Discrimination on CWA Jobs Barred TORGLER AND THAELMAN STILL FACE NAZI AXE

FIRST VICTORY IS WON IN REICHSTAG FIRE TRIAL

Plan Treason Trial for Torgler, Thaelman;
Deport Dimitroff to Bulgarian Hangmen

BERLIN, Germany, Dec. 24.—The Nazi court at Leipzig, seeing its frame-up thoroughly exposed as evident from the worldwide protests, was forced to bring in a verdict of not guilty for the four Communists on trial, charged with burning the Reichstag. The Nazi tool, Van Der Lubbe, was the only one found guilty and condemned to hang.

However, Torgler, Dimitroff, Tanayev and Popoff, were immediately re-arrested. It is announced that Torgler together with Thaelman will be brought on trial for treason. This is punishable by death. While on the other hand, the Bulgarians will either be deported, probably to the Bulgarian hangmen or will be placed on trial for having fake passports.

While this constitutes a victory in the world fight against fascism, the Nazis are really trying to behead the leaders of the German workers. Realizing that their entire frame-up on the basis of incendiarism was exposed even from the facts that came out before our own court, they abandoned the fire charge, for one of treason. Furthermore even with the limited amount of evidence permitted in their court, the facts were pointing more and more clearly to the Nazis themselves as the real incendiaries.

Only First Round

This success in the first round is likely due to the militant international protest under direction of the Communist International and due to the heroic self-defense of the four Communists who so brilliantly turned the tables in court and used the tribunal as a platform from which to address the world's working-class.

The Communist Party of District 13, hailing this first victory, warns the workers and all liberal-minded people that any illusions that the Nazi courts are really impartial, as the fight is by no means over. The leaders are to be re-tried; 37 workers are already condemned to the beheading block, and thousands are languishing in concentration camps because they are Communists, Social Democrats, Jews, Catholics, or liberals.

A meeting to protest the lynch terror in the U. S., the Scottsboro verdict, and to demand freedom for the German Communists, will be held in the Fillmore Workers Center on Tuesday, Dec. 24th, 8:00 p. m.

Among the speakers will be Dr. Crawford of Oakland, who recently visited the Soviet Union, George Morris, editor of the Western Worker, Ida Rothstein of the Communist Party, and Elaine Black of the I. L. D. Admission is free.

The North Beach meeting against lynching in the United States, and Nazi terror will be held on Friday, Dec. 29th, 8:00 p. m. at Bethel A. M. E. Church, 1207 Powell St., under auspices of the I. L. D. and the Communist Party of North Beach. The Rev. Hughes and Harry Jackson will speak.

**Crew of Soviet
Ship to Be Given
Big S. F. Welcome**

SAN FRANCISCO, Dec. 24.—To greet the first ship to fly the Red Flag of the Soviet Union through the Golden Gate, a banquet is being arranged for the night of Friday, Jan. 5, at 121 Haight St. Yesterday a conference of representatives from several working-class organizations joined with the Marine Workers Industrial Union to plan a rousing welcome for the S. S. Kursk, due here that week.

The banquet, which will begin at 7 p. m., will be followed by an entertainment and dance for the crew and officers of the "Kursk." The tickets are limited, all organizations are urged to send in their orders immediately either to the Marine Workers Industrial Union, 437 Market St., or to the Friends of the Soviet Union, 1171 Market St., San Francisco.

"At meetings of this organization will be held at the Fair Oaks School House, Main and C. Sts., to recruit the workers on a more militant program. The meeting will be held Decem-

ber 27th at 7 p. m. from the conference.

"The "Kursk," bought and re-

struggled in Seattle, will sail from here for Vladivostok.

"Socialist" Fakers Try Break Jordan Defense Front

I. L. D. WELDS DEFENSE OF
FRAMED NEGRO WORKER
DESPITE DISRUPTORS

PORLTAND, Ore., Dec. 22.—To save Theodore Jordan, 28-year-old Negro worker from being railroaded to the gallows on a framed-up murder charge, the Portland Section of the International Labor Defense is rallying thousands of workers into a mass strike to address the world's working-class.

The Communist Party of District 13, hailing this first victory, warns the workers and all liberal-minded people that any illusions that the Nazi courts are really impartial, as the fight is by no means over. The leaders are to be re-tried; 37 workers are already condemned to the beheading block, and thousands are languishing in concentration camps because they are Communists, Social Democrats, Jews, Catholics, or liberals.

The Party statement declares that the fight, against Nazi terror, is also a fight against the Fascist trend in the United States. The Nazi axe was temporarily stayed by the international protest. The fascists will be looking for the first opportunity to behead the leaders of the German workers. That is why the protests must be intensified, until our comrades are released, and the Bulgarian comrades are given voluntary de-

parture.

After being told of the ILD's militant struggle in behalf of persecuted workers, its fight for equality of national minorities and its world-wide effort for defense and (Continued on Page 5, Col. 2)

TUCSON, Ariz., Dec. 24.—An enthusiastic United Front Conference was held Wednesday night at the Workers Center, 153 So. Main St., at the call of the International Labor Defense. Twenty delegates were present, including workers from the CWA jobs, a delegate from the Negro Methodist church, the Communist Party, the Poor Farmers League and others.

The conference formed a permanent defense committee and plans were laid for a mass meeting to protest the frame-up of the Scottsboro Negro boys. A protest demanding freedom for the four German Communists leaders on trial in Leipzig. The conference adopted the following platform: struggle for the rights of Negroes to serve on juries, full social, economic and political equality for Negroes and against persecutions of Negro and white workers.

WESTERN WORKER ADVANCE IS HAILED BY THE COMMUNIST PARTY CENTRAL COMMITTEE

The Central Committee of the Communist Party of the U. S. sends its warmest revolutionary greetings to the WESTERN WORKER, the organ of the Communist Party of District No. 13 and champion of the working-class of California.

That the WESTERN WORKER, now only two years old, is able to enlarge its size and increase its facilities for reaching the masses of California workers just at this time, is not accidental. It is due to the tremendously sharpening class struggle, the radicalization of the workers of the Pacific Coast, the traditional heroic fighting character of these workers, and to the inherently good revolutionary qualities of the WESTERN WORKER itself.

"This is a fine, urgent calling for the enlarging and strengthening of all the organs of class struggle of the workers and exploited farmers. The finance capitalist dictatorship which the Wall Street bankers exercise over the United States is now in the midst of sharp offensive imperialistic war. In severity, in form of the National Industrial Recovery Act, the N. R. A., with a whole series of measures including inflation and rapid preparations for war, every day more aggressively brings the challenge of wage cuts and class repression into the face of the laboring masses of industry and agriculture.

PACIFIC CENTER OF GRAVITY FOR WAR

As the preparations for the coming imperialist war by the Washington government of the Wall Street bankers shift their center of gravity more and more toward the Pacific Ocean, the offensive against the California industrial and agricultural workers, and repressions against the Negro masses of Southern California, as well as sharp aggression against Filipino and Japanese workers, are more accentuated.

The ruling class of California, which continues to hold the framed-up Mooney and Billings in prison as trophies of successful class struggle against the workers, and whose governor openly participated in and idealizes mass murder in the interest of the ruling class without even the formalities of court procedure, is carrying out in its own ruthless way the offensive against the working-class.

WESTERN WORKER MADE SUCCESSFUL BEGINNING

The WESTERN WORKER, as the revolutionary organ of the Communist Party, accepts the gage of battle and leads the masses of California workers, native and foreign born, and "diry" farmers, and the Negro people in every defense of their interests. The business of the WESTERN WORKER is to become, as the voice of the Communist Party, the loved and trusted leader and organ of the whole mass of the California laboring population.

The WESTERN WORKER has already made a successful, and in some respects even a brilliant beginning in this respect. Of the 51 dairies represented,

including the 27 dairies, have signed up 100% for the union. The remaining 27 dairies, having signed as high as 75%.

The next meeting which will be held Thursday, Dec. 23rd at 8 p. m. at 546 So. Los Angeles St. will decide ways and means of effectively presenting the 3-point-program to the dairies.

Every milker and dairy hand is urged to attend this meeting in order to win these demands.

The meeting for milkers on the 7 o'clock shift will be held Friday, Dec. 24th at 2 p. m.

BIG TASKS AHEAD

The tasks now before the WESTERN WORKER are even greater and require more energy, devotion and Communist understanding than ever before.

The WESTERN WORKER and all of those comrades who have the important task of guiding, editing and building the paper must translate the action of the Open Letter of the Central Committee of the Party, which calls for "A RAPID TURN of the Party to revolutionary mass work among the decisive sections of the American industrial proletariat". The WESTERN WORKER must then carry on and continue day to day attention to the most decisive industries and conditions day to day attention to the most decisive industries and conditions.

In less than one day the members found nearly thirty destitute families who are not getting relief due to discrimination and other factors.

A list of these families has been given to the local newspaper, which is conducting a drive for food to be distributed to the needy as an act of "Christmas charity".

Call Stevedores to Prepare With Dock Committees

SHIPOWNERS AGREE TO
CONFER WITH
UNION

SAN FRANCISCO, Dec. 26.—The San Francisco Shipowners have agreed to meet with the representatives of the International Longshoremen's Association to discuss recognition, and the discrimination against the Stockton stevedores because they joined the I.L.A. The Shipowners agreed to this only after the workers called for a coast-wide strike vote.

The Shipowners got busy, having their henchmen feel out the men on the strike sentiment, and only after they convinced themselves that the workers meant business did they agree to confer with the union.

The workers are determined to force the adoption of their own code for one dollar per hour, \$1.50 for overtime, 6 hours per day, 30 hours a week; recognition of the union. Foremen in most cases likewise expressed themselves for a strike.

Rank and File Committees

The I. L. A. officials are, however, not yet taking any real steps to prepare for the strike which appears inevitable. Rank and file stevedores, remembering the record of the officials during the Matson strike, when no broad rank and file strike-committee was elected, and therefore gave the Shipowners a chance to recruit many scabs, are realizing the need for immediate action.

The workers are called upon by the Rank and File group of the I. L. A. to assume responsibility for conducting the coming strike themselves. Dock committees are to be set up on all docks at once on the basis of regular delegates with three men from each gang. These committees should function permanently and act for the men when any grievance arises concerning working conditions, enforcement of safety rules and union conditions.

Construction Workers Industrial Union Demands Workers Control

SAN FRANCISCO, Dec. 25.—With the CWA jobs hardly seen, a first class scandal developed as a result of facts leaking which uncovered a network of employment agencies linked administration officials for selling and favoring jobs.

It is admitted that at least three such employment agencies were operating on the basis collecting 30% of the month's salary on all "permanent" jobs, or 10% on the received during temporary jobs.

SAN BERNARDINO, Cal., Dec. 22.—Last Saturday 24 orange pickers working on one of the ranches of the "Blue Goose Orange Growers Assn." struck demanding 5¢ a box instead of the 4¢ paid. Going to the next orchard they were joined by 25 more workers. Strikers, and the boss gave in quickly. The strike spread. Among the strikers were a few members of the Cannery and Agricultural Workers Industrial Union who took the lead in the fight.

A Success in Every Stocking

By Roberta Evans

This fifth winter of the crisis houses still have the gall to tell us now that "help may be only the workers know how about finding them." The award this year to Los Angeles High School furnishes a 3rd course called JOB ETHICS, another excuse. The shabbiness old today challenges the work and if it finds him pained again he can't help but repudiate his attitude; it does want him.

So this course comes to force the good worker in the right attitude towards the crisis; it is especially for young and old workers; and it is particularly good for the poor and the slave! This is the meaning of the course.

On JOB ETHICS "psychology was given

six Months of Roosevelt Economics*

December 16th marked six months since the NRA was introduced. The "New Deal" as a whole is only about 10 months old. It is therefore appropriate to take stock of the results.

It will be remembered that the Hoover policy to meet the crisis consisted of intense wage-cutting to the most miserable pitiable; and subsidies to the large corporations and banks through the RFC; cutting down and destroying crops; forcing millions into bankruptcy; and similar measures which shifted the burden of the crisis onto the backs of the workers and reduced the purchasing power of the masses.

Now there should be no difficulty in determining if we are really getting a "New Deal". The following figures will give an idea.

PROFITS INCREASE

The Commercial Credit Imperial Wall St. organ reports that profits for 450 of the largest monopolies in the United States were \$373,802,000 for the first nine months of 1933, compared with \$387,000,000 for the same period in 1932.

It is estimated that over eleven billion dollars have been dashed out in the form of subsidies and other methods through the NRA to the big banks and corporations. This compares with \$400,000,000 for the CWA jobs for the 17,000,000 unemployed.

According to Relief Administrator Hopkins, this winter we started with 1,000,000 more on the relief rolls than last year—15,000,000. The number of families in the CWA jobs on relief rose to 3,000,000. Secretary of Labor Perkins claims that 2,500,000 are now based on jobs since March. Most of these got their work because of anticipated business. The intense NRA ballyhooed for a short time created a spurt that reached the highest point in July, but the storekeepers remain with a huge stock on hand. Her latest report for the month of October 15 to November 15 states, that employment in manufacturing industries dropped by 3.5% and payrolls by 6.2%.

The inevitable effects of inflation is to force buying in anticipation of higher prices, but the seeming upturn only gives rise to an even more rapid decline due to further reduction of purchasing power of the masses.

As far as wages are concerned, the government depends on the frame issued by the A. F. of L. The A. F. of L. officials, the staunchest supporters of the NRA, can be depended upon for painting the brightest picture possible.

But the December Survey of the A. F. of L. is forced to admit that "The workers real wage is still below March by 11%." At least they admit there is no wage increase, but it's a matter of fact, every one knows, the increase is not enough to bring the real wage rates back to the March level.

Short hours due to the NRA meant nothing other than the continuation of Hoover's plan, as in most cases there is a proportionate decrease in wages. This was coupled by the intense speed-up, to compress the same production into shorter hours.

The Roosevelt administration has made crop destruction and action a permanent policy of the U. S. Government. Taxes on reaching a billion are levied on the most staple products, chiefly consumed by the poor, to make a fund out of which to pay to those who destroy.

STEADY DECLINE

The National City Bank report, for the month of December, finally admitting that the recovery deadlines during the past few months were lies, states as follows in opening the report:

"The decline of trade and industrial operations which have been UNDER WAY SINCE JULY has shown signs of flattening during November."

and further "This is a heart-breaking change after FOUR MONTHS OF STEADY RECOVERY. It indicates that in some cases at least the promised adjustment of OVERSTIMULATED industry—the rate of consumption is being completed".

The report of this leading capitalist agency gives the lie to the claim of Secretary of Labor Perkins, that the 3.5% decline in employment in manufacturing industries is the first since March.

As far as the West is concerned we get even gloomier picture. Employment in California declined by 13.6% in October followed by a further decline of 10.3% in November. The general business index for the far Western States which reached 94% of the 1925-26 level has declined to 59.4% of the March level. The facts above are only a few to show that Roosevelt is carrying through, in a far more sweeping manner, the same policy that prevailed under Hoover. It will not make for raising the buying power, but on the contrary will aggravate the crisis. In the National City Bank report we see the old Hoover song revived, claiming that "the bottom is reached". They heart only in that they think the decline has stopped.

Together with these Roosevelt economies, goes the policy towards fascism and war with the greatest military appropriations of any year since the war. The policy of the Communist Party and the organizations under its leadership—for a militant struggle and organization to wrest from the bosses every possible concession, to fight against fascism and war, and to shatter the masses that only a workers and farmers government will mean a permanent solution of the problems that face us.

Greetings from Central Committee

FIGHT AGAINST MISLEADERS

Whilst the growth and the heroic struggles of the Agricultural Workers Industrial Union have been made clear through the pages of the Western Worker, the work generally of building up the revolutionary trade unions, and the work of leading the revolutionary struggle against the corrupt leadership typified by the Sharpenbergs and the O'Connells, remains a hundred-fold more important. The WESTERN WORKER must expose that in the past turn its keenest attention to the work of the railroad brotherhoods in combating the illusions of social fascism, because, in the end, even the most advanced leaders of the Democratic Party, as the supporters of the fascist party, are bound to be led into the same line of policy as the previous action of supporting Woodrow Wilson and the American workers into the bloodiest imperialist slaughter.

The Central Committee is confident that the WESTERN WORKER in mercilessly exposing and destroying the of that agency of the capitalist class amongst the

Central Committee is confident that the WESTERN WORKER will not only continue its splendid work but will also intensify its efforts to organize the Communists among the mass ranks deeply and firmly in the great mass centers of population of California—enabling them to successfully in the present historic

Through the mist the lanterns glimmer.
Cold, chilly rain drops.
On the bones of the rickshaws shimmer.
Ladies and gentlemen lie down to sleep.
The high walls dream. Shadows creep.
Someone glides toward from a dark hollow.

Two others peer.
And begin to follow.
Bent, intent.

Corner.
This is the place.
"Hurry up!"
"Wait!"

A scattering of words from an unseen face.

One goes ahead. Another to the right.
A third to the left, running in the night.

A-Chang, ready.
A-Lip, ready.
A-Wong, ready.

Now the posters are up—that's all.

The slogans hung—that's all.

The notices pasted on the poles,
The banners on the wall.

"Everyone! Where the sun is—We are there.
Where classes are, struggle is born.
Where the fate of slaves will not be borne.
Easy enough to kill us three.
But thousands stand in line behind me!
For life or death—the class struggle.
A tremendous thing, a fierce battle."

"Give it to 'em!"

"The butt of the gun . . . the bayonet.
The slogan hung—that's all.

The notices pasted on the poles,
The banners on the wall.

"LONG LIVE THE SOVIETS,
DOWN WITH THE KUOMINTANG,
LONG LIVE THE RED ARMY,
DOWN WITH THE BRITISH GANG."

The Russian White Guards
Are England's obedient servants—
Truer than the "treacherous" Hindus—
The loud dogs, the bastards!

At a crossing of Nanking Road
The last slogan—loudly shouted.
Thus the last slogans—loudly shouted.
The last groans—in the death rattle.

Quiet on the Nanking Road.
Through the mist the lanterns glimmer.
Cold, chilly rain drops.
On the bones of the rickshaws shimmer.
Ladies and gentlemen lie down to sleep.
Ladies, girls, stand, into the darkness.

The P. G. & E. Does Its Part

By Ronald R. Cooley

It was late when the mother came home. The two children were tucked into bed, but the mother had to keep her eyes open to watch over them.

"Did you have to wait a long time again, Mother?" asked Louise.

"I waited all afternoon," she said. "Belle probably thought I was late again."

"I waited all afternoon. I was late again before you saw the doctor." The mother removed her coat and sat down. She was exhausted.

"Never mind. Have you had any supper?" she asked. "Now get under the covers and go to sleep."

After an oppressive silence, the mother asked, "Would you want some?"

"No, I'm not hungry," she said. "I'll just wait."

"I waited all those hours. I'll just wait until you come home."

JOINT NOT WORRIED

SACRAMENTO, Cal. Dec. 28

More than two hundred unemployed single men were poisoned at the Salvation Army's Christmas dinner on contaminated govern-

ment pork.

Within two hours after eating the pork sandwiches the men were rolling on the floor with cramps and pains. One of them was rushed to the hospital. Although the men were told to die, but Col. John Bree, head of the Salvation Army, and his wife, did not worry a bit.

"The men probably got drunk. They had a good time," he declared. "But personally, I obtained the pork in question,

in the Salvation Army, that it took a while to trace who was first blamed. Then it was without refrigeration from Thanksgiving Saturday before being served.

The meat believes the pork itself was bad. In addition, there

was that dishes can be sterilized from one meal to another.

SAN FRANCISCO, Dec. 18.

Forty inveterate, the Laguna Hospital here learned what to expect from Roosevelt's new deal last Tuesday and Wednesday.

These nurses have been working at the hospital for 10 years and a room and board. To keep them in the lower-level, they have regularly fired and rehired after a day or two.

What the CWA Racket Means

How racketeers immediately adjust themselves to every changing situation was most glaringly exposed in the speed with which the CWA jobs became the avenue for money to flow into the pockets of job seekers, especially officials. With the CWA, they really had received more than one pay envelope, thanks to friction among the politicians themselves, facts burst exposing that the machinery is already in shape for collecting 30% of the first months wages for a CWA job. Furthermore, in San Francisco it became known last in order to get a job that pays more than the pickaninnies showed work, you have to bring a letter of recommendation from a Supervisor or other politicians.

"There is no law," says the State Director of the CWA, "in such letters, the term being a CWA official letting the letters influence him to give preference to certain people."

The ranks of a first class scandal were rapidly coming to a head, but the "investigators" quickly put the lid on. In the midst of what was supposed to be a hearing, the chairman of the San Francisco relief committee, Judge Sloss, rose and left the room, adjourning the meeting.

LAY BASIS FOR WHOLESALE FIRING

The grafting politicians, who organized the racket, go scott free. The real victims are the workers. Now under the pretext that a clean-up of racketeers is being made, the agents are getting fired. It is true that some of them with registered names, and before the job, are not residents long enough etc. THIS GIVES THE SAME RACKETEERING OFFICIALS AN OPPORTUNITY TO GO ON REWARDING THOSE OF THEIR FRIENDS WHO ARE STILL ON THE WAITING LIST, OR TO SELL JOBS.

This situation prevails everywhere. Reports of workers getting fired come from all parts of the state. The foremen, who in most cases experienced slave-drivers hired through employment agencies, are instructed to be ruthless, and their jobs also depend upon their continually making room for more people.

In the above state of affairs illustrates what is really at the bottom of the Roosevelt CWA job policy, hailed as a "great Thanksgiving present."

THE OBJECT IS TO USE THE FOUR MILLION JOBS (REALLY MUCH LESS WHICH ARE TO LAST 10 WEEKS AS A MEANS FOR THROWING MILLIONS MORE ON THE RELIEF FUND. The fight against fascism, the defense of the workers in the results of the NRA, and the unity of the workers, will be annihilated by the efforts of those who are trying to have discovered in. Along with this, the pro-capitalist elements to the right, will be strengthened. The CWA will be replaced by the Silver Legion, the leader of the Silver Legion, Peltier, hearts the people to the tune of new phrases of his own, giving to the public and subversives the idea that,

Good Times For Whom?

With its first issue for 1934 the "San Francisco Examiner" gleefully boasts of the profits made by the California growers during 1933.

We learn that the field, nut and fruit crop incomes were 25% ahead of 1932 and together with livestock and truck crops will amount to a total of a half billion dollars.

Looking through the issue which is like a New Year souvenir program for a Chamber of Commerce "blowout" we learn that California leads the way to "prosperity" with profits higher than for any year since the crisis hit the country. The table below indicates the incomes for some of the crops in comparison with 1932.

Crop	Income 1932	Prices	Income 1933	Prices
Grapes	\$29,765,000	\$12.60 a ton	\$2,600,000	\$3.75 a ton
Peaches	9,241,000	17.75 a ton	13,000,000	17.75 a ton
Apples	4,900,000	17.75 a ton	5,247,000	29.75 a ton
Peaches	4,000,000	17.75 a ton	18,750,000	18.75 a ton
Cherries	3,600,000	60.00 a ton	1,583,000	66.00 a ton
Oranges	2,800,000	20.00 a ton	3,800,000	20.00 a ton
Apples	2,175,000	32 cents per bushel	4,836,000	56 cents per bushel
Tears	2,175,000	12.50 a ton	3,318,000	18.50 a ton

Added to this is the cotton crop which yielded \$124,000 against \$50,000.

These figures bring to mind the cries of the growers during the harvests, who with tears in their eyes gave increases to the striking workers, and assured the whole world that they were as good as bankrupt.

50,000 WERE ON STRIKE

On the other hand we have the report of the California Labor Department in which we learn that there were strikes affecting 50,000 agricultural workers, of whom 40,000 received increases. We remember how bitterly the workers had to fight to force the 25 cents per hour that was won in most cases. Without the Agricultural Workers Industrial Union, even this pitifully small wage would not have been received. The growers figured that 1932 wages will be maintained, while on the other hand the rising prices should make possible the most profitable year in a long time. The government helped them in every way. The state and local police were always ready. The relief departments cooperated in obtaining stakes. Openly known leaders of the strikers in Pixley and Arvin are being protected.

NOT PROFITS FOR SMALL FARMERS.

But if an analysis were made of the profits in agriculture, we would undoubtedly find that the lion's share went to the finance companies such as the Bank of America (which just declared a 3 million dollar dividend) landlords, and the large growers. It is these who exploited the workers most bitterly, and in addition they have better marketing advantages, were able to sell directly to eastern markets and reap the maximum profits. They are not at all interested at all because of higher prices he was immediately besieged by the mortgage and loan sharks and stripped as usual.

When the bosses joyously announce that good times are beginning, they only mean that the rate of profit is rising. The rate of profit rises only to the degree that through higher prices and low wages they take it out of the hides of the workers and small farmers, as last year's result shows.

The main gain for the workers as a result of last year is the lesson that without the fighting union they would be preyed upon in the midst of a pack of lions. Wages would have probably been at 10 and 15 cents per hour.

The union must be put into good functioning order in every agricultural center in the state. Every local must see to it that not a single agricultural worker should be denied relief. The next season will bring the same problem. The fight for conditions fit for human beings must continue.

With the workers having learned the value of the union, with last year's experiences, we are in much better shape for the fight.

Agricultural Workers! Keep in touch with your nearest Union center! Keep your book paid up!

Bring all your grievances to the Union meetings!

California Alarms S. P. Leaders

James Oneal, editor of the Socialist Party's official organ, the "New Leader", finds it necessary in the latest issue to editorialize on what he calls the "California Alarm". The movement consists in the fact that the membership with the California Socialist Party is demanding a militant policy, and for a United Front with the Communists. He bewails that inexperienced members always "open the window for Communism to re-enter."

This editorial is a follow-up of previous panicky alarms, because the Socialist Party membership in California is demanding United Action with the Communist Party. Oneal, an old-time "artist" at deceiving the Socialist Party membership, does not go into a single one of the questions that are being discussed so heatedly within the organization. He is merely content to copy out of an anti-Communist slander sheet, put out by the American agents of Trotsky, to tell unthinking members that the "Trotskyites" are disintegrating the party.

Oneal quotes from the "Bosshevik-Left" press, giving his entire information from the Trotskyists, but giving an impression that he gets admission out of "Communist" sources.

GIVES NO REASON FOR STAYING IN S. P.

While he tries to paint a black picture of the Communist movement, he hasn't a word on what might entice one to still remain in the Socialist Party. There isn't anything. The latest dues reports sent out from their national office show a loss of members, in comparison to the average for 1932. They claim a national membership of 16,261. One who knows that most Socialist party dues payments do not represent active members or even as attend meetings, can see the little that is left in that party that still has life. We are told.

As far as the California Socialist Party is concerned, it sees a healthy sign on the part of the Socialist Party leaders should the disintegration within their ranks continue.

Frank Little was an industrialist, say the Communists. Probably if Little was asked if he had ever used the name Lenin, he would have used the same expression. But so did thousands of others, once members of the IWW and

against \$50,000.

These figures bring to mind the cries of the growers during the harvests, who with tears in their eyes gave increases to the striking workers, and assured the whole world that they were as good as bankrupt.

Stanislaus County
Sets Up Forced
Labor Camps

MODESTO, Cal., Jan. 13.—Stanislaus County has set up a concentrated "labor camp"—recently established at Gilroy, somewhere in the San Joaquin Valley.

The caption of the camp is reported at 100.

Members of the Stanislaus Co. Central Labor Council will meet soon to discuss plans for setting up another such forced labor camp, if the present one continues to maintain lack of Patterson.

Although the camps are supposed to be for the benefit of the workers, the workers of Stanislaus county should not be held responsible for their creation, since they were made by local fascists. As in the case of CWA, camp houses are set up to afford the workers a little place to keep disillusioned and militant workers under constant surveillance.

"FLAG WILL GO UP ON SHIP TOMORROW," SAID RED CAPTAIN

SEATTLE, Wash., Jan. 4.—While 1200 workers cheered and danced away the door of Moon-Temp, last night, a red flag with the hammer and sickle was raised over the shipyards of the Marine Workers Industrial Union and the International Longshoremen's Association. The flag of the recently purchased Soviet of Sovnagosprom.

It was the first time the Sovnagosprom flag had been hoisted on the Seafarers' Union tomorrow. It will never come down," said Zelenko as he hoisted the red flag was presented to the crew, via first Soviet ship to enter U.S. Pacific coast ports. On completion of the Soviet crew raised the Red Flag presented by Seattle workers.

Says "Don't Fight.
Depend on N.R.A."**

SACRAMENTO, Cal., Jan. 10.—Last Wednesday night, Sacramento's A.F.L. held a meeting at the Cocks and Watters and Waitress social club of Sacramento.

The purpose of the meeting was to save the Red workers into believing that they brought him along, and the old man across the cabbage field.

"No More Beating"

There will be no more beating of the old man, Flynn, and he knows it. When sent by his master to investigate some of the Red workers, he came to the conclusion that they beat him because he had him.

"I carried him to the front four times," Flynn replied, "and the old man across the cabbage field.

"The Red workers are here to stay," he said, adding that the old man across the cabbage field.

He was asked if he had any more to say.

"At last I have my name in the paper."

The rest of the gang was transferred to a job on a road in Dublin Canyon, this is all along.

When the Red workers told several workers telling a group of foremen about the article, the old man had merely slapped him because he had him.

"You're a Red," he said, "and I'll beat you." The old man across the cabbage field.

JAPANESE WORKERS JOIN IN U. S. STRUGGLES

By S. Takeda

Much of American capital's enormous wealth has been derived from exploitation of foreign workers, who are thousands of Japanese workers. In industries, especially agriculture, it is especially significant, as this is the case. In California, there are thousands of Japanese workers, and their numbers have increased rapidly for American capitalists.

The large concentration of these exploited Japanese in California is especially significant, as this is the case. In California, there are thousands of Japanese workers, and their numbers have increased rapidly for American capitalists.

Though virtually all of the Japanese workers in the United States are subject to exploitation and oppression by the American capitalist class, there is also a sharp conflict between the two Japanese bosses and workers. Aside from the Japanese from the petty-bourgeoisie here by the powerful Mitsui and Mitsubishi interests, which is dominant, there are also the Japanese workers, all of whom are the result of the division of the minds of Japanese workers and isolating them from the rest of the Japanese workers here. How this policy of nationalization of an approximate 100,000 is carried out can be seen in the following statement by the Japanese newspaper here:

"On the agricultural front, an

increase in production has been

achieved, while the strength

of the Japanese workers here

has been maintained through

the efforts of their own
