## GREAT LEADER DIES

ANOTHER old Bolshevik has died as a result of sacrifice and overwork in the cause of the revolution. This time it is Felix Djerjinski, who died on the 20th of July from heart disease.

A Knight of the Revolution. Felix Djerjinski was one of the most heroic figures of the Russian

FELIX DJERJINSKI

revolution and of the world working class movement. In him there was no thought, no desire, no wish that was not for the revolution and for the freedom of the working class. He carried out the Pioneer pledge to the last letter: One aim thruout my life—freedom for the working class!

### Under the Czar.

Comrade Djerjinski was born in 1877. By 1885 he was already active in the working class movement. He was soon arrested and sent to Siberia. But he continued his revolutionary activity and was arrested and imprisoned many times, so that he spent many long years in the czarist dungeons.

### Fighting the Counter-Revolution.

In 1917 Comrade Djerjinski was a leader in the revolution and when the workers triumphed and the Soviets got all power he was entrusted with the most difficult job of fighting the counter-revolutionists. These agents of the Russian and international capitalists were carrying on a

bitter campaign against the workers' government—shooting Soviet officials (that's how Lenin was shot), blowing up bridges, destroying factories, and in other ways trying to ruin the government of the workers. The workers set up a special committee to fight these counter-revolutionists. This committee was called the Extraordinary Commission for the Fight Against the Counter-Revolution. In Russia it was called the Cheka and Djerjinski was put at the head of it. He gave up his whole life to the defense of the revolution and was rewarded when he felt that the workers' government was safe.

### Building the Economic Life.

Then Djerjinski was transferred to another difficult position in the workers' government. He was made people's commissar of internal affairs, of transportation, and later on chairman of the supreme council of public economy. He was also the head of the state political administration (the police). In these tasks it was his job to build up the economic life of Russia, and this he did wonderfully well.

## SCAB COMMITTEE MAKES GREAT "DISCOVERY"

"Discovers" That Pioneers and Young Comrade Support Passaic Strike

### "DISCOVERY" MOVE AGAINST STRIKE

THE Passaic bosses are desperate! Every method they have tried to break the strike has failed! Police terrorism could not even make a dent in the workers ranks. The fake "company union" schemes which the bosses tried to use to fool the workers through fake organizations they called "unions" but which were really controlled by the bosses had no better success. Then the bosses tried and are still trying to frame up the strike leaders just as bosses in other part of the country have framed up Sacco and Vanzetti, Tom Mooney and other labor leaders and sent them to prison on fake charges for things they never did. But this also failed.

### The Scabby "Citizens' Committee."

Now as a last resort the bosses have turned to their "Citizens' Committee." This is supposed to be "impartial" and "neutral." But really it is nothing more than a tool of the bosses and its purpose is to fool the workers of Passaic and of other parts of the country and weaken their solidarity and fighting spirit. This bunch of scabs called the "Citizens' Committee" is trying to tell the workers that the strike is lost, that the Passaic mills are a paradise, that the strike leaders are not to be trusted, and so on. But the workers recognize his "committee" for what it is and pay no more attention to it than they would to the mill bosses' dogs. (Continued on page 2)

## Victory Playground Opens in Passaic

VICTORY Playground for the children of the striking textile workers, was officially opened on Saturday, with a large delegation of New York workers and over 1,000 happy kids present.

The New York labor delegations came over in busses during the afternoon and were enthusiastically welcomed by the children, who cheered them thunderously for several minutes.

### Addressed by Workers.

A meeting of the children, called to order by Miriam Silverfab, chief organizer and leader of the children, was addressed by Esther Lowell, of the Federated Press, Fannie Rudkowitz, of the strikers' relief office, Kate Gitlow, of the United Council of Working Class Housewives, Elizabeth Gurley Flynn, of the League for Industrial Democracy, and Clarence Miller.

Victor Playground is well equipped. There are showers for the kids, swings, see-saws, and other amusements. Games and plays are organized under the direction of experienced and capable leaders, who have donated their services for the sum-

mer. The carpentry and other work on the grounds was all done by the strikers, and the cost of equipping the playground was very small.

### Food and Sunshine.

The playground is equipped with a children's kitchen and milk station, and the kids are given a nutritious meal and lots of milk during the day. Women of the United Council of Workingclass Housewives take care of the kitchen and milk station.

Order is kept in various novel ways. One method is by song. "Sit down, sit down, this is a union town" will invariably send the children squatting on the grass. Perfect discipline is maintained without ever a cross word from the leaders. These leaders are Miriam Silverfab, Sophie Melman, Mary Trask, Eda Eisemann, Martha Bornstein, Martha Gartenlaub, and others.

During the day many strike songs were rendered by the children, together with an impressive recitation of "We are the Builders," which brought enthusiastic applause from the large crowd of New York workers present.

## Mexican People Fight Church

MEXICO is now the scene of a gigantic battle between the government and the Catholic church. The government has decided to enforce the old constitution of Mexico. According to this constitution the influence of the church and its interference in politics is cut down very much. Religious instruction of children is prohibited and the priests are not allowed any longer to form any political parties or interfere in politics in any other way.

### Church Supports Reaction.

The church and religion in Mexico supports and defends the big land owners and the foreign bankers who have been sucking the blood of the Mexican people for a long, long time. Now the government of Mexico, which stands for the little Mexican capitalists against the rich land owners and against the foreign capitalists, has decided to smash the strongholds of darkness and reaction—the church. And the people, who realize that religion and the church now are always stand, in with the rich oppressors, are supporting this fight against the church with all their might.

What "Religious Freedom" Means.

The American press is hollering its head off about "religious liberty." They say it's a violation of "religious liberty" to stop the church from poisoning the minds of the children and from trying to put the rich reactionaries back into power. This is supposed to be a violation of "religious freedom." But it is not a violation of "religious freedom" to arrest people for saying that there is no god, like they did to Comrade Blmba in Massachusetts, or to pour religious poison into the heads of the children in the public schools, like they are doing all over the country right now in America. This is all right, according to the American newspapers. You bet it's all right—for them and the bosses! In America religion and all churches stand for the rich exploiters—same thing in Mexico.

We American workers' children support the Mexican people in the fight against the church. The church and religion are enemies of freedom and of the workers! The fight of the Mexican people is the same fight that we are carrying on under the slogan: Out with religious instruction from the schools!

### PASSAIC STRIKERS FIGHT ON

SIX months and more of the bitterest struggle and still going strong! This is the record of the thousands of Passaic textile strikers. And they are going to win.

Readers of the Young Comrade know the story of their heroic fight and the part that the children played and are playing in it. We also know the story of the wonderful support that thousands and thousands of American workers thruout the country have given to their fighting Passaic brothers.

#### Solidarity.

It is a story that is an inspiration and a lesson to all the workers' children. It shows what the struggle between the workers and the bosses really is and it shows that in order to win the workers must strike together in one solid front against the bosses. Solidarity forever!

#### The Workers Hold Out.

The bosses have used all their forces and all their tools and all their schemes to smash the strike, but to no avail. Police terrorism, "company union" schemes, frame-ups, a fake scabby "citizens committee" to fool the workers—all these schemes have failed. The workers are holding out.

**The Children in the Fight.**  
In this long struggle the workers' children of Passaic and especially the Pioneers have played their part right in the front ranks of the battle. All the workers and workers' children in Passaic know what the Pioneers have done, how they fought side by side with the strikers on the picket line, how they took part in the big demonstrations and parades, and so on. The children of Passaic have shown that they are a real part of the working class and the Pioneers have shown that they can lead the workers' children.

All over the country, too, the working class children, with the Pioneers at the head of them, have rallied to the support of the Passaic strikers. The Children's Meal Ticket Campaign has reached every part of this vast land and the Young Comrade has received dozens of letters of solidarity from young comrades thruout the country.

#### Rush Help!

But the fight is not over—and will not be till it is won! And until it is won the workers will need every ounce of your help. So pitch in! Don't let up! Remember! The Passaic strikers depend upon you! Rush help for the Passaic Strikers!

### Bosses' Papers Lie About Russia

THE capitalist papers are full of sensational stories about Russia. They are full of stories of "dissensions," "rebellions," "strife," and so on and some papers are even beginning to dish out their old stories about Russia being on the "verge of collapse."

#### Capitalist Lies.

All this stuff is nothing more than lies. Readers of the Young Comrade know why the capitalists papers should lie about Russia. The capitalists are afraid of Russia, and they want the workers to have a bad opinion about the Russian Workers' Republic, and so they tell all kinds of lies about it.

#### What Really Happened.

What happened recently in Russia was this. Comrade G. Zinoviev, with other comrades, made certain mistakes and violated certain rules of the Communist Party of Russia, and so the party removed him from his position on the political committee, which is the highest committee in the party. Every Pioneer knows what happens to a comrade who violates the rules of the organization. He is disciplined. Sometimes he is removed from his position, sometimes he is suspended, and so on. That's just what happened.

But the capitalist papers get hold of it and try to make the workers think bad about the Communist Party and about Russia, and to make them believe that "Russia is collapsing." This is a lot of bunk and the capitalist papers know it themselves. As Comrade Edna Vaanonen (Hancock, Mich.), who writes us a fine letter on this subject says, from these articles of the capitalist papers we "can see that the capitalists hate, fear, and lie about Soviet Russia."

### HOW PIONEERS HELP PASSAIC STRIKERS.

By NATHAN GOLDSTEIN,

ON Sunday, June 11, we Pioneers went to a picnic. We wanted to get some money for the Passaic strikers. So some of us found a bowling alley. The alley was not being used so we started selling balls, 3 balls for 10c. In order to get the dime back a person had to throw down 10 pins, twice out of the three throws. At the end of the day we had about three dollars.

The Pioneers are ALWAYS READY to help the strikers.

### DISTRIBUTING THE STRIKERS' BULLETIN.

By WILLIAD and MARON BLESNICK  
Boston (Mass.) Pioneers.

WE started to distribute Passaic strike bulletins in our town without any experience at the job. When we gave them to the men along Washington street they were "too busy to be bothered." The only ones who wanted it were the workers in dirty bluish overalls.

We saw six men digging in a sticky claypit after everyone else had quit work. When one of them got our bulletin he hollered: "Good for you, fellers." And he gave us a shove with his arm in the direction of the other men. All of them quit digging and read our paper. We knew what to do then and every man we gave a paper to said: "Hope they win, buddy."

### HOW WE CHALKED UP THE STREETS.

There was going to be a children's parade and so two days before we chalked up the street in front of our school. We asked all our friends for a penny or two. They asked us if we wanted the money for candy but we said that we would rather buy chalk.

We chalked up the streets as follows: "Come to the children's par-

ade!" and "We eat scabs alive!" Then we drew Johnson's picture with his fat belly and a strikers picture next to him all thin and with shrunken cheeks. And we also drew pictures of Zober throwing gas bombs and Johnson falling on his knees crying—"Spare my life and I will give up all my money." F. G.—Age 12,

#### HOW'S THIS CHILDREN?

There was a little boy in Detroit who was very naughty and his mother didn't know just what to do with him. Then she thought of a good idea. She said to him: "If you don't behave and keep quiet I will call the Passaic police." The poor child dried his tears at once.

#### GONNA STRIKE SOME MORE.

Tune: Oh it ain't gonna rain no more.

Strikers got a nickel  
Scabs got a dime  
If Zober got a black eye  
That'd be mighty fine.

#### Chorus:

Oh we're gonna strike some more,  
some more  
We're gonna strike some more  
Until the boss shows the scabs the door  
We're gonna strike some more.

R. L., Age 13.

By MARY KONONOWICH, Keasby, N. J.

### HOW DID I BECOME A PIONEER?

My uncle once took me to the "Workers Home." We went there to see a play about workers' children. When the play was over a girl came up to me and said: "Don't you want to join the Young Pioneers?" I couldn't. I told her that I couldn't join because I have to go to church. The Pioneer asked me: "What do you learn in church and what good does it do you?" I admitted that it didn't do no good and that I didn't learn nothing. So she said: "Come to the Pioneers in the 'Workers' Home' and you will learn a lot!"

So I went with her to the Pioneer meeting. I went every Sunday. I liked a whole lot the things they said and the ideas I heard. So then I became a Pioneer. I am now a Pioneer for three months.

### Great "Discovery"

(Continued from page 1)

#### A Sensational Exposure.

Recently this "committee" has made quite a sensation. It "discovered" that the Communists are active in the strike and that the Young Pioneers and the Young Comrade are taking the side of the workers. This is some discovery, isn't it? Anybody but a sap knows that the Communists and the Young Pioneers included are active to all struggles of the workers for the Communists are a part of the working class and the struggles of the workers are their struggles. So it isn't much of a mystery that the bosses' committee has discovered!

#### The Young Pioneers on the Job.

They got hold of a letter that the National Pioneer department sent to the Pioneer organization in New York and they reprinted the whole letter as "sensational evidence." First of all they maintain that the letter was sent to Weisbord and the strike committee. Everybody who is not a scabby liar knows that this isn't so because the letter is addressed to the District Pioneer Buro in New York. Then as to what the letters says: We would be glad to have this letter published in every labor paper in the world because it shows the Pioneers are ALWAYS READY to help the workers in every struggle and to draw in thousands of working class children in the struggle. Of course, the "Citizens' Committee" thinks this is terrible—and so it is, for the bosses! But it's fine for the workers.

#### The Young Comrade in the Struggle.

Then the committee goes on for four or five pages about the special Passaic issue of the Young Comrade. We say again: We would be glad to have this

issue reprinted in every labor paper in the country so that everybody could see that the Young Comrade is really a paper that stands and fights for the workers' children. The "Citizens' Committee" don't like the Young Comrade! We'll tell the world they don't. But that's because the Young Comrade is a pain in the neck for the bosses and so the bosses' dogs bark at it.

#### On the Job!

So let them bark. That will only convince the workers that the Young Pioneers is the place for all workers' and farmers' children and that the Young Comrade is the paper for them!

On the job, comrades. Every Pioneer, every worker's child, support the Passaic strikers.

Read and spread the Young Comrade. Join the Young Pioneers!

### Djerjinski Dies

(Continued from page 1)

#### A Martyr to Revolution.

But he gave up his whole life to his work in the service of the revolution. He worked without a stop, without a rest. And it began to tell on his health, which was already broken down thru his long prison suffering under the czar. And soon his body could stand it no longer. On the 20th of July he collapsed. His heart broke down.

The Russian workers and the workers of every country of the world lost one of their most heroic and most self-sacrificing fighters. But even if he is dead he is not lost to the working class. The workers and workers' children will remember his example and his life. or all Pioneers he will be the living heroic embodiment of their pledge:

Our Aim Thruout Our Lives—  
Freedom for the Working Class!

### HANS AND FRITZ BECOME PIONEERS

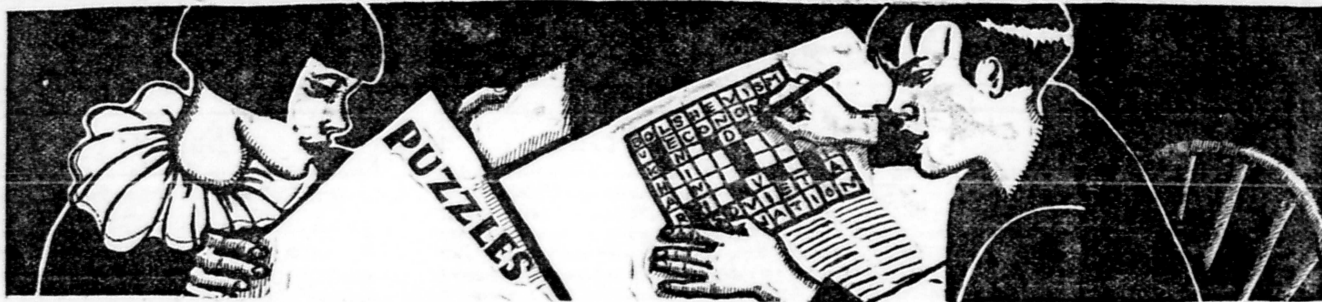

Hans and Fritz have become Pioneers! you can see for yourselves that they've beco-

Well, now that they're Pioneers they want to go to Russia and see the Russian Pioneers about whom they read so much in the Young Comrade. But—no money! But Hans and Fritz aren't worried about such little things! Off they go to the station!

Here they go to the baggage room and find an empty trunk that's going to Moscow. Now, isn't that fine—just their size! So in they bundle—and they're off.

Well, here they are in Moscow! The porter pick up the trunk. It's heavy—you bet! It's two heavy Pioneers in it. So when the porters it—bloody, out goes the bottom!

The best answers explaining the meaning of this picture will be published in the next issue of the Young Comrade with your name. Send it to: Young Comrade, 1113 W. Washington Blvd., Chicago, Ill.

### Answers to Last Month's Puzzles

(Only a few of the answers to last month's puzzles can be published in this issue because of lack of space. But work on these puzzles! If your answer is not published now, better luck next time!)

**BERTHA BLOCK, Chicago, Ill.**—My answer to the picture puzzle is: The bosses can eat, but the workers' children have to watch them eat while they themselves starve."

**JACK FEINGOLD, Hopewell Junction, N. Y.**—"I think I know what the puzzle means. The picture shows how a rich man is sitting in a railroad train going to the country or some other good place where a poor man could not afford to go. He's eating all good things that the poor could not afford to buy. The poor children are looking on. They have to be in the hot city and eat bad and unhealthy things and then not have enough."

**VELDA PALLO, Chicago, Ill.**—"While I was reading the Young Com-

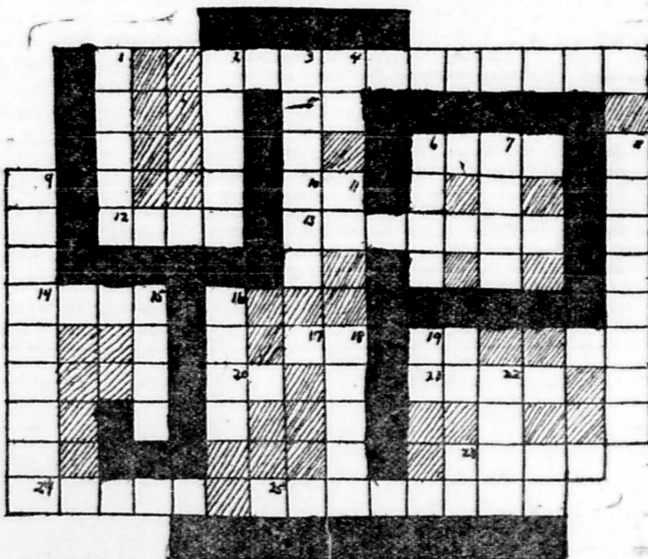

rade I tried the puzzle page, and this is what I got: First name—Rosa Luxemburg. Second name—Karl Marx. Third name—Ben Gitlow."

**ANNA SOBEK, Wilkinsburg, Pa.**—"I have solved the puzzle on page three in The Young Comrade. The answer is: First name—Rosa Luxemburg. Second name—Karl Marx. Third Name—Ben Gitlow."

"My answer to the picture 'What Does This Mean?' is: Workers' children starve while the great bosses and politicians who have enough of everything ride and feast."

**SYLVIA JACKOLA, Cloquet, Minn.**—"The first name is Rosa Luxemburg; the second name is Karl Marx; the third name is Ben Gitlow."

## THEY GO TO WORKERS' RUSSIA

Believe what the Sunday papers tell you. Here they are and they're wearing the Pioneer Red Tie.

They're quite puzzled where to go first. But their puzzle is soon solved. They see an auto going by headed for the flying field. Sure, that's where they're going—they're going to see Moscow from the air!

Now they've come to the flying field. But there's no room for them in the small plane. But you know when Hans and Fritz make up their minds, it's made up especially now that they're Pioneers! So here they are hanging on and having a fine time waving to the whole world of Pioneers! Watch their adventure next month!

As the porters stand gazing in astonishment at Hans and Fritz like a bolt of lightning! they've arrived in Soviet Russia, the land of the workers, and now they're going to see the

# PIONEER CAMPS

## Chicago

By MAX WEISS, Chicago Pioneer.

**A**T last the Chicago Pioneer Camp is open! After a long search we finally succeeded in finding grounds for the camp. It is located on Bennet's Island, near Momence, Ill. The place is a beautiful one, surrounded by bushes and large trees. The landscape around the camp is wonderful.

The camp itself is built in on the Kankakee river in which the Pioneers can go swimming and rowing. The camp is in charge of an experienced leader and a trained nurse who was sent by the International Workers' Aid.

Many comrades wonder why we formed this camp. We have organized this camp for the workers' children. There are many camps to which workers' children can go. But there they teach them to pledge allegiance to the American flag and be loyal citizens to their country. They tell them to love their bosses because "if it was not for the bosses the workers would starve." But that is all a lie. Because in Russia there are no bosses and the workers are 100 per cent better off without them. In the Pioneer Camp the children learn the truth about the workers. We say: Down with the capitalist camps! Push the Chicago Pioneer Camp!

## New York

**T**HE New York Pioneers already have a lot of experience with camps because last year they organized a big successful Pioneer camp. This year they did even better. After a big campaign they opened a children's camp at Beacon, New York, the same place in which last year's camp was held.

This year's camp is bigger even than last year's. There are about seventy children out at a single time. These children come from all over District Two which takes in the states of New York, New Jersey and Connecticut. Non-Pioneers are also taken into the camp. All in all, it is a wonderful camp and every Pioneer organization should have the ambition to build up a camp like this for next year.

But the New York Pioneers have not written us much about their camp. And so we cannot print a story about this year's camp in this issue. We hope that our comrades at the camp will wake up and send in contributions for the next issue. Tell us about your camp. We all want to know!

## Boston

By WILLIAM STEINHURST, Boston Pioneer.

**I**T has been accomplished, comrades! After months of hard work and anxiety, we have established a Pioneer Camp in District One (Boston)... Of course, the campaign for our camp only started two months ago and because of this we do not yet own the camp, but next year we expect to own a bigger camp.

Our camp is located on the Dudley Pond in Cochituate, Mass. We have our wallpaper, the Red Spark. We also have our daily circles for learning things and for athletics and sports. In one of our most interesting biology lessons we studied the parts of a real frog and a real fish. Our camp holds from 25 to 30 children besides the leaders.

We are thinking of starting a small museum of our own. The Pioneer Camp sends greetings to all Pioneers, to other Pioneer Camps, and to all working class children the world over.

## Rochester Pioneer Picnic.

**W**HAT a joy picnic we Young Pioneers of Rochester had Sunday, July 11, at Lower Maplewood Park!

We all left the Labor Lyceum at 11 a. m. and were driven to the park in a big truck owned by one of our comrades. We sang many revolutionary songs on our way up.

After eating our lunch we had some contests and games. Prizes were awarded to the winners. Some of the prizes were books, namely: "Children of the Revolution," "Fairy Tales for Workers' Children," "Revolutionary Song Books," and many other prizes. Later Comrade Peter Teem, member of the executive committee of the Workers (Communist) Party, spoke. Then a few recitations were given by the following comrades of the Pioneer group: Comrade Milton Relin recited "Dump the Bosses Off Your Back" and "A Warning." Comrade Sam Karchevsky recited "We Have Fed You All" and "There Is Power in a Union." Comrade Rose Horowitz recited "The Pauper's Bribe" and "Tony Gets His Dose of an Automobile." Comrade Sol Horowitz, our leader, asked a few questions. Five Pioneers answered the questions most correctly, and as a reward they each received a "dainty."

During the summer session we hold meetings every other Sunday at 10:30 a. m. at the Labor Lyceum.

## PIONEER TEAM SCORES.

By NATHAN GOLDSTEIN, Mgr.

**A**N interesting baseball game was played between our baseball team (organized by the Spartacus Pioneer Group, Chicago) and the Albany team. In spite of the fact that the rival team had a few older boys our Pioneer team scored a complete victory. The score was 6 to 0, favor the Pioneer team.

Our team consisted of:  
 Pitcher—Leo Sonkin.  
 Catcher—Gabriel Hutner.  
 First base—Nathan Goldstein.  
 Second base—Robert Weiss.  
 Third base—Solly Berkovitz.  
 Right field—Max Weiss.  
 Left field—Morris Greenberg.  
 Center field—Louis Greenberg.  
 Shortstop—William Feldin.

The score was:  
 Albany ..... 0 0 0 0 0 0 0 0 0  
 Pioneers ..... 0 0 0 0 1 0 5 0 0

Our team was organized in June. Our idea is to play other teams and get them acquainted with the Pioneers. Not only Pioneers can belong to our team; we take in other working class children. We have already beaten a much superior and better organized team. Now our hope is to play and beat all other Chicago teams our size.
