Franco hoped to reach Madrid by Oct. 1. He had promised 10,000 pesetas to each man and the license to loot and carouse for three whole days, with the right to pick any girls found in working class districts of Madrid, if they succeeded. They did not succeed.

### LACK AMMUNITION

But the government lacks artillery. There is an acute shortage of ammunition. Madrid's light planes are no match for the giant Junker and Caproni-Savoia bombers from Germany and taly. Before launching his rebellion, Franco and his fellow-officers took care to remove military medical stocks from Madrid on the pretext of maneuvers in the north, so that today government surgeons are operating on the wounded without anesthetic. The women and children kept as hostages in those underground casemates were wives and children of the men of the Popular Front of Toledo.

On July 19, just a few hours before rebellion was scheduled to break out all over Spain, the fascist garrison of the Alcazar raided working class districts of Toledo, while the men were at work, and drove the women and children into the enclosure of the fortress The knowledge that these hostages were their own flesh and blood virtually paralyzed the will to attack the stronghold for weeks.

The Daily Worker prints today another chapter in John L. Spivak's exposure of how a U. S. government bureau connived with the du Pont company to conceal the deadly poisonous effect of a du Pont product, Zerone, which is largely composed of methanol, commonly known as wood alcohol.

### By John L. Spivak ARTICLE 7

Cases of workers who went blind or died as a result of using wood alcohol (methanol) in their daily work have been collected by Prof. William D. McNally, of the Department of Medicine, Rush Medical College, Chicago. Zerone, a du Pont anti-freeze product, contains a very high concentration of methanol.

N. Y. STATE WARNING

In a bulletin which it issued en-titled "Dangers in the Manufacture and Industrial Use of Wood Al-cohol" the Department of Labor lists a number of cases of blindness which resulted from the use of wood alcohol in industry. # Film Ban Overruled In Detroit

Police Bar Against Sovist Movies Rejected By High Court

(Maily Worker Michigan Bureau) DETROIT, Mich., Oct. 6 .-Police Commissioner Heinrich A. Pickert and his reactionary supporters received a stunning blow with the reversal yesterday by the State Supreme Court of his order to ban the showing of Soviet films.

In rendering its decision the Su-preme Court overruled the inter-

pretation of Pickert's censor that the picture is "immoral" and in addition declared that the police have no right to ban a picture on grounds of "feeling against foreign political policies or forms of government."

The case originated a year ago when a permit to the Detroit Cinema Guild to show "Youth of Maxim," a Soviet film, was suddenly withdrawn by the police depart-ment on a claim that it is "indecent and immoral." The Cinema Guild applied for an injunction to restrain police from interfering with the showing of the film, but Cir-cuit Judge Theodore J. Richter, after a three-day hearing, upheld the police department.

Ever since Pickert banned "Youth of Maxim" no Soviet films have been permitted in Detroit.

The Supreme Court declared in "The petitioner has a constitutional right to show a film which

is not indecent or immoral . . . "No feeling against foreign political policies or forms of government should be permitted to establish the principle that a police officer may be invested with discretion to determine his own powers of suppression or change the plain terms of his authority

Much significance was attached to the Supreme court's decision as it thereby also struck at the attempts of the reactionaries here to term illegal Communist or pro-Soviet agitation under the terms of anti-labor gag laws.

The report, based on a study of several years, centered on labor conditions on coastwise and inland New Marine Law waterway vessels. Conclusions reached were:

1-That the union hiring hall method of employing longshoremen -one of the points in dispute on the West Coast—is better than the employer hiring at the pier head

2-That employers too often give "inadequate attention" to labor 3-That ship quarters for unli-

Protest to Gov. Horner Asks Reinstatement of Communists on Ballot

(Daily Worker Midwest Bureau)

CHICAGO, Ill., Oct. 6 .- A protest against the ban of the the Communist Party from the Illinois ballot was Horner and other state officials today from the Illinois Labor Party State Executive Committee.

Meeting here over the week-end, the committee protested against the illegal steps taken to disbar the Communist Party and pointed out the right of minority parties to a place on the ballot.

The resolution received an almost unanimous vote in the Labor Party executive. The only person to speak and vote against it was Sarraine Loewe, a hanger-on of the craft union machine in Chicago, who manages to straddle that with a job in the C.I.O. rubber workers union. Loewe was bitter in her denunciation of the Communist Party, and declared civil rights should not be extended to Communists. She herself was for many years a member of the Proletarian Party.

The Labor Party executive de-cided to call a conference of midwest Labor Party and Farmer-La-bor federations, to meet in Chicago and 15. # Textile Union Marches Forward

# received by Governor Henry PARLEY TAKES PROGRESSIVE STAND

By B. Gordon

The convention of the United Textile Workers of America which ended its week of sessions on Sept. 19, made history for the American labor movement. It was one of the most progressive conventions in the recent annals of labor.

It is interesting to check the exact extent to which the progressives and left-wing influenced the decisions of the delegates. On Sept. 14 the Daily Worker ran a pre-convention article in which the following six points were analyzed as the main issues of the convention:

### CONVENTION TASKS

1-Full support of the CIO and its campaigns. 2-The organization of the unorganized textile workers into the existing federations and the formation of new Federations wherever such do not

3—The election of officers and International Executive Council which will be able to guide the work of all the Federations and which will receive the respect and support of all the textile 4-Amendments to the constitution to provide

for more democracy and for coordination of the work of the Federations and the independent locals of the U.T.W. 5-The re-endorsement of our policy for inde-

pendent political acton and the establishment of a committee which will work for the creation of Labor parties in every textile center. 6-Resolutions should be introduced into the

convention in support of our Spanish brothers who are today struggling to maintain their unions and their democratic rights won through centuries of struggle.

## CONVENTION RESULTS

Let us examine the results in the light of this pre-convention analysis. The issue which dominated the interest of the delegates over and above any other issue was the Committee for Industrial Organization and the general program of organizing the unorganized. Not only did the textile workers affirm their International's support of the CI.O. but they carried this affirmation to its logical conclusion by striking out every reference to craft unions in the Constitution of the U.T.W. and added a provision for elimination of any jurisdictional disputes by stipulating that all workers in one plant shall belong to one lecal union.

Furthermore, a resolution was passed providing for the collection of a campaign fund for the CIO, and another instructing the incoming Executive Council to communicate with all local unions urging the membership to take the issue of supporting the CIO and condemning the arbitrary actions of the A. F. of L. Executive Council into all central labor bodies and state federations for endorsement. The textile workers were practical and thoroughgoing in their support of the CIO.

## ENDORES LABOR PARTY

The Labor Party was unanimously endorsed, and the incoming Executive Council was instructed to carry on intensive educational work in the local unions on the question of independent political action, and the menace of war and fascism. Labor's Non-Partisan League and the re-election of Franklin Roosevelt were approved by the delegates.

This endorsement of Roosevelt indicates the deep desire of progressive trade unionists to defeat capitalist reaction represented by Landon. But it also is an example of the present political uncertainty existing even among progressive trade union-

Following a strong plea for support of the Spanish People's Front Government made by David Dubinsky, president of the International Ladies Garment Workers, a resolution calling for a voluntary assessment of the membership for relief funds for the Spanish workers was unanimously passed. Dubinsky pointed out to the textile workers that the red herring was always dragged across the path to confuse the real issues, and that it was a fight, to maintain the democratic form of government against the armed insurrection of the forces of fascist and monarchist reaction

Many other resolutions, including one providing for a two-thirds vote of membership and of a local present to call a strike, and one providing for a comprehensive educational and research program, were unanimously passed, thus further demonstrating the progressive character of the textile workers.

### A UNIFIED CONVENTION

The extent to which the delegates were able to apply themselves to issues, instead of allowing themselves to become divided on the question of a presidential candidate resulted in a victory for the entire organization and a defeat for no one. The need for a program and for unity within the U.T.W. ranks was put forth by Vice-President Francis Gorman on the second day of the convention. He called for constitutional changes and revisions in policy which would make possible the development of bona fide collective rank and file responsibility and leadership of the union

For a short while it appeared that the question of personalities would outweigh the more vital question of a program. It was the task of a comparatively small group of leading progressives to focus the attention of the delegates on the basic issues involved. The outcome of the convention speaks for itself as the success of the unifying program of the more progressive delegates.

## CHANGES IN LEADERSHIP

With a few progressive changes in leadership, and with the program and policies approved by the convention, the possibilties of developing a strong and democratic organization are vast. The results in connection with change in leadership are:

1-Although President McMahon was reelected, it was after he was forced to endorse every progressive step initiated by the left-wing and progressive forces in the convention. His election can be accounted for by the fact that the majority of the delegates felt that in the interests of the unity of the organization and the labor movement as a whole a change now would be inadvisable. Also, because the candidate running against hm, Emil Rieve, failed to take a decisive stand on major questions.

2-Vice-President Gorman was reelected without opposition.

Vice-President Kelly, who worked in the Pennsylvania area, was defeated. He was replaced by George Baldanzi, who is at present President of the Dyers Federation.

4-The International Executive Council was enlarged. The new people that were elected were of the rank and file type. Most of them are new in the labor movement and all of them are holding official positions in the Federations-silk, dye, hosiery, etc.

## THE FUTURE

The responsibility of carrying the convention's progressive program out lies not only with the elected officials and the Executive Council of the U.T.W., but also with every militant and progressive local union member and with militants and progressives in other unions in textile centers. It is a joint responsibility, and one which cannot be avoided by sincere trade unionists.

The foundation has been laid for broad and aggressive inner-union cooperation and responsibility in the drive to organize the unorganized, and all textile workers should study carefully the decisions and the new program of the United Textile Workers of America, for it represents the embodiment of the new spirit of progress in the American labor movement

The convention decision should result in a huge and well-organized drive to bring into the union the unorganized textile workers. This drive must become in textile what the CIO drive is in steel.

Meeting over the week-end here, delegates supported plans for a coast to coast walkout to ask for increased wages from the govern-ment on federal projects.

The convention also endorsed the Labor Party.

David Lasser, National Secretary of the Workers Alliance made stirring speech in favor of action on the WPA projects for higher hourly and monthly wages. He reported the action of the National Execu-tive Board, which called for a strike on all WPA projects, Oct. 24, to demand a wage increase. The execu tive proposals were endorsed by the state convention.

DAYS UNTIL ELECTION DAY. The time is growing short. It is during this period, above all times, that new members can be drawn into the Party

Communist activists and leaders in New York City's trade unions have appreciated the seriousness of the situation in regard to Party recruiting. With this week, they have begun a systematic campaign to enroll trade unionists into the

We urge all Party members everywhere to push forward this work-at once. What New York has done, other districts and sections can also do. To double the Party membership by Lenin Memorial Day, Jan. 21, 1937—that is the goal of the Party The 1936 election campaign gives us the greatest opportunities to reach this goal. Let us all, without delay, take advantage of these opportunities.

# Hearst and Hamilton Drive on Democracy

· William Randolph Hearst, America's No. 1 Fascist, is attempting to blackmail the Roosevelt administration into destroying those liberties on which this country was founded.

"Repudiate by Action, Not by Words, Mr. President," is the title of a page 1 ultimatum in Saturday's New York American. The action which Hearst demands is:

Deportation of "alien revolutionaries" (and, presumably, the imprisonment of those born in this country), and severing of relations with the Soviet Union.

"YOU MUST RESCIND THE RECOGNI-TION OF RUSSIA!" commands Fuehrer Hearst in 12-point caps.

Hearst's renewed anti-Communist and anti-Soviet campaign - a campaign which even includes the Tory Herald Tribune among the agencies "covertly helping to spread Communist propaganda"—has a very definite inspiration. It comes via direct pipeline from Nuremberg, Germany, where Hearst has been studying "Americanism" at first hand and holding his customary secret conferences with high Nazi officials. The howl of the Nazi mad dogs for Soviet territory has been taken up and "Americanized"

John D. M. Hamilton, Republican national chairman, is quick on the pickup. Hearst tries to make an issue out of the "Communism" of David Dubinsky, president of the International Ladies Garment Workers Union, who is a Roosevelt elector. Ditto Hamilton.

Hearst demands the deportation of foreign-born workers. Ditto Hamilton. Here is the way it works:

"You have said 'repudi- country, and then have ate', Mr. President! "Now do it.

"First of all, deport the alien revolutionaries conspiring to overthrow our Government.

"Give the government investigators a free hand," says Hamiltonn. In Germany that spells GESTAPO.

And their aim is to break up the only force that can really defend democracy (as Roosevelt cannot or will not): the growing movement for a national Farmer-Labor Party.

To which the answer of the American

people must be:

The defeat of Hearst's man, Landon, and the building of the Farmer-Labor Party as the common people's Rock of Gibraltar against the menace of fascism, against the program of the reactionary capitalist interests who are backing Landon.

The best way to do that in this election is to vote the Communist ticket of Browder and Ford to join the party that is most energetically furthering the Farmer-Labor Party movement—the Communist Party.

# Minor Calls for Defeat of Reaction

· Fighting Bob Minor spoke on the radio Monday night. For years one of the most beloved figures in the labor movement, he is today the Communist candidate for Governor of New York State.

Minor put the issue squarely: the Republican Party, in the state as in the nation, is the instrument of capitalist reaction, the worst enemy of the liberty and security of the common people. It must be defeated.

"Judge Bleakley would be governor after Hearst's own heart," was the way Minor described the G.O.P. gubernatorial candidate.

At the same time he pointed out that Governor Lehman, like President Roosevelt, had failed to fight the Hearst-Liberty League crowd in the past and could not be relied on to do so in the future.

What the people of New York State need to protect their interests is a Farmer-Labor Party. A big vote for the Communist state ticket headed by Minor, for the national ticket of Browder and Ford, for I. Amter, candidate for President of the Board of Aldermen, and for the other Communist candidates will mean added power to the movement for a Farmer-Labor Party in New York State and throughout the country.

# Anti-Fascist Unity Growing in England

· Sunday's anti-Fascist victorious demonstration on the streets of London will go down in British history as the turning point in the fight for the People's Front. Despite previous efforts of the Citrines and other knee-bending British Labor Party leaders to prevent any positive mobilization and action against the increasingly provocative British agents of Hitler and Mussolini, 100,000 antifascists massed in the streets on Sunday and despite the presence of 5,000 British police, effectively broke up and routed a Fascist

So powerful was this anti-Fascist manifestation that it commanded the first attention of the British Labor Party conference that convened the next day. Instead of, as usual, condemning the initiative of the workers and their flouting of the efforts of the government to protect the Fascists, the Labor Party spokesmen were impelled to attack the Baldwin government for its "cowardly weakness' in allowing the Fascist to march.

The London street fighting which so drastically smashed the Fascists' provocations is positive proof of the growing anti-Fascist unity in England. It is the ripening fruit of the persistent activity of the Communist Party to solidify all peace- and liberty-loving people in England into a real united People's

# Unemployed Answer Rising Prices

· That recent "warning" of the U. S. Department of Agriculture is now coming true, in all its harsh reality. Prices are rising for

food, clothing and shelter. Pennsylvania, as one example, only yesterday raised the price of milk. The Labor Research Association in its regular midmonthly report, issued this week, shows that food prices alone have skyrocketed 40 per cent since March, 1933. Clothing and other

commodities are also mounting in price. These rising costs cast shadows over every worker's home. Particularly is this true of the unemployed. They see the oncoming winter bringing higher prices in everything they and their children need. At the same time, they see a cutting of relief.

The Department of Agriculture only warned against the rising prices, the Federal government has done absolutely nothing.

It is to their organized strength that the unemployed must turn for protection. The Workers Alliance of America, united unemployed organization, has begun a great drive for immediate use of the funds now in the Federal Treasury for relief. The Alliance also is fighting for other demands, including a rise in wages on WPA. Its program calls for the immediate employment on WPA of a million additional unemployed and an end of abuses on the WPA projects.

This is a program which deserves the wholehearted support of all workers, employed and unemployed. It is a fight against starvation, in which every American worker should enlist. Particularly should the members of the Communist Party rally at once to the support of the Workers Alliance.

· Today is Wednesday. If you have not registered as yet, the chances for doing so

are slipping by. New York voters have until Saturday to do their registering, in order to vote in the coming elections.

Carl Brodsky, director of the State Campaign Committee of the Communist Party, sent out this message yesterday:

"Register today for a big Communist vote!"

All Communists are also urged to enroll as Communist voters, after registering: By placing the mark "X" under the sickle and hammer of the ballot handed them by registering officials.

Not to join in the general monetary trend means further isolation. To devalue the mark threatens to topple it over completely and intensify the slow starvation of the German people. All of Schacht's protestations notwithstanding, the German stock exchange is voting for inflation-and glorified hunger for the people.

The food situation in Germany is effectively pictured by the slaughter of cattle for that city in comparison with Paris. For example: One day in October, 1,000 cattle and 7,000 pigs were slaughtered in Berlin. On the same day, Paris, which has about the same number of inhabitants, slaughtered 2,500 cattle and 14,000

Our correspondent points out this significant fact, that Berlin is the exception in Germany, being the most favored city of the Third Reich. In other cities the meat supply is even fmore drastically cut. Frankfort-on-the-Main, for example, a city of 550,000

inhabitants, only 30 to 40 cattle are killed daily. The Nazis believe in slaughtering less cattle in preparation for slaughtering more human beings.

All's not quiet on the Czechoslovakia-German frontier. The heaviest Nazi troop concentrations are now taking place there. We learn that the 8th Army Corps in Silesia, the 4th in Saxony, and the 7th in Bavaria have been sent to encircle the Czech border. These total nine infantry divisions plus three motorized divisions. Besides, a new network of first class military roads has been built permitting easier maneuvers of the German army on the Czech frontier. As a test move, a whole army corps has been transported to a strategically important point in 24 hours. Underground auto garages and airdromes have also been

The anti-Fascist victory in the recent Swedish elections has made a great impression not only in the Scandinavian countries, but also in Germany. We quote below the comment of "Ny Dag," (New Day), central organ of the Communist Party of Sweden, on the results of this election:

"The Swedish workers have won a shining victory over the parties of bourgeois reaction. This victory has historical importance, for it is the first time that labor parties including socialism in their program, have won such a conclusive victory in votes and seats. The Rightist Swedish parties have lost a quarter of their parliamentary representation at one blow, and the various national-socialist formations are virtually wiped out by the annihilating condemnation of the

"The Communist Party of Sweden greets this great victory with joy and pride. It is proud that the toiling people of Sweden have through this election victory placed themselves in the front ranks of those nations of Europe in the fight against fascism and reaction. From the outset of the campaign the Communists clearly stated that the main blow must be directed against the bourgeois parties, and not against any party of the labor movement. A labor majority in the Parliament with an increased Communist representation was the main slogan of the Communist Party in the election struggle this year.

"Joyfully we state that our Party has accomplished this task, and that on our side we have significant progress to show. The number of Communist seats has jumped from two to five, and we won 22,000 votes, or a 29.7 per cent increase, that is, a per cent

greater than that of the Social-Democrats. "The Socialist (Kilbom renegade) Party suffered a defeat. In a period of shining progress of the entire remainder of the labor movement, it has lost 5,000 votes and its two seats in Goteberg.

"Through the election victory the question which has been concerning the workers of Sweden for a long time becomes one of the moment. For an even more successful struggle against reaction, it is necessary that the left-wing within the Swedish labor movement, which today is divided into two parties, should unite its forces. Between the Socialist and the Communist workers the question of unification will be discussed everywhere now."

# QUESTIONS and **ANSWERS**

QUESTION: When was the Communist Party of Spain organized and what is its early history?

ANSWER: This question is answered in "Spain in Revolt," by Harry Gannes and Theodore Repard, as

"The youngest of the important working-class parties is the Communist Party. This Party was founded after the national convention of the Spanish Socialist Party voted, on April 9, 1921, against affiliation with the Communist International by a vote of 8,805 against 6,025. . . . After the April 1921 Congress the minority split away and formed the Spanish Communist Party as the Spanish section of the Communist International. In 1923 the Communists were driven into complete illegality by the Primo de Rivera dictatorship. ... The Communists did not emerge into open and legal activity until 1931, when their opposition to the activities of the Republican-Socialist coalition in power earned them a sort of semi-legal existence. They also suffered from inner Party dissension and not until 1932-33 did they really become a united Party. Since then, they have played an important part in the affairs of the country, and today that part has become decisive."

# What a Communist Vote Means in This Election

[The following is an extract of the draft resolution adopted by the Ninth Convention of the Communist Party of the United States last June. This extract states clearly the political objectives of the Party in the current political campaign. It explains why the people of the United States should support and vote for Communist candidates.]

The Communist Party will appeal to the workers and all toilers to support the Communist Party and to vote for its candidates in the forthcoming elections as the best and only way of endorsing and supporting the struggle for the unity of the working class and all toilers against the offensive of capitalist reaction, against the menace of fascism and war, against capitalism and for a Soviet Government and Socialism. We will point out to the masses that a vote for the Commu-

nist Party in the elections means: a. To strengthen and increase the influence of the Party-the C.P. -which initiated the mass struggle for immediate relief to the unemployed and made the demand for unemployment insurance a major issue in the life of this country. A large vote for the Communist candidates in the elections means greater power for the unemployed in the struggle for relief and genuine insurance.

b. To demonstrate the readiness of the masses to fight for their most burning immediate needs as formulated in the Communist platform. This will be the most effective way of compelling tangible concessions from the capitalist class for the workers, toiling farmers, Negroes and middle classes.

c. To endorse and promote the movement for the united front, for the unity of action of the working class and all toilers against reaction, fascism and war, the united front of which the Communist Party has proven to be the outstanding champion and only consistent fighter. A large Communist vote in the elections will hasten the growth of the united front of Socialists and Communists, the growth of the power of the masses to fight for their demands and to

d. To strengthen the movement for the organization of the unorganized workers into industrial unions, for trade union unity, for a united and powerful A. F. of L., and for consistent class struggle to improve the conditions of the e. To promote further and more

Farmer-Labor Party. A large Communist vote will strengthen the movement for the Farmer-Labor Party and will exert a powerful influence upon the trade unions and the Socialist Party to join actively in the building of the Farmer-Labor Party-the only effective barrier to reaction and fascism in this coun-

f. To strengthen the vanguard of the American working class. A large Communist vote will strengthen that Party, which unites the most conscious, creative, self-sacrificing and best disciplined part of the working class. It will strengthen the chief driving force in the labor movement, and in the life of the country generally, for progress, for class struggle against capitalist exploitation and capitalism for clear and correct leadership of the masses against their exploiters, for the alliance between the workers and other exploited classes and groups without which victory is impossible.

g. To widen and strengthen the fight of the youth, the women, the toiling farmers, the Negroes and middle classes, for their immediate demands and final liberation. large Communist vote will create mass power for the correct demands and policies of the C. P. for the liberation of the Negroes, youth women, toiling farmers and middle

h. To elect into local and state governments and to the federal legislature fearless representatives and consistent fighters for the interests of the masses. A large Communist vote will succeed in electing Communists to many offices and will thus give the masses a new and additional weapon in the fight for their interests.

In connection with our fight against reaction and the menace of fascism it is necessary to strengthen the struggle for the protection of the foreign born and to initiate a wide campaign against growing anti-semitism.

j. To build the power of those who struggle consistently for peace. A large Communist vote will immeasurably strengthen the peace forces of this country and will enable them to compel the carrying out of a peace policy that can keep this country out of war.

To strengthen the camp of anti-fascism. A large Communist vote will mean a wider struggle against the danger of fas m and stronger competent lead aip of the mass struggle again ascism, To strengthen the /my of Socialism. A large Communist vote in the elections will count immediately in the daily struggle for better conditions and will hasten the day of the victory of Socialism in this

4. In all states and localities the Communist Party organizations, while taking all steps for the Communist Party candidates on the ballot, will tirelessly work for the crystallization of wide Farmer-Labor Party tickets for the election of Congressmen and local governments. Where it will clearly serve the interests of the success of such Farmer-Labor Party tickets, and with the permission of the District Committees, the local organizations will withdraw such local or state candidates of the Communist Party. Where Farmer-Labor Party tickets do not materialize, the Communist Party organizations will seek to establish joint Communist Party-Socialist Party tickets. In the absence of such tickets, the Communist Party organizations will carry on the campaign around their own candidates.

5. The Communist Party will utilize the campaign around its own presidential candidate to further the class aims of the American proletariat, as above stated, and will exert all its influence to promote in every way the independent political action of the working class and its allies.

Just as the American people in the past fought against tyranny and for the necessities of life-so will the Communist Party in the present campaign, utilizing the revolutionary traditions of erican people, continue the fight

be needs of the people against bries of today. The reactionary semi-fascist forces are raising the cry of "Americanism" hoping to exe ploit the revolutionary traditions of the American people for their fascist designs. Under the slogan that Communism is twentieth century Americanism, the Communist Party will rally the American people in their fight for their present political and economic needs for the extension of their democration rights, for a people's front, the Farmer-Labor Party, for a "free, happy and prosperous America"for a Soviet America.

They Dared to Arrest Earl Browder! Indianapolis, Ind.

Editor, Daily Worker:

I forwarded my individual protest to Chief of Police Yates and Mayor Beecher of Terre Haute in the 8:30 P.M. mail last night on the arrest of Comrade Browder, stating he had been arrested on his constitutional rights and demanded he be freed unconditionally. Also demanded they refrain from this kind of tactic

The box press flaunted a twenty-three cents tax increase for the city of Indianapolis while the Fascists in Terre Haute were passing the buck as Comrade Browder charged them with. The State is planning an increase also in electric service taxes, which will be

passed on to the consumer.

The Terre Haute officials and the Legion Law and Order League were out of order when they violated the Federal and State Constitution on freedom of press and speech by arresting Comrade Browder.

If the workers of Indiana can see this, they should cast their votes not to put a clamp on free speech and press, but vote Communist. R. M. SPILLMAN.

Brooklyn, N. Y.

Editor, Daily Worker: So the authorities have seen fit to arrest Earl Browder in Terre Haute, Indiana, for vagrancy. He who

wanted to show the unemployed workers how to get their jobs back. He who wanted to show the employed how to hold on to their jobs and get back more products of their labor stolen by the rich capitalists.

So they arrested Earl Browder and let J. P. Morgan get by? Why don't they arrest Hearst for vagrancy? They'd have a much better case. The real vagrants, parasitic hoboes, eating flesh and blood of the American people, have their men in office who certainly will not arrest themselves and their masters. But why should we Americans allow them to treat labor leaders like criminals? We must repudiate such actions and can do it in this election by voting for the vanguard of an honest militant Farmer-Labor Party. The Communist Party, the Hammer of Labor and Sickle of the Farmer, is the seed of the Farmer-Labor Party, and the only real symbols on the ballot for the American voter who favors the Farmer-Labor Party.

Before the publicity trumpets get set for the big initial blast, we beg to announce of our own accord and without authorization that Twentieth Century-Fox is about to start production of "As You Like It."

Elizabeth Bergner and Lawrence Olivier are cast in the lead roles and Paul Ozinner will direct. The script is being prepared by R. J. # BANKERS BOUNCE THE GREAT CASEY

By Ted Benson

Since Uncle Wilbert Robinson passed into the land where it's all base hits and no games lost, the Brooklyn Dodgers have been going from worse to still worse and nobody except the loyal fans who have paid their hard earned dough in to the coffers seems to care a hoot.

Certainly the management, as screwy a lot of magnuts who ever attempted to run a ball club, doesn't seem to care any more about the fortunes of

the team than Mussolini cares for the life of an Ethiopian child. Manager after manager has been given what the boys call the old heave-o

for no better reason perhops than Old Jedge McKeever had a hangover or Joe Gilleadeau took a dislike to the way the manager parted his few remaining locks of rapidly graying hair.

The disastrous dropping of the pilots started with the freezeout given Uncle Wilbert after the kindly old man had given his

life to build up the Brooklyn team in the hearts of the fans who pay the freight. The affection is still strong despite the efforts made by the bank-controlled management to make the Dodgers a name that is abhorrent to the Brooklyn baseball lover.

### Fans for Him

Whether or not Uncle Wilbert won, the fans were for him. He was that kind of a guy. He would stop on Flatbush Avenue and discuss the team's chances with a cab driver or a street cleaner. He never went into a restaurant but what the waiter and the bus boys were soon drawing diagrams of plays on the tablecloth, while the manager of the team gave them as much interest and attention as if they were the greatest of baseball efforts

They loved Uncle Wilbert over on the banks of the flowing Gowanus. They named children for him and he was a beloved and respected figure anywhere in the Borough of Baby Buggies.

The McKeevers knew all of this. They knew that Robbie could and did bring 'em through the turnstiles even though the team was resting flat on its back in the National League cellar.

## They Hired Casey

Did they give him a medal? They did not. They gave him the air. They drove Uncle Wilbert from baseball which had been his life for half a century and broke his heart.

They hired Max Carey, a colorless but able citizen who worked his head off to continue where Robbie left off. He did the best he could under circumstances that made penny-pinching seem like an act of wild extrava-

When the Brooklyn management gets its hands on a nickel it is squeezed so hard that the Indian has to eat the buffalo on the other side to make room for them both on

Carey never got a break. They wouldn't give him the cooperation he needed to build the team up and they wouldn't give him the money to buy players except from Class D teams. So he went the way of all managerial flesh in Brooklyn. But they fired him in the dirtiest way imaginable. He was tossed out of his job a few days before he expected to open the team's training camp for the 1934

Then they hired Stengel with a lot of promises about what they would do for him. He found himself manager of a team that consisted of a lot of once-good, but now superannuated players and a lot of rookies.

With this aggregation of cripples, infants and refugees from the home of the aged, he did wonders. The team

# N. Y. U. Negro Back Causes Georgia Ban

Southern 'Chivalry' Won't Be Offended by Star Player

By Mark O'Hara

This year Ed Williams, New York University Negro fullback, will be one of the Violet's big guns. If all goes well, he'll finish the season with high honors, if not all-American ratings. But this year the University Heights aggregation isn't playing Georgia. Therein lies a tale. Back a few seasons ago when "Chick" Meehan now the Manhat-tan coach, was teaching the N. Y. U. boys how to run, block, and kick he had on his team a Dave Meyers brilliant Negró linesman who later became a more capable quarterback

Meyers, who was an all-city end from Stuyvesant in '25, came to N. Y. U. on a scholarship, as all of 'Chick's" men did during those fat years. Just as a reminder, take a peek at the Carnegie report.

Playing through the years of '26 o '29, he rose in the inter-collegiate ratings as one of the finest gridiron stars of the era, he also earned hi laurels as a track and field athlete He ran in the sprints, relay, hurdles and won the inter-collegiate javelin championship.

During the fall of '29, Georgia University from Athens, Ga., came up north to invade New York City. Each team being one of the strong est in the country had staunch folowers from their respective localties. Particularly the Harlem fans, who were very much interested in the activities of their favorite star Dave Meyers. But they were doomed to disappointment. Meyers never appeared on the field on the day

The southern team knew all about the famous backfield ace of New When they arrived a day or so before the game they brought up an old Jim Crow clause in the contract between the two teams. It said, if not in so many words, that the element from the South will not play N. Y. U. if the Violets had a could be done about it

On the day of the tilt the news papers carried a story to the effect that New York University's out standing star, Dave Meyers, would not play because of an injured

But that wasn't the end of the incident! The Students League for Industrial Democracy, a forerunner of the present American Students Union led a movement urging the dismissal of Meehan for allowing anti-Negro discrimination to play a part in the encounter. They distributed leaflets, picketed and spoke at meetings. Their activity may be one of the reasons why Georgia isn't on N. Y. U.'s schedule
