the Balkans where there is no prospect of payment. Yet if the French market is closed to terman commodities the reparations go glimmering. So drastic taxation, the most hated word in the French language, is necessary.

The hand of the House of Morgan begins to show itself. It will be recalled that shortly before the Daves plan was put into operation a lety was made on German capital and the proceeds used to stabilise the currency.—Taxation was increased all along the line. The German government railways were handed over to a syndicate of private owners.

The French debt of \$6,000,000,000 to America iffs that gave products of the control of the control

were hanced over to a system of the Trench debt of \$4,000,000,000 to America and Great Britain has now become, like the German reparations were, the major factor in internal politics. The House of Morgan and the British bankers will act more or less as a unit in forcing some kind of financial reform on the French government—Great Britain because she will no longer allow France a free hand in building a military machine that threatens her supremacy, the House of Morgan secause, it wants to extend American legennoy over sectern Europe, If the French-internal situation tends more towards chaos the House of Morgan will be able to exact before terms for its next loan.

Postponed by juggling of the budget, the negotiation of loans at a suicidal rate of interest by encontraging the belief that the German regarations
could liquidate the indebtedness, by dreams of
Galitary conquest, France is at last called upon

Intellectuals as Informers

Leo Wolman writing in the April 3rd issue of the Advance, organ of the Hillman machine in at-tempting to goverhat the Fresheit and the DAILY WORKER distorted and falsified the story of the Chicago Amalgamated meeting of March 23, simply prores that not only the capitalists but their labor, agents are able to hire mental pros-tites.

tites.

He admits that members of the Amalgainated were taken from their jobs for distributing the leaflet sent out by Local 5 of New York and then notes a fact that no one has ever denied, that the Chicago local of the Workers (Communist) Party of America paid a deposit on Temple hall for the meeting called by the blacklisted workers, many of whom are party members.

Wolman says he was at Temple hall and saw the hiligo crowd but no sluggers. Yet it was necessary for the manager of the hall to pull a gun to prevent the forcible entrance of a gang of sluggers there to wreck the building. The manager wanted to call the police but the party members present would not allow it.

Wolman schoes the capitalist press and assists the frame-up of young Foster by saying that: "The coat of a worker in the shop was cut with a knife as a result of his efforts to stop the distribution of the circulars... Foster was held at \$1,000 bail for carrying concealed weapons."

The boy had no weapon, he was arrested on a street car as he was secaping from the attack made on him by a gang of sluggers and the coat of the Hillman tool was cut either by himself or one of this fellows.

This co-operation with the police sig given the admits that members of the Amalgamated

Changing Its Tune

Changing Its Tune

The Chicago Tribune has discovered a great change in Soriet Russia. To the story, which fails to show any specific retreat of the workers and peasants' government it gives first page prominence in its Sunday issue. It generalizes about more liberal treatment of private traders but the Yew Economic Policy, alloving private trade in retail lines and permitting the peasants to sell their grain direct after the government tax has been deducted, has been in force for a long time—so long that most people have forgotten that the capitalist and socialist press-bailed its introduction as the surrender of the revolution.

Much water has passed under the bridge since the introduction of the XEP. The Soviet government has grown stronger by virtue of the complete acceptance of it by the Russian masses following the liquidation of the counter-revolution. Abroad, it has forced recognition from every great power with the exception of the United States. In the Far East it has concluded treaties with China and Japan. The Chinese Eastern Railway, the connecting link between Soviet Russia and China, is operated jointly with actual control vested in the Soviet government.

FOR WORLD TRADE UNION UNITY

Department of the British Trade Union Congress devoted to furtherling world trade union unity.

The Special Supplement began with a preface by A. A. Purcell,
president of the International Federation of Trade Unions (Ameterdam) and is composed largely of original decuments; correspondence
between the Red International of Labor Unions and the Ameterdam
right wing officialdom, reports of coinferences, etc.

The publication of this Special Supplement, the very frank and
militant announcement of its purposes by the president of the Ameterdam International, the complete exposure of the treacherous and disruptive statics of the right wing which it contains, all are indicative
of the tremendous hold that the slogan of World Trade Union Unity
has gained upon the British trade union movement, the most powerful
section of the Amsterdam International—Ed. Note.

trade union movement.

2. To secure for the presidium
of the Russian movement and the
General Council of the British
Trades Union Congress, full power
to act jointly for the purpose of
promoting international unity.

With fraternal greetings and good will to yourself and your col-leagues, on behalf of the British delegation,

Yours sincerely, (signed) FRED BRAMLEY.
