# SOCIALIST CONGRESS • IS IN FULL SWING

Austrian Workers in Session at Reichenberg Hear Reports of Party's Great Progress.

VIENNA, Sept. 20 .- Dispatches from Reichenberg, where the congress of the German-speaking division of the Austrian Social Democracy opened yesterday, are to the effect that the hundreds of delegates in attendance today are engaged in discussing the order of business for the week and listening to reports of the strength of the organization.

The report of the party secretary, Skaret, shows that the Germanpeaking division of the Austrian Soial Democracy comprises one-half of he party in the nation, having cast 13,219 votes out of the 1,040,662 bolled for the Socialist candidates for he Reichsrat at the last general elec-tion. Of the 89 Socialist members of he Reichsrat, 52 belong to the Ger-

an-speaking division.
As the Socialists in Austria are not rganized to any great extent in rty separate from the labor unions. but are rather the political expression of the latter, there are no exact figures as to party membership. The Socialist labor unions of the entire na-tion have a trifle more than half a million members, at least half of whom are German-speaking.

Many Working Class Representatives.

Despite the fact that the franchise laws prevailing in the different com-mercial and state elections are very undemocratic and make it extremely difficult for the worker to vote, the German-speaking Socialists now have over 900 representatives in the municipal councils, and sixteen members of the Landtage.

The report of Delegates Austerlitz

and Emmerling on the condition of the German party press shows that thirty-four papers are controlled by the party, classified as follows: Daily. 2: weekly and monthy, 24: for women young people, 1; scientific, 1; anti-coholic propagands, 1; sporting, 3; The German-speaking labor unions issue fifty papers with a combined monthly circulation of 350,-

The other language sub-divisions of the Social Democracy in Austria con-trol thirty-one newspapers, twenty of them being issued by the Czech organizations. The non-German speak-ing unions issue fifty-six papers with a monthly circulation of 200,000. Of these papers forty-four are Czech.

The financial report shows a balance in the paity treasury e \$10,000 on July 1, of this year. The political organization of Socialist women has developed, very rapidly during the past groups with 7,932 members. The number of young people's organiza-tions has grown from fifty-three in 1907 to 159 in 1909. The co-operatives shared in the general advance of the Socialist spirit, showing a clear profit of \$637,600 during the year.

## HE FIRST WOMAN **DELEGATE IN KANSAS**

It is pleasant to learn that the first an delegate to the Kansas State ederation of Labor, Miss Zula Taylor, Topeka, was received with the eatest enthusiasm and that her brodelegates considered the advent roman into their midst worth celeting. In a letter relating her ex-

asly adopted remitting all her per ita tax to date and seating the delefull member of the Federan. And that is not all. Before the avention adjourned a subscription was circulated among the dele-and a sufficient amount collected to defray my expenses to the conven n and a neat little balance to take sck to the local, thus enabling us to first delegate in the state con-

"Many good talks were given in the interest of the union label, and a reso-ution introduced by myself was unaniausly adopted. I had the honor conferred upon me of being elected Fraternal Delegate to the Missouri Federation of Labor convention which men in Joplin on the third Monday in September, and there is a local of our craft in that city. I feel that orether we will be able to enthuse a unionism into the members of ornecessity of demanding the label on garment they wear.

A banquet was tendered the dele-gates in the National Hotel on Tuesday evening. Many good things were said as to the aims and objects of organized labor. As I was the first and only lady delegate that had ever been in attendance at a convention of the Kansas Federation, I was called on to respond to a toast. I selected my own subject, "The Union Label," and urged on the delegates the great amount of help they could give us girls if they would only demand the union label on all articles they eat or wear. ### A WALL OF SEPARATION.

At Omaha, Neb., there is just now a strike of the street car employes. According to report the strike is accompanied by the usual fights and disorderly outbreaks, which are due quite as much to the lack of organization and inadequate preparation of the strikers as to their resent ment at seeing their places taken by imported strikebreakers and their sense of weakness as against the tremendous power of the street car companies.

But the President of Wall street was to honor the city of Omaha with his presence. Now, the President is known to be a friend of labor, for did he not a few days ago devote a good many words to the praise of the unions and did he not, in the overflowing kindness of his heart, promise them an Injunction Bill that will confer upon the judges by statute the powers they have hitherto been exercising by usurpation?

The President is a friend of labor, no doubt of that. It would therefore not do to offend his sensitive eyes with the sight of strikers struggling to retain their jobs. Accordingly, the prominent business men of Omaha, Neb., to the number of 250, took "decisive action" to preserve order during the President's visit. The newspaper dispatch did not indicate the nature of this decisive action, but presumably it consisted in hiring deputy sheriffs and arming them with guns. The desired result was, no doubt, attained and the miserable spectacle was kept out of the sight of the President.

In reading of this occurrence one cannot fail to be reminded of a similar incident that not so very long ago took place in the capital of the German Empire.
