#### TO LABOR.

By MRS. CHARLOTE PERKINS GILMAN.

Shall you complain who feed the world? Who clothe the world? Who house the world? Shall you complain who are the world, Of what the world may do? As from this hour You are your power The world must follow you.

The world's life hangs on your right hand! Your strong right hand! Your skilled right hand! You hold the whole world in your hand. See to it what you do! Or dark or light,

Or wrong or right, The world is made by you!

Then rise as you never rose before!

Nor hoped before! Nor dared before! And show as was never shown before! The power that lies in you!

Stand all as one! 'See justice done! Believe! and Dare! and Do!

What are you doing to increase the Circulation of The Call? Do hat are you doing to increase the Circulation of The Call? # HOFFSTOT GANG IN LAST FIGHT

Pressed Steel Car Company Evicts Strikers Who Refuse Officials' Offers.

#### WORKERS CONFIDENT OF VICTORY

McKees Rocks Bosses Must Settle Strike or Steel Trust May Swallow Them.

PITTSBURG, Pa., Sept. 2. - In what is apparently a last desperate attempt to intimidate its 8,000 striking workmen into returning to work without a contract and into trusting the company officials to do what they see fit in the matter of ameliorating the horrible condition against which the Total, eighteen days.....\$1,774.97 strike was declared seven weeks ago the Pressed Steel Car Company, at McKees Rocks, has ordered its former employes to return to work at once, or to leave the miserable com-

> Consequently "Hankeyville" is now deserted village, not one of the strikers remaining in the car company's houses. Hurriedly regathering their worldly possessions the hundred or nore families who were told Tuesday by the company's representative that they need not comply with the eviction notices, the men and women yesterday moved into houses provided for them by real estate men in McKees Rocks

and Bellevue.

Another visit was paid the men yes terday by representatives of the com-pany, who told the workmen that if they desired to remain in the houses they must return to work at once. This they refused to do and within fifteer minutes twenty wagons were engaged

noving their goods.

Those who had already left the ompany houses received letters from he company today offering them rork. The letters said: "We have examined our records and find you have been a good workman and that you have always abided by the rules.

If you return to work we personally guarantee you the best of treatment."

Needless to say, the strikers are paying no attention to these seducing letters, as they are confident that the company will soon be compelled to capitulate, especially on the refusal to capitulate, especially on the refusal of the Pennsylvania Railroad men to haul scabs to the plant makes it im-possible for the mills to start up again without the old men.

#### Citizens Demand Arbitration.

The presence of Governor Edwin S. Stuart in an effort to mediate the strike is likely to be requested by practically the entire population of Allegheny County. Following the cue given by the blank petition printed in the Pittsburg Leader a few days ago, various public bodies are preparing to request the Governory in paring to request the Governor's in-

The interest of the state in the matter is pronounced too, as it has for weeks been required to pay for the maintenance of a large number of

state guards on duty at the works.

That the Hoffstot gang would outrage public opinion by refusing to appear before the Governor if he were to come here to interview them is thought to be scarcely conceivable. Hoffstot himself might not come, but there are a number of the directors of the company who live in Pittsburg. One of these is J. W. Friend, who is said to be more heavily interested financially in the "slaughter house" than Hoffstot himself. Friend has been spending the summer at his estate on the St. Lawrence River, but

A place which he owns in the East End is being made ready for the occupancy of his family, and Friend himself was in Pittsburg for a day or two less than a week ago. He was said to have been seen here this week, but this report could not be confirmed.

Morgan Crowd Sees a Chance. What renders the probability of the ompany's agreeing to a plan of ar-bitration is the fact that the strike is causing the Hoffstot crowd the loss of many contracts and heavy damages in numerous ways. Therefore it is generally believed here that the com-pany is caught between the horns of the dilemma of either settling the

## WANT UNION CONDITIONS

#### 100 Waist Makers Strike Against Open Shop and Brutal Treatment.

One hundred shirtwaist makers em ployed by Louis Leiserson, of 26-32 West 17th street, went out on strike at 11 o'clock yesterday morning after a conference between Leiserson, Business Agent Baroff, of the Ladies' Shirtwaist Makers' Union, and a committee of the workers failed to settle the grievances of the workers.

The demands of the workers were recognition of the union and better treatment in the shop.

Leiserson, who is known as a radical, even as a Socialist in some quarters of the East Side, refused to give in to the demands of the men and girls. He desires to run an open shop.

Some time last winter Leiserson less to say it was an open shop, but he found that he could not turn the grade of work he manufactures with workers willing to work for starvation wages in an open shop, so he closed up the Walker street shop and brought the fifty men and women from it into his 17th street shop.

Then the trouble began. Leiserson sed the skilled union workers as used the skilled union workers as buffers to vent his spleen upon for the failure of the poorer and cheaper workers. He hired an Italian, a brutal fellow, as foreman, and only gave the union men and women a few days' work each week. For the past four or five weeks the union men and women averaged more than \$3 or

The trouble has been brewing for the past three weeks, and the workers have gone on strike as a last resort. They are sure of victory, because Leiserson manufactures a high grade of work, and he cannot get skilled waist makers to scab.

Cowen's efforts to get cloakmakers to do neckwear work has resulted in a fizzle. The few that responded to his advertisements refused to go to work when they learned that they were to

be used as scabs.

The strikers are confident that
Cowen will be compelled to surrender in a few days, as his shop is tied up completely.

A. Miller, business agent of the union, has visited Philadelphia and stopped all of Cowen's orders there. He also appeared before the Philadelphia Hebrew Trades, and a committee was elected which will work in conjunction with the representatives of the Forward to see that Cowen's work is not done in this city.

Miller will go to Buffalo tonight on the same mission. He will also Rochester, as there is a rumor that Cowen is sending his orders there.

"The Socialist campaign is in full swing with an average of forty open air meetings each week," said U. Solomon, organizer of Local New York Socialist party, when seen by a reporter of The Call yesterday "More than 150,000 copies of the municipal platform have been printed in various languages. Two leaflets are now in press, one dealing with ing the school question. More leaflets will be issued shortly.

"Besides," continued Solomon, "w hope to get Eugene V. Debs for several days during the latter part of October. One of the unique features of this campaign, unique from the standpoint of past policy, is the large number of indoor meetings planned we have already made arrangements for four meetings in the largest hells in the Bronx. Then, there are others." he continued, "one for Harlem, one for the West Side, and another for the lower East Side.

#### House-to-House Canvass

The latter part of the campaign will be rather strenuous. We plan a house-to-house distribution of litera-ture, including a special campaign edition of The Call.

"We are also making arrangements so that Edward F. Cassidy, the So-cialist candidate for Mayor, and Victor Buhr, candidate for president of the Board of Aldermen, can get a hearing before the labor unions.

"This work is being done with an empty treasury," said Solomon, "and from that fact alone one can easily see what we could do if we had enough money. If every Socialist and every sympathizer of the Socialist party would contribute a mite toward the campaign fund, this would be the greatest municipal campaign the Socialist party ever carred on. Of course," Solomon concluded, "we'll get from every member, supporter and friend of the party."

The at the close of the baseball season - Cardinals were the fussier of the two and also played the better game and won, the first game they have pocketed in their last ten. A good deal of the noise came from the crowd, which was small, but full of quips and jests and when occasion offered, sarcastic Although Rube Marquard gave them

very encouragement to win by his splendid pitching, the Giants couldn't do anything of weight at the bat, and but little better in the field. Marquard struck out eleven men in the seven injust as well have been hard hitting behind him considering the clumsy handling behind him. Two Cardinals handling behind him. Two Cardinals each made a continuous flight around the diamond on ordinary singles, the same getting away from outfielder, and allowing the batters to stretch them into four-base trips.

On June 29 of the present year she On June 29 of the present year she was again arrested—this time for leading a deputation of eight women to the House of Commons in order to interview the Prime Minister. When the women were brought before the magistrate and charged with "obstructing the police in the execution of their duties." they were defended by counsel. He pointed out that, under an ancient statute, deputations of less than ten in number possessed an absolute right to go in person and lay their claims before the King, or his representative, and the women were. representative, and the women were, therefore, legally within their rights in persisting in going. This so im-pressed the magistrate that he agreed to adjourn the case for a week in or-der that the legal point might be investigated. The following week, how ever, he sentenced Mrs. Pankhurst and her colleagues to one month's im-prisonment, but agreed to suspend their sentences until the question should be decided by a higher court. #### THE POLITICAL SITUATION IN NEW YORK.

The essential unity of all capitalistic parties, Democratic, Republican, and "Reform" confusionists, their utter lack of principle, and their common debasement, are just now being strikingly illustrated in this community.

Chief Justice Gaynor is a man with a clean record. He came into office as a result of one of those political "upheavals," so much edmired by those who criticize the Socialist party for its "unpracticalness," which leave everything exactly as it was. The people of Brooklyn "smarted with indignation over the excesses of ring rule" and Justice Gaynor was one of those elected by them to office. He fought ballot box stuffing and was instrumental in sending John Y. McKane, a notorious petty local boss and stealer of elections, to the penitentiary. He has always stood for the rights of the citizens against the violence and lawlessness of the police. He has publicly attacked the traction thieves. He is an enemy of "thief rule." Taken all in all, he is, so far as we know, that rare bird among old party politicians-a man of principle, who has successfully withstood the moral ravages wrought in our public life by the flood of capitalism. He is one of the few survivors of the now almost extinct schools of "Jeffersonian Democrats" and "Lincoln Republicans."

Owing to the man's moral integrity he has for a considerable time past been something of a stranger in his own party, the Democratic. His name was brought forward several times in connection with nominations for high offices, but he never stood any real chance. He was wanted neither by the bosses and politicians, nor by the "big business interests" to whom the bosses and politicians are mere humble servants. As to the voting masses-we shall surely betray no secret if we say that they exercise no influence whatsoever in the Democratic and Republican parties and that no one ever knows what they desire and whom they wish to represent them and carry out heir desires. This is a perfectly natural condition, considering that the Democratic and Republican parties as well as the "Reformers" are financed by the money and controlled by the agents of the "big business interests."

But just at present both of the old parties are confronted with a culiar political situation. The present Tammany administration is detested for its innumerable crimes against the most elementary rights and its neglect of the most elementary needs of the people of this city. The Republicans have not been in a position to discredit themselves to the same extent for the only reason that they are in a hopeless minority. Moreover, there have been rumors that the suport given by Tammany members to the Republican machine in the House of Representatives last winter was on the condition that the Republicans would give Tammany a chance this year by naming a straight ticket. Only political children remain in ignorance of the constant and close alliance between the local Republican and Tammany machines. The reformers of all shades command neither reect nor confidence. The people of this city have not yet forgotten the flagrant desertion by the Citizens' Union of every one of its socalled principles four years ago, when it refrained from nominating candidates for the reason that its president, as was then stated in the public prints, had entered into a deal with Tammany for the sale of a ferry to the city on terms most advantageous to himself.

All the parties of capital in this city are equally demoralized Their only hope of infusing some life into their campaign, of giving it the semblance of an expression of the popular will, lies in the nomination of a clean, popular man. But clean and popular politicians are so rare in this community that all the capitalist parties can think of only one man who answers to this description-Justice Gaynor. All gels trusted more to the class strusof them seem to be engaged in a race for the capture of Gaynor as the sle as an instrument of education than to the Utopian idealism of sectacandidate for mayor. And he—poor man—seems to be unable to rerian isolation.

The men whom Marx sent forth into sist the alluring temptation of being everybody's candidate. So he delivers himself of oracular statements, which nobody is expected to not advised to form little Sects of So- the living form in which its spirit was understand.

This is the present situation. Tammany does not know whom to nominate, does not want Gaynor, but may be compelled to nominate him. The Republicans, ditto. The "Reformers," ditto. But Barkis, who is willin', is being cousted by so many Peggoty's that he is utterly confused and just shakes his head wisely.

As far as the Socialist municipal campaign is concerned, nothing petter could happen to it than a nomination by all the capitalist arties of that one man. The Socialist candidate for mayor, Edward Cassidy, has said that if Gaynor should be elected by Tammany he would not be mayor of New York, but the divekeepers, the landrds, and the entire band of capitalists back of Tammany would be the mayor. This hits the nail squarely on the head. Should Gaynor be nominated by all the parties of capital, he would not be mayor of New York, but the undisguised power of capital would be mayor.

Nothing better could happen to the Socialist campaign than the union of all capitalist parties upon one candidate, whoever he be.

Our German organ, the New York Volkszeitung, has arranged a subscription in aid ' the courageous and starving strikers against the brutal Pressed Steel Car Company. The address of the Volkszeitung is 15 Spruce street, New York.

Trade unionists, Socialists, and all friends of labor are just now being appealed to for funds in aid of numerous causes, all of them of great importance. But it is to be hoped that the campaign of the Socialist party in this city will not be hampered for lack of the necessary fun. It should be remembered that while our campaign lasts the whole year round, the weeks preceding the election are the ing their own working force in sub-most advantageous to us. the Gordian Knot? It is a good story, because it carries a good lesson.

years ago, a heathen temple in Asia contained a remarkable curiosity. It leather woven together in a most puzzling manner. That knot was said to be the work of a great wizard. He had cleverly tied and twisted the strings and put a spell on them- with his magic art so that it was quite impossible for any man to untie the And the priests of the temple spread a prophecy about the magic knot: the man that succeeds in untying it will become the master of Asia.

Many men came to the temple ry ing heir skill on he kno. They a&!! failed. The game went on for many many years, always with the same re The Gordian Knot remained th

great puzzle of the ancient world.

But one fine day young Alexander of Macedonia, came to the temple. He brought with him to Asia a small bu well disciplined army. The backbone lanx, a body of picked fighters, stand-ing shoulder to shoulder in battle, protetcing each other with their strong shields, never turning their backs to

The priests of the temple showed Alexander the famous Gordian ot. They also told him of the phecy. Alexander listened attenprophecy. Alexander listened atten-tively. Then he deliberately drew his sword. With one swift powerful stroke he brought it upon the knot, cutting it in two. The great puzzle was solved. With

Alexander defeated the innumerative armies of the Persian king and became master of Asia.

So the old, old story runs. As stated above, it is a good story, because it carries a good lesson.

Our own New York Traction Puzzie. is the counterpart of the mythica

Gordian Knot. The powerful wisard that has twisted it so cleverly out of many strings is modern capitalism, represented by the traction magnates. The strings out of which our puzzl is woven are the many street railway companies chartered at various time under all sorts of titles. The surface the elevated and the subway system are all interwoven in such a way that no outsider can make any head or tail of the puzzle. They have spread their network over our streets, taking

The magic by which this has been done is truly wonderful. It is called "Franchise Grants" and "Vested Rights." It is a fine spell, a very fine spell for the wizards. By means of that spell they have worked won-ders. They have set the litographers to work printing fine large sheets of paper at a cost of about ten cents apiece. These sheets of paper are called interest bearing bonds. Then they sold thes sheets to the public a the rate of a thousand dollars a piece They have sold so many of those sheets that we hardly know the total amount. Nor do we know what be-came of the money realized from the sales. That is another part of the great puzzle. Only quite recently Receiver Whitridge, of the Third avenue line, pointed out a little item of sixteen million dollars of bonds that were sold and the proceds of which
