Strengthens National Organizations for 'New Political Alignments' and Cements Ties with Midwest Progressive Groups

(Daily Worker Washington Bureau)

WASHINGTON, Nov. 11 .- Continuation of Labor's Non-Partisan League as a permanent organization to support progressive legislation and to aid in the formation of a new political realignment was announced here tonight.

League leaders who discussed their perspectives at a press conference in the Hotel Wil-

# Mr. President: The People Want Action on Their Mandate

IN HIS letter to the National Conference on Labor Legislation, President Roosevelt declared that the vote of the American people on Nov. 3 constituted "a mandate in unmistakable terms.'

But Roosevelt's interpretation of that mandate, as indicated in his letter, is by no means as clearcut and specific.

It is no longer sufficient to approve in general the idea of "the leveling upward of labor standards." What does Roosevelt propose to do concretely?

The President's letter spoke of "reasonably short working hours." How short is "reasonably short"? Is there a sweater of labor in the country who does not insist that his working hours are "reasonably short"?

The labor movement has a concrete proposal on this question: the Black-Connery 30-hour week bill. This is labor's mandate. What will Roosevelt do to carry it out? THE President speaks of "adequate annual incomes." Obviously, the U. S. Steel Corporation's conception of "adequate annual incomes" is one thing, and the conception of the Steel Workers Organizing Committee is another.

In steel, marine, auto, textile, clothing and other industries the workers are now putting forward concrete wage demands. Where does Roosevelt stand?

And what about adequate annual incomes for the unemployed?

Here too labor's mandate is specific. Shortly before the elections a delegation from the Workers Alliance laid before the administration a five-point program which included a \$40 a month minimum wage and a general 20 per cent increase for WPA workers.

That program has been endorsed by President William Green of the American Federation of Labor and John L. Lewis, chairman of the

# 14 BRING Soviet Note on Spain Jolted British Labor Into Action

Tory Press Raged as 'Neutrality' Screen Was Ripped Apart-Trade Unions, Second International Forced to Declare for Arms

(By Daily Worker London Correspondent)

LONDON (By Mail) .- The Soviet Note issued to the Non-Intervention Committee was a bombshell to the reactionaries at home and abroad.

use to which the Fascist Powers had put "Neuaccomplished. Even more, the "Neutrality" screen had actually and effectively meshed up world Labor, British and French, in particular.

#### REACTIONS OF PRESS

The great thing which people felt about the Soviet Note was that it tore aside all the legal cobwebs; it ripped the "Neutrality screen" open from top to bottom, and brought cold, hard reality to the

The reception of the Soviet action was very significant. The Left press of Britain, "Manchester Guardian," "News-Chronicle," "Daily Herald," and, of course, the "Daily Worker," all welcomed this action of the Soviet Union with varying degrees of

The Right press came out with a raging campaign of vituperation, which actually brought the 'Observer," staidest of Tory organs, to the point of advocating war by Hitler upon the U.S.S.R.

#### THEME OF ATTACK

The main theme of the attack was the accusation that the Soviet Union's Note was provocative, that the Non-Intervention Committe was doing quite nicely, thank you, until the Soviet Note came. Underneath it all, however, was a note of fear and timidity. "Let the Soviet Union think again

before they intervene." "Italy and Germany will stop Soviet ships, if they come with arms." "Italy and Germany will not recognize an independent Catalonia." Italy, however, which is expected to do all the stopping and take all the risks, remains very significantly

mum, despite the screaming of the British press. It is very clear that the action of the U.S.S.R has forced a new facing up to the problems, not only by the friends of peace and democracy, but also by the Fascist countries and their supporters.

RESULTS OF SOVIET NOTE The blast of rage from these latter is an attempt to forestall the counter-attack from the friends of world Democracy and peace, which they

expect to follow from the Soviet lead. The stand of the Soviet Union has had an enormous effect in strengthening the fighting spirit in Madrid itself, and the people there feel that they have a powerful champion which is fighting their

The first reaction to the Soviet Note was the decision of the Socialist Party Congress in Belgium to demand the ending of Neutrality, and the right of the Spanish Government to purchase arms.

It has powerfully affected the British Labor movement, and there is a tremendous feeling that Labor must embark on a campaign to force the National Government to stand by the U.S.S.R.

#### LABOR LEADERS DISGUSTED

The reactions of the Fascists and their class supporters to the U.S.S.R. lead is shown by the new plans which have been put forward, notably by the "Observer," that when Franco gets Madrid, his Government will be recognized by the other countries, and then they will solemnly resurrect International Law from the waste-paper basket, and solemnly proclaim that the "De Jure or De Facto

Government" of Spain has the right to arms. It is evident that this is a desperate countermove to the Soviet lead, which could only be resorted to in the democratic countries, at least, at

Labor Legislation.

Federal Writers' Projects, informed union members that he could not reinstate Wayne Barker, discharged assistant state supervisor, because Barker had written a series of articles last August for the New Masses exposing the activities of an anti-Semitic organization in Wash-

The articles, written on Burke's own time and under two pennames, Porter Niles and Michael Hale, dealt with the plans and program of James True, Inc., a fascist organization whose principal purpose was to rid America of the Jews who, according to the organization, are dominating the government and the finances of the

A Pogrom in which twelve of the leading Jews in the nation were to be killed was scheduled as of last September, according to Barker's articles, and True had invented and patented a shot-filled club which he called a "kike-killer" and which he had on exhibition on his desk.

The St. Louis Writers' Union asks the aid of all liberals and all fairminded people in discovering how so ridiculous an organization can exert sufficient pressure to force Alsberg, himself a Jew and a reputed liberal, to discharge a man who had offended it.

The strike of 21 writers working on the Ozark Guide book project started because of the discharge of Barker for union activities. Picketing resulted in several arrests.

# Mr. President: The People Want Action on Their Mandate

(Continued from Page 1)

Committee for Industrial Organization. But Assistant WPA Administrator Aubrey Williams rejected it in toto. Where does Roosevelt stand in regard to THAT mandate?

THE same thing holds true about the President's reference to "adequate care and support" for workers incapacitated by unemploy-

The present Social Security Law, which covers only about half the working population, does not constitute "adequate care and support." Leaders of the A. F. of L. are planning to urge revision of the law in order to place the burden of financing social insurance where it belongs: entirely on the employers. Other revisions along the lines of the Frazier-Lundeen Bill-are also essential. Here again, where does President Roosevelt stand?

Even more serious than the President's vague generalities is the indication of his letter that he is content to leave "the leveling upward of labor standards" primarily to the states. After urging the delegates to the conference to "assume the lead-

ership in your communities for putting the necessary legislation on the statute books," he declared: "I assure you that the Federal Government is willing to do its part in making these standards effective, and in supplement-

ing the efforts of the states when problems assume an interstate or national character." "When problems assume an interstate or national character"when is that? According to the Supreme Court, practically nothing is

interstate except transportation. MILLIONS of workers, farmers and middle-class people didn't vote for Roosevelt in order to have him pass the buck on social legislation to the states. This was not THEIR mandate.

The Democratic platform stated clearly:

"We know that drought, dust storms, floods, minimum wages, maximum hours, child labor and working conditions in industry, monopolistic and unfair business practices cannot be adequately handled exclusively by forty-eight separate state legislatures, forty-eight separate state administrations and forty-eight separate state courts.

It also pledged to seek a "clarifying amendment if these problems cannot be effectively solved by legislation within the Constitution."

THIS pledge is by no means adequate, but President Roosevelt has not even gone as far as that. He evades the question entirely and has thus far failed to indicate that he will take any measures to prevent the Supreme Court autocracy from killing social legislation

Clearly it is necessary for the labor movement and the progressive forces of the country to take action independently if the mandate of the people is to be carried out. This requires:

1. A conference of representatives of organized labor, farmers, consumers and other progressive groups to draw up a common legislative program for presentation to Congress. 2. Backing up this program by the organization of struggles

for the people's demands in every field. The coming convention of the A. F. of L. has the opportunity of taking the initiative in organizing such independent action

As we pointed out in the statement of the Central Committee of the Communist Party (Daily Worker, Nov. 7), the Wall Street reactionaries are preparing to do everything in their power "to realize through the Roosevelt regime, those policies which they sought to

realize through a Landon-Knox victory." The masses of the people must do everything in THEIR power to defeat the aims of the industrial and financial pirates, and to assure the carrying out of THEIR mandate to Roosevel

Nothing could further this aim so effectively as the independent political organization of the forces of progress in a militant nationwide Farmer-Labor Party.

#### Bomb Fascist

Airdrome VALENCIA, Spain, Nov. 11 (UP).

— The Ministry of Air and Marine reported today that a government air squadron bombed a fascist air-drome concealed in the neighbor-hood of Avila, on which 10 Junker bombers and 8 to 10 pursuit planes were sighted.

Loyalists dropped 18 110-pound bombs, some scoring hits on the enemy planes.

#### Sees Victory For the People

LONDON, Nov. 11 (UP).-Success of the Loyalists in withstanding the fascist attack on Madrid during the last few days has convinced the defenders that victory will be theirs, Julio Alvarez del Vayo, Spanish Foreign Minister, told the London Evening Standard in a telephonic interview today.

There is no doubt now about the outcome of the attempted siege," he told the Standard. "We are winning.

"The people of Madrid-ordinary people, shopkeepers and mechanics—are fighting magnificently. "General Franco has no chance of entering the city."

#### Will Fight Even If Madrid Falls

LONDON, Nov. 11 (UP) .- The Exchange Telegraph said today that President Manuel Azana of Spain told its Barcelona correspondent that capture of Madrid by the fascist will not mean an end to Gov-

ernment resistance.
"Even if Madrid falls the war will go on," he said. "We are not fighting for Madrid, but for liberty.

#### 5 Jailed in Stoning Of Embassies

MEXICO CITY, Nov. 11 (UP). Four Salvadoreans and one Cuban were arrested today after attacking and stoning the Guatemalan Embassy and the Salvadorean Legation in protest against diplomatic recognition of the Spanish fascists.

The demonstration came shortly after the Guatemalan government decided to recognize the Junta of General Francisco Franco. The Salvadorean government extended similar recognition a few days ago.

#### Foe Repulsed in Rosales, Says Chilean Envoy

PARIS, Nov. 11 (UP) .- Government Militia turned back fascist forces today in a bloody battle in the Rosales district of Madrid, Au-relio Nunez Morgado, Chilean Ambassador to Spain and Dean of the diplomatic corps in Madrid, told the United Press by telephone.

Overcoming the objections of censors to incoming phone calls, the

tice" in the shape of a commutation of sentences. Personally, I served out my sentence by February, 1923. Later came commutation for those with longer terms.

The class war was not ended on Nov. 11, 1918. Other November 11ths proved that. Back in 1887, on Nov. 11th, the capitalists had hung the Chicago leaders of the movement for an eight-hour

On the first anniversary of Armistice Day, in 1919, employerled Legionnaires lynched Wesley Everest, lumber-worker unionist at Centralia, Washington. There was no armistice for the

class-war prisoners. The bedbugs gely as before Nov. 11 1918. The food was as vile, the guards were as brutal. The cell air just as foul. But there was a new light shinning through the bars of the cell-house. In Russia, the workers and

peasants had given a lesson to the world on how to put an end to war and were consolidating their rule against invasion. What we had said about it

being no war for democracy was proven correct. The veterans from the trenches found it out. The class war went right on. Strikes were called for economic demands. Strikers went to jail. And whistles again blew on Nov. 11. Bedbugs bit, food was vile, guards brutal. But the big beautiful thing was still the Russian Revolution.

CTOCK brokers and Pol-D Ivanna politicians unite in singing "Happy Days Are Here Again."

But are they? Dividends are increasing and profiteers are licking their chops with the same satisfied smile as the cat that swallowed the canary. But facts are said to be cold

and unyielding. And without repeating the truth of the millions of unemployed, many of whom are having their "cases closed" by Emergency Relief Bureaus, there are irrefutable evidences of a bitter winter for the poor. The employed have their work day increased by two hours and their pay by five cents. Laughable, but significant, is

the instance of a prisoner in a New England penitentiary who refuses to leave, even at the most urgent entreaties of his jailers, on the ground that he is better off inside prison than outside as a "free" laborer. What a comment on American freedom!

Then, we have before us the report on the city's health made by John L. Rice, M.D., New York City's Commissioner of Health. It shows that, for the first 45 weeks of this year there were 2,035 more deaths than in the same period last year, and 1,480 fewer births.

These are clear evidences of poverty of the masses, totally disproving the fairy tale of "recovery" of income by the toilers. And it should stimulate the necessary struggle to advance the economic interests of the workers on all

#### ShopStewards and Board of Local 119 Give Stand on Merger

Proposals to unite Local 16 of the Union and Local 119, Hotel and Restaurant Workers-an independent union-have been going on for some time. Within the past few days, Edward Flore, international president of the A. F. of L. union, has expressed a desire to see this

unity arrived at as soon as possible. Committees from both locals are now meeting to lay the basis for the merger. Last Saturday, when Local 119 was informed that the negotiations, for which they have been fighting, would open shortly, a spe-cial meeting of shop delegates and board members, passed the following resolution:

#### TEXT OF RESOLUTION

Three officers of the Hotel and Restaurant Workers International Union Local 16 have recently been indicted and arrested on charges of racketeering and embezzlement of union funds. Such situations are always ton a advantage of by the employers to smash labor organizations and to undermine the working and living conditions of the workers in the industry. Already, a number of attempts by employers in the culinary industry to force workers to break with the unions and to worsen conditions have taken place. Many union members as well as the general public are being influenced against unionism by the publicity in the daily press. This creates a grave danger for the union. Under such circumstances, the

main task of the culinary workers is to defeat the attempts of the employers to smash the union

#### FOR UNION ACTION

In order to defeat these attempts of the employers and to save the union, it is necessary that the mem-bership becomes the outstanding leader in the fight to eliminate racketeering and suspicions of racketeering from the union should such exist. This can be accomplished only by granting the mem bership the necessary democratic rights in the union and a real independent membership elected investigation committee with ful power to act without interference from any source. This investigacommittee should make its findings and recommendations as soon as possible to a regular membership meeting. Based upon the action of the membership on such a report, the organization can take such steps as the circumstances shall warrant. This investigation committee should call in representa-tives of other international unions the Central Trades and Labor Council, and the Hotel and Restaurant Employees International Alliance and Bartenders International League of America for participation in the investigation committee and for publicizing the findings of the committee and the action of the

The membership of Local 119 has in 1912, fought against racketeers and racketeering. It has been in the forefront of the struggle for democof the culinary workers on a democratic basis and for full membership racketeering to entrench itself.

#### FOR UNITY

Local 119 understands that the main task of the workers in the industry, regardless of union affilia-tion, is to save the union against the attacks of the employers and their agents. One of the most important methods of saving the union is to bring about the unity of all sincere and honest workers in the industry as well as the merger betweeen Locals 119 and 16. In this connection we commend the position taken by Edward Flore, General President of the Intrenational Union, in realizing that the important problem is to save the union, and that one of the methods of doing so is by merging Local 119 into Local 16.

However, Local 119 wishes to state to its membership as well as to all the workers in the industry that unity by itself will not accomplish the gigantic task of saving the union. To accomplish this task it is necessary to unite all the elements within Local 16 itself.

To bring about this unity of all such constructive forces in Local 16 and to strengthen the union, the present administration of the union should be broadened to include all Greater New York. points of view of its membership.

Definite guarantees must be established that members of the Union will have full freedom of expression and democratic rights without fear of being removed from jobs, being suspended or expelled from the organization.

Local 119 again expresses its earnest and sincere desire for unifica-tion of the workers in the hotel and restaurant industry into one union We want to assure you members of Local 16 that our merger with your union is for the purpose of solidifythe strength of the workers against the combined strength of the employers, and to participate together with you in the building of a clean, strong union for hotel and restaurant workers.

### Tampa: Will A. F. of L. Aid Workers' Advance?

· Tampa's American Federation of Labor convention opens on Monday, with one-third of the membership under "suspension" from the executive council.

Never has any A. F. of L. convention been confronted with such a serious challenge to trade union unity, since the Cleveland convention of 1886.

Never, on the other hand, in the history of organized labor was a convention faced with such possibilities for the expansion of the labor movement through the organization of the unorganized.

The delegates to Tampa have it in their power to perform an outstanding and historic service to the American workers. They can take a stand that will assure unity of the

First, by the lifting of the suspension of the United Mine Workers, the Amalgamated Clothing Workers, International Ladies Garment Workers and other unions affiliated with the C.I.O.

Second, by giving full support to the union drive in steel and in other basic industries, on the basis of industrial union-

These are certainly the steps which American trade unionists expect of the Tampa convention. Those workers, through their local unions, city central bodies and state federations of labor have shown that they oppose the "suspension" order of the reactionary executive council. They have made it clear that they want unity of the movement and organization of the unorgan-

The delegates to Tampa cannot afford to widen the split by approving the suspensions. To do that will stamp them as having turned their backs upon the needs of the workers, at the moment of greatest opportunity for advancement. They are called upon to aid the march of labor forward-through that united movement which can and will plant the union banner on the country's mass pro-

### 'We'll Take the Raises But We'll Get More'

MILLIONS IN WAGE INCREASES!

The front pages of the capitalist newspapers shouted this story from their headlines the past few days. In Chicago, Detroit, Cleveland and Pittsburgh-steel and auto centers - these shouts were particularly lusty-lunged.

It is the old shell-game ballyhoo. Were a lie detector to have been applied in those editorial offices, the headlines would have read as did the Daily Worker's of yesterday: "MILLIONS IN PROFITS—DIMES IN PAY RAISES."

All of this hullaballoo about these alleged wage increases is as accurate as a Literary Digest election poll. These rises are a mere drop in the bucket to the torrent of special profits and dividends pouring into the pockets of the coupon clippers. They do not meet the higher cost of living. They do not make up in one small iota for the recent terrific losses of the workers through unemployment and low wages.

These increases are therefore a mere pittance compared to the 25 to 100 per cent wage rises that the present situation calls for. Let us look at the score of the muchtouted Chrysler Corporation:

In "bonuses" of \$50 to \$75 per man (NOT wage increases at all), \$4,000,000; in cash payments to its coupon clippers, announced yesterday, \$24,000,000!

It is no wonder that we learn from Frances Perkins, Secretary of Labor, that the cost of living has gone up 4 per cent between July 15 and Sept. 15-on top of the more than 40 per cent rises in food prices since 1933.

Where did these "wage increases" take place most generally? In steel and automobiles. That exposes the reason for their being granted: to stop the union drive in these industries.

In steel, a cheap piece of company trickery was tied up with the 10 per cent "increase." The workers were not to ask for further increases unless the Federal index of prices showed a "fluctuation" of 15 per cent in living costs. When has it ever shown such a "fluctuation" in one year? Exactly

The steel workers, happily, are not fooled

by such trickery. Militant company union representatives, who are closely allied with the Steel Workers Organizing Committee, promptly stated: "We will accept the increase, but we're going after more." They stated definitely that they will not be bound by any "yellow dog" or other strings.

That is a correct decision. It is NOW that the workers have it in their power, as never before, to build strong unions which can WIN and HOLD adequate wage rises. No few dimes, thrown in their way by the companies, should halt them in the establishment of such unions.

### It's Up to Us—Make Madrid The Tomb of Fascism

· "Make Madrid the Tomb of Fascism!" With that cry the heroic defenders of Madrid have hurled back the first ferocious assault of General Franco's fascist hordes.

But, backed by Hitler and Mussolini, frantic over the failure of the first efforts to take Spain's capital, Franco's prize collection of butchers will again try to storm the

Yet in the very shells shot into Madrid city by the Spanish fascists there were the most moving messages and proof of the solidarity of the workers everywhere with Madrid's defenders, the shock troop defenders of world peace.

The United Press reported Monday that the secret for the failure of many of the fascist shells to explode in Madrid was explained by a bit of paper found in the nose of one of them, reading:

"While I am an artilleryman, not a single shell fired by me will explode."

"Other duds," reported the United Press, "were found to be filled with sawdust, despite their apparent German origin. Loyalists assert jubilantly that German workers had filled the shells with sawdust."

It is in that spirit that we should set about rushing help to Spain.

Block the shipment of arms to the Spanish fascists. American seamen, dockers and railroad workers can spot these shipments and stop their delivery.

At the same time, we must collect such quantities of money, supplies, food, clothing, etc., that will not be "duds" when used against the fascists.

It is up to us, too, to realize the slogan: "Make Madrid the tomb of fascism!"

If the Federal government wishes to

It can settle this maritime strike in 24

It can do so, by insisting that the demands of the strikers be granted, on West, Gulf and East coasts. These demands are more than reasonable. They are a modest attempt to end and keep ended the outrageous conditions which exist in the hellholes called the American merchant marine.

It can do so, by using the \$120,000,000 subsidy which will be handed out to the shipowners next year. The Maritime Commission could end this walkout tomorrow, by announcing that no company will receive subsidies which does not meet the demands of

It can do so, by enforcing the Federal law against the importation of strikebreakers across state lines. Where is the Department of Justice in this situation? The scab-herding Grange outfit has inserted advertisements in the newspapers of the Great Lakes ports, calling for scabs. Attempts are being made to ship these finks into New York and other ports. Where is Mr. Homer Cummings, so alert when the "rights" of a banker or bootlegger are invaded?

### A Crime Against the Babies of the Poor

· Somebody is committing a crime in this milk price business-but it isn't the small grocer who has tried to sell milk at 9 cents a quart instead of 11 cents.

Somebody is committing a crime against the babies of the poor. The attempt of the State Department of Agriculture and to Milk Control Board to crack down on retailers who have reduced the price of milk is just that—a crime against the babies of the

Nine-cent milk means six quarts for about the same price as five quarts at 11 cents. And it may mean the difference between life and death for many of the undernourished children of New York's slums.

Was THIS the mandate that the people of New York gave Governor Lehman and his administration on Nov. 3?

If Commissioner of Agriculture Peter Ten Eyck is so intent on enforcing the law, why doesn't he get after the Borden-Sheffield milk trust which is engaging in all sorts of illegal and coercive practices, as charged by the Federal Trade Commission in a report filed Oct. 1?

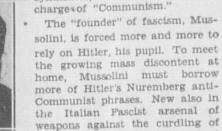

The Communist Party, in a telegram signed by its state secretary, Charles Krumbein, has protested the prosecution of small dealers for selling milk below the 11 cent milk trust price. This is an issue which the American Labor Party should take up.

## World Front

 Not since he first came to power in Italy has Mussolini shouted so much against "Bolshevism" as he does today.

The primary cause of his newest crusade is the fact that millions of Italian people, becoming disillusioned with the promises of Fascismo, have learned through the Ethiopian war that the Roman dictator is leading them deeper into the paths of starvation and to the brink of catastrophe.

It was no accident that several months ago, fascist officials in the so-called labor syndicates, were arrested on the

fascist enthusiasm among great masses of the Italian people is the use of anti-Semitism as a means of distracting the Italian people from the conditions created by the Fascists.

In such a situation, the manifesto and activity of the Communist Party of Italy, calling on the people previously duped by fascism, and some of whom still consider themselves followers of fascism, to unite against Mussolini and his big capitalist backers, is of especial significance.

For example, the much-discussed manifesto of the Italian Communists reads:

"We proclaim that we are prepared to fight together with you and the whole Italian people, for the carrying out of the fascist program of 1919 and for every demand which represents a particular or general immediate interest of the workers and people of Italy."

"What?" ask a few in astonishment, "you want reconciliation with the masses who call themselves 'fascist,' and to carry out the 'fascist program' of 1919?" Yes, answers the Communist Party of Italy to its followers: "Use all your endeavors for the reconciliation and unity of the Italian people, for the creation of a People's Front in Italy. The present rulers of Italy wish to keep the Italian people split into fascists and non-fascists. Let us raise high the banner of

unity of the people for bread, work, liberty and peace." To this the Italian Communist Party adds: "Only the brotherly union of the PEOPLE OF ITALY brought about by the reconciliation of fascists and non-fascists will be in a position to break down the power of the bloodsuckers of our country and to enforce the fulfillment of those promises which have been made to the masses of people for many years, without being

Now let us see on what basis the Communists appeal to the vast majority of people in Italy who in a more or less degree retain some fascist illusions? In 1919, the Fascists, to win the Italian people,

The abolition of the monarchy and nobility.

Are the Italian Communists today ready to work with those of the masses who may yet retain some fascist illusions for the carrying out of this forgotten

They certainly are. And that is what they propose to those who honestly fell for such an original "fascist" proposal long since ditched and made illegal today. In 1919, Mussolini also promised

Confiscation of war profits; international disarmament; abolition of the stock exchange; the land for the peasants; workers' control of industry.

Is it correct for the Communists of Italy to call on the duped masses to take up the very demands on which Mussolini won them, and to use them today to unite the people for the overthrow of the fascist dictatorship which instead of fulfilling its demagogic promises led them into war and starvation?

There is nothing more potent, in fact, to wrench the people away from their fascist masters, than to point out these promises made to win them and to call attention to the present conditions in Italy.

Let hair-splitters play around with the words "conciliation with fascists" and overlook the real content of this great move, an effort to win away the majority of the people from the fascist demagogues into action

The revolution against Fascism in Italy will never be made only with those today calling themselves Socialists, Communists, Anarchists or anti-Fascists. It will be made with the very people who even now are frequently herded into the great squares of Milan and Rome and who still raise their right arms in Fascist salute and shout "E viva il Duce!"

The formalities and the familiar phrases linger on long after the turn has come against Fascism, but when the masses are yet groping for a means of

A recognition of this salient fact holds out the real prospect of beginning to move the vast majority of the Italian people against its Fascist oppressors, and as the Italian Communist manifesto says: "For bread, work, liberty and peace!"

# QUESTIONS and ANSWERS

QUESTION: What are the facts about the Hay-

Answer: The famous Haymarket outrage—the act of an agent-provocateur-was the outstanding frameup of the attempts of the capitalists during the 1880's to break up a strong union drive for the eight-hour day. The movement embraced all of toiling America.

On May 1, 1886, a strike for the eight-hour day in Chicago aroused great enthusiasm among the workers of the Midwestern city. Eighty thousand took part in the general strike on May 2, when calm and workers'

However, just before May 1 a strike had broken out at the McCormick Harvester Works. The anarchists, Parsons, Spies, Fielden and Schwab, were active in protest against the attempt to break the strike by use of scabs and scab-herding thugs. A mass protest meeting held on May 3 ended in bloodshed when police shot down workers, killing 6 and wounding many. The next day, May 4, 3,000 workers, aroused by the police brutality, massed at Haymarket Square. The meeting was peaceful, and even Mayor Harrisan, then present, admitted that the speeches of Spies, Parson and Fielden contained nothing that incited

Suddenly 180 policemen surrounded the crowd, and, despite the pleas of Fielden, then concluding his speech, the command was given to attack the meeting. At this moment a bomb was thrown in the midst of the police, killing a sergeant. Police opened fire, and, when the shooting stopped, 7 police and 4 workers were dead and a number were wounded.

Ten anarchists, among them Spies, Schwab, Fielden and Parsons, were arrested and charged with the outrage, though it was evident that the bomb-thrower REMEMBER HAYMARKET

## We Do Not Despair; But We Need Aid Is Plea of United Youth of Spain!

Say Solidarity Has Been Incarnation of Socialism Since Its Dawn; Hail Aid of Soviet People and Ask All Youth to Follow Example

The fighting youth of Spain apto come to their aid in their fight against the fascist armies. Two days ago the Daily Worker received from the United Socialist Youth League of Spain two copies of this appeal, with a request to send one copy to the Young Communist League and another to the

Young People's Socialist League. We print below the text of this appeal, which should strike home to the heart of every young American and which should go far in bringing about joint action of the Socialist and Communist youth of this country to aid their embattled Spanish comrades.

TEXT OF APPEAL

THE United Socialist Youth of Spain, who are fighting against fascism in the front-line trenches, speak to the youth of the entire world to tell them about the present events. We want our voices to reach all young people throughout the world who fighting against reaction. We also want the Spanish people to be able to count in these decisive hours of Spain's history upon the enthusi-astic and unselfish solidarity of the freedom-loving youth.

Here are the two imperative demands of the hour! The fight in Spain is the struggle of the people for its emancipation. It therefore constitutes an episode in the struggle for emancipation of the peoples of the entire world. And by this fact the fight of the Spanish peo-ple carries on international solidarity just as much as it urgently needs that solidarity itself.

INTERNATIONAL reaction immediately recognized the meaning It has reacted in two ways: First,

carrying on in the press, through newspaper agencies and its correspondents, a vile slander campaign against the Spanish people; second arming the Spanish fascists with airplanes, rifles, machine-guns, gasoline and all war materials. In your own country you have seen this slander campaign. This material help has been tragically felt by the Spanish youth of town and country, murdered by the bullets of international reaction.

But this is not all. Imperialism has shown a new aspect in the Spanish events, an aspect almost unknown until now. Now, colonial peoples are not only exploited, but they are also recruited into mercenary armies, which are employed as skirmish forces against the workers of the mother country. Spanish fas-

cism began the transportation of Moors to the Peninsula to put down ber, 1934. Now this trick has been improved upon. They have enlisted all available Moors in Morocco, and have thrown them on all Spanish fronts against the very people who

paigns in Morocco.

formed the Spanish civil war into an international war. We have often heard expressed a fear that the Spanish war would be turned into a world war. For the Spanish people, world war is a fact. It is imperialism which has begun a war against the Spanish people. Spain today is the locale of a war in which international fascism expresses its dream of enslaving the world. Portugal, Italy, Germany and other countries have sent aviators, officials, airplanes, tanks, guns and all other war materials. The Spanish people is in fact carrying

its own soil. To speak at present

'Hearst Killed My Father'

New York, N. Y.

Editor, Daily Worker: Long before most people hated Hearst, because he is fascism and war, I hated him. For twenty years I lived by his editorials. My father was told every day that anything a father does is right (fathers buy papers). My father read to me that children have no right to question parents' actions. Therefore my father did many things that he later regretted. My father learned "science" in the Saturday Supplement.

When I went to school and quoted Hearst's 'science," my teacher thought me a liar. Hearst made our lives miserable with his lies and "morality."

But one thing that ran like a refrain through his "Journal" was, "If you're a failure, it's your own fault." This I shall never forgive him. In 1933, when millions of people found themselves "failures" because Hearst's system failed to work, my father killed himself. Hearst killed him with his lesson about failure. I hate Hearst.

was an agent-provocateur. The purpose of the trial was to get rid of the most active leaders of Chicago labor, and the court proceedings were open hypocrisy. All except one of those convicted were condemned to death, but only four went to their death, refusing to ask mercy. Parsons, Spies, Fischer and Engel were hanged Nov. 11, 1887, forty-nine years ago yesterday.

Spies' last words as the noose was placed around his neck still ring out as labor's warning to the bloodmad bourgeoisie that all their terror will be of no avail in the end. "The time will come when our silence in the grave will be more eloquent than our speeches."

After the hanging of these four martyrs to the cause of labor, a surge of protest swept through the people of Illinois, and John P. Altgeld, a stalwart progressive, was elected governor. He pardoned the remaining anarchists, and condemned the whole judicial fraud, proclaiming that all the accused had been guilt'A Catholic and a Commun'

Chicago, Ill.

Editor, Daily Worker: I am both a Ca holic and a Communist. I belong to the Communist Party because I believe it has the only real political program commensurate with the

Christian concept of the equality of man. It so happens that I am a confirmed "anti-cleric" for I know most of the upper hierarchy of the church is bourgeois and reactionary in the worst sense. They continually put on some strange and expensive demonstrations of "worldly" splendor hardly appropriate for friends of the poor. For example: Cardinal Pacelli had a chartered plane of the United Air Lines for six days and nights while in the U. S. A. The charge is 60 cents per mile plus \$150 for every night of lay-over. He flew 6,500 miles and the plane lay idle five nights while in his service. Total cost, \$4,650.

And we Catholics are not supposed to question just what his mission here was, but are asked to presume that it was for "the greater honor and glory of God"! When I note items like this one about Pacelli, and

there are hundreds of them, I simply continue to do what I've been doing for some time past; i.e., I give five times as much to the Party as I do to the clergy, for I know that under socialism we Catholics will have 1 J. D. a democratic church.

Coaldale Makes Progress

Coaldale, Pa.

An outstanding feat of radicalism in this community has been the extraordinary vote for the Com+ nunist Party. Out of a vote of 2,500, there have been 12 straight votes for the Communist Party and 7 split votes, voting for Browder and Ford.

This in itself is not much, but if the reactonary history (Republican control) of the town is considered, this certainly is progress.

## Tale of a Nurse Who Led the Way

When the Student Nurses First Met Her They Thought She Was Cold as Steel-Today They Work With Her Side by Side

By Beth McHenry

My friend Margot whom I hadn't seen in a long while told me about a little head nurse whom we used to think a slave driver because she'd call us back on duty to put away a hypo set or write a temperature in a chart.

Margot and I shared a narrow white nurses' bedroom and we used to put ourselves to sleep coining new phrases to apply to that head

We didn't care, that is, up until one Sunday when we met her in the park-after that, though we each felt foolish about turning sissy on the other, we couldn't help but wish the head nurse well.

smiled.

than a year.

reply to all queries.

Our monthly allowance was five dollars. It wasn't enough to pay our carfare on the rare occasions when we had time to get away from the hospital and stay in bed

#### When You Meet the Superior

If you're a student nurse it gives and severe. But Margot took her you a funny feeling to bump into advice and went away to be cured a superior out of uniform. It gives of T.B. And after awhile I left. It that produce about the same reyou the feeling of having happened into something very private. The head nurse usually looked pretty inhuman, unrelaxed and stiff in the starchiest white uniform that ever bristled into a hospital elevator, Her manner matched it. Even the patients were afraid of her, though she never raised her voice or said anything unkind. That was prob-ably it—she never seemed to smile and she never got mad. Not prop-

erly, anyway.

Margot was anxious to get her diploma before she went away to take a T.B. cure. She said she couldn't stand the idea of coming back after her lungs were better. She stopped short in the middle of a sentence and told me to look at

what was coming. It was the head nurse, dressed shabbily and leading a youngster of four or five, a little girl whose it and she motioned to us to sit down with her on the grass and talk awhile.

She introduced us to the little girl who kept asking her "who are them ladies, mama?" The mother said we were nurses at the hospital, just

## Your Health

(By Medical Advisory Board)

About Vitamins

H. D., CEDAR RAPIDS, Iowa, writes: "I should like to know your opinion about Parke-Davis A.B.D. Vitamin Tablets, and also Squibb's A.B.D. and G Capsules."

THE COUNCIL ON FOODS and the Council on Pharmacy and Chemistry of the American Medical Association organized a cooperative committee to investigate the question of vitamins in foods and other preparations. The committee reported in October, 1935. The councils refuse to approve preparafor six months. Then she looked at tions containing many vitamins, me and said, you ought to stick such as those about which you ask —Squibb's vitamin A.B.D.G. caplazy sort of way. We took our hours off together when we could. Sometimes we managed a Sunday and we'd go out to the Park or to the beach.

In an indefinite, with it and help us try to change sules and Parke-Davis A.B.D. capthings. We need an eight-hour day and we need salaries that are more than just a standard ports that it is problematic whether than just a standard ports. She said a lot more, but I've forfrom a disease caused by its lack. There is also lack of data, they gotten most of it. I do remember that on duty again she was the state, for any dosage of vitamin A same as before—cold, aloof, silent for adults. Vitamin B deficiencies are infrequent with our diets.

There are at least five substances sults as vitamin A. A deficiency of this vitamin causes several eye disgot for the first time in seven years that I remembered about that head eases, such as xerophthalmia or a nurse. Margot looked at me and change of the eye's outer membranes. Many cases of night-blind-"She was way ahead of us even then," she said. "She's organizing min A. Other cases of this disease the nurses these days. Maybe she are congenital (present at birth) was, even then." She laughed, "We and are not relieved by this vitawouldn't have known. Lotta Postrom	Josie Cecil
Swan Bostrom Frances Farmer Swan Bostrom Walter Brennan Evvie Glasgow Andrea Leeds Tony Schwerke Frank Shields	Gubbins
Ry Dorot	hy Cates

By Dorothy Gates "Come and Get It" at the Rivoli is an epic film.

As a rule this reporter does not like epics. Most of them lack motivation, sag in the middle and get rather dull, and end with the leering smiles of a satisfied Cupid as he watches the long parted lovers fall into each other's arms

"Come and Get It" is not that sort of epic. As a matter of fact it is an absorbing, and interesting film, which does not sag and get dull which does not end in a tear-stained reunion and which has fairly logical motivation. It does portray with vitality and originality the rise of a Minnesota lumber baron, and it does it with an eye to the good cheer and excitement of the times.

The period of the rise of Barney Glasgow is that teeming age in SEAMEN BENEFIT American life after the Civil War when the gigantic fortunes of the Rockefellers, the Carnegies and the ered. It is now also called ascorbic, Morgans were built, The entire or cevitamic acid and prevents or corrects scurvy. Fruit and vegetable juices (orange, lemon, tomato, nuded the forests and emptied the lemon tomato. etc.) are the forms in which the mines. Men went westward to seek in Alaska, will be given at the 48th gold and fortune. Frontiers were Street Theatre next Monday night Vitamin D, as it occurs in nature, opened. Good Performance

Edward Arnold, as the lumber tycoon, the man risen from the ranks, is, as ever, adequate and satisfactory. He fills the part ex-cellently from the physical side, and also makes the audience realize the rapacious appetites of the character. Although he is a bit flat in the more dramatic moments, he does an outstanding bit of acting in the last cene, as the beaten old man.

Frances Farmer doubles as Arnold's first love, and the daughter of his old friend Swan, the spitting image of her mother. She fits the role and sings with a lovely husky voice that belongs more in sophisticated night club than the barroom

of a lumber camp.
Unusual scenic effects have been achieved in the early lumber camp sequences, logs shooting down into the river from great heights, dashing into the water at a terrific speed. Special credit for these scenes is due Ray Binger and Paul Eagler The rest of the camerawork is, as i usual, competent. The music for the logging scenes is extremely effective and Alfred Newman should be mentioned for the excellent work he has done on the score.

OPENING TONIGHT

MATRIMONY PFD.-An adaptation of a French play by Grace George and James Forbes, originally penned by Louis Verneuil. Miss George also plays the star role and is supported by A. E. Matthews, Rex O'Mally and Sylvia Field.

## Icy Mantanuska Comes To the New York Stage

Actors' Repertory Theatre to Appear in Dramatization of the Far Northern Settlement of Impoverished Farmers

By Mollie B. Steinberg

Alaska is remembered primarily as the home grounds of Eskimos, the geographic tip-most point of the United States and the locale for Charlie Chaplin's picture "The Gold Rush." Curiosity about this very remote section of the United States flared when the government started to publicize the Mantanuska project, the pioneer Alaskan settlement,

When E. P. Conkle read about opening of new frontiers in the Far North, his interest was immediately aroused. Who were those men duction of Vincent Sheean's "Per- leaving for Alaska? Where did they come from? Why did they accept the government offer to settle so far from home ? The result of his investigation, which he carried on for more than a year, is "200 Were

After that, industires will develop just as they have in other countries. All the requirements now needed for this development are capital and people." In the meantime newspaper ar-

ticles and magazine stories began to appear. Eye-witnesses returned from Alaska, recounting stories of discontent and dissension among the colonists. Complaints were lodged with the members of the House of Representatives. On the other hand, visitors, newspaper men, and mag-azine feature writers wrote glowing accounts of the colony's progress.

From this vast morass of informaticn, Conkle outlined the first draft of a play. The two hundred families that were chosen to be the pioneers of 1935 in Matanuska Val-ley, Alaska, intrigued him. He named the play 200 WERE CHOSEN and sketched his first draft. This draft was sent to Sidney Harmon whom he had known for some time and had promised to write a play for him. Harmon liked the idea tremendously and a correspondence began between Conkle in Iowa City and Harmon in New York.

## THE OTHER SIDE OF THE MAIL

#### Bu Lester Rodney

The success of a column is apparently measured by the number of insulting letters about himself the columnist receives

Our ailing Mr. Benson (flu's got him), is a rousing success this chill morning-the anti-Benson letter to end all anti-Benson letters has just been carefully dropped on the Daily Worker Sports Desk.

As a co-member of the staff, I am here to see that the absent Ted gets his just deserts-pardon, dues. So here is the letter, en toto.

#### A New League Starts

Dear "Dead" Benson:

You're a menace to the "Daily." With your ability for predicting you should write for Hearst. You ought to start predicting the score of the "Daily Worker"-I.W.O. baseball game next summer and make sure you pick the I.W.O. so that the "Daily" will have a chance.

Nominating the three biggest boners of the year in reverse order of importance: 1. Coughlin's prediction of nine million votes for Lemke; 2. Literary Digest poll; 3. "Dead" Benson out on a limb. (Why don't you come in off that limb and give the monkeys a chance?)

We are setting up Branch No. 1 of the A.B.L.A. (Anti-Benson League of America) at Brooklyn College Evening Session and hereby issue a challenge to the Day Session in a membership drive,

Let us know when you're supposed to predict scores and we'll send you a fill-in column. Incidently we're taking up a collection to send you a penny to keep you from using the eeny-meeny-miny-mo system.

Yours threateningly, FANS No. 4, 5 and 6.

P. S.—If you don't print this we'll send a letter to the "Times" and start a petition campaign against you. P.P. S.S.-We think you ought to change the name of your column from "Ted Benson Says" to "Dead Benson Prays."

#### Another Type of Mail

There is another side to Mr. Benson's mail, however. And though it may not make columns, it is pouring in steadily

It consists of a constant stream of letters from high school and college boys, and yes, girls, Y.C.L. members, avid sports fans and people who never read a sports page before. And its message in brief is-well, here's one from a Brooklyn YCL'er. It is pretty typical.

"Dear Ted: I have never been especially interested in sports. The reason is the fact that like so many other young people today, the economic pressure on me has been such that I have had neither the time nor money to attend sports events, let alone participate. Being a regular reader of the "Daily," I began glancing at your sport page. And little by little, I was attracted by the extreme readability and lack of bunk in your column and the rest of the page. It's really swell, and I wouldn't miss your column now even though I still don't know the difference between a forward pass and a two-base hit. And what's more, we down here find it lots easier canvassing wit and selling the 'Daily' now that it has a sports page. And from the reaction we get from those who know sports, the page is swell-and we have some people beginning to read the paper on the strength of the page.

'Here's to the growth of the 'Daily' and the sports page with it—and that will bring the time closer when we can all have enough security and leisure to really enjoy

and participate in sports. "SIGNED."

BOWIE ENTRIES

FIRST RACE—Purse \$1,000; maidens; Maryland bred; two-year-olds. Five and one-half furlows: Hap, and Gay, 113; Gr. Rose, 113; Yard Stick, 116; Showabal, 116; Red Nose, 116; Locomotive, 116; Flying Vim, 116; M. Milliment, 113; Journey On, 116; Marinella, 113; Fly. Zelms, 113; Shanteb, 116.

## Tennis Moguls Veto Open Tournament

#### Circular Letter Fails To Change Stand of I.L.T.F.

Hopes for an open tennis tournament since the desertion of amateur ranks by Engalnd's Fred Perry were doomed today when it was learned that the International Lawn Tennis Federation cannot consider such a proposal before

The amateurs and professionals will not be able to mix it for at least two years because the 1937 agenda of the I.L.T.F. contains no such recommendations and the ct cannot be brought up until the 1938 meeting.

#### RULES SAY NO

The question of an open tourney was last brought up three years ago. Then the assembly turned down the proposal and rules were passed which read "an amateur is strictly prohibited from playing competitively or in an exhibition with any played other than an amateur." Penalty for breaking this simon-pure law was the stigma of

The next meeting of the Federation is March, 1937, at Paris. The matter could be brought up for consideration then if any nation such as India in a letter to the British Federation—sponsored the idea. Then it could be voted down in the 1938 Assembly.

The circular letter from the India Federation co-incidental with Per-ry's joining the pro ranks, said: "Our association feels strongly it would be to the best interests of tennis to have at least one championiship open to amateurs and professionals held yearly by those nations which favor such a proposal. . . . We are requesting the International Tennis Federation to consider sanction in holding such tournaments by those nations who feel that this type of competition would promote tennis in their

#### ENGLAND HIT

The British Association which steadfastly has refused to recognize professional tennis "circuses" ha undergone a sudden change o feeling since Perry's desertion the amateur ranks. It realizes that there isn't a chance of retaining the Davis Cup nor the All-Eng-land's men's singles without Perry It is believed that this changed attitude will be brought into the open at the first opportunity.

When Iowa played Illinois early in the season, a number of news-papers commented on the fact that immons received no blocking from his team-mates.

It has been charged that the tac-

tics used against Simmons were designed to keep him from making a good showing, thus forestalling any possibility of his being selected as All-American full-back this year.

## Escobar in Prime Shape for Battle

Sixto Escobar, the little bantam champ who's made such a hit with workers as one of their own, is counding out his training siege for the clash tomorrow night with In-Though the fans may be excited dian Quintana, and seems primed airday over the Army-Navy for a ripping, slashing attack on A note that has been repeated caught fire after these dissappoint- game at the Yankee Stadium, a the Indian in the Garden ring. At Condemned Man

A note that has been repeated often is the request for a little dope often is the request for a little dope like no obstacle.

A note that has been repeated caught fire after these disappointing game at the Yankee Stadium, a glance at the football records will summit, N. J., he's putting the looks like no obstacle.

The powerful Clinton line rose repeatedly to turn back

preserve the 6 to 0 lead. Bill Lyons, end, and Capt. Pereright, tackle, were the outstanding players on the field as they crashed in, time after time, to smear the Evander backs who had scored four touchdowns against every other opponent this

The touchdown came with dramatic suddenness, stunning the Evander team and setting the large Clinton delegation into a delirious uproar. The first quarter ended with Evander on the Clinton thirty yard

On the first play after changing quick aimless flip. Fischer pulled Iowa has had a disastrous football season, due to the fact that Simmons' team-mates refuse to Simmons' team-mates refuse to quickly formed in front of him and block for him when he is carrying the ball. Although the failure of the team and the coach to give support Fischer in his seventy yard jaunt. to the Negro star was obvious to Ferris' place kick for the extra point all, Simmons until tonight said fell short.

#### EVANDER THREATENS

The second half found Evander onstantly threatening to even the score, Bill Byrne's great booting gaining important yardage. Late in the third period, with the

It looked as though the Evander machine was about to go over. Nat Smolofsky, Orange and Black powerhouse, bucked into the line and was stopped cold. Wide-end sweeps by Frise and Governale were held to three scant yards by the embattled Clinton defense. On the last down, Frise's pass to De Savio was blocked and Clinton took the ball. Ferris kicked out to the Evander LONDON, Nov. 11 (UP) .- A meet- thirty-nine, and then the Evander The score
