

BOSSSES PRAISES FOREIGN STRIKE HELP OF THE WORKERS Force Donations to Get Advertisement

How the large non-union industrial corporations are wringing profitable contributions from southern Illinois storm reliefers through their poorly paid employees, in order to get advertisement is revealed in the story of the workers in the Pullman palace car shops, 110th St. and Cottage Grove avenue.

The Pullman corporation, of which J. F. Morgan is a director and one of the trustees, has been hung large signs announcing that the company was contributing \$2,500 in the relief of the unemployed, and this sum must be raised.

A Non-Union Shop At the end of the day, the officials of the company took down the boxes and counted up the money. The Pullman employees are poorly paid. The company immediately fires all union men, as soon as they are found. The Pullman officials were furious. The men had no money to spend. So the contribution boxes were found to be nearly empty. Seventy cents were found in one, a dollar and a half in another, and so it went.

The next day, the workers report to the DAILY WORKER, they were told that every man must work exactly until the whistle blows, even the men who do not work. Two men were reported fired from the carpenter department of the steel shop for quitting work on a minute before the whistle blew. The Pullman officials were "getting even."

Cheap Publicity Watchmen were placed through the plant to intimidate the men. They were paid only ten cents a day for their jobs, which were also guarded.

The large corporation thus forces the workers to contribute to any general will for the company's advertisement, and the papers write the donation, "Pullman employees contribute \$2,500." This has been found a cheap way for the employers to gain publicity.

Morgan interests, who have been putting pressure upon France for some time to surrender the French colonies to the same kind of foreign financial control as the Dawes plan now squeezing German workers.

In fact it is in line with the open hints that were outlined by the Dawes plan. France, made by various American financial interests in the last few months.

Diatribe of financial-industrial interests, who are anxious to see the fall of the Heriot regime.

It is evident that over these issues a split is coming between Heriot and de Monzie, the latter counting on the support of the nation's bankers.

DETROIT CARPENTERS' DISTRICT COUNCIL AGAIN UPHOLDS WILLIAM REYNOLDS AGAINST HUTCHESON

(Special to The Daily Worker) DETROIT, Mich., April 6.—On Thursday evening, April 3, General Executive Member Poits appeared before the Detroit District Council of Carpenters as the official spokesman of the institution. Early in the evening he came to the floor and read a communication from Hutcheson instructing him to submit the following proposition to the district council: That the District Council conduct orderly meetings and that one William Reynolds be excluded from participating in any of its meetings. It was further stated that unless the district council voted to accept the conditions set forth, it would immediately suspend the district council pending reorganization and take steps to amalgamate the various local unions into one.

FARRINGTON'S TACTICS ROUSE ILLINOIS MINERS

(Continued from Page 1) who are now diverting work to him. He has been making and closing down the union mines.

Faked the Returns. An arbitrary change in the results of the vote cast for Thompson in the union elections in the Madison County district was the miners' leader here. Thompson was duly elected according to the official report of the sub-district tellers by a vote of 214 to 210. Without giving a hearing to Thompson or any other sub-district official, in fact, denying them a hearing when they demanded it, the Madison County district executive board threw out enough votes to elect Walker, Thompson's opponent, by a vote of 294 for Thompson and 210 for Walker. This is one of the most characteristic acts perpetrated by the Farrington machine and the miners here are up in arms against it.

Thompson Still in Office. SPRINGFIELD, Ill., April 6.—John A. Walker, tool of the Farrington-Lewis machine, in his efforts to grab the office of Pleasman Thompson, president of Illinois miners' sub-district No. 4, received his second rebuff today when he appeared to ask Thompson to turn the office over to him.

Walker appeared at the sub-district office shortly after Thompson had received a letter from Farrington notifying him that he had been elected. He handed Walker a copy of the official report of the sub-district tellers declaring that he, Thompson, was elected.

Walker was told to carefully study this report. Walker then left accompanied, as he had arrived, by his brother, Lenoe Walker.

Tom Perry, elected vice-president of the sub-district, with Thompson, joined Secretary Watt today in declaring for a final fight against this attempted usurpation by the Farrington-Lewis machine.

I'm as curious as to the real value of my lost necktie I can enlighten you. It was not worth one-fortieth and probably not one-fiftieth of the price made for your leader when he was prime minister by one of his capitalist friends. I have no recollection that at the time of that princely price he was wearing it.

The lady said a mouthful. "Be a loyal of his class!" That should send him a little bag of plimbers, but the polished hide of a social democrat is indomitable. Wherever they secured office, they immediately picked up everything that was not nailed down.

All militant workers of St. Louis are invited to attend this meeting and are invited to take part in the discussion.

CARPENTERS TO FIGHT JENSEN IN ELECTIONS Business Agent Beats Up Old Union Member

Like desperate gamblers who resort to gun play when they see their winnings being swept away, the carpenters are now resorting to physical violence against those who do not support their reactionary policies. The bulk of the carpenters are careful not to tackle carpenters who can give them a run for their money. This was amply demonstrated last week, when "knight" James Jensen, by the name of Mark Taylor, business agent for the district council, struck an old and infirm carpenter, causing him to fall to the ground and severely injured.

The old man who was beaten by the cowardly bully, Taylor, is Frank Larson, a member of Local 181, and a staunch supporter of the five brothers who were illegally expelled from the local by Jensen's lackeys. The attack was made at the headquarters of the district council.

Time to Ditch Jensen. In view of this and similar incidents, not to speak of the collusion of Jensen and company with the contractors, the members of the Carpenters' Union in Chicago are beginning to feel that it is time to change officials and retire the exponents of their favorite haunts to the "black hole of oblivion."

It developed from the discussion that the "evidence" upon which Reynolds was "expelled" was a letter from the Workers Party and in that capacity writes letters to every carpenter in Chicago. The secretary of state, The Workers Party is running a full ticket in the spring election and Reynolds is a candidate for the office of state university. It is obvious that unless his political rights are curtailed by Teapot Dome republicans Hutcheson and H. W. Jensen, the latter must not be made the basis of charges in the Carpenters' Union.

Answer Hutcheson. After extensive debate a motion to inform the highest official of the I. B. that the district council of Detroit intended to sustain Reynolds in his rights of membership and his privilege of participating in the meetings of the district council as a delegate from his local union, was carried by a vote of 23 to 4.

At the last meeting of Local 181, a Hutcheson lackey made a motion that Frank Larson, the lying recording secretary of Local 181, be elected president to be given a trip to Indianapolis to view the installation of "Crar" Hutcheson. This was in a nature of a gag, but it was carried.

End of the Teapot Dome Scandal is Good Display of Capitalist Solidarity

By J. LOUIS ENDHAHL.

TODAY, the Teapot Dome scandal is wafted out of sight as thin smoke into the air. The "black satchel" in which Edward L. Doherty, Jr., carried the \$100,000 bribe to Albert B. Fall, secretary of the interior at Washington, in the stealing of naval oil reserves, is carefully put away in the skeleton closet of American capitalism. The kept courts have spoken.

With all the solemnity of American judicial harlotry, Chief Justice McCoey, of the District of Columbia supreme court, at Washington, proclaims that since Oliver E. Pagan, an assistant attorney general, appeared in the grand jury room while the indictment was being returned, therefore the legal attack on the oil profiteers must fall. Mind you, workers, this Pagan was an indictment "expert" in the pay of the department of justice, presumably fulfilling the duties of his office. The two special ill prosecutors, Owen J. Roberts and former Senator Pomarene, had actually invited Pagan into the grand jury room. But the judicial mountebank, McCoey, says, "No! Pagan should not have been in the grand jury room." So the whole legal attack on Fall, Doherty, Sinclair, Doherty, Jr., and the rest, breaks its frail lance on the stonewall of legal technicality that offers 100 per cent protection to capitalist crooks in their own courts.

It well for workers to remember that it was this same "indictment expert," Pagan, who drew up the fraudulent charges against the political prisoners of the working class during the world war. Pagan was aided by the yellow press in the drawing up of indictments in the land. He would surely leave no loop hole through which the worker-war prisoners could escape. He didn't.

Take the attack, for instance, on the Industrial Workers of the World. Scores of lawyers, many of them not even sympathetic to the labor cause, confessed that the yellow press called the W. W. of the finest character, certainly not warranting a conviction. But Pagan's indictment against these workers not only stood as adamant, but a conviction was returned upon it by an ignorant and prejudiced jury.

The W. W. profiteers have never spent a minute in prison. The U. S. jail, like other workers, were thrown into a foul jail immediately they were taken into custody under Pagan's indictment, the legality of which the courts never questioned. After their conviction and while the case was under appeal, these workers were sent to the Leavenworth prison, in Kansas, to be held in other prisons in that it has never held a Rockefeller, a Gary, a Fall, a Doherty, a Sinclair, or anyone else of the criminal rich. Prisons and jails are built for the working class.

Look again, Workers! Judge McCoey, who found the legal loop hole which the oil millionaires escaped is a democrat, appointed by Woodrow Wilson. The looting of the oil reserves took place under Harding's republican administration. Fall was a republican secretary of the interior. Thus a democratic judge comes to the rescue of his fellow thieves in the republican party; blood brothers in crime under the republican system. The sham political twins of Wall Street here stand naked.

One more look at the "black satchel" and the \$100,000 bribe. That little incident took place November 30, 1921, more than three years ago. The capitalist courts have said that if the capitalist crooks can keep their crimes hid long enough, time makes them immune. There was a three-year limit on the "black satchel." But when workers are brought to trial, their whole past is raised against them in the hunt for something incriminating. Unless they are good and docile slaves it is even a crime for them to have been born.

It is predicted that the civil suits in Wyoming will fall on a technically just like the criminal proceedings in Washington. The most important witnesses did not even take the trouble to appear in which the testimony was given. The board of the Standard Oil Co. of Indiana. He was off in Mexico and South America arranging for Standard Oil's purchase of Doherty properties in these parts of the world. Why bother about an oil scandal at home!

Yet in February gasoline production was the greatest in record for the United States averaging 22,800,000 gallons daily. Stocks on hand now stand at the colossal total of 1,500,000 gallons. Yet that represents merely a 17-day supply.

Let us cry gosh over the world for "Oil!" It was for oil that Rockefeller's "Standard" opened commercial relations with Soviet Russia, greasing the way for recognition by the United States government itself. It was for oil that Japanese imperialism recognized Soviet Rule. It is for oil that the American, British, French and Japanese imperialisms growl at each, heralding the onrush of the next world war.

The wiping out of the Teapot Dome scandal shows the solidarity of American capitalist imperialism in its struggle for world empire. Against that well-organized enemy the workers of the United States, the labor everywhere, must combine in its power under the banner of the Communist International—"The International of World Labor's Victory." The way to triumph over the Teapot Dome profiteers leads thru the overthrow of capitalism itself. That way lies labor's struggle.

West Virginia Strike Still In Dispute

(Continued from page 1) yet feel that without militant tactics already condemned by Van Bittner, and without any real aid being given the non-union miners by the U. M. W. of A. to organize them and aid them to fight the double foe of hunger and the company and state gunmen armies, little of permanent benefit will result.

The rank and file union miners are appealing to Van Bittner for real help to organize the non-union miners. Why limit the Strike? The rank and file of the miners who are now organized point out the folly of calling out the non-union men in not agreed to the scheme.

POLICE HOUND W. P. ORGANIZER TO AID BOSSES

Afraid Threat Strikers Will Read "Daily"

By WILLIAM SIMONS,
District Organizer, Workers Party
WILLIAMANTON, Conn., April 1.—By Mail.—As soon as the DAILY WORKER was sold in the American Thresh Co. town of Williamant, a campaign against the Communists began. Responsible businessmen hastened to the chief of police and appealed for protection against the red menace. I have definite knowledge that such complaints were made to Chief of Police McArthur.

The Police Get Busy.
My actions were watched. They tried to trace my movements. They asked for me in the American Thresh Co. town of Williamant. But this was not enough. They had nothing on me, but Communism must be kept out of Williamant.

Not satisfied the company-influenced Williamant Chronicle, which has not been back the farmers' demand for satisfaction of the wage being raised 7 per cent out. Editorially, it declared: "There is no room in Williamant for Communism." Next day the Chronicle appealed to the strikers themselves to remove this menace from the city (over the city).

Compelled to Move.
I left town Monday at 5 p. m. to attend a C. C. meeting of Local No. 108. As I reached the train, the Communist strikers were waiting. They held me back for a long time. They told me to stay there until the police came to the room that I had rented for a week (the week was up). I was informed that they were satisfied with me as a tenant, but they could not permit me to stay there any longer because both the police captain and chief of police had instructed them to look me up. I was compelled to seek other quarters.

On the March.
The prospect of being kicked from one house to another did not appeal strongly to me. I told the next one who I was. Nothing doing. He was a Communist and he would not let me stay. The next house I tried, no questions asked, no leasehold. Two days later, the same Communist found out who it was and he had the police officers and strikers in attendance, with minutes in hand, to drive from house to house, his crime, the preaching of brotherhood of man and the abolition of exploitation of workers by capitalists.

But there will be a merry chase. Communist propaganda will be carried on, despite the opposition, and that of the labor-misleaders.

NEW YORK, April 1.—The workers of this city will pay tribute to the memory of Sun Yat Sen, the noted Chinese rebel leader who for thirty years battled for the people against the forces of world capitalism and the native reactionaries, who are but the tools of foreign capitalists, at a mass meeting in Manhattan Lyceum, 45 E. 4th street, New York City, Friday, April 16, 8 p. m.
Sun Yat Sen was a sincere friend and admirer of Soviet Russia. He led the Chinese, poor and oppressed, upon the field of battle and broke down the solid wall of Chinese feudal reaction. Sun Yat Sen fought fearlessly against the imperialism of America, England and Japan. He was president of the southern Chinese republic and leader of the national revolutionary Communist Party.

Letters From Our Readers

The Mask of Socialism Defined.

(The following is a letter from a worker to the treacherous socialist party, which has this false leader in its midst, and which is the enemy of the people.)
The letter is too good to require further introduction. Read it.—Ed. Note.)
I have read your article in the DAILY WORKER, Chicago, dated March 13, 1925, appealing for financial aid to reorganize the party. The letter, I must frankly state, has helped me. I can not expect any help whatsoever from me; that, on the contrary, I have been able to tear down your false mask of socialism, so that the workers may see your true appearance behind the mask of socialism—the face of capitalism.

I became a socialist as soon as I began to think independently, and I have been a socialist ever since. I believe in the principles of socialism and believing that you represent the cause of socialism I have been a member of the party. But I do possess the courage to admit my mistake. I have been led to believe that the socialist party represents the principles of socialism. Realizing my mistake, I no longer wish to have anything to do with the socialist party—not that I am no longer a socialist, but because I have bound myself to the only party in America that represents the true socialist principles of socialism—the Communist Party of America.

You claim to be Marxists! What irony! How false! It takes one only to read the principles of socialism to realize that you are the very opposite of the principles outlined in this great historical document written by Karl Marx and Engels. You have raised the banner of revolutionary socialism and declares that the salvation of the workers lies in the hands of the workers. You have developed this principle by making an alliance with the LaFollette middle-class party.

In the leaflet, "Statement of Party Policy," you enclosed in your letter to me you state that "the socialist party do not regret for the part it played in the proceedings of the LaFollette movement." There is no question as to the truth of this statement. I, Trotsky, once again said that the "socialist" parties in Russia would be only too glad to forsake all of Russia, and I may as well add that the "socialist" parties in America are just as glad to forsake all of America, and as well as all over the world, will be only too glad to sacrifice half of the working class—all them to capitalists in order to gain control of the other half.

It is true you have now broken with the C. P. P. A. But this is due to the fact that the "socialist" parties in America have met, as you admit, with disappointment. You believed that the capitalists who now shall they also reap." Now you ought to realize that those who no longer reap and the reapers are those who never sow. The capitalist class in America is too strong to need assistance in the efforts to crush the working class. So, henceforth, the "socialists" in America will be compelled to do their working class crushing and radical battle independently. It is only in Germany, Poland, France, and even in England, that the capitalists are obliged to accept the help of the "socialists" to crush the workers—hence their coalition with reactionary capitalist parties in those countries.

You "have no regret" for selling your party to middle class capitalists. For you will again in the future make alliance with the capitalist class, as they will need your help. As for the present the American capitalists without any work as "socialists" in the wrecking of the American working class. As "socialists" you have movement; expelling labor delegates from conferences whom you suspect of radicalism or Communism. What greater service could you do for the American capitalists?

You call yourselves "socialists!" You who have thrust the workers of the Daves plan framed up by you as Daves, member of the capitalist international! Can you deny this? Have you not said "socialist" in your letter to the Daves plan? I feel that the difference between the reactionary capitalists and the "socialists." The "socialists" to play the role of opposition but wherever they go they control they continue the same oppressive and imperialistic policies of the capitalist plutocratic predecessors.

At the conclusion of the following request: That you resign the name of your party to another name. The right have you to call yourselves "socialists" when in reality you have nothing in common with socialism? There are in America the republican and democratic parties. There is the American League, the Chamber of Commerce, the Business Men's Assn., etc. So what does it matter if you are one more reactionary capitalist party or one less? Pray call your party anything but "socialist."

HIBBEN BOOSTS SOVIET RUSSIA TO BROOKLYN FORUM

Brands Capitalism as "Mad Folly"

(Special to The Daily Worker.)
NEW YORK, April 4.—"It is a certainty now that it is possible to conceive and to maintain a social order in which the waste, the exploitation, the ruthlessness, the mad folly of the system of which we live in America in America live today shall be replaced by something finer," Captain Hibben, referring to the Brooklyn forum, referring to the Brooklyn forum, referring to the Brooklyn forum, referring to the Brooklyn forum.

Hibben recalled to his audience his experience in Russia during the famine year and the "great faith in the future of mankind" which he saw in the faces of the Russians thru all the terrible sufferings.
Hibben says that he always stresses as the "great fact for the first time in history great masses of people really do control their own destinies, in Russia, and really have gained and kept unscathed the basic human rights for which the Russian revolution was carried thru in America at this time of impending recognition of Russia of so many anti-Soviet campaigners.

Not Recognized by C. I.
I no longer recognize the legal existence of the Proletarian Party and do not accept its principles, which are in direct violation and opposition to the program and constitution of the Communist International, I believe.
The Proletarian Party has no definite position, is not recognized by the Communist International, as its section and the Communist Party of America, and such being the case, something must be wrong with the "Proletarian Party."
According to the constitution of the Communist International, which, to my understanding the Proletarian Party does not accept, only one Communist Party can be recognized by

INEQUALITY BETWEEN SMALL AND LARGE CAPITALISTS SHOWN BY LIST OF INCOME TAXPAYERS

By LELAND OLDS (Federated Press Industrial Editor)

How long could you live and support your family without owing a stroke of work? Not long unless you boast an annual income of over \$5,000, which you don't.
The sharp division between the great majority who must work to live and the minority whose ownership of property entitles them to live indefinitely on the work of others is reflected in the 1922 income tax statistics of the

favorable upon tenth to soil their hands with useful labor and that further reduction in their rate is not necessary to enable them to increase their wealth by further investment.
The fact that this small privileged class—just about 2 per cent. of all listed by the census as gainfully employed—can live in comfort without ever lifting a finger toward assisting in the tasks of the community makes Coolidge's suggestion that they are being legally robbed by Uncle Sam as tax gatherer absurd.

University of Boston Objects to Babbitt Title; Editor Fired
BOSTON, Massachusetts, April 6.—Boston University objects to being called "Babbitt university" and won't let its reserve officers' training corps be attacked in the school paper, The Bean Pot. Consequently, Hettie Perkins, editor, finds that freedom of the press is not in her school and is removed from office.

Income Group

From property	Average tax
2,000 to \$ 2,000	185
2,000 to 3,000	260
3,000 to 4,000	325
4,000 to 5,000	420
5,000 to 10,000	2,200
10,000 to 25,000	6,800
25,000 to 50,000	19,400
50,000 to 100,000	42,200
100,000 to 150,000	63,000
150,000 to 200,000	104,000
200,000 to 500,000	248,000
500,000 to 1,000,000	496,000
Over \$1,000,000	1,408,000

In the highest group are four individuals whose incomes averaged about \$1,500,000, with over \$5,000,000 apiece entirely from property. After paying their income taxes they still had well over \$1,000,000 of property income left, not to mention the \$2,000,000 which they got from stock gambling and other forms of personal "service."

SEEK TO DEPORT GREEK RED IN SYDNEY PRISON

Sentenced to 6 Months for Communism

(Special to The Daily Worker.)
SYDNEY, Australia, April 6.—Achilles Demetriades, a Greek Communist, is held in Long Bay prison serving a term of six months for organizing the Greek workers in Australia, and the capitalist papers are shrieking for his deportation upon the completion of his prison term.
Demetriades arrived in Sydney from Shanghai, China, having left Soviet Russia a year ago. On his arrival from China, Demetriades gave an interview on conditions in China, in which he declared, "The influence of Soviet Russia in China has become perceptible that it is preventing realization of the reactionary imperialist disposition against this land, which, being awakened, turns its glances to the country of the worker and the peasant, the only country which looks not to the frustration, but to the liberation of the oppressed peoples."

While in Russia, Demetriades was a member of the social democratic party, but later joined the Communist movement, and on his arrival in Sydney, became a member of the Greek branch of the Communist Party.
Demetriades formed a Greek Working Class Union in Sydney. The Greek consul then joined forces with the authorities in Sydney, and his arrest followed.

Demetriades is now being attacked by the newspapers. "Truth," one of the vilest of Sydney's kept press, declares, "Why should the Communist government hesitate for one moment in its plain duty. It must deport Achilles Demetriades, foreign revolutionary and sewer." This creature is now in the hands of the law in Long Bay prison, packed and ready to be dumped back amidst the filth from which he sprang.

Comrade Demetriades has a broad knowledge of French, Russian and Italian. After attending the outrage of Ramsden, he went to the University at Ekaterinburg (Krasnodar), which he extended during the first period of the Russian revolution.

Now Is the Time if Ever it Was This Is the Time For Action!

THE Communist movement is being mobilized! Every worker convinced of the principles of Communism—whether in or as yet out of the Workers (Communist) Party—is being asked now and until June 15 to aid in building up the standard bearer of Communism in this country—the only English Communist daily newspaper in the world!

The goal is 15,000 NEW SUBSCRIBERS by June 15 and it can be reached by a very simple task for determined Communists: the task of getting two new subscriptions to the DAILY WORKER.
You, a convinced Communist—are asked to get where it will do most good. In the shop and the union there is one worker who will make good material in the ranks of organized, intelligent, revolutionary labor. With his sub on this brick you can "Make Another Communist." Clip, determine—and send it in!

The second part of the task assigned is better done if it can be accomplished like the first. If you can't do that—do this:
Pay for a sub out of your own pocket (if you can) to convince another worker. "Our DAILY" reaching him every day of the week, giving him the inspiration of the action of revolutionary labor the world over—and the principles that guide it—will surely make still another Communist.

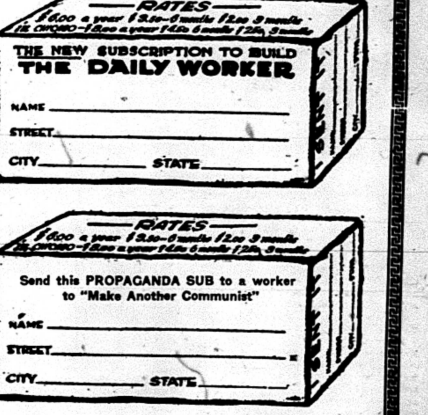

THESE ARE TWO THINGS THAT YOU CAN DO—and this is the task of every Communist until June 15 that will add at least 15,000 new subscribers—future members of the Communist ranks who will make 15,000 other Communist who in turn will add greater strength that will lead eventually to working class power.

What have you done to accomplish such a simple task for so great an accomplishment?

Your answer to this is to clip—determine—get—and send it in to

Sanitary Conditions. The ironing floor is seldom swept and the walls never painted. Sometimes the floors are left to rot so that they cannot be cleaned. Men use clean milk bottles full of water to keep their girls to supply drinking water instead of having satisfactory bubblers.

British Leaders Urge Trade Union Unity

FOR WORKER TRADE UNION UNITY

(Continued from last issue.)

The Press Attack.

The Russian Trade Union Congress had been held from November 11 to 18. The speeches made at that congress by the British delegates...

We publish herewith the fourth instalment of extracts from the Special Supplement to the Monthly Circular of the Labor Research Department of the British Trade Union Congress devoted to furthering world trade union unity.

The Hungarian social-democratic orator, Socialism, has published a letter addressed by the German General Federation of Trade Unions to the Hungarian Federation proposing joint action against the English 'delegation'.

But quite as much prominence was given to this matter in the columns of the British capitalist press. The attack was begun by the Liberal Manchester Guardian on Nov. 25, 1924, and pressed by the Daily News, Morning Post and the Daily Mail also joined in the chorus.

Against that attack in the columns of the social democratic bourgeois press of the British Trade Union Congress had no means of defence.

Political Murders in Bulgaria

By G. DIMITROV

ONE can truly say that in no other country in the world are political murders so frequent and so atrocious as has been the case in Bulgaria since the white-guard government of Zankov came to power.

1. The Bulgarian bourgeoisie overthrew the government of Stamboulis by an overwhelming majority in parliament, by the military putsch of June 19, 1923 and organized the Bulgarian Second Intentional.

2. In order to consolidate its government, the Zankov government has prevented the legal existence of two political parties, including the Communist Party.

Foreclosing on France

The Chicago Tribune suggests, in commenting on the French cabinet and financial crisis, that France might well find financial help, her colonial possessions and thus liquidate, partially at least, or debt to America.

Early in our history this government bought the Louisiana territory for a song and immensely increased the exploitable territory of the nation.

By a process of foreclosure American imperialism can grab off valuable areas, not only in the western hemisphere but all over the world.

Capitalist press dispatches also announce that there is a feeling of irritation in official circles in Washington aroused by the dilatory tactics of the French government in reference to the foreign debts and contain more than a hint that such pressure is being brought to bear in Paris.

The French capitalists, now third-raters in world finance, in the midst of a first class crisis, are discovering that the memory of Lafayette is not going to be accepted as collateral or cash by the House of Morgan.

The present situation is full of promise for the French Communist Party which has shown signs of remarkable vitality in the last few months.

The French masses have borne the oppression of their native capitalists, but they will not submit to a double loyalty.

If it were not for the war made on Communists by the tools of the bosses in the labor unions we would have to devote more time to picking out slogans and issues with which to go to the masses.

This suits the result of such a discussion. It may not result in their reinstatement, but all questions touching the reasons for the war on the Communist Party will be brought to the attention of thousands of workers whom it would be hard to interest otherwise.

When the fakery fight the Communists they are forced to talk about concrete things, to descend from the plane of abstraction.

The fight for actual Communist leadership expressed in the election of Communist officers in unions is only incidental to the main struggle for bringing the Communist program to the masses.

This the fakery will never understand.

dialist international was held at Brussels. The joint meeting was presided over by Emilia Vandeveld, who delivered an attack on the British trade union congress...

They saw in Russia what they hoped and wished to see. They were, however, disappointed. On the second day of the joint meeting...

It has been shown, here and elsewhere, that the Manchester Guardian, for instance, that the optimism of Purcell and Bramley is fastly contradicted by the reports of the British press.

This press campaign continued then during the whole of December. On January 5 and 4 a joint meeting of the executive committee of the I. P. T. U. and the bureau of the labor and so also the official organs of the Trade Union Congress had no means of defence.
