Six Militants Arrested Throughout City in New Police Drive Against Workers

INVENT BRIBERY CHARGE AGAINST RED COLLECTOR I. L. D. Defending All Arrested Militants-

Police yesterday and Sunday ar-rested six workers in various parts of the city in what appears to be an intensification of the drive against workers who engage in ilitant activities.

A frame-up seems likely in the arrest of one of the workers, Sylvia Sobel, who was arrested Sunday while collecting money for the cam-paign fund of the Workers (Comnist) Party. In an effort to put halt to the red collection campaign, a charge of trying to bribe an officer has been concocted

Is the Negro An Issue?

"The Negro is not an issue in this campaign," says the Richmond News Leader. nd the Manufacturers' Record of Baltimore takes up the subject as follows:

"Deprecation by the Richmond News Leader, an ardent supporter of Governor Smith, of the 'Negro menace' in the South as a campaign ue is so sane and opportune that true friends of the South will hope other Southern editors will emphasize this point, regardless of their party affiliations. "The Negro is not an issue' in this campaign.' says the News Leader, and this campaign,' says the News Leader, and

in that pronouncement it speaks truly.... "Left to themselves, the white people and the Negroes of the South will dwell together in amity and mutual benefit economically. This is a fact that the leaders of both great political parties must grasp, and thus refrain hereafter from promoting the 'race issue' or the 'Negro menace.' In the heat of a political campaign of a few weeks duration they must be careful not to undo all that individuals and organizations have brought about in the creation of a spirit of harmony between the races in the Southern states."

The Manufacturers' Record means what Weldon Johnson said some years James ago - that a "gentlemen's agreement" exists between the democratic and republican parties (and if Mr. Johnson were wide awake he would include the socialist party) -a "gentlemen's agreement" under which it is pledged that all capitalist political parties will silently co-operate to suppress every issue raised by the Negro masses against their oppression, double exploitation, segregation, lynching and disenfranchisement. This "gentlemen's agreement" tacitly includes the "rc orm" parties of capitalism, for in 1924 the LaFollette party followed the unwritten law in suppressing William Pickens, the Negro leader who came to appeal to its convention, and remained silent on the issues of life and death to the Negro masses. And now the socialist party which boasts of inheriting the remnants of the LaFollette movement, while putting up a few Negro speakers as a "store front," carefully abstains from demanding full social equality. for the Negro masses.

But for the Workers (Communist) Party the Negro would not be a recognized issue in this campaign. But the Workers (Communist) Party, as the party of the working class, takes up the battle for the Negro masses-and forces the issue into the campaign.

The "Negro issue" has already played a tremendous part in the history of this country, and it will play a still bigger part in the future liberation of the working class. The toiling masses, black and white, will march together through their struggles and, fighting fearlessly as equal comrades, will defeat the ruling class.

The Workers (Communist) Party is the common party of Negro and white workers alike. It alone can unite them and lead them to victory.

"Miracle" Election Publicity

Al Smith publicity agents flooded Sunday's capitalist press with the story of the boy who was struck by an automobile and would have died-if the blow had not been softened through the miraculous chance that a package of poster pictures of Al Smith were under his shirt!

This takes the place of the old "miracle" story of the young soldier whose bible, carried next to his heart, stopped a bullet that otherwise would have killed him.

Instead of such tommyrot, why does not Mr. Raskob, the Smith campaign manager who is also one of the chiefs of the open shop movement, tell the workers frankly that the election of Smith, just as much as the election of Hoover (or of Thomas, if there were such a chance), would mean a free hand for the scab automobile and other manufacturers to use even more than ever before the full power of the government to smash the trade unions, to jail and shoot discontented workers and to carry on a reign of terror against the working class at home while preparing more imperialist wars abroad?

up by meetings for Comrade Wolfe, tions. who speaks Tuesday night, October geles has lost hundreds of n

And so, as far as these capitalist and these "reform" parties, which also support "American (Jim Crow) Institutions," are concerned. it is true that "the Negro is not an issue in this campaign."

But-look beyond these parties of capitalism, and you see the Communist candidate for president of the United States arrested at Wilmington while his running mate, candidate for vice-president is forcibly ejected from his meeting hall at Houston and threated by a posse of would-be kidnappers or whers in Arizona-because the party of lese candidates fights for a certain position on the Negro issue!

So what the Manufacturers' Record means

The Negro would not be an issue in this campaign except in-so-far as the Communists make the Negro an issue.

ever since the last gun was fired in the War has the Negro had a political y as his champion-until the Communist ty came on the scene. To the ruling class Texas, Arizona and Delaware, the "Negro ace" has become a reality just to the extent that the Communist Party has penetrated the South. That is why Foster is attacked by the police in Wilmington and Gitw is attacked by police and "posses" in Texas and Arizona. The "Negro menace" becomes identified with the Communist ace." The Workers (Communist) Party. ing the revolutionary working class party, sunnot but be also the party of the Negro uses. So the Southern ruling class press is screaming that the Workers (Communist) Party is "the Nigger Party." And we accept the honor with joy.

The ruling white bourgeoisie of the South ants "the white people and the Negroes" to be "left to themselves." so that they will dwell together in amity and mutual benet economically." But this "amity" means chisement and slavery and lynchand the "mutual benefit economically ans the one-sided benefit of the idle exiters and the beastly exploitation of the egro workers and tenant farmers. By "the irit of harmony between the races," the thern aristocrats mean the spirit of very on the part of the Negro masses and snirit of the arrogant parasite on the et of the white employers and bankers,

It is safer to dish out "miracles."

And it is not surprising to learn that the candidate of the yellow socialist party has the same taste for "miracles" in place of plain truth-telling in this campaign. The latest report is that the Reverend Norman Thomas, when speaking at New Haven, finding several fellow-preachers in his audience. which otherwise consisted mostly of pious business men affiliated to local churches, closed his "socialist" campaign speech with a "prayer to God."

Meantime the Communist presidential and vice-presidential candidates, Foster and Gitlow, are touring the country and tearing the hide off the two capitalist flunkeys, Smith and Hoover, and their little petty-capitalist brother, the Reverend Norman Thomas, on the straight and plain issues that face the working class in this campaign.

Never mind about "miracles!" What about the injunctions and government strike-breaking? What about the right to organize? What of the imperialist war that is being prepared? What about the unemployed millions? What of the millions of farmers being expropriated by the money sharks?

Both capitalist candidates and their little "socialist" brother candidate are for injunctions ("except" when the Raskobs and the Rockefellers find injunctions "unnecessary" in breaking a strike), are against the organization of the millions of unorganized workers. are for the coming imperialist war, are against doing anything real for the unemployed, and are against any solution of the farm crisis except the expropriation of the farmers.

The only party that stands and fights for the interests of the working class, for the interests of the farmers, for the complete political and social equality of the Negroes, is the Workers (Communist) Party. It is the only Party that will fight against the coming imperialist war and in defense of the Union of Socialist Soviet Republics which the imperialists will try to destroy in that coming imperialist war. It is the only Party that does not stoop to the befuddling of the minds of the working class with religious mysticism, making them easier victims of capitalist oppression. That is because the Workers (Communist) Party is the one and only Party of the exploited masses-the class Party of the working class.

Vote for Foster and Gitlow, and for your state and local Communist candidates.

the home of extensive propaganda for the power trust, and attempted suppression of workers' class struggle propaganda. The Communist Party stands out ever so sharply as the only clear-visioned leader of the working class, fighting against all illusions, against capitalism, exposing social reformism and all forms of class-collaboration.
