EDITOR OF SPANISH COMMUNIST PAPER WRITES FROM PRISON OF TREASON AND THE PARTY LIFE

The following letter received by the Acting Executive Secretary of the Workers (Communist) Party of America, gives in a unique way, as incidental to the subjects discussed, the picture of the lives of our reveigiblenay commades under the military dictalenship of General Primo de Rivera. The attack of the bourgecisie upon the Communist Party, the reason of party members unable to stand persecution, the use the class enemy makes of them, the mention of repeated and mass imprisonment, the threat of death over leading comrades, the frasternity of Internationalizan known only to Communists, the Interest in foreign news, and even the extremely busy life of the editor in Jali, all are typical of a revolutionary party under fire. The letter follows:

Cellular Prison.

Earl R. Browder, Chicago, U. S. A., Dear Comrade:-

Dear Comrade:

I have been wanting to write you for some time to thank you for you thoughtfulness in sending me the DAILY WORKER and the Workers Month by. In the solitude of prison it is a great satisfaction to us to be able to follow the activities of our American brothers.

However, my main purpose in writing these lines is to inform you of the followines.

following:
In the DAILY WORKER of Feb. 9 there appears a story devoted to rid-wide campaign on behalf of Sacco and Vanzetti, in which a lette

It is no more than natural that this cut should be spoken of in such terms by comrades who do not know very much about his recent act of betrayal. In fact, up to three months ago he was a member of the party and occupied important posts. But for the last three months he has been a despicable traitor. given frequent attention to the affair.
Recently, as a result of an article in
the DAILY WORKER on the subject
of Sacco's family, which we translated, La Antorocha issued an appeal on
behalf of the two Italian comrades.

Important posts. But for the last three months he has been a despicable traitor.

Notwithstanding his prominence he had managed to escape all persecution. Finally, in May, 1924 he was arrested. He was not able to resist resided. He was not able to resist months of prison. (The majority of the leading members of the resident months of the resi It has for us a double interest: the U. S. is the typical country of economic, impossible and its organization of all political erasts. Moreover, were much interested in the movement in Central and South Africa. Begging the pardon of some of those good comrades, we must recognize that their press is decidedly weak and does not study well the development that their press is decidedly weak and does not study well the development of American (Yankee) capitalism. On the other hand the DAILY WORKER is excellently informed. And it thus happens that your paper gives us better material on the politics of Central and South America than the organs of the parties in those countries themselves. We treat American politics thru the medium of the DAILY WORKER.

and topacing an as windrawa it gost activity.

I need not tell you the campaign that opened up in the press against our party. All the newspapers hastened to deal a death blow to the party. The incident was very easy for the bourgeoids to supplet, because of the party and in view of the fact that they had been delegates to congresses of the C. I. And this treason was committed when every responsible member of the party is in prison, while Courades Maurin, Arlandes, Tilles and Benedi are menaced with death.

If its in prison, while comrades Mau-rin, Arlandes, Tilles and Benedi are menaced with death.

If this individual should write to you again you will know how to treat him.

With regard to the aforementioned news story in the DAILY WORKER, I shall write an article about it in an article about it in

BUILDERS

LOCAL MILWAUKEE GOES ON RECORD!

Here Is a Program of Action for Your Local

This letter gives sufficient reasons why local Milwau is already near the top of the lift in the Second Annual S campaign and why no doubt it will soon fill its quota. Y local could put this program into action!

Milweukee, Wie, April 7, 1928.

THE DAILY WORKER.

The question of the DAILY WORKER was the principal ter taken up at the General Membership meeting in Mil-

wastles.

The meeting was fully consoleus of the fact that the Daily Communiet paper counstitutes the meet effective wapen of the Communiet movement and the greatest face in building up a real mass Communiet Party, at Party of settlen.

Recognizing this fact the seneral membership meeting decided upon the following measures for increasing the circulation of the paper in this city:

1. That the entire strength of the local movement will be devoted to support the Second Annual DALTY WORKER Sub-Carrolland with a pledge to get at least two new subscribers for such party and the property of the second party member.

paper.

It is expect that the measures adopted at the general membership meeting will be the means of building up a real movement in this city. Fraternally yours,

O. S. SHKLAR, Secretary.

This is the program of action fit for your local and good for any local in the country. This program IN ACTION will put your local right among the leaders in the Second Annual Sub Campaign and without question, this program will BUILD YOUR LOCAL.

In the Second Annual Sub Campaign THESE BUILDERS

of the Communist movement have sent in new subs to make "Our DAILY" a stronger weapon to fight the battles of the American workers.

Unity on Cossack Bill Some days ago we commented on the result of

"Get rid of the capitalist politicians and para-sites, make the transportation system serve the masses who use it, who have paid for it and to whom it belongs."

Not the least interesting phase of the attempted steal was the depths of corruption revealed in the labor movement. Those unions which have been the most bitter in their attack on the Communists the most bitter in their attack on the Communists and most pliable in the hands of the bosses showed that their connection runs straight to the financ-capitalists. Every gunman and gangster labor official, with a few exceptions, was for the traction steal. The list of those who endorsed the Dever plan is also a list of the labor fakers who have endorsed the Landis award and made war on the endorsed the Landis award and made war on the left wing. As we say, there are exceptions, but in general this holds good.

The political bankruptcy of even the most honest section of the Chicago labor movement has been plainly abown.

The non-partisan political policy followed by the

steel trust secretary of labor, James J. Davis, avowed enemy of the foreign born workers, was

sions of the isgislature it will be the bill which will give the state highway police.

The labor officialdom now finds itself supporting the same bill that the capitalists accept. There is nothing very novel about this, it happens quite often in the American labor movement, but seldom in questions (that the rank and file of organized labor can readily understand.

The labor fakers supported Small because, they said, he was against a state constabulary. Small makes a few changes in the measure proposed by the bosses calls it a highway police bill and the fakers still trail along.

The state constabulary will be formed, it will club and shoot striking workers and the statute legalising these atrocities will have received the endorsement of organized labor.

The labor officials have not even put up a fight against the state police bill, no widespread agitation has been carried on by them, no program of action was laid out for the unions—the defeat has been taken lying down.

Only the district organization of the Workers (Communist) Party really fought the bill. All the unions were circularized, special articles were carried by the DAIIY WORKER, the Communists in the unions made the police bill an issue with those workers they could reach. the strongest union of that periods

organized Fayette and Connellaville fields. The j non-union miners' paychecks in West Virginia and e-Kentucky also afford a basis for estimating the extent of the reduction in the miners' (not the sowners') standard of living, that the coal oper-tors' association has in mind. To wait for the wholesale closing of mines is, for the miners, slow suicide. The way to fight the For once the capitalist press was right. Such a storm was stirred up by the Communists and the masses of workers who accept the Communist pro-gram that the court martial was forced to acquit him.

for the miners, slow suicide. The way to fight the coal barons is for the miners to close the mines themselves in every union field.

This method has the merit of putting the operators on the defensive and of bringing-site whole union into action rather than letting it die a shameful death. The inroads aiready made in the union by the operators must be repaired as speedily as possible, a counter-offensive of organization must be started in the non-union fields, the war on undoubtedly had some influence on his prosecutors.

In Europe, if not in America, it is no longer

Results of the Traction Election

Early in the traction fight in Chicago we set forth the position of the Communists. We told the workers that the plan was a gigantic looting scheme and that those who opposed the Dever plan were simply, for the most part, crooks of a

ore timid type.

The opposition to the Dever plan used only the acreasing hostility among the masses towards increasing hostility among the masses towards the banks and that this issue alone was sufficient to defeat the plan is striking evidence of the strength of this resembnent.

The only clean-cut alternative to the Dever plan came from the Communists. The party said to the

workers:

"We stand for the confiscation of the transportare stand for the confiscation of the transporta-tion properties in the name of the community and their operation by the unions with the advice of experts who, however, are subordinate to the trans-portation unions.

"Get rid of the capitalist politicians and para-

Their support of Small has resulted logically in We said then that the employers' association and other anti-labor organizations would be able to accept the compromise measure and make it serve them.

The Chicago Tribune is out openly for the Barr

interests of Illinois. It says editorially:

the officialdom of this union, betrayed those workers over whom it had jurisdiction as well as the members of other unions. It profited financially from the campaign, but its officials deserted the strike. Since that time, under the headship of Michael Tighe, the union, altho it has an industial charter and with the display of a little militancy and organizational ability could again become a power, has been on the downgrade.

In the present convention there is a rather large bloc in opposition to the Tighe administration. It is not yet ready to adopt and fight for the full program of the Trade Educational League, but it will have to or surrender completely.

The political usual types of the chicago labor movement has been plainly shown.

The non-partisan political policy followed by the American Federation of Labor hamstrings, the function from the properties of this kind confused and infeffective. The result is that most of the labor unions whose officials are of the type called "progressive" follow a middle-class leadership composed of doctors, lawyers and petty businessmen and manifest the hesijation characteristic of this class.

When labor rejects the non-partisan policy and forms its own fighting party it will need no longer to the professional middle-class objection who fears the big capitalist, but hates the workers' organizations.
