# S REVOLUTION DEFEATING REACTON

Eurrent Events

By T. J. O'FLAHERTY

ONE of the socialist party papers, one the few still in existence in the United States is publishing letters supposed to have been written by political prisoners in Soviet prisons. Tho the letters bear every earmark of anti-Soviet concoctions they are issued between elegant covers headed by Mr. Roger Baldwin, director of the Civil Liberties Bureau and very persona grata in the columns of the New York Times since he began "to expose" Soviet Russia to the satisfaction of the American capitalist

THE ex-revolutionists who are now associated with Mr. Baldwin may take to heart the statement made by Daniel O'Connell, the Irish nationalist, the interests of the miners it is lawhen a British government official complimented him after delivering a speech. W.'s who are co-operating with Mr. Baldwin and the Jewish Daily Forward should look with a jaundiced eye on compliments coming from the New York Times and other organs of Wall street.

THE letters from so-called political I prisoners that appear between the covers of the \$2.00 pamphlet are written in the lurid style affected by the dime novel detective or the stoolpigeons of the Palmer red raid period. They leave nothing to the imagination. Mr. William Burns, the gentleman who discovered the perpetrators of the Wall street bomb plots ninety nine times, could not improve on them. It is the most improbable congeries of pipe dreams ever syndicated. The letters are the work of stated, "In effect, it is voluntary arbitexperienced sensational fiction writ- ration and represents the furtherest ers. But what if they are true?

The workers and peasants would have them hanged drawn and quartered.

FACTS are hard-boiled propositions. Undoubtedly there are some counter-revolutionists in Soviet prisons because they have actively opposed the Soviet government. And let it be understood that there was nothing platonic about the activities of those gentry. Everything went from assassination to lying propaganda and negotiations with capitalist governments looking towards the overthrow of the workers' and peasants' rule in Russia, Mr. Roger Baldwin and his liberty having associates who seem to ignore (Continued on page 3)

# 'Voluntary' Arbitration Is Proposed

(Special to The Daily Worker) PHILADELPHIA, Pa., Jan. 31-The Lewis officialdom of the United Mine Workers of America surrendered yesterday to the demands of the anthracite operators for arbitration of all disputes between the miners and operators. In order to hide the betrayal of

belled "voluntary arbitration." The essence of the proposal is that a fact-finding commission composed of Davis and Governor Pinchot should be appointed to make an investigation of wages and profits in the industry. This commission of reactionary republican benchmen shall report to a conciliation committee of three miners and three operators which shall have power to settle the question.

Concession To Operators.

The only objection of the operators to this proposition is that it leaves out the word "compulsory" arbitration. and they renewed their demand that their full demand be granted. The reply of the union officials to this has not been disclosed.

It is recognized that this proposal by Lewis is a definite step toward agreeing to the operators' demand for compulsory arbitration. One operator concession thus far made by the miners to the operators, who have urged compulsory arbitration from the

# NATIONAL PEOPLE'S ARMY UNDER FENG BEATS REACTIONARY ARMY IN FIERCE BATTLE NEAR PEKING

PEKING, China, Jan. 31.—Sanguinary fighting is proceeding outside Peking between the forces of Feng Yu-Hsiang at the head of the people's army and Wu Pei-fu, heading the counterrevolutionary forces, with Feng's forces steadily driving back the forces of reaction.

Feng's troops are concentrating in large numbers in Peking and with the defeat of Wu Pei-fu only a matter of days, the antiimperialist forces will then launch a heavy offensive against the most malignant of the counter-revolutionary forces under Chang Tso-lin, the dispersal of whose forces will give a tremendous impetus to the national revolu-

tionary movement in China. With a decisive victory over Wu Pie-fu being achieved the agents of European and American imperialism here are exceedingly uneasy and have already begun their propaganda calculated to induce other nations to intervene and save the situation.

### Fable of Treaty Violations.

The favorite story that is now being circulated against Feng by the agents of imperialism is that the army of Feng is mounting guns on forts which were supposed to be razed under the protocol signed following the Boxer uprising. By a Farmer Correspondent.

ASHLAND, Wis., Jan. 31-The Wisconsin Farmer, a farm paper, pub lishes an article painting a beautiful picture of the easy life that the farmer's wife has. It tells us that mothers of six children can manage their work so that they can have several hours a day to rest or go out to enjoy life.

I am a mother of four children. I live on a farm, but no matter how I try to arrange my work I never find spare time to rest, and when I do go out, I have to leave my work undone. As for getting rich on the farm it is like dreaming of the golden crown that is promised us after we die.

All thru the summer there are auction sales of the belongings of farmers who have quit farming because they have gone bankrupt. Many of them have started twenty years ago and have had to give up today.

TODAY, the beginning of the month of February, the paytriots are beginning to go into action again to make the most of the birthday anniversaries of Abraham Lincoln, Feb. 12, and George Washington, Feb. 22. Thru an insidious use of the whole public school system of the nation, for the past century, the ruling class, jealous of its heroes, has all but succeeded in placing a saintly halo upon the brow of the so-called "Father of His Country." While another stimulated outburst of this fake idol worship is again being lashed to fury, it is well to point out a few facts concerning the "cherry tree hero."

Rupert Hughes, the playwright and author, who never wrote a line to injure the "right" of the bosses to plunder labor, discovered some of the truths about Washington's life and tried to incorporate them in a speech to the sons of the American revolution at a banquet held recently in the fashionable New Willard Hotel in Washington.

He chose a poor place where the munitions profiteers nested during the war, to be near the fat contracts issued by the government. The audience was even worse, being constituted of super-pay-triots of the American legion type.

Hughes pictured Washington as a "profane, irreligious, and pleasure-loving man," putting emphasis on the fact that the "boy who couldn't tell a lie" developed into a "great card player, a distiller of whiskey and a champion curser," and that he "danced for three hours without stopping with the wife of his principal general." America's church-going population, which is not inconsiderate, will also be shocked to learn that Washington "never prayed and consistently avoided participating in communion."

It is reported that Hughes' speech came to a close amid imprecations worse than anything that Washington himself could have uttered, even under the influence of his own fa-

vorite Madeira or corn whiskey.

It is more worth while emphasizing, however, the blow dealt the fairy tale about "The Winter at Valley Forge." The troops are pictured as freezing while Washington kneeled in the snow and prayed. Many movie films are doing their best to popularize this fable.

There was plenty of timber about Valley Forge. The soldiers were housed warmly in snug huts with plenty of wood to burn. They could get that for themselves. But there was considerable hunger. Not because there was a lack of food in the neighborhood. It was because the food profiteers would rather sell at a high profit to the British in Philadelphia, who had real money. The profiteers were thus conspicuous even in the war thru which the nation won its independence from Great Britain, just as they have been very active enriching themselves in every war since. Washington

was considered the richest man in all the colonies, so he could not have been very distantly related to the profiteers who seized upon the war as an opportunity to pile higher their hordes of gold. Historians whose researches are not popular with the

writers of public school textbooks, point out that Washington, America's first millionaire, had no conception of democracy, or of a society founded on anything but property. This will probably disturb those "liberals" and "socialists" who joined the late LaFollette last year in his drive "Back to '76." When Washington was elected president he wanted to

be called "His Mightiness the President." To destroy the mighty myth that has been woven about him is the task of class conscious workers who refuse to determine their destinies by musty misconceptions of what transpired in the world more than a century and a half ago. The month of Washington's birthday offers an excellent opportunity to clear away some of these cobwebs of history. Labor should make the most of it.

# COUNTY SHERIFF USES OFFICE TO SMASH STRIKES

Gunmen, Landis Award Men, Made Deputies

Sheriff Peter M. Hoffman, who was ecently sentenced to serve thirty days in jail and pay a fine of \$2,500 for his part in allowing two Chicago millionaire bootleggers use the jail as a business office and roam thru the cabarets on Chicago's south side to their hearts content while supposed to be "doing time" in the Cook county jail, in defense of his appointment of thousands of special deputies declares that "when I appointed these men I had in mind an army to assist me in case of labor or race troubles.'

Commissions Landis Award Men. In an excerpt from his letter which follows, which was sent to all the spe cial deputies telling them to turn in their badges and commissions, he points out that he has handed out these commissions to Landis award men, thus showing up the nature of the strikebreaking crew that he had formed:

"The statutes of the state of Illinois authorize the sheriff to appoint special deputies in his office, and after my election, following the law and practice of my predecessors, I appointed a number of special deputies, including employes for express companies railroad special agents, bank mes sengers, payroll carriers in large manufacturing institutions. Landis award men, physicians who are out late at night and men in large and small business industries who had been robbed. etc., having in the mind only the protection of property."

Easy Money. This action of Hoffman revoking the commissions of the army of company officials and faithful company 'employes" to be used as strikebreakers, came following an expose of Hoffman's connection with an insurance company, the Carolan, Graham and Hoffman, Inc., thru which more than \$60,000 was made annually insuring

the special deputies. Gunmen Are Deputies. Tho in his letter Hoffman tries to hide the character of his special deputies, the character of these deputies has been disclosed in a number of Chicago municipal courts as nothing more than gunmen using the office as a blind to carry on their work for bosses' associations, etc. A number of arrests of Homman's special deputies were made in the past week in which these gunmen were caught running booze. These are the type of

The British troops were surrounded by a heavy cordon of police as they feared the inhabitants who had tasted the heel of Britain might attack the soldiers. At the same time the French imperialist emblem was taken down at Bonn and the Belgian emblem at Moers, Duesseldorf and Aix la Cahppelle. 2,500,000 inhabitants of the first military occupation zone are being returned to the German reich. Jacksonville Pact Buried. All central Pennsylvania is spotted with coal camps where mining companies have forgotten their signatures to the Jacksonville agreement and are out to restore the 1917 scale with its enormous reductions and smash the union if possible. The miners are putting up a gallant fight but outside assistance is vital. The district union is bringing the strikers and other unemployed \$20,000 a week from the working miners, but it is obvious that this does not go far enough. Families can not live on \$3 a week each and buy the clothing they need to keep from freezing.

(Continued from page 1.) the 100,000 workers in capitalist jails employed a Hearst journalist to collect the garbage scooped up in Soviet Russia about the paid agents of the international bankers. They dumped this offal on the American workers under the American camouflage of a drive for class war prisoners. . . .

THE American workers however, are I too accustomed to the harsh realities of life to be fooled by the clever devices of Baldwin and his pals. The class conscious worker may not believe in the infallibility of the personnel of the Russian government. This is a papal prerogative and the workers know that all human beings are very falible and liable to err. But they know that in Russia the workers and peasants rule and that covers a multitude of sins. The British trade union movement sent a delegation to see what was going on in Russia. The delegation was not composed of Communists. Neither was it composed of Greenwich village anarchists masquerading as radicals. . . .

WHAT the British trade union delegation saw can be read in a book peasants' government struggling to reconstruct the country's economy on a socialist basis. There were slips here and there. That was inevitable. The trade unionists, not having spent their lives sucking some bourgeois financial pap, expected accidents and miscarriages. But incidental accom panients were ignored in face of the dominant fact, i. e.: the existence of a workers' government. The delegates investigated the reports of "red terror" in Georgia and in other sections of the U.S.S.R. and they reported them ill-founded. They reported however that the capitalist governments had financed many civil wars against the workers' government.

Something like B. & O. co-operation adapted to the anthracite industry rather than wage reductions is what the hard coal operators are after in their drive on the United Mine Workers. They want the union to do its share in putting over the new time-clock factory discipline in place of the old miner's freedom. This appears in a Coal Age article by H. S. Of late Walker had been prominent as the defender of labor grafters and gangsters of the "Big Tim" Murphy, Fred Mader and Con Shea type. In politics he was connected with the crooked democratic political machine of Chicago and was a member of most of the viciously reactionary clubs of the city.

He is only remembered because of the vile role he played in sending innocent men to penitentiary and the gallows. The character of the proceedings was best described by Governor John P. Altgeld, who pardoned those who were sent to the penitentiary and characterized the assassination of those that were hanged as "judicial murder."

### American Society Joins International Protest

(Special to The Daily Worker) CLOQUTE, Minn., Jan. 31-The Cloquet Co-operative Society, consisting of 818 members of different nationalities, at its annual meeting, most emphatically protested against the fascist terror in Italy.' Fascists have not only destroyed local co-operatives in Italy, but on November 15, forcibly occupied the offices of the Cooperative League of Italy and dissolv-

ed the organization. The annual meeting of the Cloquet co-operative also demanded that the Duluth Proceeds to International Co-operative Alliance should take the initiative to call an international conference of the Red International of Labor Unions, Amsterdam International of Trade Unions and International Co-operative Alliance, to formulate international measures to fight fascism.

The resolution follows: "WHEREAS, the present fascist government of Italy has destroyed the co-operative societies of Italy and forcibly occupied the offices of the Lega Nazionale;

'We, the members of the Cloquet (Minn.) Co-operative Society assembled in our annual membership meeting, join in the protest of the International Co-operative Alliance, and extend our sympathies to the persecuted Italian co-operators.

"Further, we heartily endorse the proposal made by the Red International Labor Union that the International Co-operative Alliance take the initiative to call a conference of the Amsterdam International of Trade Unions, the Red International Labor Unions, and International Co-operative Alliance, to formulate measures to fight fascism.

Send Resolution Broadcast.

A copy of the above mentioned resolution was sent to the Co-operative League of America and International Co-operative Alliance, London. A protest was also sent to the Italian ambassador at Washington.

### Sub-Section 9B Will Hold "Get-Together" Party in Brooklyn

NEW YORK, Jan. 31-Sub-section 9B of New York of the Workers (Communist) Party is having a get-together, Saturday evening, Feb. 6, at 56 Manhattan Av. Brooklyn.

Various comrades come together in their units to do Communist work. Many of them have not known one another, but the comrades are getting acquainted very rapidly and are even growing intimate. Therefore the 9B comrades feel that conditions are ripe for a good time. The committee prepared an excellent program.

# Reorganize Into Nuclei

The Workers (Communist) Party of Duluth is proceeding with its reorganization.

The city has been divided into three sections and registration is about completed. Over forty members have already been registered.

Compare Robert Sullivan, now district organizer in Minneapolis, is preparing to visit all sections of the district in order to help the isolated branches of which there are about seventy to complete their registration.

## Prizes for Contributions

Every week valuable books are offered as prizes for the best worker correspondents' contributions. These prizes go to the worker whose work shows an effort to produce an article that will interest other workers. The article should preferably point out the conditions of labor in factory, mill or mine.

The winners' articles appear in the Friday issue every week. Read them. They will give you ideas as well as show you what splendid articles are written by workers.

## This Week's Prizes!

FIRST PRIZE: "Historical Materialism-A System of Sociology" by Nikolai Bukharin. In this valuable book all the social sciences are closely scrutinized and interpreted from the materialist viewpoint.

SECOND PRIZE: "Capital," by Karl Marx, 1st volume. THIRD PRIZE: "Russia Today," Report of the British Trade Union Delegation.

All three are valuable books for every worker's library.

The Kansas City branch employs about 112 salaried and wage workers. Thirty-one are salesmen, five detailists, making approximately one-third as order takers. These are fast being put on the commission basis as the firm finds it more profitable.

In the past five years profits have been on the increase and the number of workers employed has decreased, bringing in a higher degree of exploitation. Promotion mostly depends on pull and there is little to promote one to. A salesman must be a registered pharmacist.

The wages of the workers average about \$18 a week. When the cost of living was going upward and wages downward this firm was not so rude as to awaken the sleeping workers. The firm employs a dozen boys and girls-grammar school education was disqualified and one had to be a high school graduate to gain employment at work that anyone can do, starting at \$55 to \$60 a month. Small raises can be had once a year up to so many years when they stop as the average wage is \$18, which is paid to men and women who have been with the firm for ten to twenty years. "The American farmer must have an American price in the American market for his American products."

We are tempted to appply to Lowden the observation that language was invented to conceal thought, but that would be undeserved flattery as it would imply that Lowden is capable of that chemical and molecular motion of the brain required to produce thought. Neither Lowden nor anyone else can explain what constitutes an American price for anything, least of all the price of farm products which is regulated by the condition of the world markets. Such, however, is the buncombe that is being peddled the italist world, entering the world court farmers

Of course it is no crime for an ignoramus to aspire to be president and it is not an impossibility for one so ill-equipped to reach that goal. After Harding and Coolidge the game certainly is not barred to those of deficient mentality.

# ANOTHER ARTICLE ON THE **WORLD COURT BY WICKS** WILL APPEAR TOMORROW

Tomorrow will appear the third of the series of articles by H. M. Wicks on the world court. This article exposes the hand of American imperialism in creating the court, and reveals the conquest of Europe by Wall Street.

Other articles in the series deal with the decisions of the world court against labor; its attacks on the Soviet Union and its legalizing of
