STATEMENT OF THE NATIONAL COMMITTEE OF THE T. U. E. L. ON THE SCHNEID GROUP IN LOCAL 39, A. C. W. A.

Price 3 Cents

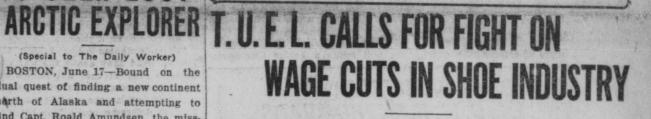

THE National Committee of the Trade Union Educational League wishes to make clear to the membership of the Amalgamated Clothing Workers, and particularly to the membership of Local 39, that the so-called progressive group in Local 39, led by Hyman Schneid, is not connected with the Trade Union Educational League and is in fact working contrary to the principles of the left wing movement represented by the T U. E. L.

We wish to point to the fact that the Schneid group, which has Its center in Local 39, is working hand in hand with the reactionary Hillman administration. It is significant that the Schneid group failed to put up a real fight against the Hillman elass collaboration agreement and is therefore responsible for this agreement having been adopted by Local 39. This group, which is led by Schneid, Don, Weiss, Witt and Zussman, is not a progressive group. It is working in the Interests of Hillman and Levin and against the interests of the clothing workers and against the left wing in the A. C. W.

The National Committee of the Trade Union Educational League calls upon the membership of the A. C. W. and particularly upon the really progressive elements in that organization, to join hands with the T. U. E. L. for the upbuilding of a powerful progressive bloc in the A. C. W. capable of transfroming the A. C. W. into a militant progressive union. The Schneid group is opposed to this aim. The Schneld group is working with Hillman and Levine against the progressives and the left wing

We, therefore, appeal to the progressive membership of the A. C. W. to close their ranks and to continue the struggle for the principles and platform of the T. U. E. L.

GEORGE BERNARD SHAW is drawing near the end of a happy life during which he made considerable money tickling the chins of the bourgeoisie with his clever, satirical pen. Shaw takes a keen delight in being contradictory, and tho he has said nasty things about the British ruling class at times, he was amusingly tolerated by them, much as a monarch of old would tolerate his court jester, unless the monarch happened to be suffering from indigestion. A fight between asphalt paving construction concerns and cement paving contractors is raging in Chicago. The contractors in the opposing camps are endeavoring to get the contracts for paving the streets of Chicago with their particular material, and the workers are the sufferers in the battle. Heretofore, the paving has been laid with cement with asphalt topping, and the cement companies are trying to secure contracts for solid concrete sidewalks.

(Special to The Dally Worker)

SHANGHAI, China, June 17 .- Reports from Peking state that General Chang Tso-lin, acting as agent of Japanese imperialism, has moved troops to seize Peking in the interests of foreign powers. This is supposed to have been done under the guise of "checking Bolshevism."

Reports state that the Japanese minister at Peking openly invited Chang Tso-lin to seize Peking, telegraphing to Chang at Tientsin, saying that General Feng Yu-hsiang's tropps, "were about to join the radical students, storm the government offices, establish a soviet government

Chang Tso-lin, whose troops a Tientsin on Monday were brought into the British concession to "protect" the British from 25,000 students who were demonstrating against both the British and Japanese, has moved some 15,000 troops and seized the north and east gates of Peking.

### Powers Hand Note to Pekin.

At the same time the Pekin government was handed a peremptory note by the combined foreign powers-except Soviet Russia-in which America, joining with the other imperialists, practically order the Chinese government to stop the Chinese masses from demonstrating, striking and protesting against the rapacity of foreign interests.

Including the United States, all powers join in threatening China because of the "state of unrest which is reigning and already has imperiled the lives of foreigners."

The note, far from conceding that the Chinese have some rights in China while the foreigners have none, warns the Chinese government that it has a "heavy responsibility with regard to the maintenance of order" and demands that it "meet the situation."

**Bosses Consider Old** Age Pension As Sop to the Working Class

### By J. LOUIS ENGDAHL.

TODAY, the growing discontent of American labor finds an echo in the propaganda barrage laid down promising new palliatives to the workers. Special stress is now put on "old age pensions," as one of the best baits to hold out to dissatisfied toilers, to keep them contentedly at their jobs thru all their useful years, and to be satisfied with a mere pittance to eke out a bare existence during their declining years in lieu of going to the almshouse.

Big employers never grant concessions to labor unless forced to do so. This is shown in every strike for better conditions, the shorter workday and increased wages, when the profit takers put up the most stubborn resistance.

Some times the employer tries to anticipate discontent, especially to stave off the demand of workers for organization, with slight concessions.

One of the best examples of this was the so-called abolition, with a great flare of trumpets thru the whole capitalist press, of the 12-hour workday in the steel mills. But this only came after the heroic struggle of the steel workers, in 1919, and a rising protest against steel mill slavery under United States Steel Corporation tyranny that swept the whole American working class.

An increasing army of child workers, specialization and speeding-up in industry, with the increased use of machinery, has gradually cut down the deadline of employment. Today the worker is scrapped at 45 years of age, if not earlier, with as little compunction as the dumping of old, worn-out machinery.

It was no accident that the "open shop" Chicago Tribune recently published a cartoon on its first page, urging employers to consider the question of old age pensions before the workers, themselves in desperation, took things into their own hands.

There is reasoning behind the pampering that is being bestowed by various capitalist interests on the National Conference of Social Workers now gathered in Denver, Colo.

Some of the actual conditions unearthed are as follows: superannuated wage earners are not relieved to any considerable extent by the pensions provided by railroads. industrial concerns, states and municipalities or fraternal organizations, or even trade unions; one out of every three persons reaching the age of 65 becomes dependent upon charity or relatives; 3,000 applicants for assistance under the Pennsylvania law showed that they had never earned more than an average of \$15 weekly thruout their lives; 98 per cent of the applicants were native-born American citizens, and 88 per cent had been married and reared families, their children, however, being unable to support them because they, too, were in the clutches of poverty; that while Pennsylvania has a per capita wealth of \$1,931.80 the total possessions of the 3,000 applicants showed an average wealth of \$23.84 per person.

These are conditions that unlimited propaganda about the blessings to the working class of the flivver, the radio and other boasted luxuries that every working class family is supposed to enjoy, cannot hide. They are making increasing numbers of working class families conscious of their lot.

The hard-boiled plutocrats and their press will attack "old age pensions" as Bolshevism. This remedial legislation has already been declared "unconstitutional" in Pennsylvania, just as the United States Supreme Court declared the

# Soviet-Persia

WASHINGTON, D. C., June 17,---Representatives of 18 governments have signed the international convention for the control of trade in arms, ammunition and implements of war, following the league of nations' arms parley. Fourteen nations must ratify the agreement before it takes effect. The convention gives the states bordering on the Soviet Union a free reign to arm against the Soviets without being affected by the convention.

Persia withdrew from the parley after it was decided that her ships in the Gulf of Persia could be searched for arms.

The Soviet Union refused to take part on the grounds that the conference was a means whereby the world capitalist powers tighten their hold on the weaker nations.

A protocol was also signed by 27, nations, which prohibits the use of poison gas in farfare, but does not prohibit its manufacture by the nations signing the agreement.

The representatives of Germany, Canada, Denmark, Greece, Nicaragua, Holland, Portugal, Switzerland, Turkey and Urguay, who signed the poison gas protocol, did not sign the traffic in arms convention.

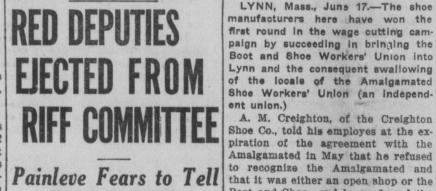

Altho the convention has not been published in full as yet, it provides that those governments signing shall publish statistics of their foreign trade in arms as well as private conerns within their countries.

Bayoneting, bombing, laying mines and other methods of warfare are considered "legitimate" in the protocol, it being considered "immoral" to murder only when poison gas is used. Theodore Burton and Hugh Gibson signed both agreements for the Coolidge government.

### THE DAILY WORKER

LONDON, June 17 .- (F.P.) - The whole strength of the British trade union movement will be mobilized June 21 to advertize the growing menace of unemployment. The mass demonstrations will be directed jointly by the executive of the British Trades Union Congress and the National Unemployment Workers Committee.

Government statistics show 1,250,000 unemployed. Trade union returns show the most serious situation in the industries employing skilled men. The percentage of unemployed in these industries is growing, with 19+

Meanwhile British capital goes on In Asia developing competition for British workers. The export of British textile machinery to India. China and Japan is an illustration. In 1918 Britain exported about \$9,600,000 of cextile machinery to India. The corresponding figures for 1921, 1922 and 1923 were \$42,000,000, \$38,000,000 and \$27,000,000. Similarly exports of textile machinery to China went from \$3,800,000 in 1913 to \$14,000,000 in 1921, \$14,000,000 in 1922 and \$10,000,-000 in 1923.

#### India Replaces Lancashire.

India now employs 350,000 cottonmill operatives with about 8,000,000 spindles in 340 mills. The average working man in Bombay gets \$4.35 a week out of which he pays \$2.40 for food, 42 cents for clothing and 28 cents for rent. He can be worked 60 hours a week.

### Cops Guard Money of **Paycheck Skinflints**

By ALONZO WALTERS (Workers Correspondent)

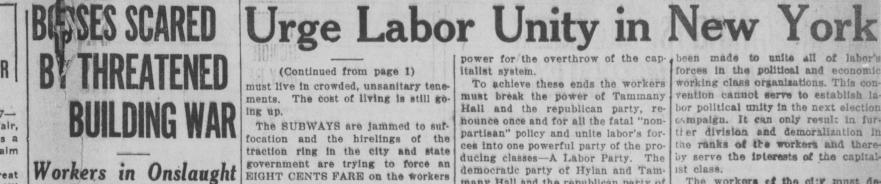

At the corner of Crawford Ave. and Ferdinand street, just opposite the Crawford Ave., entrance to the Chicago & Northwestern railway shops, is a "soft" drink joint. True, some of the drinks sold there are more stimulating than soft, but that is not what I started to write about. This very obliging joint offers to cash the pay checks of all the boys who work in the Chicago & North western carshops, on every bi-monthly structural iron workers is in violation pay day. Cops Keep Men in Line.

## on "Open Shop" By CARL HAESSLER

Building contractors in Chicago are badly shaken by the ultimatum of the building trades council against the "halfbreed" construction under which union men have to work on the same job with non-unionists, many of them imported to Chicago by the open shop Interests to smash wages and destroy trade union organization. Hereafter on new jobs the union man will have union associates or he quits.

The American Contractor, a weekly devoted to the business interests of the contractor, sounds the wail of the employers in its June 13 construction news edition. Contractors, it says, "cannot view the proposal to close Chicago for the building trades unions with any great enthusiasm. The closed shop seems to mean continuous juris-

dictional squabbling and the open shop at the present time will probably mean innumerable strikes accompanied by mass picketing."

### Bosses Use Another Judge.

The clause in the agreement beween the building trades council and the Building Construction Employers' Association on which the men are relying to oust non-unionists reads: "Nothing in this agreement shall interfere with the right of members of the party of the second part (the building trades unions) to refuse to work for members of the party of the first part (the employer association) when employed by any person or firm having building construction work done in Cook county (Chicago district) by parties (non-union workers) not affiliated with the party of the second part (the unions.)"

The union interpretation is that this clause, which was written by Judge Landis in 1921 as part of the Landis award, permits a union steamfitter to quit his job under the agreement if the contractor also employs a non-union stonecutter, for example,

on another job within the county. The employers hold that the clause merely permits the steamfitter to quit if he has to work with a non-union steamfitter.

The employers, who had done so well in 1921 when Judge Landis tried to rip up the building trades unions goods produced by the cheap labor iron workers would not accept the de- be bought at an ordinary soft drink by his award as arbitrator, immediately ran to another federal judge named

# HUGHES HITS AT **RADICALISM IN BOSTON ORATION**

### **Glad Ancient Americans** Were Not Pacifists

it is doubtful if a more typical representative of reaction ever stood on its platform than Charles Evans Hughes, who today delivered the chief ad dress on the occasion of the 150th anniversary of the battle of Bunker Hill.

Hughes thanked his god that the Americans of Bunker Hill day were not pacifists and he did not miss the opportunity to take a wallop at the radicals, whose democracy is not the kind that American capitalism likes to pay lip service to. America has all the democracy the people need but what is lacking is a more intelligent direction of that democracy, he declared.

One reason why local Philadelphia has been able to be right among the leaders in the Sub-Campaign, is because of some outstanding work of individual Builders.

Samuel Weinberg, a comparatively new member of the Communist unit there, has already learned of the best field for building.

Every two weeks, he takes with him a bundle of twenty-five copies of the DAILY WORKER to his local meeting and naturally he secures many subs.

At the last meeting he took the floor to speak on the DAILY WORKER as a builder of the organized labor movement and a discussion following resulted in five new subs to the DAILY WORKER.

### Chain Stores Built Up for Trading

(Special to The Dally Worker)

WASHINGTON, D. C., June 17 .--The chain store method of distribution which is popularily supposed to have originated and attained its greatest growth in the United States has been carried much further in many other countries, some of which can be classified as "backward" in other respects, occording to E. D. Gothwaite, of the Foodstuffs division of the department of commerce.

Writing in a bulletin on the "Trade of Philippine Copra and Cocoanut Oil" Mr. Gothwaide states that Chinese controlled chain stores have long held a dominant position in the mercantile business of the Islands. In fact he says "there has been evolved thru several hundred years of operation a closed corporation of distribution which seems to defy successful competition."

This system, according to Mr. Gothwaite, is grouped about a few financially powerful Chinese importing and exporting houses located in Manila. with wholesale distributing stations in all the chief centers thruout the provinces and with retail stores extending into the most remote barrios and native trading stations.

As these trading companies also act as factors and buying agents for stocks of Philippine products, especially copra and hemp, and as they control this trade throuout much of the outlying unsettled districts they play an important role in the export

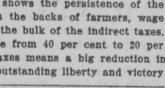

### **Coolidge Sees Smoot** of Sugar Trust and **High Tariff Stands**

WASHINGTON -(FP)- Sugar tariff rates will remain high, by decision of President Coolidge, who has held up "under consideration" for a year past the recommendation of the federal tariff commission that the duty be reduced. Prices of refined sugar have meanwhile come down. but the sugar trust continues to control both the importation of cane sugar from Cuba and the manufacture of cane and beet sugar in the United States.

Coolidge announced his decision just after he had had a long conference with Sen. Smoot of Utah, one of the beet department of the sugar trust crowd, who has to face the voters next year. Utah voters produce a large quantity of sugar beets.

Sen. LaFollette last summer issued statement showing that Coolidge had then suppresed for some months the recommendation of the tariff commission-a 3 to 2 decision-that the luty on sugar should be cut. He proved that the maintaining of the higher rate was costing the American consumers hundreds of thousands of dollars each week

The imperialists have sown the dragons' teeth and they are now reaping the harvest. Having succeeded in temporarily staving off the inevitable revolution at home, the bourgeoisie hoped that thru the intensive exploitation of the industrially virgin countries and their unorganized working class populations, they could secure a new lease of life for capitalism. But they reckoned without their hosts.

The flames of revolt against world imperialism are spreading like a prairie fire. The Chinese masses led by the Kuo Min Tang ford's decision upholding the N. It looks as if imperialism, temporarily victorious tion to those in power. The decision interested in establishing religious the organized might of the capitalist in Europe and North America, has run into a stone mountain in the colonies.

The victims of imperialism in Asia are uniting under the leadership of the Communist International for the struggle against their enemies. In America this struggle is no less keen and needs coordination. The appearance of the All-American Anti-Imperialist League is therefore timely and deserves the support of all classconscious workers. The myth that the United States is the friend evidenced in the campaign to smash ridiculous to make such charges this. In China the imperialist powers of oppressed peoples is now being exploded. The initiative in the fight against American imperialism is the lot of the American workers in alliance with the victims of that imperialism everywhere.
