America moves closer to our inevitable entry into the Second

World war. Last week General

Pershing expressed the opinion

into congress.

Farmer's Problem National }

that compulsory military training was "essential." This week a During the past year and a half, organized labor of measure which will provide for Minnesota has, through the Farmer-Cooperative-Labor Council, made a close study of the farmer's problems of such training will be introduced today, and they have been found to be so closely related

The House Ways and Means committee has re-The basic industry of Minneported, favorably, a bill to ota is agriculture, and dairying increase the taxes on incomes. s, by far, the largest and most im-The new bill will add two million workers to the Federal Tax rolls - all those single persons who earn \$800 will henceforth have to pay income taxes (a person whose weekly wage is \$15.40). All married people will pay income taxes on \$2,000 instead 2,500. This will add \$82,500,000 to the revenue. The employed workers are go-

ing to pay for the war - while ily increasing until a total of 290,the unemployed---

In New Jersey Relief Administrator Mudd has ordered all male single persons who are eligible for army service off the relief rolls. Basing his order on the contention that army service is "employment" the director said that this policy is "consistent with the principle of the relief law in meeting the needs of the family which cannot otherwise be met."

P. Welty, a member of the General Council, is pushing for the fluid milk and 19,328,000 half same program. And in Pennsyl-pints of cream. In 1938 the convania the Secretary of Assistance, sumption was 65,620,000 quarts of Howard R. Russell, is also con-milk and 20,496,000 half pints of sidering "seriously" the introduc- cream. The increase shown here is, tion of the same program.

All of these patriotic purveyors of charity speak of the "patriotic duty" of all eligibles to join the army. They also contend that army servone who is eligible and doesn't volunteer is not trying to find "work."

Meanwhile "Fifth column" registered ... trade unionists will U. S. Navy. be registered and listed ... relief The above figures are quoted so clients will either starve or join as to give the reader a fair idea the army ... and American youth of the size and importance of the will go to war to fight to save dairy industry. It is obvious that "democracy" which doesn't exist.

The International Union of Mine, Mill and Smelter Workers (CIO) charge the FBI with using "Gestapo" methods in an effort to break a nine-month-old strike of 1,200 colored and white workers against the Tennessee Cooper Co.

Twenty unionists have been ar rested and herded into a literal concentration camp at Cooper ville Tenn Their wives and children refused permission to see Confessions have been forced under duress from several of the arrested men that they conspired to dynamite TVA prop-

The indictment against the FBI was made by Reid Robinson, International President of the Union, after the Executive Board had decided to call off the strike.

The Tennessee CIO Industria Council convention at Knoxville also passed a strong resolution condemning the actions of the FBI, in their attempts to pin (Continued on page 4)

to our own well-being, that they are, in fact, our own problems.

portant division thereof. Accordng to a report issued by the State Dairy and Food Commission in 1937, the total value of dairy products produced in Minnesota amounted to an estimated value of \$166,980,154.31. Minnesota's dairy industry has shown rapid development during the past 30 years. Compiled reports show that only 86,217,727 lbs. of butter were manufactured during the year 1906, with production stead-474,359 lbs. was reached in 1936. Minnesota produces and manufactures approximately one sixth of the nation's butter, which places it as the number one Dairy State. Of the 290, 474, 359 pounds of butter produced for the year 1936, 224,944,963 lbs., or 771/2%, was shipped out of the state, mostly to Eastern markets such as New York City, Chicago and Philadelphia, while only 65,529,396 lbs. or 22 1/2 %, was consumed within the

Milk Consumption

Statistiscs also show that in In Yonkers, N. Y., Mrs. Edith 1921, Minneapolis and St. Paul consumed 52,000,000 quarts of according to the statistics, not due to greater consumption but increased population, as in 1938 one (1) pint per person a day was used, which was the same percentage as in 1921. Production of ice cream and sherbets for one year, cording to the 1937 report amounted to 6,569,034 gallons, valued at \$5,263,711.79. The total production of milk in the United States, reaching the staggering figure of 54,000,000,000 quarts propaganda rolls off the mills as per year, would fill a lake 30 feet fast as it can be dreamed up ... deep, half a mile wide, 4 miles aliens will be fingerprinted and long, and would float the entire

> the large amount of revenue received from the dairy industry is a tremendous factor in the well being of both labor and business in our state and is therefore en titled to the utmost consideration. The month of June is being proclaimed Dairy Month over our entire nation and efforts are being nade to increase consumption, thus offsetting the economic dan- the relief rolls and into the United gers of a record production for that month, which is evident. Disposal of this surplus is a real problem to the dairy farmer.

664 Re-opens **Medical Case** With City

On the heels of the recent state supreme court decision in the case of Carmody vs. City of St. Paul, in which the court upheld the right of a city employee to choose his own physician and be reimbursed for medical expenses incurred during treatment of an injury sustained while working, the City and Sanitary Drivers Union Local 664 has written to the Efficiency and Economy Committee of the Minneapolis City Council proposing to reopen the case of Francis Murphy.

Murphy, a member of Local 664, was injured while working several years ago. In January, 1938, Harold Seavey, union business representative, represented Murphy before the Claims Committee of the city council. At that time the committee denied claim on the grounds Murphy had not availed himself of the services of

60% of All Workers For Unions

Sixty per cent of all workers—union and unorganized—favor the principle of unionism, Fortune maganize reports in its June issue after a nationwide poll by the usual sampling method.

An additional 25 per cent believe that unions are needed

"Since about two-thirds of U. S. labor is not organized, this indorsement of unionism is impressive," Fortune observes. "The belief that unions do more harm than good is surprisingly small, when it is considered that there are large sections of the country that are regarded as firmly anti-union."

"Actually, however, PRO-UNION MAJORITIES prevail in every section of the country and in most occupations. The main exceptions are office workers and farmhands, with sales clerks equally divided."

Interestingly, for every three supporters of the two boss parsupporters of the two boss parties, there were two supporters of independent labor political action. Among CIO members the national labor party idea was indorsed by 24% against 25% for the Republican and Democratic parties. Democratic parties.

What the Last War Cost

Besides the 20,000,000 human beings converted into fertilizer during the First World War, the cost of that war was \$400,000,000,000

Consider these facts, fellow readers:

Wtih \$4,000,000,000 we could have built a \$2,500 house and furnished this house with \$1,000 worth of furniture and placed it on five acres of land worth \$100 an acre and given all this to EACH AND EVERY FAMILY in the U. S. A., Canada, Australia, England, Wales, Ireland, Scotland, France, Belgium, Germany and Russia. After doing this there would have been enough money left to give each city of 200,000 inhabitants and over in ALL countries named a \$5,000,000 library and a \$5,000,000 hospital and a \$10,000,000 university. And then out of the balance, we would still have had sufficient money to have set aside a sum at 5 per cent interest which would have paid for all time to come a \$1,000 yearly salary to each member of an army of 125,000 teachers and in addition to this to have paid the same salary to each member of an army of 125,000 nurses. And after having done all this, we would still have had enough left out of our \$400,000,000,000 to buy up all of France and Belgium and everything of value in France and Belgium; farm, home, factory, church, railroad, street car.

It looks to us like the people who run the world don't manage things very well. It isn't the workers who run the worldthe workers only fight the wars and sweat to produce the munitions of war-and pay the costs of the war.

ILGWU Votes Return To AFL

The International Ladies Garment Workers Union which was expelled from the American Federation of Labor for joining the CIO, and later left the CIO, voted 640 to 12 at its 40th convention to return to the AFL.

The ILGUW has about 250,000 nembers employed in the ladies garment industry. The vote to re affiliate to the AFL came after William Green promised the union that the AFL would recommend at its next convention that the 16 monthly per capita to fight the CIO would be abolished, and that the AFL executive council's power to suspend international unions would be placed in the hands of the AFL annual conventions.

Mr. Green returned to David Dubinsky, ILGUW leader, the original charter issued to the union by the AFL on June 3, 1900. Green announced he expects the International Typographical Union to return to the AFL too.

16,000 Workers Killed on Jobs During 1939

"Capital takes all the risks. Why shouldn't we take all the profits." How often have various employers offered this defense of the profit system?

Just how distorted a picture the above argument presents is

Just how distorted a picture the above argument presents is shown by the figures released last week by the United States Bureau of Labor Statistics.

At least 16,000 workers were killed, 106,000 suffered permanent disability and 1,407,000 suffered temporary disability while at work in 1939, the Bureau reports.

reau reports. Agriculture had the highest casualty record, with 4,300 deaths. The construction industry was next with 3,200. The wholesale and retail trade followed with 1,800. Manufactur-ing and mining each accounted for 1,600 deaths, service and miscellaneous industries for 1,400, railroads for 800, truck and miscellaneous transporta-tion for another 800 and public utilities for 500.

Capital may risk its dollars in industry. The workingmen and workingwomen risk their very lives and limbs.

give you work, ask for bread; and

****************** Workers

Whose War Shall We Fight In? To the Northwest Organizer:

Speaking as an unemployed worker, I would like to give my yiews on the war question before Big Business gets us into the im-perialistic war. Hitler and his fascist dictatorship want to conquer all Europe to further exploit the workers and make them virtual slaves. England and France are crying they are fighting for de-mocracy. What democracy have the unemployed got, when they can't even get a decent job and have some of the riches which only the few have?

Now we have the same kind of a so-called democracy in this country. We have more unemployment than they have. We have one third of the nation ill-housed, ill-healthed, ill-fed, illhoused, ill-healthed, ill-fed, ill-clothed. Seems to me we have a big fight right here at home to make this country a decent place to live in.

Now shall we let them attempt to slaughter us in some mudhole in Germany or France or anywhere? NO. Let's demand an immediate solution for unemployment. Give us work, not relief. Decent jobs. Demand a 30-hour week at \$30 weekly. Have I decent clothes, home, car or any-thing? NO. Shall I bear arms for this country and I have nothing to defend. I don't dislike any worker in Europe or the Far East. Therefore I say, not one drop of the workers' blood in any war any-where for the international ban-

dits. I would like you to print this in the Northwest Organizer be-cause it is the workers' paper. An Unemployed Worker

359 Signs Plumbing Supply Firms

The Warehouse Workers Union Local 359 has completed negotiations with the plumbing supply posses in Minneapolis. The new pact provides for the preferential shop and for sick leave. These men have worked a 40-hour week since October 1, 1939.

The past will run for two years from April 1, 1940.

St. Louis Unions Urge 6-Hour Day For Federal Workers

The St. Louis Central Trades and Labor Union at its last meeting adopted a resolution calling upon Congress to fix a 6-hour day for all federal employes, as a cri-

terion for private industry. Spokesmen for the resolution stated they felt that if the shorter day can be established for government employes, it will emphasize labor's contention that the best propaganda can whip up the war way to cope with unemployment is nysteria to the proper pitch. It to cut the work-day, thereby avored shortening the hours but naintaining wages at the same

What Is the Fifth Column?

The war-mongers, from the White House down, are becoming desperate. In an effort to break down the anti-war sentiments of the people, they have now taken to designating all the opponents of war as "Fifth Columnists." On the wave of the hysteria unloosed by the President about the "Fifth Column," a number of tragedies have already been born. In Sparta, Michigan, a foundry worker was given a drink by a friend. Deciding that the water didn't taste right and that his friend was a "Fifth Columnist" bent on poisoning him, the worker killed his friend. In Illinois farmers have demanded anti-tank guns to protect their cornfields. In Detroit an auto worker was fired because he dropped a tool on the floor. In Texas Mayor Maverick of San Antonio has equipped all police cars with sub-machine guns to mow down "Fifth Columnists."

This use of an epithet like "Fifth Columnist" to attempt to smear the anti-war sentiment of the people is nothing new to those who think back on their experiences during the First World War. In those days the war-mongers slandered the opponents of war with such words as "Hun," "Pro-German," "Red," etc. Exactly the same shameful and deceitful trick is now being played with the word "Fifth Column."

Organized labor must resolutely oppose this propagandistic use of the term "Fifth Column," and brand it for what it is—a ruse of the war-mongers to avoid the charge that THEY are preparing to take this nation into another imperialist war.

Let a worker but say: "I am a strong believer in trade unions and workers' rights and I am downright opposed to fighting another boss-war," and immediately the war-monger shouts: "You are a Fifth Columnist. You are subversive."

That is the way the war-mongers work. Every single worker, every unemployed person, every sincere opponent of war, must immediately be placed on guard to look with the greatest suspicion on any person who uses the epithet "Fifth Columnist."

Under the guise of organizing against the "Fifth Column," Big Business is already secretly organizing vigilante groups which it plans to use to crush the union movement and prepare the way for a native American fascism in the United States. Inadvertently the Minneapolis STAR last Thursday lifted a corner of the veil that masks what is now going on in Big Business circles, when it disclosed that numerous solicitors are now collecting funds in Minneapolis from business firms "for combatting activities of the Fifth Column in Minnesota."

"Many responsible business firms are contrib-uting," the STAR reported, and published a warning

from the Better Business Bureau to businessmen to investigate carefully before contributing.

Organized labor knows very well the sort of groups that are supported by Big Business and what they will be used for. Organized labor remembers the incident of George K. Belden, president of the antilabor Associated Industries, attending a meeting of the fascist Silver Shirts a couple of years ago. Organized labor denounces all those who support vigilante activities directed at alleged "Fifth Colmuns."

Organized labor constitutes the most bitter opposition to fascism, either the German variety or the native American variety. Organized labor is resolutely opposed to this nation's fighting any war, because labor knows that the working class of people only lose from war and that the only gainers from war are Wall Street and Big Business. Organized labor means to defend its unions and all the right of the unions. Any and all attempts of the pro-war anti-labor elements to confuse the labor movement stand by branding labor as a "Fifth Column" will be firmly resisted.

War Means Wage Cuts

The Labor Anti-War Council, a pacifist organization, recently published an article on the M-Day Plan of the United States War Department. Most of the material is familiar to our readers, but one piece of information is worth the serious consideration of every man and woman who works for a living, of every union member and union sical festival sponsored by the

"Indicative of what the plans of the War Department will mean in terms of wages is a report that came in recently from New England. A member of a New England Democratic State Committee reported that they had been given to understand that wage scales are already worked out in detail. Example: A paper box machinery factory in Nashua, N. H., now pays skilled mechanics \$1.80 an hour-THE WAR TIME WAGE WILL BE 80c AN HOUR."

Indeed, every union man worthy of the name must oppose this country's involvement in war with every means at his disposal. War means not only military dictatorship, it means even more unemployment, it means deep wage cuts, it means death to the union movement.

Demand that Congress enact a law binding on the government calling for a national referendum on any and

Leaving the clippings or sun goes down, because there is

> Every working woman who depends on herself for support needs \$20.27 weekly to live on. This covers room and board, clothing and its upkeep, health and personal care, leisure time activities, transportation, etc. These figures were compiled by the Consumers' League of Ohio and are an estimate for the wage - earning woman in Cleveland. This means that women on both factory and white collar jobs are not even earning what they need, not to mention what they deserve.

There's nothing that irritates ne more than seeing something bought put on sale a few days ater for a dollar or two less. It appened again this week.

The American College of Surgeons stated not long ago that the empty beds in American hospitals prove that we do not need additional government constructed hospitals. I suppose it never occurred to them that maybe the reason hospital beds are empty is that when workers are sick, they cannot afford to go to hospitals where they must pay large sums for board, room, medicine, nurses, etc., etc. By the way, those of you who are interested in getting low cost hospital insurance should speak to your husbands about getting it through their unions. Or if

you are a union member, you can get it through your own organization. Quite a number of unions in the Drivers' Hall have already joined the Group Health Mutual, a cooperative hospitalization plan, under which members and their families are getting hospital benefits.

If more of your family income is spent for milk and other dairy products, your family will be healthier and the farmers and milk drivers and dairy employees will be happier. This is national Dairy Month.

Northland Signs with Local 1859

Tuesday the Northland Manufacturing company, 137 East Island avenue, signed a new oneyear agreement with the Furniture Workers Union Local 1859, effective from May 28, 1940.

The contract calls for hourly wage increases of 5c for all but six of the 17 employees, who will receive 21/2c hourly pay boosts. The hourly minimums have been rasied to a 50c minimum for the first 30 days; 55c for the next 90 days; 571/2c until one year when the minimum is raised to 60c.

The agreement specifies the closed shop and plant seniority.

risis, economic, a decline or stag-nation of industry as a result of the absence of a market for a part or the majority of the commodities in the process of over - production. During economic crises, the warehouses and markets are full of commodities but they lie stagnate, for there is no buyer, although the masses are suffering severely for lack of these commodities. Crises are brought on by the accumulated result of the work-ers not receiving back in wages ers not receiving back in wages the value of what they have pro-duced. The first economic crisis of capitalism occurred in 1825-1826, and others have occurred periodically since then. A deep world crisis of capitalism occur-red in 1929 from which the world crisis of capitalism occur-red in 1929, from which the world as a whole has not recov-ered, and which has brought forth widespread unemployment, an intensification of the gle for markets, and finally the conversion of the economic and diplomatic struggle into a mili-tary struggle, the present war.

emocracy, refers either to a par-ticular form of state organiza-tion: the capitalist parliament tron: the capitalist parliament regime; or to certain "demo-cratic" rights arising out of the struggle of capitalism against feudalism. These rights are of two sorts. The first group consists of those rights which embody and enforce capitalist property relations, such as the right to hold property in the right to hold property in the basic means of production; the right to employ wage labor; the right to monopolize for the sake of private profit; the right of individuals and private organizations to control the instruments of propaganda, such as press and telephone and radio and motion pictures; the right to suppress the products of science and invention in the interest of profit, etc. The second group of democratic rights include many of the so-called "civil liberties," such as the rights of free speech, free assembly, habeas corpus petition, public secular educa

tion, etc demagogue, one who tells the masses things that are untrue, and who makes promises that he has no intention of fulfilling.

ing farmers.

Farmer-Labor Party, a party based on trade unions and farm organizations. The Farmer-Labor Party of Minnesota was founded in 1918 through a merger of the farmers' Non-Partisan League and the Workingmen's Non-Par-tisan Political League based on the trade unions. This party was formed in a period of mass diswith the results of the First World War and the two employer - controlled political parties. From 1930 to 1938 the Farmer-Labor Party was in political control of the state government and of many city administrations. It is based on a Farmer - Labor Association of dues-paying members in ward, village and township clubs, and on trade unions affiliated and on trade unions affiliated and paying dues on a per capita

Farmers' Union, a farmers' organ-ization whose purpose is largely cooperative marketing and pursing in the interests of its mbers. One of the more progressive farmers' organizations. ascism, a system of capitalist gov-ernment based on the uprooting of all elements of workers' democracy within bourgeois society. The historic role of fascism is to set on its feet those classes immediately above the working class and who are ever in dread of being forced down into its ranks; fascism organizes and militarizes them at the expense of Big Business, under the cover of the official government, and directs them to the extermination of all working-class organi zations, from the most revolu-tionary to the most conservative. Fascism differs from capitalist democracy in that it utiliezs open and sustained brute force and police terror against the workers. It has been described as an iron hoop holding the broken barrel of capitalism together. Fascism appears on the scene when capitalism is in its decline, and when Big Busine can no longer rule through bourgeois damocracy. Though bourgeois damocracy. Though successful fascist movements are always subsidized by Big Business, and act only in their interest, such movements are made up of middle class ele-ments and workers and often appear originally to offer quite radical solutions of the social ills.
