Fighting Tobin's Scab Union And The Hamilton-Brown Shoe Company. Strike Spreads To Columbia

They immediately sent a call to this office for me to come to Columbia and organize them, and when I arrived I found that the Hamilton-Brown Shoe Company and his famous scab crew in the scabs; they could stand in the depot for at least twenty minutes until a body of the strikers arrived and drove the scabs out of the depot.

THE CASE OF J. HILL

(Special to Solidarity.) Salt Lake City, May 10. Many inquiries regarding status and details of the charges against Fellow Worker J. Hill are coming here every day...

Mr. Hill stated that he had been arrested on information furnished by Mr. Fred F. Brown, who had been shot at the house of his friends 7 miles from Salt Lake City.

The main thing the state has against Hill is that he is an I. W. W. member, and that he is being persecuted because of his membership in the I. W. W.

PHILADELPHIA I. W. W. RESOLUTION AGAINST WAR. RESOLUTIONS OF THE INDUSTRIAL WORKERS OF THE WORLD AGAINST THE WAR WITH MEXICO.

Philadelphia, May 11. Whereas, the United States Government and all Governments are at war with Mexico; and whereas, we well realize the future of our country depends upon these slugging committees; and whereas, we are opposed to murder when it is not committed in a good cause, and see no sane motive that should cause working men to shoot their fellow men as is being done now in Mexico; and whereas, no matter which side should win in that war, the working class would not win; therefore be it

Manifesto To All Marine Transport Workers of America

Comrades, Fellow-workers: Since first the Marine Transport Workers began to organize, their efforts have been counteracted by obsolete methods, and worn out tactics foisted upon them by the so-called "International" unions, parts of the American Federation of Labor which has dominated in the Transport Industry for years.

For nineteen years passed Andrew Furesehi, president of the "International Seamen's Union of America" has established himself at Washington and maintained a costly lobby to get action of his much heralded "Seamen's Bill".

Help these workers win a victory so that a little more bread may be provided for their families as they give you may turn the balance in your favor. Do not let the capitalist masters drive them back into the mills by starving them.

Zapata As An Ally To Capitalism

THE economic aspects of the Mexican situation are again asserting themselves amid the din of political and military operations. Zapata and the peons are once more, building the surface and commanding attention from the public press.

There is no denying the fact that the underlying cause of the Mexican revolution is the struggle for LAND on the part of the dispossessed peons. Otherwise, there is no revolution in that country. The chief change of political leadership does not constitute a revolution. There must be some underlying ECONOMIC principle at stake, which persists through all political upheavals or changes.

But the aim of capitalists, in aiding the direct abolition of peonage, must be to follow the American method of making yeomen or "freeholders" of the peasantry. What will follow, rapidly, too, can be understood in the light of United States history. The capitalists will retain unrestricted possession of oil, mines and other concessions that offer fields for immediate exploitation.

In the light of this speculative analysis, Zapata and his "Land and Liberty" peons appear as revolutionists, but not as portrayed by some enthusiasts. Their revolution aims at the overthrow of an out-of-date land system. They appear as a d. O. to the supremacy of a to-date capitalism.

The Social Revolution awaits the united and simultaneous movement of the rural and industrial proletariat. "The workers of the world must organize as a class, take possession of the earth (land) and the machinery of production, and abolish the wage system."

Militarism

WHAT is a man not capable, provided he be drunk? Incest, murder, ravage and rape. Blood quickened, nerves tingling, temples hot, eyes red, the Beast alive, manhood gone, Reason dead, all the Purges Hell raging—a human, drunk, intoxicated, mad drunk, what will it not do?

or get killed. Go to Hell. Patriotism—a country's wine of a thousand years—drink it, take your fill then become a soldier. Become a patriot. Every devil must find its hell—every passion its vice—every patriotism its army.

Active members of the I. W. W. have been made for some time that there has been an element in the organization who were not in accord with the aims and objects of the I. W. W.

Those who knowingly and willfully put themselves in the way of becoming members of the organization as capitalists class are about the lowest form of life that pretends to be human.

Those who have learned anything by past experience the time is fast approaching when anybody wanting to work in the organization as a capitalist class will have as easy sailing as a piece of paper.

Those who are advocating a boycott of the press or other necessary means of the organization for any reason whatsoever, are either the tools of the capitalist class or are doing about as well as they can for themselves.

port in the country such "union scabbing" has been going on. Enough of these obsolete tactics. The rights of the Marine Transport Workers, and the entire working class can be upheld and the present conditions changed, only through organization of the workers into industrial unions, formed in such a way that all its members in any one industry, or in all industries cease work whenever a strike or lockout is on in any department thereof...

Longshoremen, sailors, firemen, cooks and all wage workers in the Marine Transport Industry organize, organize, organize. All together let us pull for ONE BIG UNION OF TRANSPORT WORKERS. The A. F. L. with its craft strikes has had its day. In all the years of its activity in this field it has done nothing for the workers but to prove its worthlessness...

W. to take charge of the defense of Fellow Worker J. Hill, referred to in a previous issue of Solidarity. Hill is well known as the author of several of the most popular songs in the I. W. W., such as "Casey Jones," "Mr. Block," and others. The case simply stated is this: Last January in Salt Lake City two masked men went into a grocery store owned by an ex-convict and shot the proprietor and his son, both dying of their injuries. J. Hill was arrested in Murray, a suburb, where he was living at that time, because he was suffering from a gunshot wound. Hill claims he got in a fight over a girl, but will not drag the girl into the case. The police have found that J. Hill is an I. W. W. man, and are trying to fasten the crime upon him...

A special staff correspondent for the Chicago Daily News, writing from on board a U. S. transport conveying soldiers to Mexico, describes a "religious" service conducted by Chaplain Griffes. The chaplain exhorted the soldiers as follows: "Men, be good shooters for the Lord. When you shoot down a 'greaser' it is not a murderer you are committing. A soldier who you meet who is not wearing the guns are authorized to take life in such a manner. Every shot fired is a shot for civilization and for the betterment of the masses in Mexico. Show straight men; shoot to kill. And, men, if it be my sad duty to bury any of you, you hear my promise that you will not be buried in a foreign land, but will be embalmed and brought back to God's country and buried in sacred soil. The News correspondent adds: "Loud cheers greeted the chaplain as he finished his pious to clean their rifles that they might become 'straight shooters for the Lord.' Is this chaplain an antimilitarist in disguise? His satire is supreme."

Two of our best pieces of literature for the price of one. At present the great railroads, tired of bribing and dickered around with a bunch of boneheaded legislative representatives in an effort to gain better freight rates, are asserting their economic power by using direct action. By using this power in laying off thousands of their employees and sending depressed communities into a general strike, they will be able to force the government to accede to their demands. We see the bosses getting wise while as yet the workers are looking up at the stars for relief. A copy of "Eleven Blind Leaders" will put a worker hip to where his real power lies. Order a hundred of these today and you will also have a thousand "Union Scabs" for free distribution. This leaflet is also timely in all trades where scabs are doing it, in all parts of the country and in all trades we see scabs with union cards as an excuse, scabbing on workers on strike. The times are propitious for results, discontent is rife on every side. Industrial and civil revolution awaits. Let us have a revival of education and organization that will make this a banner year for the advancement of revolutionary industrial unionism.

I. W. W. PREAMBLE

The working class and the employing class have nothing to gain. There can be peace no longer an unfair and wasteful competition between the working people and the employers. The only way to bring about peace in the working class, have all the good made in it. Between these two classes a struggle must go on until the workers of the world organize a union. Take possession of the earth and the machinery of production, and abolish the wage system. We hold that the centering of the management of industries into fewer and fewer hands makes the trade union unable to cope with the ever growing power of the employing class. The trade union must be abolished and replaced by a union of workers to be placed against another set of workers in the same industry, thereby making the workers of the world into a single class. Trade unions aid the employing class to mislead the workers in the belief that the working class has interests in common with their employers. These conditions can be changed and the inner core of the working class united only by an organization formed in such a way that all its members in any one industry, or in all industries of any one country, or in all industries of any one department thereof, thus making up an injury to one an injury to all. It is the duty of the worker to know the motto, "A fair day's wage for a fair day's work." Must understand our own language. The working class must understand the meaning of the words it uses. It is the historic mission of the working class to overthrow the present system of society. The only way to bring about a revolution is to organize only for the every-day struggle with capitalists, but also to have an organization which can take care of the workers in any department thereof. We are forming the structure of the new society within the shell of the old.
