WASHINGTON, July 27 .- Secre tary Nagel, of the Department of Commerce and Labor, has issued a did get together and decide that the pamphlet of rebuke and warning to would try to better the conditions inspectors in the immigration service the girls employed by the gover for severity in enforcing the law. The warning entirely ignores the question of the \$25 required by Comnissioner of Immigration William Williams, and which has been the main cause of complaint against the

Those who read between the lines can see a solicitude for capitalist interest in the warning pamphlet. In-spectors are rebuked for "excessive seal" in arresting those accused or entering the country in violation of the alien contract labor law. The message, it is believed, was issued at this time to overcome the public sentiment which has been aroused by revelations of the high-handed treatment accorded immigrants who lacked the \$25 required by Commissioner Williams.

Two Killed in Clash Between Pro and Anti-Diaz Forces.

MEXICO CITY, July 27.-Two persons are dead, twenty seriously injured and 200 are under arrest today as a result of a political riot in Guadalajara, the capital of the state of Jalisco, late Monday.

A political meeting was being held by the adherents of President Diaz and Vice President Corral, who are standing for re-electon, and when some of the followers of General Ber-mardo Reyes, whom his friends are trying to persuade to run against Corral for the vice presidency cheered for their favorite, the rio began. The police naturally took the part of the "Corralistes" and eight of them were badly used up.

MONTEREY, Mexico, July 27 .-General Bernardo Reyes, governor of Nuero Leon, today expressed deep regret over the political rioting whi occurred at Guadalajara, in which o or morew persons were killed and some property destroyed. He reiterated that he is not seeking the office of vice president and that the cam-paign is being carried on in his be half without his direction or author

These reported denials of General Reyes that he is seeking the office of vice president of Mexico will be taken with a large grain of salt by all those who are conversant with politics in the empire of Porfirio Diaz. It is well known that Reyes is a bitter opponent of Diaz and that he is ready to overthrow the latter any moment that a favorable opportunity presents itself. Although at this time the partisans of Reves are afraid to procla'm him as a candidate for the presidency itself, it is thought that between now and next spring, when

the "elections" are to take place enough sentiment will have been created in his favor to warrant an oper attempt to place him on Diaz's throne especially as Reyes is very popular with the regular army.

Summoning an officer of the boardwalk squad an officer of the boardwalk squad both started down the beach to effect the strange visitor's capture. shots from the officer's gun only served to enrage the alligator and he was charging briskly with the po-liceman in full retreat when another ball fired at random struck him with stunning effect. The Giants ought to have won both games, but Tenney's poor judgment in not having a pitcher warmed up cost them the first.

Tenney intended to use Crandall in first and Wiltse in the second, but plans went awry and Matty volred his services for the second

It is a good thing for New York that he did, as the Doves were in-flated by the first victory and played hard all the time in the second. Fer-guson might have held the Giants to score if he had not got in bad with Umpire Johnstone and got himself put out of the game while at the bat in the third for kicking on called strike.

Tenney opened with a hit to center sacrificed, and both runners scored on Murray's drive to center. Red was caught off first and O'Hara filed to

"WHERE DO I STAND"

Says Mike Donlin-New York-Phila delphia Deal Still Unsettled.

The Donlin deal is still up in the air and the local fans are wonder ing where they stand. It seems that Felix Isman declared himself too quickly and simply jumped at conclusions when he announced the much

McGraw was usnuff, however, and would have way the best of it by securing Magee and Moren, for he knows Donlin, be-cause of his physical condiction, cannot play in his old form again. Murray is next to Donlin's condition and that is why he has blocked the deal. President Johnson, of the American

AMERICAN CAPITAL EXPANDS.

While the entire diplomatic machinery of our government, including President Taft himself, is being employed for the purpose of overcoming the resistance of the British, German, and French governments to American participation in the Chinese railway loan, news comes from several different quarters that American capital is spreading out, effecting a hold over regions hitherto untouched by it, or completing the conquest of regions over which it had until now only partial control.

The far-distant South American republic of Uruguay, whose economic and financial relations have been hitherto principally with Great Britain, France, and Germany, is about to negotiate a loan of \$6,000,000. American banking houses have been invited to participate in this loan.

The Central American republic of Costa Rica has for a considerable time past been under the influence of American capital. Its greatest industry, the cultivation of bananas, is almost entirely in the hands of an American corporation-the United Fruit Company. Over 150,000 acres of the banana area of that republic are owned by this company. American domination of Costa Rica is now about to be completed by the conclusion of a loan agreement between its government and the National City Bank, the great Standard Oil financial institution. The Costa Rican loan will amount to from \$10,000,000 to \$12,000,000. It is to serve the purpose of refunding the entire outstanding debt of the republic, domestic and foreign. The transaction only requires formal ratification by the Costa Rican Chamber of Representatives to become law.

The conclusion of this loan transaction will mark the completion of the conquest of Costa Rica by American capital, which will then control the principal industry of that republic, about one-half of its foreign commerce, and the whole of its debt. Costa Rica and its government will become a mere dependency of our plutocracy.

The obligations of Cuba to our capitalists are also about to be extended.

American capital is seeking ever new fields of investment. Its rate of accumulation is so rapid—owing to the excessive exploitation of American labor-that the new additions cannot all be employed profitably at home. The recent financial panic, which destroyed so many middle class firms and caused untold misery among the wage workers, only added to the mass of capital at the disposal of the great financial magnates. New regions of investment must be sought These can only be obtained with the backing of the whole power o' the American government. Hence, the increase of our army, and particularly of our navy. That great naval enthusiast, ex-President Roosevelt, who, for political purposes and purely for home consump tion, put on an air of enmity to the plutocracy, was a most powerful supporter of all its pretensions abroad. His nominee and successor naturally follows in his footsteps. And the American nation wil have to pay the piper.

INSATIABLE CIVILIZATION.

The Spanish people refuse to shed their blood in the interest of the capitalists who have invested their money in the mines of the Riff coast. For this they are dubbed Socialists-horrible word-by the Washington Post, which opines that "Spain must carry through this campaign, and others after it, until her obligations in that region to civilization shall have been discharged."

How much of "civilization"-in plain English, capital-is there in that region? According to unofficial report it amounts to about \$750,000 of investments in the mines. To safeguard this amount of money-beg pardon, civilization-the Spanish government was reported some time ago to have appropriated \$600,000 for strengthening the garrisons at Ceuta and Melilla and for sending troops against the tribesmen. But with the additional reinforcements forwarded tians? in the last days, the expenditure of Spain must by this time be greatly ing today. Most Christians are as in in excess of the original appropriation.

Thus to safeguard the \$750,000 of civilization, Spain must by this time have expended a considerably larger sum, not to speak of the loss of life. The question therefore arises, How much more treasure and how many more lives must Spain squander in order to convince the Washington Post that it has "discharged her obligations to civili-

-:0:-GREAT LEADERS.

Among American Socialists the belief is widely prevalent that what the Socialist movement in this country needs most is a great leader. Oh, if we only had a great and magnetic leader to rouse the great masses of the indifferent and to infuse new courage and ardor into the disheartened, how the movement would spread and conquer ciples of that religious sect. all before it in this country of magnificent possibilities and sudden overturns!

Let Chauncey Depew and Boss Cox and Bill Lorimer preach and practice their political views, but deny them

It is undoubtedly true that American Socialism has not yet produced any great personality comparable to the Socialist leaders of Germany or France. We have no Bebels or Kautskys among us, no Guesdes or Jaureses. We certainly never had a Marx, an Engels, a Lassalle among us to lay the foundations of our party.

Nevertheless, it is just possible that the Socialist movement of this country is not as poor in men of talent as is generally taken for granted. The fact that no one among us—with the possible excep-tion of Debs—has yet attained to any great prominence may be due attained to the highest distinctions in the state. to the fact that our movement itself is so young and has not yet attained to that great influence which the European Socialist parties
