Non-Union Workers Eager. The most remarkable thing about this walkout is the fact that the non-union workers were just as eager to strike as the unionists.

Wise to Bosses' Bluffs. That the threat of the bosses to transfer their orders to other cities and have them made there will not materialize became evident today when messages were received from Boston, Philadelphia and other large cities in the East and West, stating that any attempt on the part of New York manufacturers to transfer their orders to these cities would promptly result in a nation wide strike of the clock makers.

crowds the streets about the shops and the union headquarters were massed with humanity. Broadway, Third Avenue and the immediate environs of the various local were inundated by the tides of workers which poured out of the various shops.

ORGANIZE TO AID THE STRIKING BAKERS

A new club of about 150 German women was organized yesterday by the striking bakers, at a meeting in the Labor Temple, 243 East 84th street. The majority of the women are wives of members of the Brewery Workers' Union, who have shown much sympathy with the bakers in their present strike.

Hermann Gund, who organized the women, said that the brewery workers' wives were won over by the women who were canvassing against non-union bread. "When the women went to argue against scab bread they, at the same time, asked the others to join them and help carry on the fight. This organization is the result of the previous campaign," he said.

Money for the strike fund will be received by August Ganser, secretary of Local No. 1, International Bakers and Confectionery Workers' Union, 243 East 84th street, and by Paul Gerlach, treasurer of the same local, at 322 East 85th street.

PATHOS IN TAILORS' PRESENT STRIKE

The strike of the second-hand tailors for a ten-hour workday and a 10 per cent increase in wages, called last Wednesday, shows how popular trade unionism has become on the East Side, as the strikers are all religious Jews who, but a few years ago, did not know the meaning of a strike and were ignorant of the very existence of a labor movement.

SUGAR WEIGHERS GO OUT IN SUPPORT OF EMPLOYEES

Thirty-five sugar weighers employed at the sugar house of the American Sugar Refining Company, at the foot of Kenesaw avenue, between South 4th and South 5th streets, Williamsburg, have walked out because one of their fellow weighers was discharged on Tuesday afternoon for the alleged disobedience of an order of one of the foremen.

After the weigher was discharged, a committee of the men working on the dock of the Havemeyer refinery went to see Superintendent Fritz and asked that the man be reinstated. Fritz told them that he would not interfere with the foreman.

All the weighers went out to the refinery Wednesday morning, together with the discharged man, hoping that he would be reinstated, but as he was not taken back none of them went to work.

A call reporter yesterday went to see the officers of the sugar refinery employees at 108 Grand street, and heard their reports as to whether a sympathetic strike was possible.

"A committee of the strikers called at our office on Wednesday and told us that they were on strike and that they wanted the sugar refiners to go out on a sympathetic strike," said the secretary of the union. "I could not give them a definite reply, as it was not in my power to call a strike."

Furthermore, the secretary said that the feeling against the weighers has been very bitter, as they are the men who scabbed on the refiners during the recent strike, it was said.

ROOSEVELT AGAIN REFUSES TO MEDDLE

But Crocker on Early Resolution by Announcing He Will Take Stump for Beveridge in Indiana.

OYSTER BAY, L. I., July 7.—There was a new twist to the senatorial contest that are going to take place in the various parts of the country, when Colonel Roosevelt announced today that he will go on the stump for Senator Albert J. Beveridge, of Indiana.

He said that William Dudley Foulke and Lucian B. Swift, of Indiana, who are also personal and political friends, had come to ask him to go to Indiana to speak for Senator Beveridge, and he consented.

The mere fact that Roosevelt has endorsed Beveridge, an insurgent who did not break with President Taft during the last session of Congress, is not taken here to be particularly significant, for Roosevelt and Senator Beveridge have been warm friends for a good many years.

Happy Smile. The grand young man who ascended Sagamore Hill this afternoon returned to the station with the same happy smile that other visitors have seen on similar occasions.

Beveridge has always been very close in his political relation with Roosevelt. Of late he has leaned toward the progressive movement that created some stir in Congress during the past year or two.

The state situation out in Indiana is in such a precarious condition for the Republicans, and especially Beveridge himself, that any support that the colonel offers should prove mighty helpful to Beveridge.

Just Must Meddle. Roosevelt is apparently unable to keep out of national politics, even though he says he desires to for the time being.

DIPLOMATS WORRIED BY EASTERN PUZZLE

WASHINGTON, July 7.—Government experts on Far Eastern affairs are searching for proof of a secret agreement between Japan and Russia for the partition of Manchuria.

The railroad agreement just signed by both powers provides for the elimination of competition between the Russian and Japanese systems in Manchuria. It is suspected this is but a blind to deceive the other powers.

A complete upheaval in the Far Eastern diplomacy is looked for within the next few months. It is expected that it will bring about a re-alignment of the powers and probably shake the great British alliance with Japan.
