# RALLIES FOR LENIN WEETINGS

By T. J. O'FLAHERTY

THE New York Times is worrying over the new stir in the ranks of the American Negro population. This time it appears they are not looking for salvation to the fantastic pipe dreams of Marcus Garvey but are inclining more and more to the idea that the labor movement is their hope. This does not mean, of course that section of the labor movement that is dominated by William Green and the reactionaries but to the comparatively small section that is under Communist influence, and specifically under Communist influence.

A MOVEMENT to organize the Pullman porters is a straw which shows in what direction the wind blows. Just as soon as the Negro porters began to join a union, the tools of the Pullman company among the Negroes got busy, pointing out that the employes of the company would lose their seniority rights and other alleged advantages if they joined a union. Full page advertisements began to appear in Negro papers, boosting the Pullman company. Those advertisements were not paid for, at least openly, by the corporation.

At bottom the only issue between them is one of expediency. The movement will go forward however no matter who opposes it. The Negro workers will be driven by the pressure of exploitation to organize for their own protection. The American Negro Labor Congress, which was held in Chicago recently, was a milestone in the history of the American Negro worker. It is true that it was only a miniature of what Franc in Danger of New future congresses with a similar purpose will be. Workers of the North Western Railroad!

Beware of the "B. & O. Plan" and the Company Union! Fight Against the "B. & O. Plan" and the Watson-Parker Bill! Do Not Give Up Your Right to Strike!

THE railroad workers in the North Western railroad shops are being asked to endorse the so-called "B. & O. Plan" and to establish peace and harmony in industry as embodied in the proposed new Watson-Parker bill. The labor-hating President Atterbury of the Pennsylvania system has all of a sudden become convinced about the great service of the unions and stands ready to sign agreements with them.

JAM FOUR BIG HALLS SUNDAY

"Every Worker Attend the Memorial"-Slogan

(Special to The Daily Worker)

NEW YORK, Jan. 20-Four big halls have been secured by the New York Local of the Workers (Communist) Party to take care of the thousands of workers who will come together on Sunday, Jan. 24, to celebrate the victories of the workers in different parts of the world and to pay their respects to the leader of the revolutionary vanguard-Vladimir Ilyitch Ulianov

To Take Care of Overflow.

The Central Opera House, Millers' Assembly (Brooklyn), New Star Casino and Manhattan Lyceum will be open at 2 o'clock in the afternoon. Preparations are also being made to take care of the overflow crowds at these meetings.

Jay Lovestone, Ben Gltiow, M. J. Olgin, William W. Weinstone, and Charles Krumbein will speak as each of these halls on what Lenin means to the American workers and to the workers of other lands. Along with the speakers there will

be appropriate revolutionary music to make this occasion one of the biggest celebrations that the workers of New York have ever arranged.

Victories in Past Year. The victories of the workers have been many in the past year. Soviet Russia today is stronger than ever and is growing ever stronger. In Czecho-Slovakia the Communists were able to force the yellow social-democrats into the background and are the second party in the Czecho-Slovakian parliament. In Germany, the Communists have made great gains. In England, despite the activities of the fascists and the "yellow" socialist leaders in the labor party against the Communists, the influence of the class conscious workers is growing.

Lenin's Spirit Lives On. Thruout the colonial and semi-colonial world new flames of revolt against the imperialism of France, America, England are breaking forth. Tho Lenin is dead, his spirit is alive and is sweeping the masses of discontented workers and peasants onward to the realization of the workers' and farmers' government in every land.

Every worker to the Lenin memorial meetings! should be the slogan of the workers in New York for that day. Let the attendance at these Lenin memorial meetings in New York be the answer of the workers to the challenge of the labor-hating Coolidge administration in Washington and the plutes who have their offices on Wall Street. Every worker to the Lenin memorial meetings!

New York Shows Police RAPS AMERICAN Pets of Capitalists Are IMPERIALISM Given Careful Nursing

By J. LOUIS ENGDAHL.

TODAY, an infant uproar in the New York police department over the expenditure of "funds" reveal the tender care with which the capitalist class nurses its "law and order" machinery. No such solicitude is shown for ordinary wage labor.

The recent demand of the Chicago police for wage increases showed that they were receiving \$2,200 per year. They wanted \$300 per year more, to total the \$2,500 received annually by the New York police.

Workers thruout all industry would consider this a princely stipend. The average wages for all workers in New York state and Illinois, among the highest in the nation, are almost \$1,000 below this figure.

But even the higher paid New York police, who keep constant watch on the property treasures of the richest city in the world-riches owned by the capitalists-must receive added attentions.

Richard E. Enright, former police commissioner, declares that \$30,000,000 in pensions and \$3,000,000 in public subscriptions to various police "funds" had passed thru his hands in the last eight years. There is a "Police Relief Fund" consisting of approximately \$1,700,000, of which "widows and orphans of members of the department, as well as members of the department who are sick or in distress . . . "are the sole beneficiaries. There is also a police recreation camp in the Catskill mountains, "operated as a convalescent camp and recreation resort." This camp fund has numerous subsidiary funds under the titles of "Police Recreation Camp Chapel Account," "Police Recreation Camp Building Fund," "Police Recreation Camp Hospital Fund," "Police Recreation Camp Emergency Fund," and if there are any more they are

Not only is the physical and spiritual welfare of the New York police, as in other cities, well attended to, but \$7,000 was even raised by "private subscriptions by a few prominent citizens" to have the history of the department written up by the son of a former New York mayor.

It is also significant that the powder trust multi-millionaire, General Coleman du Pont is the president, and Louis G. Kaufman, head of the Chatham and Phenix Bank, treasurer, of the Police Hospital Fund that amounts to another \$50,000. Then there is the "Arch and Freedom Fund," under the direction of Rodman Wanamaker, department store king, raised for the purpose of establishing a war memorial, and last but not least the "Aeroplane Hangar Fund."

The attentions showered upon the police should open the eyes of the workers in the mines and steel mills, on the railroads and everywhere thruout the nation's whole factory system. Read today's story of conditions in the stockyards and see how vastly they differ from the easier road laid out before those who find a place in capitalism's police system.

There is a reason for this. The great army of unemployed, that stands daily at the gates of the nation's stockyards, for instance, makes it easy to discharge any worker guilty of displaying the least sign of discontent. The food barons are not afraid of the unorganized, helpless stockyards' workers.

But capitalism cannot afford to permit its police to harbor even the least discontent. They might see behind the sham of so-called property rights. They might not wield the club so energetically that must fall upon the striking worker in order to beat him into "his place."

It is hoped that the police will fight for even greater privileges. Let them organize a labor union to stiffen their demands. But let all workers learn the lesson that they get nothing from the employers that they do not fight for and win thru the mobilization of their own strength. Workers 100 per cent organized can not only make demands upon the bosses, but see that they are complied with. Becoming conscious of their class interests and their class power, these workers will realize that their goal is the ending of the capitalist system that so carefully plans to continue its existence. The police pets of the exploiters will avail them not at all against the popular revolutionary movement of the workers and farmers.

### LENIN LIBRARY

Delayed thru the necessity of careful research and thoro planning-Volume One in the Lenin Library soon makes its first appearance.

It is the first of probably six volumes to make their appearance in as rapid a publication as the voluminous research and translation will allow.

The Lenin Library will contain all of the collected speeches and writings of our great leader and teacher.

A complete guide for the footsteps of the American worker on every problem to face him.

Library contains some of Lenin's most important contributions to Communist theory. Here are practical and most necessary teachings of a great leaderimmediate first steps "on organization,"

To Smash Unions.

Every attempt is being made to smash the labor organizations. Besides the deportations, many workers have been imprisoned. Things have not stopped there, however. The military government has gone so far as to arm some 3,000 young aristocrats and adventurers, "to defend the republic menaced by the Bolsheviks," according to public declaration of Minister of War Bolona. All printshops where labor papers were published have been destroyed and a veritable campaign of terror has been begun.

Seize Power by Coup D'Etat.

As already stated, the military directorate seized power a short time ago by means of a coup d'etat. Since it is not yet recognized by the United States government, it is doing everything possible to prove itself "worthy' of the recognition of American imperialism. There can be no doubt that the pressure of American imperialism is to a considerable degree responsible for the attacks against the labor and anti-imperialist movements. It is significant that deportations are not confined to Ecuador but, under pressure of American imperialism, have taken place in Costa Rica, Panama, Cuba and Ecuador, in turn.

#### NO STRIKE WATSON-PARKER BILL TERMED "THE RAILROAD LOCARNO": INSURES PRESENT GREAT PROFITS

By LELAND OLDS, Federated Press.

An increase of more than \$7,00,000 in the market value of railroad stocks in 1925 shows what railroad owners are getting out of a friendly government and employe co-operation. This boost in wealth reflects the assurance that high profits will continue. Can railroad employes show a similar boost in the market value of their investment in the industry?

Means More Work On Same Pay.

The 1925 railroad stock market is hailed by The Wall Street Journal as the best since 1910 with the average price of rail stocks at the highest level since prewar days. This reflects, says the journal, "the various records established and improved conditions. Most of the records have meant that the employes gave more work for the same pay.

Pennsylvania stock is now selling at over \$54 a share of \$50 par value This means a gain of \$11.75 a share on 10,000,000 shares since the low point of 1925, increasing the wealth of munist electoral victories in Chile and the owners by \$117,500,000 within the Uruguay, comes an important victory year. The 1925 increase in the market value of New York Central stock meant a gain of \$57,967,803 for the

Enormous Profits.

Railroad profits at \$1,135,000,000 for 1925 establish a new record. In only one other year, 1916, have railroad ented eleven candidates, in some cases profits exceeded a billion dollars. In forming a workers' and peasants' bloc that year the amount was \$1,059,000,-000. This year's profits exceed 1924 elements. In three localities: Gener by about \$150,000,000.

Railroad dividends for 1925 totaled \$329,000,000, another record. Last year the amount was \$320,000,000, in 1923 \$296,000,000 and in 1922, \$272,000,000. In 1916, the highest prewar year the total was \$313,000,000.

Cordoba is an industrial provnce, one of the most important in Argentina.

A short time ago the Communists won the leadership of the Provincial Workers' Union of Cordoba, displacing the former committee made up of anarcho-syndicalists. Another important development is the fact that many prominent militants among the syndicalists and anarcho-syndicalists are oining the Communist Party.

nothing to lose but your chains! In this work of awakening the multitudes, our strongest weapon is our daily newspaper, The DAILY ORKER. The more we can distribute Fifty Women of The DAILY WORKER, the more workers will acknowledge it as their paper and will join the Workers (Communist) Party.

This month we are having a special drive for the distribution of The DAILY WORKER-the Lenin drivehe purpose of which is to have every worker do their best to secure new subscribers for the paper. In numerous districts thruout America these drives are already under way.

Comrades! This is work which asks for interest, and sacrifice! Everywhere, where these drives have not been arranged as yet, it must be done immediately with promptness and vigor. In places, where our paper has only a few-even but one subscriber -it is the duty of the reader to try o secure more.

Mine Strikers Battle Teamsters Who Haul Coal Without Permit

> By PAT TOOHEY. (Worker Correspondent)

SCRANTON, Pa., Jan. 20 .- For the second time in a week union miners and their sympathizers engaged in a street battle with teamsters who were said to be hauling coal from various washeries without the permission of the United Mine Workers of America, thru the local office.

Several teamsters, accused of being non-union teamsters, who were hauling coal from a washery in North Scranton, were asked by a committee of union miners to show their written permission to remove the coal. The teamsters could show no authority. By this time a crowd of several hundred miners and their wives had assembled. The argument that followed brot on a real healthy scrap, in which the miners and their wive were the unquestioned victors.

Pick handles, brooms, clubs, bricks and other favorite weapons to be found in a hurry were used. In the fight one union striker was badly injured and had to be taken to the within the next couple of days, so Scranton hospital where nine stitches were sewed in his head. Nine union miners and two of their wives were arrested and locked up by the police.

#### Sore Plight of Store Department Workers in Merchant Marine

By ARMINIUS GEORGE J. FORIES. (Worker Correspondent)

NEW YORK, Jan. 20 .- With wages pending on the fluctuation of the labor market and working conditions getting ever worse, the store department workers of the merchant marine toil like galley slaves for the benefit of their masters.

Wages are as various as there are steamship companies and so are the working conditions. But with this variety the steamship owners are in a mad race to enslave the workers skill more.

At present the wages range from \$40.00 to \$60.00 a month for a firstclass cook to \$30.00 and \$35.00 for a first-class messman.

At sea and in port the store department workers must work till finished. No over time is paid. If a man for some reason or another fails to work one day, the captain will fine him two days for one.

If any one dares to protest against these abuses he is fired and his namplaced on the blacklist of the com pany roll of slaves.

#### Class Collaborating Union Officials Break Bread with McAndrew

By a Teacher Correspondent. The most disgraceful display of class collaboration was witnessed at the annual banquet given by the International Union of Steam and Operating Engineers of this city. William McAndrew, the labor union busting and open shop public school superintendent, imported by the business interests of Chicago to kill the Teachers' Federation, was given an honorary place at the table as one of the guests and speakers. In addition there were Mrs. W. S. Hefferan and Mrs. Johanna Gregg, trustees on the school board who have helped Mc-Andrew rob the teachers of their councils and who are supporters of his fake salary increase schedule.

Mayor Dever was also one of the guests. Among other things in his presses a copy of The DAILY WORK- on the newsstands every day for three that impossible now but next year he would get after the big property tax

## This Week's Prizes!

Every week The DAILY WORKER offers prizes for the three best contributions sent in by worker correspondents. Last week's prizes were won by a stockyard worker, a garment worker and a domestic worker. Send in your stories about the conditions in your factory, mill or mine. You may win one of these valuable prizes.

First Prize: "Capital," by Karl Marx, first volume.

Second Prize: "Ancient Society," by Morgan. This book explains the development of society from savagery thru barbarism to civilization. It was acclaimed as a masterpiece by both Marx and Engels at the time of its publication.

Third Prize: A DAILY WORKER cartoon, original drawing. framed.

#### A Contest in Scabbery

When company unions were first launched by the employers they were recognized instantly as organizations ereated to scab upon the regular unions. But the reactionary officialdom of can industry, goes the extension of the unions displayed their total incapacity to deal with these the B. & O. plan and other company threats to organized labor. Every suggestion on the part of the rank and file that would strengthen the unions was contemptuously swept aside. As the company unions continued to grow and the other unions declined just because the leaders would not fight for the demands of the membership, some of the leaders of labor had a bright idea-to enable them to exist as leeches upon the rank and file of labor.

These labor leaders decided they could become better scabs than the regular scabs organized in the company unions. They started first with the B. & O. plan on the railroad that bears that name and they did such a good job of it that even the most bitter enemies of organized labor are in favor of that system. The Pennsylvania railroad is ready to aid in the introduction of this plan on its road because it has learned that the competition of the Baltimore and Ohio road under the plan inaugurated by William H. Johnston of the Machinists is more effective than it ever was under the old conditions. So Atterbury and the directors of the Pennsylvania are now ready to ditch their own company unions and permit the traitors to labor to conduct the B. & O. type of company union for them.

It is a contest in scabbery, with the trade union officialdom proving that they can out-scab the regular organizations of company scabs. There is but one way to meet this amazing treachery and that is for the rank and file to drive from their labor organizations these B. & O. plan scoundrels and force them to receive their keep from the bosses they serve instead of from the dues paid by the workers they are betraying.

Lenin Memorial Meetings

Meetings are now being held thruout the world to commemorate the life and work of Lenin and to draw inspiration from his achievements in order to enable the working class to advance in ever stronger columns toward the storming of the last ramparts of capitalism. Here in the United States these meetings, commemorating the second anniversary, are already under way and reports indicate an encouraging revival of interest in the revolutionary movement on the part of the masses.

Considering the record of flagrant betrayals of labor confronting the working class in the form of B. & O plans, labor banking, labor insurance, long-term contracts, forcible arbitration, and other American Federation of Labor, it re devices encouraged by the labor fakers at the head of most American unions there is one principle enunciated by Lenin that deserves particular mention at this time:

Following his discharge, the miner was beaten up, arrested and granting even an iota of freedom to the Philippine Islands, the cultivation of thrown into jail. This story, related yesterday in our news columns, is one of hundreds of a similar nature. In half the coal fields of the United States it is a crime to be a union man. The most damning victim of "democracy." I shall quote part of yesterday's story was that which referred to the fact that a part of the dispatch for the informatwo organizers of the United Mine Workers of America, at the re- tion of DAILY WORKER readers: quest of the miner who was afterwards discharged, came into the vicinity to do organization work, but left when they were told by agents of the bosses to do so.

Such conditions can be overcome by organization work, but what is required is a battery of militant organizers that will really strive to organize the non-union fields, not merely draw their and the support of the Coolidge adsalaries while loafing in the best hotels of the district.

# THE DAILY WORKER Danger Ahead for Labor

THE rise of "labor" banking and I "labor" insurance enterprises is coincident with the increasing domination of American imperialism.

Beginning in 1920, with the establishment of the Brotherhood of Locomotive Engineers' bank, on June 30, 1925, there were listed 35 "labor" banks with total resources of over \$100,000,000. Most of these banks are organized by the bureaucracies of unions composed of decisive sections of the workers-notably among the railway organizations, engineers, firemen. onductors, trainmen, machinists, rail way carmen, clerks and freight handlers, coal miners, etc.

Side by side with this method of deauching sections of the workers who occupy strategic positions in Ameri union schemes.

The needle trades unions have also established their own banks. THE most cordial welcome is extend 1 ed to these enterprises by the capi

### Notes of an Internationalist No. 4—A Fascist King in Hungary?

By JOHN PEPPER.

UNGARY is once more the sub-H ject of wide discussion not only by virtue of its imprisonment and torture of Communists but also because of new putsch tendencies. It is interesting to note that the government and the bourgeoisie inevitably charge the Communists with an attempted "putsch" when they themselves are really hatching putsch plans.

The counter-revolution in Hungary has created a paradoxial situation: Hungary calls, itself a "kingdom" but it has no king. At its head stands Horthy, as regent. He publicly declares himself a loyal legitimatist but this declaration did not prevent his simply chasing out of the country with cannons and machine guns the late King Carl when he attempted to assert his "legitimate" kingly prerogatives.

A thirteen year ald son survives

King Carl and he is now revered ! and recognized as "King" Otto by the Hungarian monarchists. The Hungarian legitimatists are a very influential element in that they are the political representatives of the big landowners and of finance capital. The sopponents of the legitimatists are the so-called "supporters of the free elective monarchy," they represent chiefly the urban petty bourgeoisie and the wealthy peasantry.

The struggle between the legitimatists and the anti-legitimatists, the "supporters of the free elective monarchy," hitherto resulted in a certain balance of power. This balance is now jeopardized by a new factor. The Hungarian fascists have now advanced their own royal candidates; an archduke of the expelled Hapsburg dynasty. His name is Albrecht and he is a young adventurer of great wealth and of still greater ambitions. During the struggle between Horthy and King Carl this young Albrecht, altho himself
